A DISTRICT SCHOOL GARDEN NEAR ROCKFORD

SEEDS for School Gardens and Civic Improvement

The School Garden has become an established part of regular school work throughout the entire country, and holds an important place in the development of interest and knowledge among the children, as well as grown up folks.

School and Home Gardens afford, even in the city, some of the wholesome influences which come from actual contact with the soil, and shows the possibility and pleasure of growing plants, flowers, and vegetables for profit. We have furnished seeds and plants to schools, and for distribution among poor children; also, to numerous civic associations in the cities for **back-lot** and **vacant-lot** improvements. Owing to the increased interest shown in this line and the popular demand for good, reliable seeds, we offer a choice selection of best standard Flower and Vegetable Seeds to Teachers, Civic Associations, and others who desire to purchase seeds for this purpose, at the uniform price of **\$1.00 per 100 pkts.** (either flower or vegetable). See list on opposite page —; assorted as desired (not less than 10 packets of any one variety allowed), all sent postpaid in the United States. This is a wholesale price of **one cent** per packet, and is net, not subject to any discount or premium. We shall be pleased, however, to quote a special price by the thousand packets or more, and for plants and bulbs to Teachers and others who will pay cost of transportation upon receipt. **Positively no order can be accepted for less than 100 packets.**

NOTE.—It must also be understood clearly that only the varieties named on the opposite page (page 1) can be supplied at this special wholesale price of \$1.00 per 100 packets.

Zinnia.

AN OPEN LETTER

From Prof. O. J. Kern, of Rockford, Ills., for many years County Superintendent of Schools, and one of the World's Most Noted Authorities on School and Civic Improvement.

BEAUTIFY THE HOME AND SCHOOL GROUNDS WITH FLOWERS

A writer has said: "Man who spoils is the same man who can create and improve." We have a century behind us of mutilation; we must have a century ahead of sympathy and co-operation with nature. This involves not only work on the part of our government, but on the part of individuals. We must learn the great truth that man can cultivate the beautiful and make money at it. So it is of far reaching importance to give young children a love for growing plants and flowers. This is a most valuable—but too often neglected—part of their education. If the children of the present generation have the interest they should in growing things, then the next generation of men and women will be one that will have that co-operation and sympathy with nature spoken of above. There is no better time and place to begin than with the beautifying of the school ground. Here should be found Flowers, Shrubs, Vines and Trees, arranged in a simple, but beautiful design that will set the standards of adornment and artistic arrangement for the home grounds. It is the right kind of participation in educational processes in doing things that give the children finer ideals of beauty. Thus will home and school life become more attractive and stimulate the school teachers and patrons—as well as the children to an interest and appreciation of nature and plant life.

30 BEST VEGETABLES

Bean—Early Green Pod.
Bean—Early Wax Pod.
Bean—Pole or Climbing.
Beet—Blood Turnip.
Cabbage—Early.

We do not believe that the amount, 25 cents, can be expended by flower lovers in any more satisfactory manner. We hope that everyone who has a garden will try this collection, for we are sure that every purchaser will be well satisfied with the result.

One Full Size Packet Each of the Above
15 Varieties Mailed to Any Address, 25c.

Artichoke Seed

Large Green Globe. The well-known French vegetable. The undeveloped flower-head when properly prepared makes a most delicious dish. Eaten like Asparagus. Pkt. 8c.; oz. 25c.

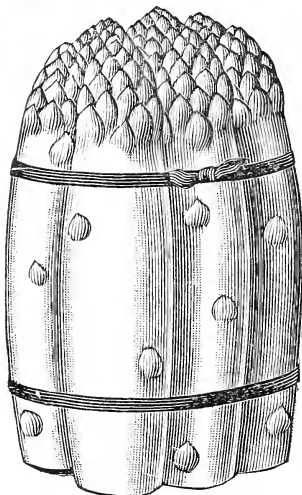

Asparagus

Asparagus is the most delicious, healthful and desirable of the earliest Spring vegetables, and would be grown in every garden, were it not for the mistaken idea that it is difficult to grow. The truth of the matter is that it can be grown very easily and cheaply, even by inexperienced people. Grown from our seed your Asparagus will make you more money than any other item of your garden.

Columbian Mammoth White. A very distinct and valuable Asparagus. The crown or bud of the young stock is pearly white. Postpaid, pkt. 4c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 30c.; lb. 50c.

New Palmetto. This new Asparagus from South Carolina, is now very extensively grown by Southern gardeners for New York and Philadelphia markets, where it sells at a very high price, owing to its mammoth size and regularity. Although of Southern origin, it is equally well adapted to North or South. Postpaid, pkt. 4c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

Donald's Elmira. This new variety, originating with Mr. Donald, a leading market gardener of Elmira, N. Y. The stalks are exceptionally tender and succulent. Postpaid, pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 34c.; lb. 60c.

Asparagus Columbian Mam. White

Barr's Mammoth. This fine variety has brought in market thirty cents a bunch, when other Asparagus was selling for ten and fifteen cents. Postpaid, pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

Conover's Colossal. A standard variety of large size and delicious quality. Certainly one of the best varieties grown. Postpaid, pkt. 2c.; oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 20c.; lb. 35c.

Asparagus Roots

Every home and kitchen garden should have a bed of Asparagus. Without question, it is one of the most favorite and profitable garden crops; and makes a return early in the Spring before any other out-door crop can be marketed, and when a bed is thoroughly established will yield splendid crops for a number of years.

Selected Two-Year-Old Roots

A saving of two to three years is effected by planting roots. Those offered below are **Select, Strong, Two-Year-Old Roots.** Don't be misled in planting one-year-old or inferior Roots.

BEST VARIETIES	Postpaid		Not Prepaid	
	Per Doz.	Per 100	Per 100	Per 1000
Columbian Mammoth White	\$.25	\$1.10	\$.60	\$5.00
Donald's Elmira	.25	1.10	.60	5.00
New Palmetto	.20	1.00	.50	4.00
Conover's Colossal	.20	1.00	.50	3.75
Barr's Mammoth	.20	1.00	.50	4.00

Extra Large Three and Four-Year-Old Asparagus Roots

\$1.50 per 100; \$12.50 per 1,000; shipped by express or freight, not prepaid.

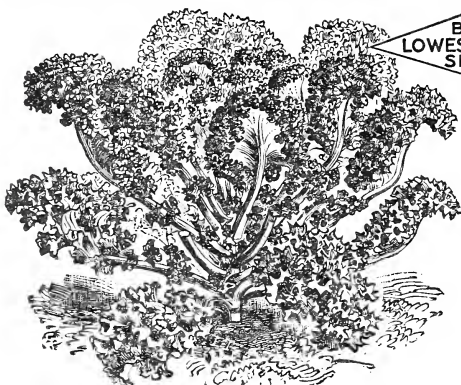

Borecole or Kale

Fine Green Curled, German Greens or Sprouts. This is harder than Cabbage, and makes excellent greens for Winter and Spring use. The leaves are as curly as Parsley, tender, and of very fine flavor. Immense quantities are grown in the South and shipped to Northern markets. We have an excellent strain of it. Sow the seeds in May or June, transplant in July and treat same as Cabbage. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 35c.

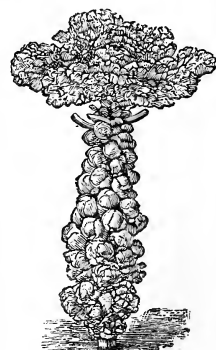

Brussels Sprouts

Brussels Sprouts are very largely grown in the South, as high as 250,000 barrels being shipped in a single season from Norfolk, Va. In the North, however, they are not extensively grown, but should be.

Improved Paris Market. The stem, which usually grows from 20 in. to 2 ft. in height, is covered with "miniature cabbages" which may be boiled like cabbage or cooked in cream like cauliflower. They are by all means the most delicious and delicate flavored of the cabbage family. On this variety the heads grow very closely and its quality is the finest. Pkt. 4c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 35c.

Great Northern Early Valentine

Without Exception the Finest Green Podded Snap Bean Grown

For Snaps there is nothing superior to this variety among the green podded sorts and many prefer it to the wax varieties. We know of no stock of Red Valentine which can be compared with that we offer in uniformly high quality of pod. We have carefully tested a great many strains claimed to be improvements both in trials and in large fields, and have found none that we are willing to substitute for our fine stock which combines in the highest degree all the good qualities of the sort. Large pkt. 6c.; $\frac{1}{2}$ pt. 9c.; pt. 16c.; qt. 30c.

Early Yellow Six Weeks

Vines large, vigorous, branching, productive, with large leaves and lilac blossoms; pods long, straight, narrow, handsome; Beans long, kidney-shaped, color yellowish-drab. Postpaid, pkt. 5c.; $\frac{1}{2}$ pt. 9c.; pt. 17c.; qt. 32c.

New Extra Early Refugee

Earliest of the green podded kinds, furnishing a fleshy pod of fine quality. It is usually from two to three weeks earlier than the ordinary Refugee. The vines, although a little smaller are fully as hardy and vigorous as that variety, and more upright. Pods of the same size and shape, except slightly flatter. Pkt. 5c.; $\frac{1}{2}$ pt. 8c.; pt. 15c.; qt. 28c.

Dwarf Horticultural,

or Wren's Egg

Valuable sort either for home use or for the market gardener. An exceptionally heavy cropper, producing an abundance of large, handsome pods, always filled with Beans of the finest quality. Vines compact, upright and very productive. Pods medium length, cylindrical and curved. Pkt. 5c.; $\frac{1}{2}$ pt. 9c.; pt. 17c.; qt. 32c.

Dwarf Horticultural

New Stringless Green Pod

Is most happily named, as it is quite unique—the only absolutely stringless green-podded Bean in the market. Pod is round, full, larger and straighter than most varieties. The Michigan State Agricultural College Experiment Station writes: "Plants of medium growth, pod $4\frac{1}{2}$ to $5\frac{1}{2}$ inches long, nearly round, slightly curved, light green, flesh tender and of best quality. Pods remain long in edible condition, even when the Beans are not stringy." Pkt. 6c.; $\frac{1}{2}$ pt. 10c.; pt. 18c.; qt. 34c.

North Star Snap

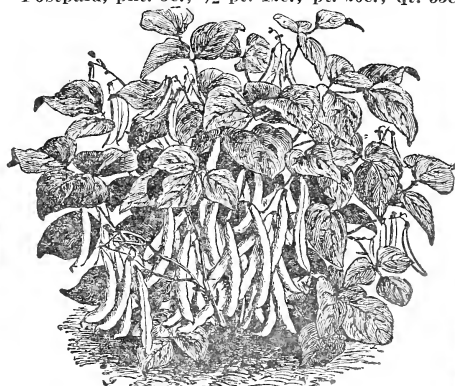

This is an Ideal Snap Bean. Pods are $4\frac{1}{2}$ inches long, soft green, perfectly straight and round. Free from that woody inner lining of tough skin which we associate with old Beans: what little string exists is not developed until pod is quite old. Flavor is most delicious. Remarkably early. Pkt. 8c.; $\frac{1}{2}$ pt. 15c.; pt. 25c.; qt. 40c.

Early Mohawk

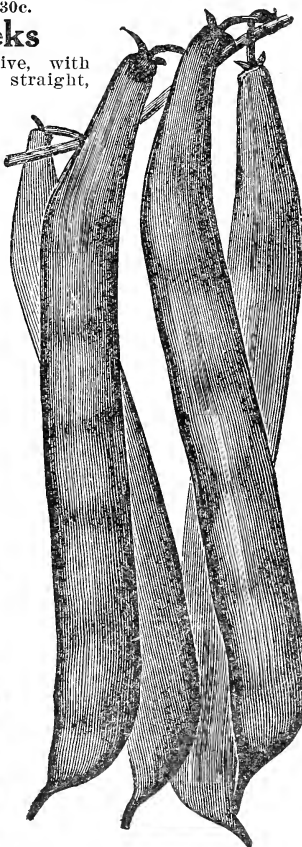

This sort is so much hardier than the others that it can be planted earlier, furnishing Beans fit for use before any other kind. In favor for forcing, matures quickly, carries good weight of long, large pods. Pkt. 5c.; $\frac{1}{2}$ pt. 8c.; pt. 15c.; qt. 28c.

Boston White Baking

A sure cropper, and more prolific than the common white Bean and also of better quality, ripening its crop early and all at once. Pods straight, short, small; Beans small, oval, white. Postpaid, pkt. 5c.; $\frac{1}{2}$ pt. 12c.; pt. 20c.; qt. 35c.

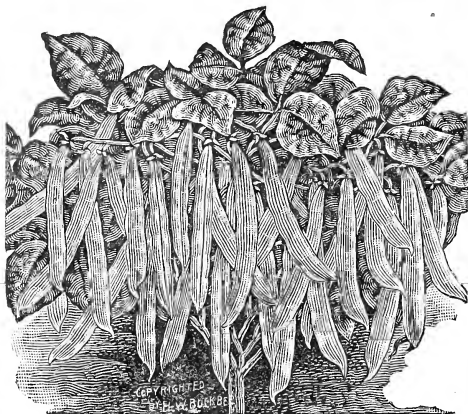

Boston White Baking

Northern Rust-Proof Wax

New Eureka Wax

THE BEST WAX PODDED BEANS

Northern Rust-Proof Wax

Our own original stock, unequaled in size, color and quality of pods, and superior to all others. Still continues The Standard Wax Variety for General Use. A Bean that possesses all the good points of the old favorite Golden Wax, but is larger in pod and much more prolific. Handsome appearance, being of a dark, rich yellow color and of perfect shape. Of grand quality, showing no string or coarseness even when past its best; is of tender and melting flavor at all stages of its growth. So exceedingly prolific, it is not injured by Bean rust. For market gardeners or private families no better variety can be planted. Large pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.

New Early Everbearing Black Wax

We are so thoroughly satisfied with this greatly improved strain of Black Wax that we have discarded the old stock altogether, this being more vigorous, and by far, more productive, with a much longer, whiter and more fleshy pod. The pods are of medium length, borne well up among the foliage, are curved cylindrical, fleshy and of a clear waxy-white color with long, slightly curved points. Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.

Improved Golden Wax, or Butter

This vigorous growing variety yields a profusion of tender pods of a waxy appearance. The vines grow about 1½ feet high, holding pods well off the ground, thus keeping them clean, free from blight and rust. Pods are full, large, of delicious quality, and free from strings. Superior for market gardeners, shipping and family use. Pkt. 5c.; ½ pt. 10c.; pt. 17c.; qt. 32c.

Wardwell's New Kidney Wax

The shape of the Bean is entirely distinct from that of all other Wax varieties, as it is of a perfect kidney formation. Furthermore it is a most prolific variety, and is one of the earliest and most hardy. The pods are long, flat, a delicate waxy-yellow, quite brittle and entirely stringless. Can be grown with great profit in the South for early shipment to the North. Pkt. 5c.; ½ pt. 10c.; pt. 17c.; qt. 32c.

New Eureka Wax

This is the best of the late wax podded Beans. Pods long, cylindrical, crisp, tender, stringless, and of a clear, yellowish, waxy-white color. As the Beans mature they are excellent to use green shelled. Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.

New Davis Wax

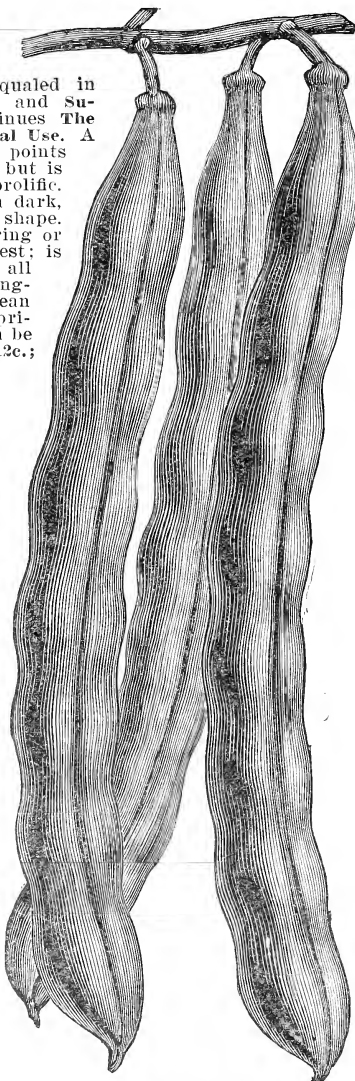

An exceptionally hardy, productive, white-seeded, **Perfection Wax** wax-podded sort. Pods very long, white, straight and handsome. When young the pods are very brittle, crisp and tender. The dry Beans are kidney-shaped, clear white and excellent for baking. Best of all for shipping as Snap Beans. The perfect shape and fine color of the pods, and the clear white seed make this one of the best sorts for canners. Pkt. 5c.; ½ pt. 10c.; pt. 18c.; qt. 34c.

New Perfection Wax

This is one of the most highly productive varieties yet introduced. It has stood the market test, and has taken its place as a standard. The color of the pods is a rich golden yellow which turns lighter as they reach maturity. The length of the pods is six inches; they are a half inch broad, sharply pointed, and hang in great clusters. Extremely tender and brittle, with but a trace of string. In every way the New Perfection Wax is a highly satisfactory, money-making Bean, for it combines great productiveness with high quality. Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.

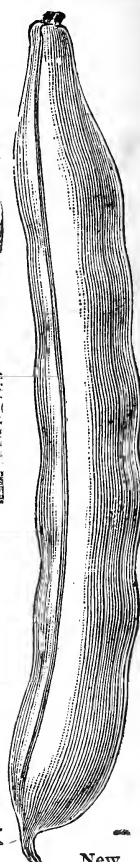

Yosemite Monster Wax

Tender, stringless and of fine flavor. In value, distinctiveness and sterling worth this Bean is a wonder. We would call attention to the necessity of planting this grand variety nearly twice as wide apart as ordinary Bush Beans. The plant is so large and vigorous and the pods are so solid and pulpy that they require a great deal of light and air to perfect them. The pods frequently attain a length of 10 to 14 inches with the thickness of a man's finger, and are nearly all solid pulp, the seeds being very small, when the pods are fit for use. The pods are a rich golden color, and are absolutely stringless, cooking tender and delicious. This is the coming Wax Bean for family or market purposes. It is enormously productive, as many as 50 of its monster pods having been counted on one bush. Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.

Yosemite Mammoth Wax

Everbearing
Black Wax

BEST BEANS POLE OR CLIMBING

Famous Kentucky Wonder

Or Old Homestead

This splendid variety was introduced in 1891 as a novelty under the name of Old Homestead. Vine vigorous, climbing well and very productive, bearing its pods in large clusters; pods green, very long, often reaching 9 or 10 inches, nearly round when young, and very crisp, continuing in use for an extended season. **Has no Equal.** An early and very prolific sort, with showy pods, which are most excellent for snaps. Pkt. 5c.; ½ pt. 10c.; pt. 18c.; qt. 35c.

New Lazy Wife

Pods wonderfully broad, thick and entirely stringless. Pods flattish, oval shape, and when fully grown are from 4 to 6 inches long, exceedingly rich, buttery and fine flavored when cooked. They are hardy, easily grown and most productive. Surpassingly fine for an early and late snap sort, also as a dry shell or winter Bean it is unsurpassed. Pkt. 7c.; ½ pt. 10c.; pt. 18c.; qt. 35c.

Giant Erfurt Broad Bean

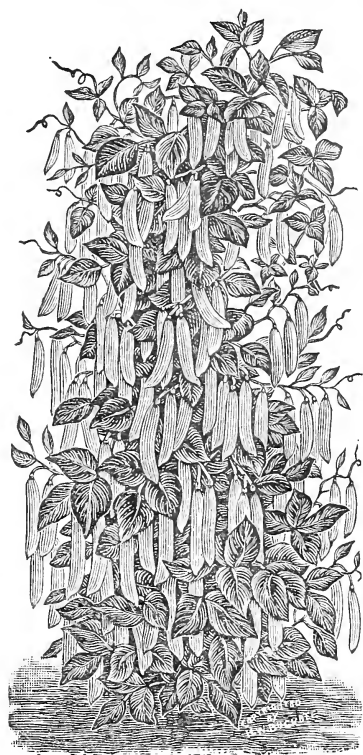

Enormous pods, containing from five to nine Beans of large size and delicate flavor. The plant is of robust, upright growth, entirely different from any of the ordinary varieties of Beans. Pods measuring 10 to 12 inches in length are not uncommon and they are broad and of handsome appearance. They are harder than most varieties of Beans and may be planted earlier in the season. Plant in rows about two feet apart and 6 inches apart in the row, covering 1½ to 2 inches deep. Pkt. 8c.

For Prices in Quantity

See pages 94 and 96

Famous Kentucky Wonder

Lazy Wife Bean

Red Speckled Cut Short,

or CORN HILL

A popular variety for planting among the corn, and thus furnishing a good crop without the use of poles. Vines medium and never known to twist tightly. Leaves smooth and dark colored; blossoms white. Pods short, cylindrical and tender. Beans oblong, or nearly so, and cut diagonally at the ends, white, covered with reddish brown. Pkt. 5c.; ½ pt. 10c.; pt. 18c.; qt. 32c.

Early Golden Cluster Wax Pole

The Everlasting Pole Bean. Magnificent variety that bears continually the entire season. It grows rapidly, bearing early clusters of 3 to 6 pods of rich golden color. Pods average about 8 inches in length, exceedingly tender and entirely stringless, retaining their plumpness and tenderness long after they have attained a large size, and continues to bear if the pods are picked, until frost. Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.

New King of the Garden Lima

The Best Large White Lima. The vine is so productive that although the pods rarely contain more than four Beans, the yield is enormous and is produced from the very first to the last of the season. The green shelled Beans are of immense size but so tender and succulent that they shrink in drying to about size of the Large White Lima. It is the best Lima Bean ever offered for market gardeners use. In yield, ease of shelling, size, beauty and quality of green Beans, this variety is in advance of other sorts, and is recognized as the best of all the Limas for either the garden or the market. Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 35c.

Best Bush Lima Beans

New Improved Bush Lima

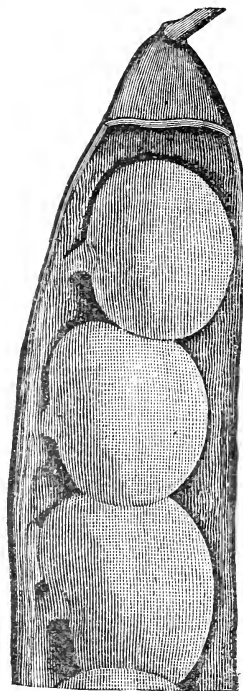

In size it is what might be termed intermediate; not so large as the Burpee Bush Lima, but considerably larger than Henderson's Bush Lima, making it the finest size for all purposes. The bush is sturdy in habit and about 24 inches high, having good, large leaves; it bears its fruit on long spikes in heavy clusters well out from the plant. There are several pods in each cluster—as many as 10 having been counted. Each pod contains on an average of four Beans, though there are more containing five than three so you see that it is a great improvement over the old-fashioned Bush Limas, which oftentimes have only one or two in a pod. Send to The Great Northern Seed Co. for originator's stock seed. Pkt. 7c.; ½ pt. 15c.; pt. 25c.; qt. 40c.

Henderson's Bush Lima

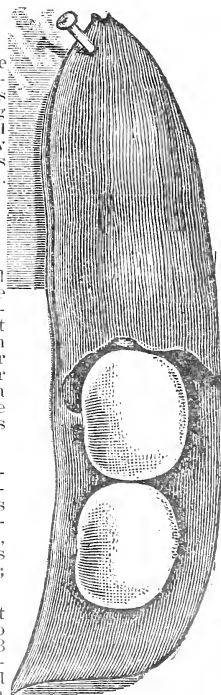

Valuable variety on account of its earliness and wonderful productiveness, continuing to grow and set pods until stopped by frosts. Its popularity increases every year. Rich, buttery Limas—the true flavor (even better). Vines are without runners, small bright green and Lima-like; flowers small, yellowish white, borne in clusters and often above the foliage. Pods short, flat and contains from three to five Beans which are of delicious quality. Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 35c.

Burpee's Bush Lima

The bushes grow 18 to 20 inches high, of stout growth and always erect, yet branching so vigorously that each plant develops into a magnificent circular bush from 2 to 3 feet in diameter. Enormously productive, single plants under favorable circumstances yielding from 200 to 350 pods. Handsome large pods being well filled with very large Beans, identical in size and luscious flavor with the well known Pole Limas. Pkt. 6c.; ½ pt. 12c.; pt. 20c.; qt. 38c.

Great Northern Seed Company, Rockford, Illinois

Best of All
Beet

BEST
LOWEST PRICES
SEEDS

THE BEST TABLE BEETS

1 ounce to 50 feet of drill; 5 lbs. per acre in drills

Best of All Beet

Dark Red, Perfect Shape, Fine Keeper, Quick Grower, Best Flavor, Extra Sweet, Never Woody. This variety was introduced as an improvement in Turnip-shaped Beets for table use and we have, by careful selection, improved each succeeding crop, until we feel certain that it is by far the best Red Turnip Beet in cultivation. **The Best Beet.** Not only for market gardeners, but for the home garden. Tops small, upright, growing so that the rows may be close together; leaf, stems and veins, dark red; blade green, roots globular or ovoid; particularly smooth; color of skin dark blood red; flesh bright red, zoned with a lighter shade; very crisp, tender and sweet. **Large pkt. 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 30c.; ½ lb. 50c. lb. 95c.**

New Half Long Blood Beet

This is an entirely distinct variety and by far the best for Winter use. The roots are about one-half as long as the Long Dark Blood, but on account of their thickness weigh quite as much. They are always smooth and handsome, and the rich dark red flesh is very sweet, crisp and tender, never becoming woody even in portions above the ground. **Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 45c.; lb. 85c.**

Crosby's Egyptian

Small Necked, Dark Fleshed Variety of Great Merit. Always Good—Never past its Prime. This new Beet is one of the best on our list for general cultivation by market gardeners and farmers. Makes a very rapid growth from the start, and is larger than common Egyptian, age for age. It continues to grow for a long period, making a heavy root for Autumn or Winter use. Only one sowing is necessary to produce early Beets for market and a main crop for Winter use. The quality is first rate at all periods of growth, whether the Beet weighs a quarter of a pound or six pounds. It is a good keeper and may be used all Winter. When cooked it is of a beautiful dark red color throughout, and of unsurpassed table quality. There are but few fibrous roots and the top is small. **Large pkt. 4c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 16c. ½ lb. 28c.; lb. 50c.**

Columbia

Medium Size, Smooth, Productive, Sweet, Solid. The Blood Turnip Beet has long been regarded as the standard of excellence. For years we have been growing and selecting a choice strain of Blood Turnip Beet, which we have supplied to thousands of our customers, to their profit and entire satisfaction. It is very early, nearly as early as Egyptian, and greatly surpasses that variety in flavor. The color is a rich, dark red and the shape is globular. It is fine grain in texture and has a small top. It is free from side or fibrous roots, being always smooth. It is excellent for forcing, for main Spring or Summer crop, or for use in Winter, as it is a good keeper. It cooks sweet, tender and crisp, and is in every way a standard sort for the market or home gardener. **Has made a good crop in seven weeks from sowing. Large Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.**

Extra Early Eclipse

An improved extra early sort. Tops small, dark purplish green, shading to lighter color on outside of the leaves. Roots nearly globular with a small tap root and very small collar. Flesh dark red, zoned with a lighter red, very sweet, crisp and tender, especially when young. One of the most desirable sorts for bunching. **Pkt. 4c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 16c.; ½ lb. 28c.; lb. 50c.**

Electric Blood Turnip

Excellent for the open garden. This is particularly valuable for forcing, because it produces less foliage than any other variety and can be grown close together. The roots are smooth and regular in form, the skin is dark blood-red. Flesh fine grained and cooks dark blood-red. Remains in fine condition for a long time. **Pkt. 4c.; oz. 8c. 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 45c.; lb. 85c.**

Improved Blood Turnip

One of the best Beets grown; very careful selection. Roots of good form, round, with only one small tap root; flesh deep blood-red color, very sweet and tender. Best for first early. Can be planted very closely, as they do not grow large and coarse; have a very small top. One of the best for market gardeners and table use. **Pkt. 3c.; oz. 6c.; 2 oz. 10c. ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.**

Improved Long Dark Smooth Blood

Tops large, neck small, leaf stems and veins red; leaf green; roots large, tapering toward both ends, growing even with the surface; flesh dark red, tender and sweet, and remaining so even when kept till spring **Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 16c.; ½ lb. 28c.; lb. 50c.**

SUGAR BEETS FOR STOCK

Giant Half Sugar

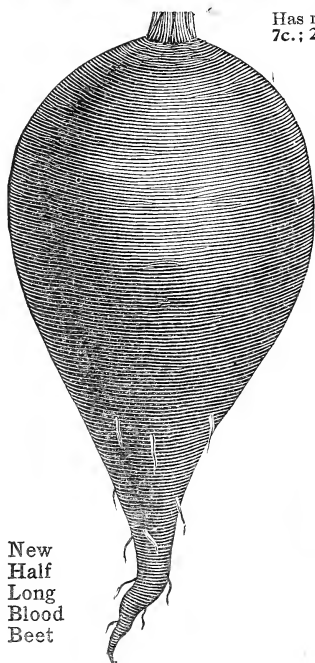

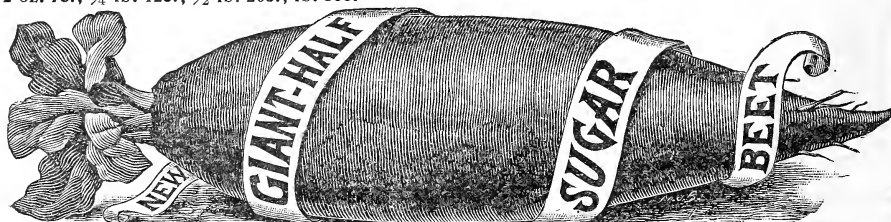

The grandest and most superior of all Sugar Beets, affording a larger percentage of sugar than any known variety. Very productive, yielding 20 tons and over of the finest Beets to the acre; roots are very symmetrical and desirable in shape; grow slightly above the surface. The color is white, slightly washed with red at top, while the balance is of clear white. Flesh finely grained and very sweet. **Oz. 5c.; 2 oz. 8c.; ¼ lb. 15c.; ½ lb. 28c.; lb. 50c.**

Imperial Sugar

The best for general uses. Very productive and is extremely rich in sugar. **Oz. 4c.; 2 oz. 6c.; ¼ lb. 9c.; ½ lb. 17c.; lb. 30c.**

Klein Wanzleben

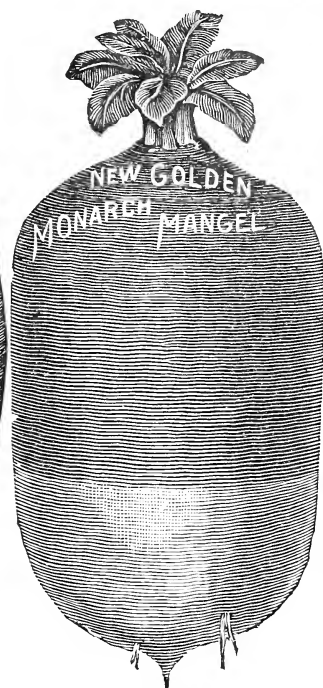

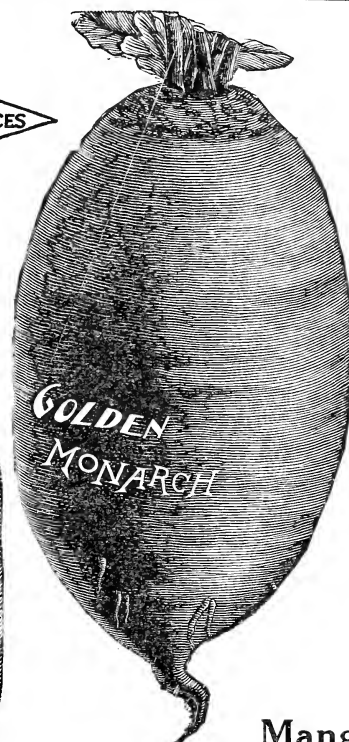

The Great German Sugar Beet—Largely grown in this country with the best of satisfaction. **Oz. 4c.; 2 oz. 7c.; ¼ lb. 12c.; ½ lb. 20c.; lb. 35c.**

Golden Tankard

Mangels

The Cheapest Food for All Live Stock

Any land that will grow a good crop of corn will produce a good crop of Mangels or Sugar Beets. No crop pays the farmer and stock raiser better.

New Goliath The heaviest cropper. This Mangel is enormously, wonderfully productive. Its yield is exceedingly fabulous; 1,500 to 1,800 bushels per acre is nothing uncommon on good soil. Particularly remarkable for its handsome shape and broad shoulders, its diameter being greater and its weight very much heavier than any other sort. The flesh is red, of very fine texture and quality, containing less water and more sugar than any other Mangel, except it be the Half Long Sugar, making it most nutritious and milk producing. Sheep and other stock thrive better when fed on it, picking out pieces of it in preference to other kinds. Oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

New Golden Monarch Half Long variety; heavy cropper. This entirely new and distinct Mangel grows to the largest size and is of a beautiful russet yellow color. It is remarkably even in shape, of vigorous growth, and a very smooth, fine skin. The flesh is white, firm and sweet, greatly relished by cattle and other stock. Oz. 6c.; 2 oz. 11c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Giant Long Red Always makes a uniform crop of large red, finely shaped roots. Unexcelled for feeding. Oz. 5c.; 2 oz. 8c.; ¼ lb. 14c.; ½ lb. 25c.; lb. 40c.

Champion Yellow Globe The flesh is white, firm and sweet. Always makes magnificent roots and easily harvested. Oz. 4c.; 2 oz. 7c.; ¼ lb. 12c.; ½ lb. 20c.; lb. 35c.

Golden Tankard The very best for dairy farming. It is very early, hardy and a good cropper. Oz. 4c.; 2 oz. 7c.; ¼ lb. 12c.; ½ lb. 20c.; lb. 35c.

Asparagus Chicory

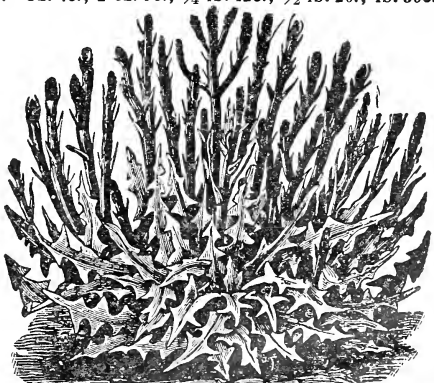

A good healthy, and tasty substitute for the well known "Asparagus" and can be produced from seed planted the first year in abundance. The sprouts of this plant, when cut fresh, boiled in salt water and served either warm, or as a salad make a most excellent substitute for the genuine article. It can be blanched and eaten raw the same as Celery and is preferred by many to that delicious vegetable. Pkt. 5c.; oz. 30c.

Chufus, or Earth Almond

A nice little ground nut which is greatly liked by the children. In sweetness and flavor they resemble the cocoanut or almond and are considered very nice put on the table in a fruit dish with candies, and as an after dinner relish. Pkt. 5c.; ¼ lb. 10c.; ½ lb. 18c.; lb. 35c.

Chervil, Curled
Chervil

German, Gartenkerbel; French, Cerfeuil. Hardy annual, worthy of more general use for flavoring and garnishing. Curled variety more beautiful than parsley.

Curled. Greatly superior to the old, plain variety; earlier, more handsome, having fully as fine perfume and flavor. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.

Cress

Curled or Pepper Grass. Crisp, pungent leaves; very fine for garnishing. Pkt. 2c.; oz. 5c.; 2 oz. 8c.; ¼ lb. 12c.; ½ lb. 20c.; lb. 35c.

True Water. Highly esteemed for salads and garnishing. Pkt. 4c.; oz. 23c.

Chives

Also called Schnittlauch

Chives are perfectly hardy perennial plants of the Onion type. They are grown for their small leaves, which are produced very early in the Spring, for giving a mild onion flavor to various dishes. The tops appear early in the Spring, and can be shorn off close to the ground as needed. They can be grown also in pots in a sunny window during the Winter. Easily raised from seed. Pkt. 10c.; oz. 50c. Selected clumps or plants by mail, 20c. each; \$1.50 per doz., postpaid.

Endive, or Winter Lettuce

Fine Green Curled. Hardest variety; the most desirable for home use or market garden. Deep-green leaves beautifully cut and curled; easily blanched and becomes very crisp, tender and very fine flavored. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.

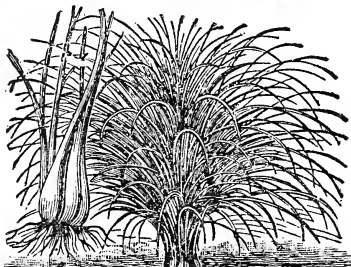

New Moss Curled. A medium sized, compact growing variety, with densely curled, moss-like leaves. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.

Endive, Fine Green Curled

Cress

CHIVES - SCHNITTLAUCH

Collards

Coffee Berry

Corn Salad

Corn Salad

(Fetticus or Lamb's Lettuce)

This delightful salad, known as Mache-Steck Salat, is used during the Winter and Spring months as a substitute for lettuce, and is also cooked and used like spinach. In warm weather the plants will mature in four to six weeks. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.

Collards

True Georgia. A tall, loose form of Cabbage grown in the South as a substitute for Cabbage. Pkt. 2c.; oz. 5c.; 2 oz. 9c.; ¼ lb. 15c.; ½ lb. 25c.

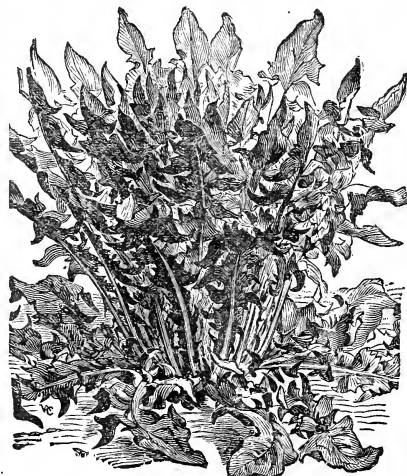

The Great Coffee Berry

The Great Health Drink, Once Tried, Always Used. This makes a delicious, nourishing drink, to take the place of coffee. It is a pure food drink that gives health and great strength to young and old. By all odds the best coffee substitute ever discovered. It has the rich, brown color of old Java. Thousands pronounce it as good as the best store coffee. One of the hardest, easiest raised and most productive. Large pkt. 5c.; ¼ lb. 10c.; ½ lb. 17c.; lb. 25c.

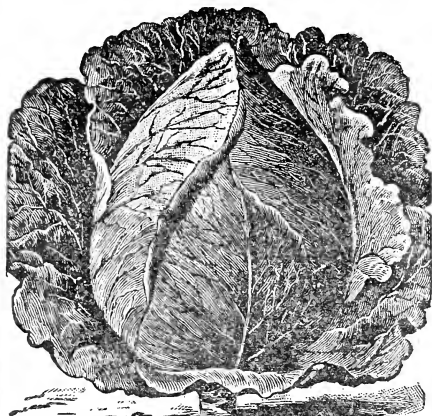

Dandelion

There is a growing demand for cultivated Dandelions, which are fast becoming the favorite Spring Greens. If blanched like celery, make a fine and delicious salad. The roots when dried and roasted are often employed as a substitute for coffee.

Improved Large Leaf. An improved variety of Dandelion, very early. Leaves fully double the size of the common Dandelion. Years of the most careful cultivation have developed a very fine strain of seed. Sow in May or June and cultivate during the Summer, and the following Spring the leaves will be fit to cut. Pkt. 5c.; oz. 40c.

Dandelion, Improved Large Leaf

Lightning Express Cabbage

THE BEST CABBAGE

Lightning Express

The Best Early Cabbage Ever Introduced. The whole plant is finely bred; there is no suggestion of coarseness whatever. It has the peculiarity of heading firmly at an early stage in its growth, so that the finest Cabbage, though small, can be obtained long before it has attained its natural size. Ready to use in sixty days from time of planting. Heads of good size, weigh from 8 to 13 pounds, have but few outside leaves, and therefore may be planted very close together and yield large crops; always of fine flavor and very solid. We control the entire stock of this earliest of all varieties. Large pkt. 5c.; oz. 20c.; 2 oz. 35c.; ¼ lb. 65c.; ½ lb. \$1.25; lb. \$2.00.

Danish Ball Head

Extra Selected Danish Grown Seed. The heads which are of medium size, average a weight of about 8 pounds, are very solid and deep, and of a fine white color. Their quality is superior, the heads being just as solid and perfect when taken up in the Spring as when put away in the Fall. Pkt. 4c.; oz. 12c.; 2 oz. 21c.; ¼ lb. 40c.; ½ lb. 70c.; lb. \$1.30.

Gregory's All Seasons

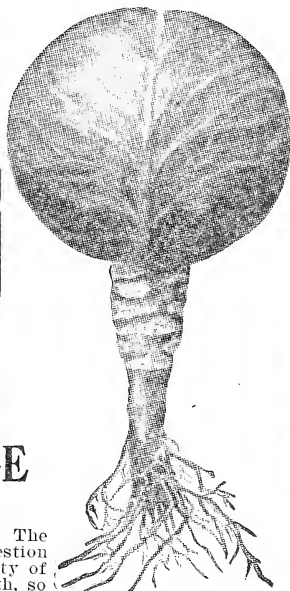

The heads are hard and solid, round, flattened on top, of very best quality, and are ready for market nearly as early as Early Summer, often larger in size. Pkt. 3c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 35c.; ½ lb. 60c.; lb. \$1.10.

Early Marvel

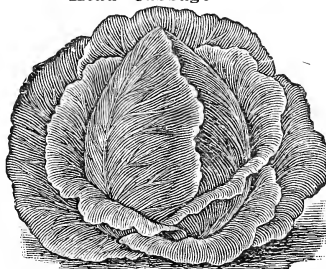

Good for Summer, Autumn or Winter. The heads are extremely hard and solid, round, flattened on top, and ready to market nearly as early as Early Summer, while considerably larger in size. It is as good for Autumn or Winter as for early Summer. Pkt. 5c.; oz. 20c.; 2 oz. 35c.; ¼ lb. 65c.; ½ lb. \$1.25; lb. \$2.00.

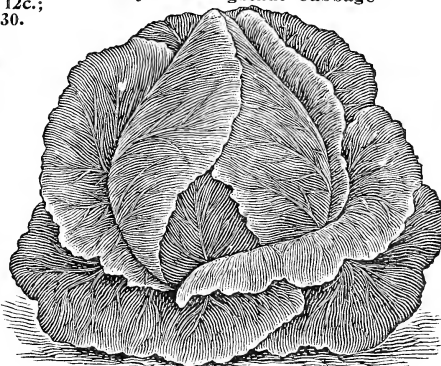

Early Marvel Cabbage

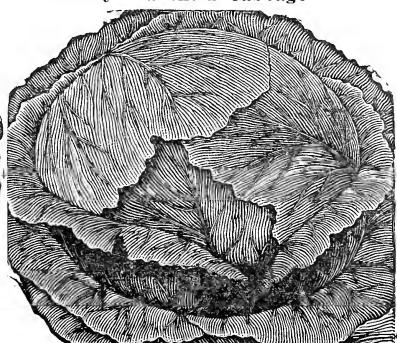

Danish Ball Head Cabbage

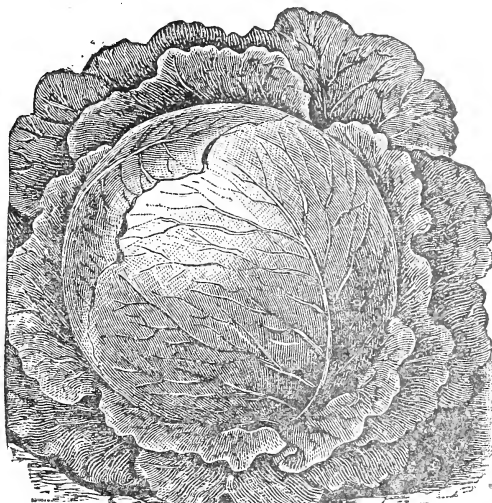

Early Winingstadt Cabbage

Jersey Wakefield Cabbage

Rockford Market Cabbage

New Round Head Danish Cabbage

New Round Head Danish

Two weeks earlier than Ball Head, heads round, unusually solid, average larger, with less outer foliage, of more robust growth and is better able to resist blight. The heads are beautifully white when trimmed. Is especially recommended for high and light soils. Are splendid keepers. Pkt. 10c.; oz. 25c.; 2 oz. 40c.; ¼ lb. 75c.; ½ lb. \$1.40; lb. \$2.60.

Extra Early Winingstadt

This is a very fine header and will grow a hard head under circumstances where most sorts would fail. Plant very compact, with short, thick leaves. Heads regular, conical and very hard. Pkt. 3c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 35c.; ½ lb. 60c.; lb. \$1.10.

True Early Jersey Wakefield

It forms fine, solid heads of good size, conical in shape, with very few outside leaves, and of the best quality. We offer this as the earliest strain of this standard variety. Grown only from selected heads. Pkt. 4c.; oz. 12c.; 2 oz. 21c.; ¼ lb. 40c.; ½ lb. 70c.; lb. \$1.30.

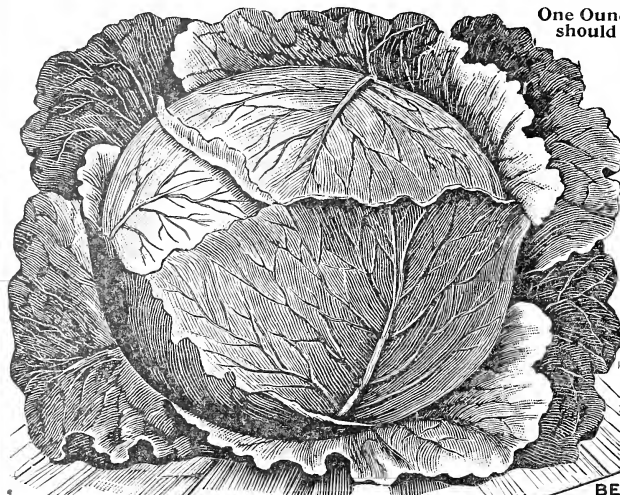

Rockford Market

The Best Second Early Ever Introduced

It has the peculiarity of heading firmly at an early stage in its growth, so that the finest Cabbage, though small, can be obtained long before it has attained its natural size. Its uniformity in shape, and large yield per acre render it particularly valuable to truckers. Pkt. 5c.; oz. 20c.; 2 oz. 35c.; ¼ lb. 65c.; ½ lb. \$1.25; lb. \$2.00.

Northern Giant
Flat Dutch

The Best Cabbage

Harvest Home

The dark green color proclaims it a vigorous grower. The stalks are short and it heads up close and solid. Heads average 12 to 15 lbs. Fifteen tons an acre is not an unusual yield and greater results have been attained under favorable conditions. We recommend it to anyone desiring the best Cabbage for Fall and Winter keeping. Pkt. 5c.; oz. 18c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 60c.; $\frac{1}{2}$ lb. \$1.10; lb. \$2.00.

Premium Late Flat Dutch

This is the money maker among the late Cabbages for the gardeners, and for family use it ranks high. Heads are large, sound, very solid, broad, flat on top and a beautiful bluish green color, with but few outside leaves. Quality is fine and flavor excellent. Pkt. 3c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 60c.; lb. \$1.10.

All Head Early

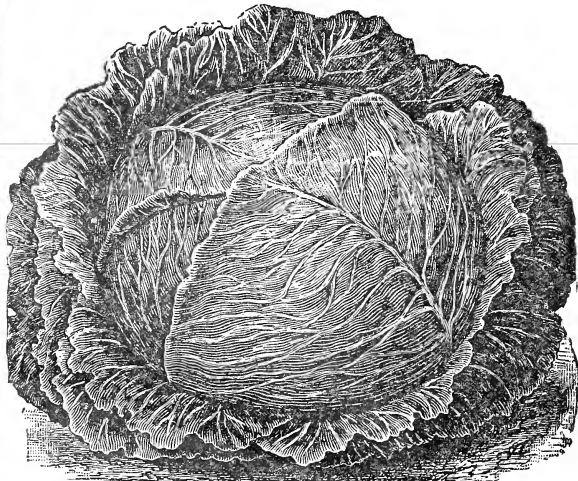

Earliest of all large Cabbages. Most desirable variety for the market gardener. Keeps well. Pkt. 4c.; oz. 12c.; 2 oz. 21c.; $\frac{1}{4}$ lb. 40c.; $\frac{1}{2}$ lb. 70c.; lb. \$1.30.

Early Summer

This variety is deservedly popular with the market gardeners. It forms large, solid, round, flattened compact heads of excellent quality. The heads double the size of the Jersey Wakefield, while it matures only 10 to 12 days later. Pkt. 3c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 60c.; lb. \$1.10.

Autumn King, or World Beater

An extremely large and solid heading variety. Plant is of extra strong growth, with dark bluish green leaves growing closely about the large flattened heads. In good soil it will produce heads of enormous size, but requires a longer season for growth than do the smaller varieties. Pkt. 4c.; oz. 12c.; 2 oz. 21c.; $\frac{1}{4}$ lb. 40c.; $\frac{1}{2}$ lb. 70c.; lb. \$1.30.

Autumn King

Northern Giant Flat Dutch

Heads are large, heavy, solid, flat on top, and of a bluish green color, low growing, with short stem and comparatively few outer leaves. The quality is fine and the flavor excellent, heads being white when cut and inside leaves crisp and tender. Our seed has always been American-grown, coming from the celebrated Long Island districts, and whoever purchases our Northern Giant Flat Dutch may be assured of getting the best. It is everywhere a favorite market variety. Large pkt. 5c.; oz. 18c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 60c.; $\frac{1}{2}$ lb. \$1.10; lb. \$2.00.

Sure Head

A famous main crop Cabbage, of the "Flat Dutch" type. Heads uniform, hard, firm and fine in texture, weighing from 10 to 12 lbs.; sweet flavored; has scarcely any loose leaves; keeps well. Pkt. 3c.; oz. 12c.; 2 oz. 21c.; $\frac{1}{4}$ lb. 40c.; $\frac{1}{2}$ lb. 70c.; lb. \$1.30.

Mammoth Red Rock

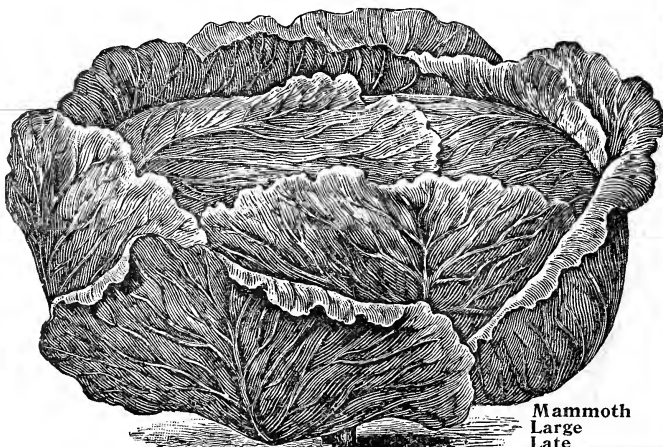

The Best Variety for Pickling. This is the best, largest and surest heading Red Cabbage yet introduced and much better than the stock offered as Red Drumhead. The head is large, round, very solid, deep red color. Nearly every plant will form an extra fine head. Large pkt. 3c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 60c.; lb. \$1.10.

Improved Savoy

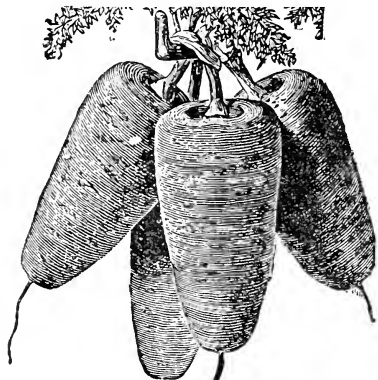

The finest of the "Savoys". Heads large, solid and compact, flavor of surpassing excellence. Pkt. 3c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 60c.; lb. \$1.10.

Mammoth Large Late Drumhead

It makes a large, round, firm head, uniform in shape and color, which seldom bursts or rots. It is a standard sort for Winter Keeping and sells readily in the Winter and Spring markets. One of the most profitable varieties to grow, and will give unbounded satisfaction. Pkt. 4c.; oz. 18c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 60c.; $\frac{1}{2}$ lb. \$1.10; lb. \$2.00.

Mammoth
Large
Late
Drumhead

Early Chantenay

Early Chantenay

The Best Bunching Carrot

This is the best early Carrot in existence, one which market gardeners should plant for their main early crop. The Carrots grow about 6 inches long, are stump rooted, very smooth, deep red, fine grained, sweet and sugary, and are not apt to crack open while growing. An excellent table sort and a heavy cropper. Our seed is most carefully selected. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 70c.

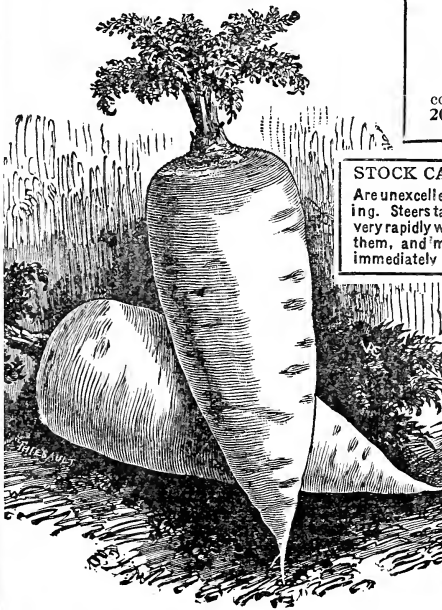

Early Scarlet Horn

Very Popular

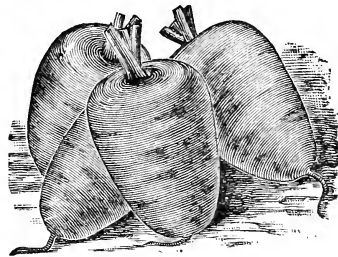

One of the most popular of all varieties. A favorite for early crop. Color deep, beautiful orange; flesh finely grained and of agreeable flavor; tops small; has a short stump-shaped root, large at top, therefore easily pulled. Grows well in shallow soil; of fine quality, yields and sells well. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 70c.

Improved Long Orange

The most popular of the older sorts for farm use on mellow soil. An improvement obtained by years of careful selection of the best form and deepest colored roots of the Long Orange and smoother, but so uniform and true that the bulk of the crop will be greater. Pkt. 3c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 70c.

Mammoth White Belgian

Ox Heart or Guerande

Ox Heart, or Guerande

Early, Handsome, Ready Selling

Tops small for the size of the roots, which are comparatively short, but often reach a diameter of seven inches, terminating in a small tap root. Flesh bright orange, fine grained, and sweet. A Splendid Variety. This is a desirable variety for soil so hard and stiff that longer growing sorts would not thrive in it. When young, excellent for table use, and when matured equally good for stock. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 45c.; lb. 80c.

New Early Garden

Extra early and well suited for forcing. Nearly round roots of yellowish brown color. Never grows over 3 inches in diameter, and are best used when about 1 inch. Pkt. 4c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 30c.; ½ lb. 50c.; lb. 95c.

STOCK CARROTS

Mammoth White Belgian

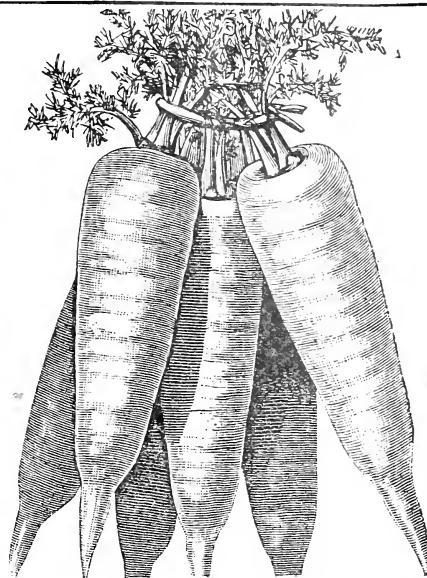

A splendid variety for fattening stock. The roots are mammoth in size and very productive, often yielding ten tons and over of roots per acre. It is highly recommended for fattening all kinds of stock, and exceptionally desirable for its great milk-producing qualities. The lower part of the root is white, that growing above the ground and exposed to the air being green. You will be pleased with it. Pkt. 3c.; oz. 5c.; 2 oz. 9c.; ¼ lb. 15c.; ½ lb. 28c.; lb. 50c.

Mammoth Yellow Belgian

Identical to the White Belgian except in color. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

STOCK CARROTS

Are unexcelled for feeding. Steers take on beef very rapidly when fed on them, and milk cows immediately improve.

Long Red Surray

Long Red Surray

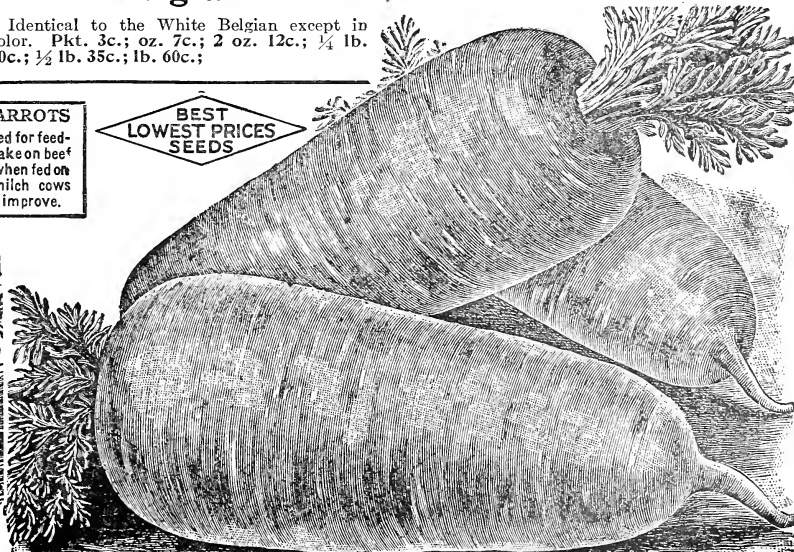

Enormous Producer

A very fine variety for either field or garden culture. Large, symmetrical roots of a deep orange red. They are straight and smooth, free from roughness and of the best quality. Tops are small and roots of mammoth size. You will find this variety very desirable for home market or stock use. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

Half Long Danvers

Yield Enormous, Quality Superb

The best Carrot for general crop; it is of a rich orange color, a very heavy yielder and splendid keeper. It is a first-class Carrot for all kinds of soil, valuable for both table use and stock. The Leading Carrot. We have an extra fine strain of this favorite sort which we have sold for many years, giving the greatest satisfaction to our customers. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

Half Long Danvers

CAULIFLOWER

1 oz. Seeds for 3,500 Plants

Northern Early Snowball

Selected Stock. Certainly a fine variety, great favorite and standard throughout the country. Very early, close growing, of compact habit; is well adapted for forcing under glass during Winter and Spring. It is without doubt one of the most satisfactory early varieties. Stock is perfectly reliable, and will satisfy you in every particular. The heads are large. For early or late planting for the family or the market this variety can be depended upon for excellent results. Pkt. 10c.; ½ oz. \$1.25; oz. \$2.00; 2 oz. \$3.80; ¼ lb. \$7.50.

Early Favorite

A strong growing variety producing large, fine heads; very popular variety with canners. Pkt. 5c.; oz. 70c.; 2 oz. \$1.30; ¼ lb. \$2.50.

Le Normand's Short Stem

Stands drouth very well. A sure header of fine quality and desirable in every way. Pkt. 5c.; oz. 30c.; 2 oz. 55c.; ¼ lb. \$1.00

Cauliflower

THE VERY BEST OF CELERY

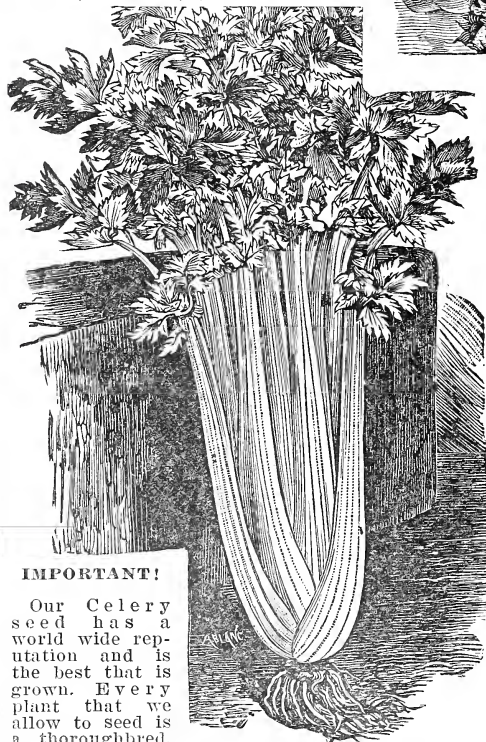

New Columbia

The Finest of all for Winter Use

An early maturing sort unsurpassed in shape and quality. The plant is of medium height but very stocky and heavy. The stalks are thick, almost round, resembling in shape those of Giant Pascal; the color has in it more of the rich yellow tint of Golden Yellow Self Blanching which variety it resembles very much in appearance when trimmed and bunched for the market. Its quality is certainly exceptionally fine. Pkt. 10c.; ½ oz. 25c.; oz. 45c.; 2 oz. 80c.; ¼ lb. \$1.50.

White Plume

Grown and can be blanched ready for the table in September. Pkt. 4c.; oz. 12c.; 2 oz. 22c.; ¼ lb. 40c.

IMPORTANT!

Our Celery seed has a world wide reputation and is the best that is grown. Every plant that we allow to seed is a thoroughbred.

New Golden Self Blanching

New Columbia Celery

Genuine Golden Heart

Original Private Stock. Best late Celery. This variety makes a very strong, vigorous plant, with large, very white, crisp, brittle, tender and fine flavored stalks; it is late, and requires the whole season to develop, but will keep longer than any other sort. We recommend it as worthy of first place as a late Celery. Pkt. 4c.; oz. 12c.; 2 oz. 23c.; ¼ lb. 45c.

Giant Pascal

A selection from the Golden Self-Blanching, and adds to the general good qualities of its parent, superior keeping qualities. The stalks are very large, thick, solid, crisp, and of a rich nutty flavor, free from any trace of bitterness. Pkt. 4c.; oz. 12c.; 2 oz. 22c.; ¼ lb. 40c.; ½ lb. 70c.; lb. \$1.25.

Golden Self-Blanching

French Grown Seed from Originator's Stock. This is the best Celery for early use. Plants of a yellowish green color when young, but as they mature, the inner stems and leaves turn a beautiful golden yellow which adds much to their attractiveness and makes the work of blanching much easier. The handsome color, crispness, tenderness, freedom from stringiness and fine nutty flavor of this variety makes it only necessary to be tried in order to establish it as the standard of excellence and as an early variety. Pkt. 6c.; ½ oz. 75c.; oz. \$1.25; 2 oz. \$2.25; ¼ lb. \$4.00.

Celeriac,

or Turnip-Rooted Celery

Earliest of All. Large and smooth roots, almost round; few side roots. Our stock of this variety has been especially cultivated and will be found very fine. Pkt. 4c.; oz. 18c.

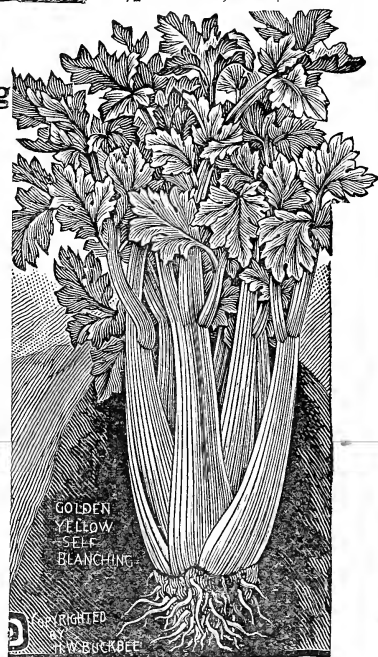

Celery Seed

for Flavoring

Oz. 5c.; 2 oz. 8c.; ¼ lb. 12c.; ½ lb. 20c.; lb. 35c.

Celery Plants

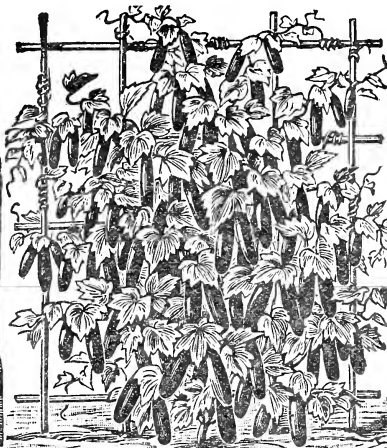

Ready early in June—see page 41.

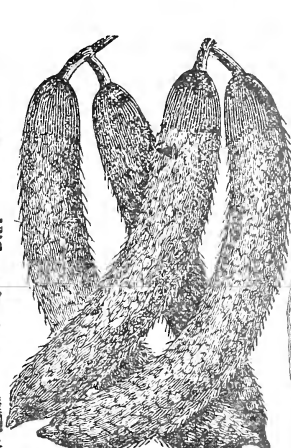

Golden Heart

Buckbee's Rockford Pickle Cucumber

Japanese Climbing Cucumber

Parisian Pickling Cucumber

Westerfield's Chicago Pickle Cucumber

BEST CUCUMBERS

Buckbee's New Rockford Pickle

Favorite Cucumber for Market and Family Use

The best Cucumber for pickles; is used almost exclusively by pickle factories throughout the country. Medium size wonderfully even in growth, slightly pointed at both ends. Extra early and the whole crop can be depended upon to make fine shaped pickles. Color deep green; begins to set its fruit when quite young. You will find this variety valuable for slicing. Fine flavor, crisp and delicious. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 30c.; $\frac{1}{2}$ lb. 50c.; lb. 90c.

Japanese Climbing

The vines are of vigorous growth, with dark green foliage and throw out strong tendrils which enable them to climb trellises, wire netting or brush. Comes into bearing quickly and continues abundantly through the season, while the climbing habit enables the fruit to grow perfectly straight—from 12 to 18 inches in length. Thick, tender, and of delicate flavor. Flesh pure white. When young makes attractive pickles. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 30c.

Improved Long Green

Uniformly Large Fruit of Good Form. Vines vigorous and productive; fruit fit for the table nearly as early as shorter sorts. Fruit grows about 12 inches long, firm and crisp. The young fruit makes the best pickles, and when ripe are preferable to any for sweet pickles. Large pkt. 4c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 28c.; lb. 50c.

New Early Klondike

The Famous Klondike Cucumber, unequalled for uniform size, color and productiveness. In addition to this it comes into bearing very early, continuing right through the season until killed by frost. Always straight—never turning yellow. Best for the table, for market and for pickling. The fruit is firm and hard and keeps in prime condition for a long time after picking. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 28c.; $\frac{1}{2}$ lb. 40c.; lb. 75c.

Early Prolific Short Green

Or Early Frame

A most excellent sort for pickling as well as for table use. Fruit straight, handsome, crisp and tender. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 35c.; lb. 60c.

Snow's Early Pickle

A very high type of pickle. It has been fully tried, and the results in all cases have been immensely satisfactory. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; lb. 70c.

Arlington White Spine

Has no thick ends, abundant yielder, fruit always even shape, tender and crisp. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 20c.; $\frac{1}{2}$ lb. 35c.; lb. 60c.

SEEDS

IMPROVED
LONG GREEN

The New Parisian Prolific Pickling

The best of all in quality for pickling. Fruit is of an unusually dark green color; no coloring matter is necessary. Very crisp and tender. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 30c.

Westerfield's Chicago Pickle

This standard variety maintains its high quality. We supply many of the leading growers with our selected seed. For general pickling purposes it is one of the best. Pkt. 4c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 28c.; lb. 50c.

Davis Perfect

A grand, new variety. Dark, glossy green, slim and symmetrical, with an average length of 10 to 12 inches. They hold color till nearly ripe, when they turn white without a yellow streak on them. Fine for table. Tender, brittle. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 28c.; $\frac{1}{2}$ lb. 50c.; lb. 80c.

New Lemon

Surprisingly Delicious

The Lemon Cucumber is nearly round, the skin is smooth with yellow and green markings. Fruit grows from 2½ to 3 inches in diameter, flesh is tender and has a flavor surpassing all other Cucumbers. Excellent for pickling either green or ripe. For table use they should be used just as the fruits are turning yellow. Pkt. 5c.; oz. 18c.

New Everbearing

Vines produce fruit continuously until killed by frost. They exhibit at the same time Cucumbers in every stage of growth but invariably of perfect form, even when small. The fruit is of fine green color and very desirable for pickling. Pkt. 4c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 35c.; lb. 60c.

New Emerald

A dark green Cucumber, retaining its color until quite ripe. Fruits set early. Pkt. 4c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 35c.; lb. 60c.

Early Cluster

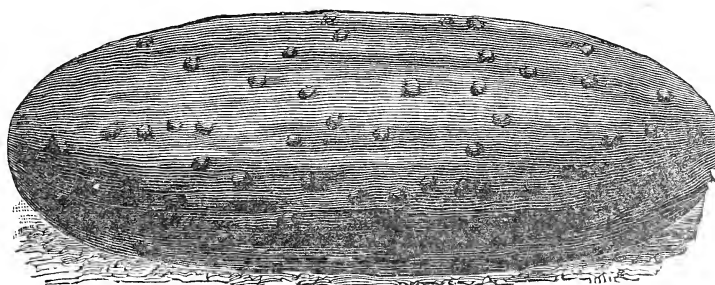

Fruit is of the form desirable for pickling. Extraordinarily prolific, often growing in clusters of 2 or 3 Cucumbers. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 35c.; lb. 60c.

Snake, or Serpent Cucumber

They attain a good size and the quality is very good. Raised mostly for curiosity and exhibition purposes and always attract attention. Pkt. 5c.; oz. 15c.; 2 oz. 25c.

West India Gherkins

Used exclusively for pickling. Small, oval-shaped prickly fruit. Pkt. 4c.; oz. 10c.

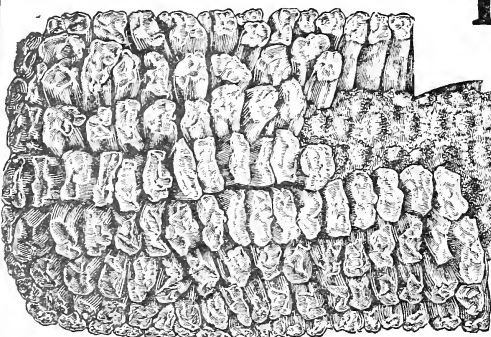

New Early Klondike Cucumber

Great Northern Seed Company, Rockford, Illinois

The Best Sweet Corn

Our Sweet Corn is grown on our own farms from Selected Hand Graded Seed, and can be relied upon.

New Early Illinois

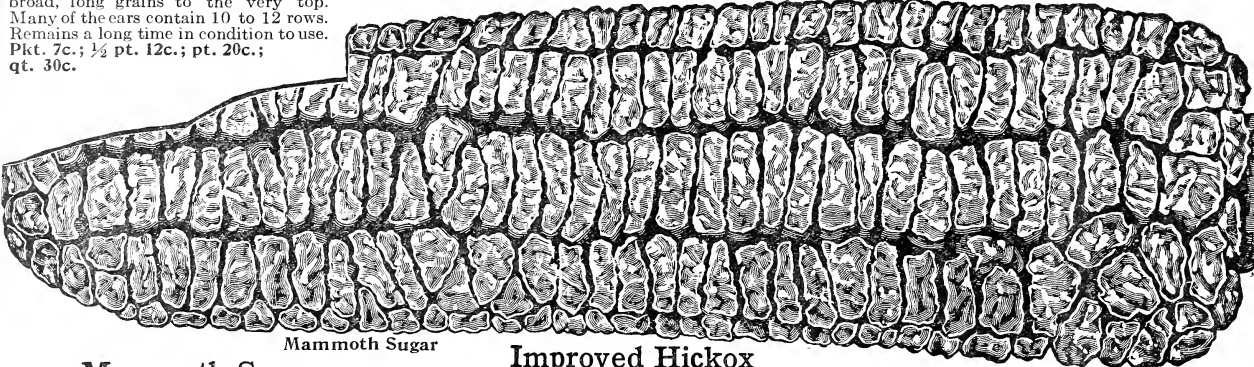

Early, Prolific, Sweet, Tender, Good Size

None earlier. Our own introduction and thousands of our customers in all parts of this country have written, telling us how well pleased they were with this fine new sort. The ears are of medium size, well filled with broad, long grains to the very top. Many of the ears contain 10 to 12 rows. Remains a long time in condition to use. Pkt. 7c.; $\frac{1}{2}$ pt. 12c.; pt. 20c.; qt. 30c.

New Early Illinois

Early Minnesota

This popular variety is one of the best early sorts for the market and the private garden. By careful selection we have developed a stock which is remarkably uniform and in which all the good qualities that are so popular are intensified. Pkt. 5c.; $\frac{1}{2}$ pt. 8c.; pt. 14c.; qt. 25c.

Mammoth Sugar

Mammoth Sugar

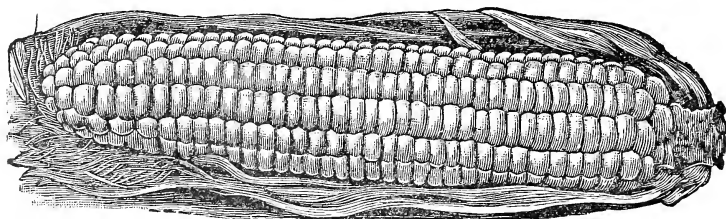

Produces the largest ears of any variety, a single ear often weighing two or three pounds. Of excellent quality, it is tender and delicious. Pkt. 5c.; $\frac{1}{2}$ pt. 8c.; pt. 15c.; qt. 25c.

Improved Hickox

Popular wherever known. One to two weeks earlier than Evergreen. Large, attractive ears; has a white cob and grain and remains in condition to use a long time. Best sort for drying and canning. Pkt. 5c.; $\frac{1}{2}$ pt. 9c.; pt. 16c.; qt. 28c.

Extra Early Adams

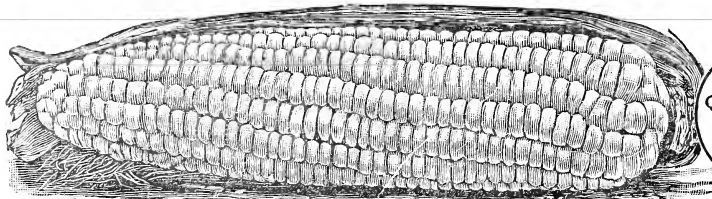

While not a Sweet Corn, this is a tender white Corn for table use. Dwarf stalks, small ears, hardy; can be planted earlier than any Sweet Corn. Pkt. 5c.; $\frac{1}{2}$ pt. 8c.; pt. 14c.; qt. 25c.

Golden Bantam

Golden Bantam Most Delicious in Flavor

A very early Sweet Corn with golden yellow grain, very tender and of excellent quality. The ears are eight-rowed, 6 to 7 inches long and of the medium size found most suitable for the table. Post-paid, pkt. 6c.; $\frac{1}{2}$ pt. 9c.; pt. 16c.; qt. 28c.

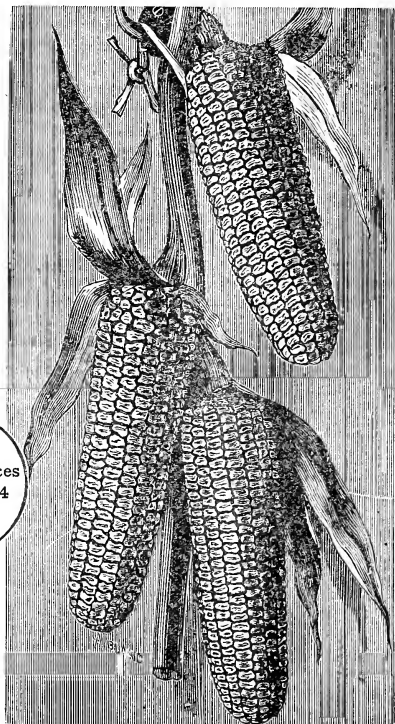

Extra Early Cory

Extra Early Cory

The largest of the extra early sorts, so early that two crops can readily be grown on the same ground in a single season. Ears eight-rowed, with red cob and very light pink grains. Pkt. 5c.; $\frac{1}{2}$ pt. 8c.; pt. 14c.; qt. 25c.

Moore's Early Concord

Produces its large, handsome, 14 to 16-rowed ears very low on the stalk. An excellent sort, either for canning factory or the garden. Pkt. 5c.; $\frac{1}{2}$ pt. 8c.; pt. 14c.; qt. 25c.

Improved Hickox

Country Gentleman

Ears of full size, retaining all the delicious sweetness and qualities of Ne Plus Ultra. Three to five ears to a stalk. Pkt. 5c.; $\frac{1}{2}$ pt. 9c.; pt. 16c.; qt. 28c.

Stowell's Evergreen (Re-Selected Seed)

Late, Large Size, Prolific, Sweet and Tender. The standard main crop variety, and if planted at same time as earlier varieties, will keep the table supplied until October. It is hardy and productive, very tender and sugary, remaining a long time in condition suitable for boiling. For Table Use the quality of this corn can not be excelled. Large pkt. 5c.; $\frac{1}{2}$ pt. 8c.; pt. 15c.; qt. 25c.

Selected Pop Corn

Should be found in every garden, especially if there are children to enjoy it during the long Winter evenings which bring young people together for social amusement. It is a fact not generally known that Pop Corn pops best when more than one year old, and that when well popped, it becomes twenty times its natural size; thus a quart and a half will make nearly a bushel of popped corn. In the illustration will be seen a convenient "popper," which may be bought for a trifle from a hardware store or easily made of wire netting. Did you ever try Pop Corn as a money-making crop? You will be surprised at the result. There is always a good market at a fair price, and if you plant our selected stock seed you will be able to sell your crop to planters in your vicinity at a greatly advanced price.

New White Rice

The finest white variety in existence. The best yielder, and far in advance of any other variety, ears averaging six inches in length. Beautiful shape, the best popper. Postpaid, pkt. 5c.; $\frac{1}{2}$ pt. 10c.; pt. 17c.; qt. 30c.

Golden Tom Thumb

The newest and best. Dwarf growing; heavy cropping; sure popper. Rich golden color, making a beautiful appearing dish when popped. Nothing ever grown can compare with this strain. Postpaid, pkt. 5c.; $\frac{1}{2}$ pt. 11c.; pt. 20c.; qt. 35c.

New Red Beauty

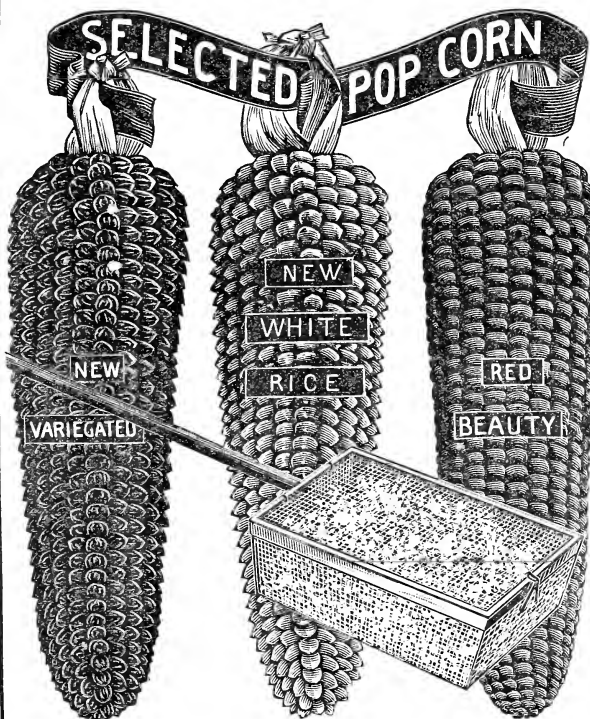

Fine variety. The stalks grow six feet high, averaging three to four ears each from five to six inches long and covered with large rice-shaped kernels of a deep red color. Postpaid, Pkt. 5c.; $\frac{1}{2}$ pt. 15c.; pt. 25c.; qt. 40c.

Mapledale Prolific

The stalks grow six feet high, and the ears are all large in size, with grains nearly clear white in color. An average ear measured six inches and a half long. Pops pure paper white, of fine quality. Postpaid, Pkt. 5c.; $\frac{1}{2}$ pt. 15c.; pt. 25c.; qt. 40c.

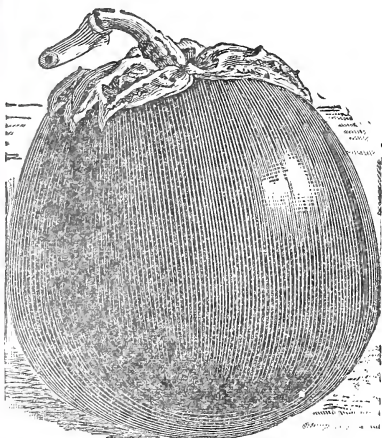

New Striped or Variegated

A fancy variety, very showy and of the best quality. Rather large ears, filled out with clear transparent white kernels, beautifully striped with bright crimson. A good popper. Postpaid, Pkt. 5c.; $\frac{1}{2}$ pt. 15c.; pt. 25c.; qt. 40c.

EGG PLANT

The Egg Plant should be grown in every garden, for it is one of the most delicious of vegetables

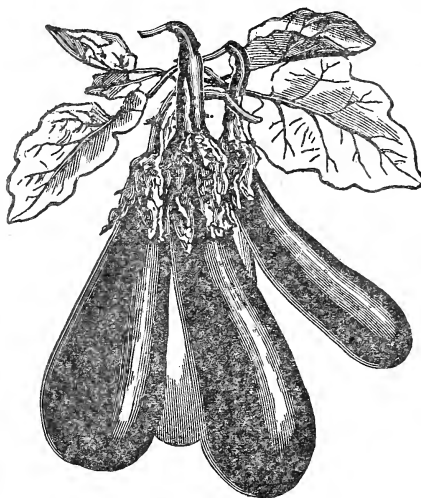

Large Purple New York Egg Plant

Large New York Purple Egg Plant

The plants are of low, stocky, branching habit and absolutely free from spines. It is a very early and continuous producer of handsome, purple fruits of the largest size and finest quality. Large pkt. 4c.; oz. 15c.; 2 oz. 28c.; ¼ lb. 50c.

New White Egg Plant

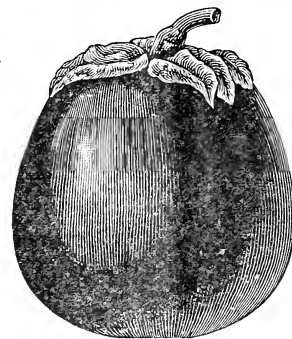

The flesh is more tender, and flavor more delicate than purple varieties. Pkt. 4c.; oz. 25c.; 2 oz. 40c.; ¼ lb. 75c.

Egg Plant, Extra Early Long Purple

New Tree Egg Plant The Fruit is Very Handsome

Sturdy, Compact, Prolific. The bush grows tall and stocky, branching freely, holding its fruit up well from the ground. The fruit is of a beautiful dark purple color, fine size, extra early, bearing for a long season and keeps well. The quality is the very best and considering all points we think this is a wonderful Egg Plant. Pkt. 5c.

Egg Plant, Black Beauty

New Black Beauty Egg Plant

Very early, of large size, prolific, and desirable for market gardeners' use. Fruit nearly round, skin smooth, dark and glossy, flesh white and fine grained. Pkt. 5c.; oz. 30c.; 2 oz. 55c.; ¼ lb. \$1.00.

Extra Early Long Purple Egg Plant

One of the earliest and most productive varieties. Fruit long, dark rich purple and of fine quality. Sure to give the best of satisfaction for all purposes. Pkt. 3c.; oz. 15c.

SEEDS For the Children's Garden at Wholesale Prices. See 1st inside cover and page 1.

HONEY PLANTS

Special Mixed from all the best honey plants that bees feed upon, such as Alyssum, Bartonina, Borage, Centaurea, Clarkia, Cleome, Cynoglossum, Mathiola, Mignonette, Nigella, Whitlavia and Siberian Dragonhead, giving a succession of bloom from June till August. All very ornamental plants, besides being useful. Pkt. 5c.; oz. 15c.; ¼ lb. 30c.; lb. \$1.00.

GARLIC

The Garlic is the most pungent in taste and has the strongest odor of all the Onion family. It is largely used in the south of Europe, where it is esteemed for flavoring soups, stews, etc. The root or bulb is composed of many small bulbs called "cloves," which are planted in the Spring. We frequently receive orders for Garlic seed, but can supply the bulbs only. **Fine Bulbs,** ¼ lb. 8c.; ½ lb. 15c.; lb. 25c.

FREE Complete Illustrated Catalogue of all Farm and Garden Tools at bargain prices. If you need tools of any description, send for copy of this Book and save money.

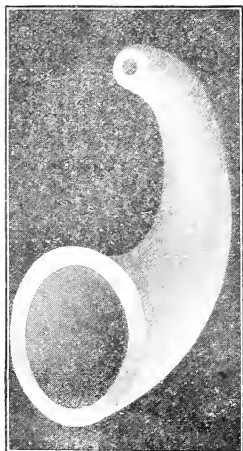

GOURDS

New Calabash Pipe Gourd

A luxuriant, rapid-growing annual climber, adaptable to all purposes for which climbing plants are used; and besides, it produces the ornamental gourds from which are made the African Calabash pipes now so popular on account of their lightness, grace and meerschau coloring qualities. Pkt. 10c.

Finest Mixed Gourds

Combining the largest mixture, the most curious, interesting and useful of the entire Gourd family. Forms may be varied by tying strings around the young fruit, or by enclosing the same in a carved mold while growing, thus stamping upon its surface any desired figures or letters that may be carved on the mold. Pkt. 4c.; oz. 8c.

New Calabash Pipe Gourd

Japanese Nest Egg Gourd

This interesting Gourd produces white fruit exactly the size and shape of a hen's egg. The matured fruit does not crack, and will serve for years as a nest egg, for use in darning stockings, or for ornamental purposes. The vine is a rapid grower, useful for covering screens or trellises. Pkt. 3c.; oz. 10c.

Dish Cloth, or Luffa Gourd

Ornamental enough for a house vine and very useful. Fruit enormous, two feet in length and borne in great profusion. The lining of mature fruit when washed and bleached is porous, tough, elastic, sponge-like, making the nicest, cleanest substitute for dish cloths and bath sponges imaginable, besides being useful for various articles of fancy work. Pkt. 4c.; oz. 20c.

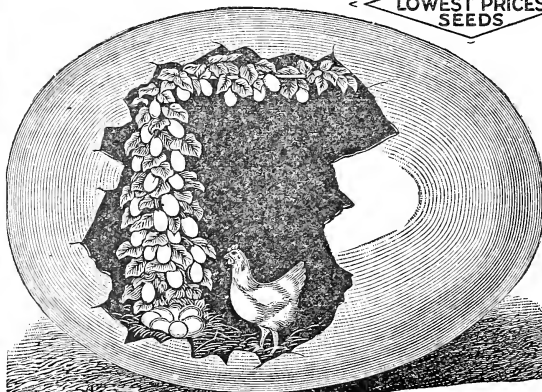

Sugar Trough Gourd

Enormous, hard-shelled fruit, holding from three to ten gallons each. Are just right to use as receptacles for lard, salt, seed corn, etc. Pkt. 3c.; oz. 10c.

Dipper Gourd

Useful for bird's nests, fancy hanging baskets, etc. They hold from a pint to a quart and a half each. Pkt. 3c.; oz. 10c.

Garlic

Great Northern Seed Company, Rockford, Illinois

The Sunberry, or Improved Wonderberry

New Garden Huckleberry

Grows from Seed the First Year

For Pies and Preserves

A new fruit that belongs to the same family, botanically as the Tomato, Egg Plant and Potato. In South Dakota it is known as "Stubbleberry" and is very popular in that section. It is easily grown from seed the first year, and should be planted, treated and cultivated the same as Tomatoes. Start the seed in a box or pan or hot bed in early Spring and when danger of frost is passed plant outdoors. It is very prolific, yielding an immense crop of fruit, and is not hardy, but must be planted each season from seed. The fruit grows as large as a gooseberry and, in our experience, they should not be picked until thoroughly ripe. Even after the frost, they are better, for they cook up finer. If cooked with apples, lemon or anything sour, they certainly make the finest jelly and pies, and can also be used for making home-made wine. You will be delighted and astonished with the easily-grown wonderful novelty. Send Your Order Today. Price postpaid, pkt. 100 seeds; 5c.

New Perfected Sunberry or Improved Wonderberry

This is Luther Burbank's newest and greatest production: a luscious berry that may be grown and ripened from seed in any soil or climate in three months.

Fruit more like a great, rich, luscious blueberry than anything else. Blue-black in color, fine in flavor and unsurpassed for eating raw, cooked, canned or preserved in any form. It is easily the greatest garden fruit ever introduced, and equally valuable for the North, South, East or West. or, in short, any part of the world. Easiest plant in the world to grow. Succeeding anywhere and yielding great masses of rich fruit all Summer and Fall. The greatest boon to the family garden ever known. Everybody can have this grand fruit at small expense, as one or two packets of the seed will be sufficient for any ordinary garden and produce all the fruit wanted. Price of seed. Pkt. 5c.

SUNBERRY PLANTS

We can supply a limited number of nicely started Sunberry Plants at 10c. each; 3 for 25c.; 75c. per doz., postpaid.

STRAWBERRIES from Seed

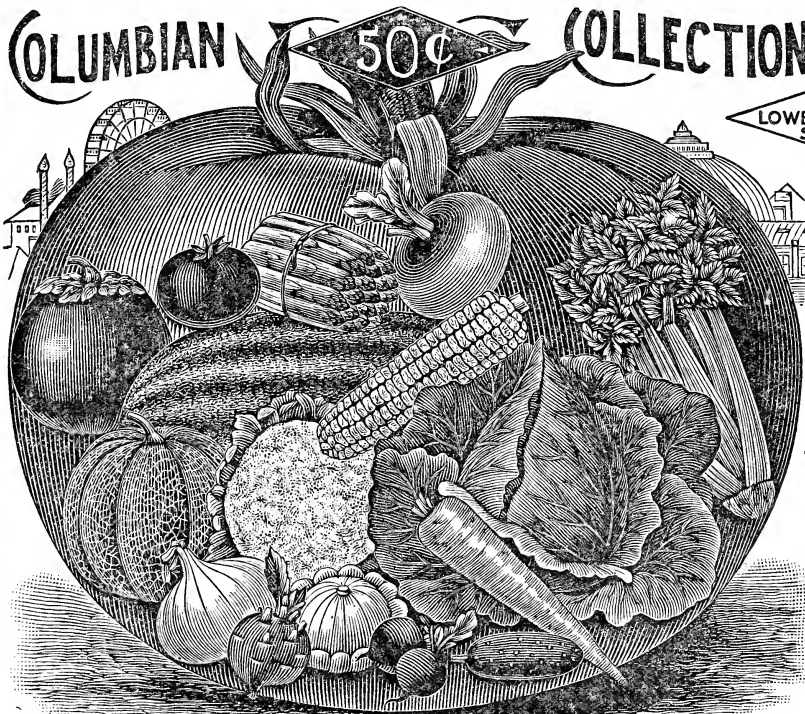

New Hybrid Varieties of Rare Merit

Growing Strawberries from Seed is intensely interesting and fascinating as the seeds germinate rapidly and the young plants frequently begin to bear fruit when four months old, and continue to produce an abundance of the finest flavored fruit until late in Fall. Seed sown early in April will give ripe berries in late July. The greatest pleasure of sowing seed is due to the fact that they will produce innumerable kinds, colors, shapes, sizes, forms and qualities. Some may be of immense value. This incomparable mixture contains choice selections from the U. S., Germany, Chili, Switzerland, South America, France, Africa, Mexico and Europe. The great variety makes your bed practically Everbearing and you are not without fruit the season through. Hardy most everywhere. A packet of seed should produce 40 to 50 plants. Pkt. 8c.; 3 pkts, 20c.

HAMMOND'S SLUG SHOT

Sure to destroy Potato Bugs and those on Tomatoes and Egg Plants, Currant Worms, Cabbage Lice and Worms, Fleas, Beetles and Striped Bugs on Melons, Turnips, Beets, Onions, etc. 15c. lb. postpaid.

HERBS — SWEET

Pot and Medicinal

See page 39 for Herb Plants

Indispensable to the cook, useful in the sick room, and many kinds fine for perfuming clothing, etc. The varieties marked with an asterisk (*) are perennial, and when once obtained in the garden, may be preserved for years with but little care.

Anise. Used for cordials, garnishing and flavoring. Pkt. 3c.; oz. 10c.

***Balm.** Leaves have a fragrant odor. Used for making a pleasant beverage known as Balm Wine; also for Balm Tea for use in fevers. Pkt. 3c.; oz. 20c.

Basil, Sweet. Leaves used for flavoring soups and seasoned dishes. Pkt. 3c.; oz. 15c.

Borage. Leaves used for flavoring and the flowers furnish bee pasture. Pkt. 3c.; oz. 10c.

***Catnip.** Leaves and young shoots used for seasoning; also a mild nerve for infants. Pkt. 3c.; oz. 30c.

***Caraway.** Seeds used for flavoring bread, pastry, candy, etc. Pkt. 3c.; oz. 8c.

Coriander. Used in the manufacture of liquors, confectionery, etc. Pkt. 3c.; oz. 8c.

Dill. Seeds used as a condiment and also for pickling Cucumbers. Pkt. 3c.; oz. 8c.; ¼ lb. 18c.

***Fennel, Sweet.** Leaves ornamental; are boiled for fish sauce. Pkt. 3c.; oz. 9c.

***Hyssop.** Is a stimulant, and used for asthma and chronic catarrh. Pkt. 3c.; oz. 15c.

***Horehound.** Leaves used for seasoning and making cough medicine. Pkt. 3c.; oz. 20c.

***Hop Seed.** Pkt. 15c.

***Lavender.** An aromatic Medicinal herb. Pkt. 3c.; oz. 15c.

Marjoram, Sweet. Leaves and shoots used for seasoning. Pkt. 3c.; oz. 15c.

Poppy, Opium. The plant from which opium is manufactured. Pkt. 3c.; oz. 25c.

Pennyroyal. True sort. Particularly suited for planting in rock work. Pkt. 5c.

***Pot Marigold.** A very pretty and useful plant. Pkt. 3c.; oz. 15c.

***Rosemary.** Ornamental herb. Leaves used for seasoning. Pkt. 3c.; oz. 20c.

***Rue.** For medicinal purposes. Good for colds and cramp. Pkt. 3c.; oz. 15c.

Saffron. Used in coloring certain dishes; also for flavoring. Pkt. 3c.; oz. 9c.

***Sage.** Extensively used for seasoning and dressing. Pkt. 3c.; oz. 12c.; ¼ lb. 35c.

Savory, Summer. Leaves and flowers are used in flavoring soups. Pkt. 3c.; oz. 10c.

***Savory, Winter.** Leaves and young shoots used in flavoring. Pkt. 4c.; oz. 20c.

***Tansy.** For medicinal use. Pkt. 4c.; oz. 25c.

Thyme. Leaves and young shoots used for seasoning. Pkt. 3c.; oz. 25c.

Wormwood. Used medicinally. It is also beneficial to poultry. Pkt. 3c.; oz. 20c.

Kohl-Rabi

Kohl-Rabi

Kohl-Rabi is grown for its turnip-shaped bulb, which is formed above ground by the expansion of the stem. The bulb should be used while young and tender, as age detracts from its good quality. They have a much sweeter flavor than Turnips and if you have never tried this most excellent vegetable, by all means do so this season, and we are sure it will please you.

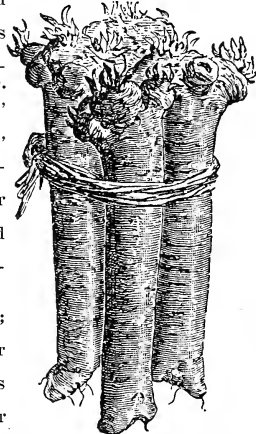

Best Vienna. Early and rapid grower with few and small leaves, very delicately flavored. Pkt. 4c.; oz. 15c.

New Horse-Radish

Bohemia "Maliner-Kren"

Very Quick Growing, Large-Rooted Variety, which has been grown quite largely in this country for several years with most satisfactory results. "Maliner-Kren," is grown by planting the small sets or pieces from the side roots in deep rich soil and cultivating in the same manner as with the ordinary variety of Horse-Radish, but the plants are so much stronger in growth that the roots grow to considerably larger size and greater weight; individual roots 18 inches long by 2½ inches to 3 inches at the thickest part are produced from the growth of one year. In fact, its shape is like the parsnip. The quick strong growth not only gives a much larger crop from a given area, both in size of single roots and bulk weight of crop, but also enables the grower to place the roots in the market much earlier than with the ordinary variety. When grown in light soils, roots of this new early variety are pure white in color and develop the fine flavor early in the fall.

Roots ready for planting. By mail, postpaid 6 for 15c.; doz. 25c.; 50 for 75c.; 100 for \$1.25. By express or freight, not prepaid, 50 for 60c.; 100 for 85c.; 500 for \$4.00; 1000 for \$7.50.

Common Horse Radish

SLUG SHOT

Sure death to Potato Bugs, Worms, Fleas and Beetles on all plants. Price 15c. lb., postpaid.

Bohemia Horse Radish

Common Horse-Radish

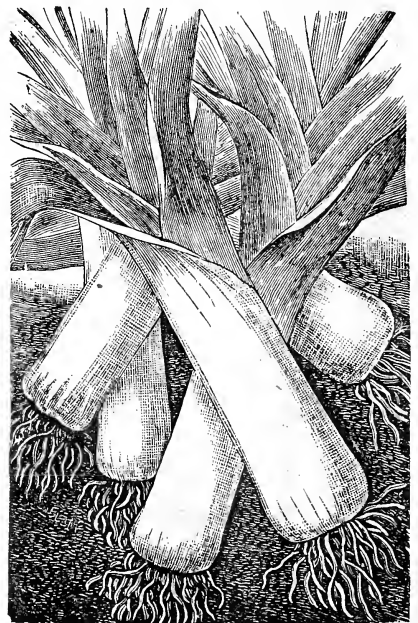

Horse-radish is always in demand in Winter and Spring. The culture is by sets or root cuttings, as it seldom seeds. These sets are planted in rows or furrows 2 to 3 feet apart and 15 to 18 inches apart in the rows. The set should be placed in a perpendicular position, with crown 3 to 6 inches below the surface. Horse-radish delights in a deep, rich soil and requires but little cultural attention. It makes large top growth, giving weeds small chance. Near to markets the Horse-radish is a most important crop. Roots ready for planting, postpaid, 15c. per doz.; 75c. per 100; by express or freight, not prepaid, 100 for 50c.; 500 for \$2.50; 1000 for \$4.00.

Leek

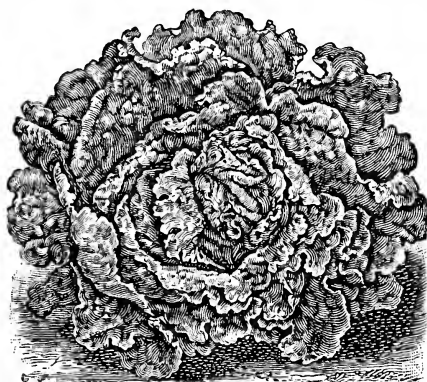

Belongs to the Onion family. Sow the seed and care for the young plants as for Onions, but they need more room in order to develop. When the young plant is about the size of a goose quill, transplant to a prepared bed in rows about 3 or 3½ feet apart and 4 or 5 inches in the row.

New Flag. We offer a very superior stock of this popular variety, so largely grown for Fall and early Winter use. It is of quick, strong growth, producing long stems of uniform shape and size, averaging 2 inches through by 10 inches long, blanching beautifully white and of fine, mild flavor. It makes attractive and salable bunches. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 28c.

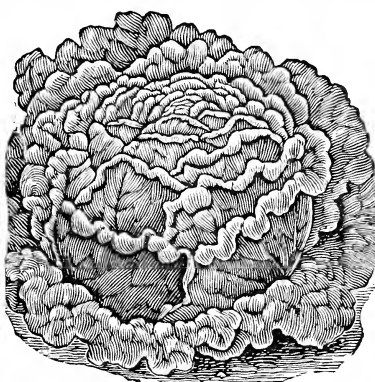

Rouen, Very Late Winter. This is the best variety for Winter and Spring use, being very hardy; it keeps well when earthed up. It is of slower growth than American Flag, making immense, stocky stems about 3 inches through by 6 to 8 inches long. The leaves are broad and flat, and little injured by snow; they recover their fresh bright green color quickly in Spring. Pkt. 5c.; oz. 15c.; 2 oz. 25c.; ¼ lb. 40c.

Leek—Rouen

New Iceberg Lettuce

"Bon Ton" Lettuce

All Seasons Lettuce

THE BEST LETTUCE — ALL CHOICE HOME GROWN SEED

Big Boston

Very popular variety with gardeners who want a large-heading, forcing sort, and also for out-door Winter culture. Quite tender. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

Immensity

Sometimes called Maximum. A wonderfully heat-resisting Lettuce, remaining a long time, even in the hottest weather, without going to seed. It is green outside and yellow in the center. A strong growing and large heading, late summer sort. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

New Iceberg

Quick growing and of exquisite flavor. The large curly leaves which cover the outside of the solid heads are of bright, light green, with a slight reddish tinge on the edges. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

May King

For early Spring planting in open ground it is unequalled. The plant is practically all head. Of rich, buttery substance, outer leaves are of light green, slightly tinged with brown; inner leaves are bright yellow, of a specially fine, rich, buttery flavor. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

Simpson's Early Curled

A decidedly crisp variety. Color very light green; never spotted or brownish in any part. Quality excellent; sweet in flavor. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Early Prize Head

This old standard sort still stands at the head of the large, thin leaved clustering sorts. The very large leaves are savoyed, or crimped, bright green, tinged with red, and are exceedingly tender, crisp and sweet. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 55c.

New York, or Wonderful

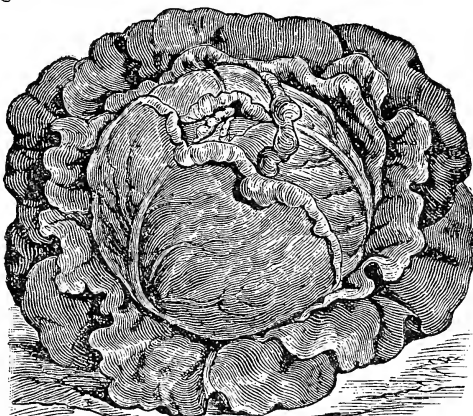

Excellent for mid-summer; one of the best for resisting heat. Heads large, well blanched, crisp, tender and sweet. Slow to run to seed. A popular cabbage-headed sort with extra good table quality. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 55c.

Earliest "Wayahead"

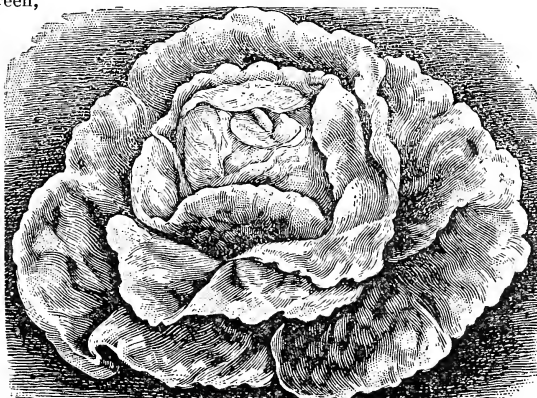

A remarkable combination of earliness, firm heading character, handsome appearance and fine quality. Its closely folded head affords the maximum quantity of finely blanched inner leaves which are of a firm, "buttery" texture. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 30c.; ½ lb. 45c.; lb. 75c.

New York Lettuce

Big Boston Lettuce

May King Lettuce

Improved Hanson

Large, firm heads, deliciously sweet, crisp and tender. Heads green outside, white within. None better for outdoor culture. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Mammoth Black Seeded Butter

A strain of large, smooth-leaved head Lettuce, forming large, solid, Cabbage-like heads of thick, brittle leaves, inner ones becoming very white, tender and fine flavored. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Improved Black Seeded Simpson

Acknowledged the best early forcing variety. The leaves are a delicate green, almost white. Always crisp and tender. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Grand Rapids Forcing

New variety of superior quality; keeps crisp and tender without wilting longer than any other Lettuce. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

All Seasons

Sometimes Called San Francisco Market or the Deacon Lettuce

This magnificent Butter Lettuce is unsurpassed for family garden or market use; of delicious, rich, buttery flavor. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

Tomhannock

This Lettuce doesn't head—makes a loose bunch of leaves of very fine quality. Edges of outer leaves are a reddish bronze; inside leaves almost white.

Crisp and tender. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

Dwarf White Heart, or Celery Lettuce

Earliest in cultivation. The plants grow about 8 inches high and 4 to 5 inches across. Excellent flavor and crisp and tender. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

"Bon Ton" Lettuce

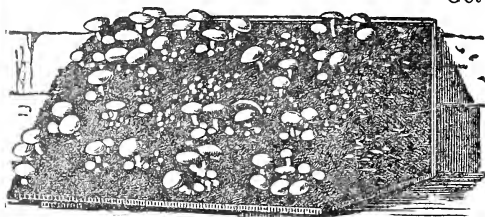

The Best Keeping Lettuce Known. A crisp variety, sometimes cabbage-like in growth, but generally decidedly more bunching than cabbaging; marketable at an intermediate season, but late outdoors in attaining fullest development; very large; slow to shoot to seed. Plant fairly compact for so large a sort, and consisting of a dense, well-blanching cluster of leaves. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 30c.; ½ lb. 45c.; lb. 75c.

MUSHROOMS

GROWING MUSHROOMS IS NOT DIFFICULT

Get Reliable Spawn, Start Right and the Results are Certain and Profitable

A One Pound Brick Will Plant 20 Square Feet

Mushrooms growing on Single Shelf

any, but who are on the point of trying it, that they will find Sure Crop Spawn to be all that at the very highest market prices. It produces immense crops and the Mushrooms that are in demand

Sure Crop Mushroom Spawn. By a newly discovered process of selection and grafting, the spawn is scientifically propagated so that large, vigorous and fine flavored mushrooms are reproduced. Earlier, more productive and a marked improvement on the wild spawn, either French or English. Postpaid, lb. 30c.; 4 lbs. \$1.00. By express or freight at buyer's expense, lb. 20c.; 5 lbs. 95c.; 25 lbs. \$3.75; 100 lbs. \$11.75.

English. Fine variety for all purposes. We import this stock every month, so can always furnish fresh spawn. Price, postpaid, lb. 25c.; 5 lbs. \$1.00. By express or freight at buyer's expense, lb. 15c.; 8 lbs. \$1.00; 25 lbs. \$1.95; 100 lbs. \$7.15.

We can safely assure all Mushroom growers, as well as those who have never grown

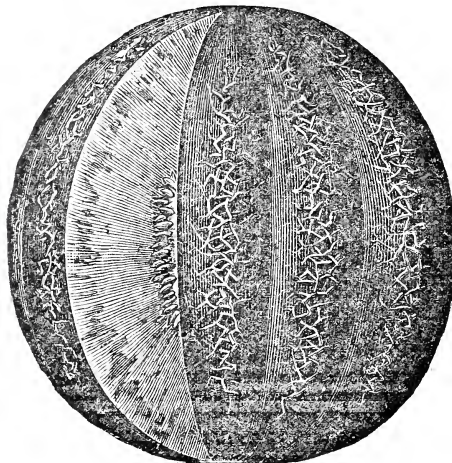

MUSTARD

New Chinese. The large leaves have a pleasant, pungent flavor, and can be eaten the same as other salads. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Ostrich Plumed Mustard. Leaves exquisitely crimped, ruffled and frilled, of superior flavor and very popular. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

THE BEST MUSKMELONS

Osage

OSAGE

Or Improved Millers Cream

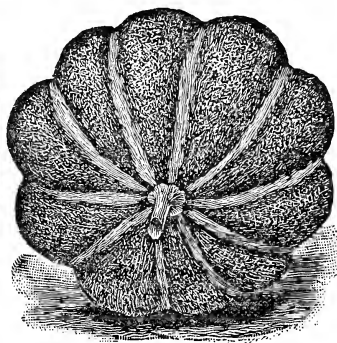

Medium sized, oval, slightly ribbed, dark green in color, covered more or less with shallow netting. The flesh is deep salmon color and very thick. We have taken a great deal of pains to develop the thick, deep, rich colored and finely flavored flesh of this sort, and a careful comparison on our trial grounds proves it unequalled. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c. lb. 60c.

EMERALD GEM

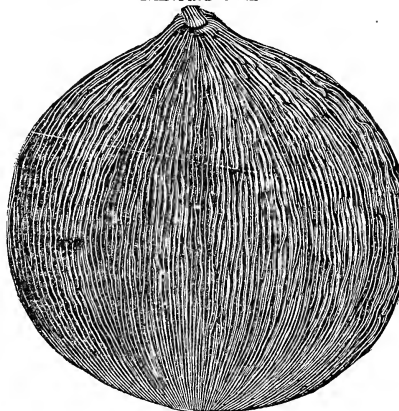

Fruits small to medium size, globular or very slightly flattened at the ends. Skin deep green while young, becoming tinged with yellow as the fruit matures. Flesh deep salmon yellow, thick. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c. lb. 60c.

NEW BANANA

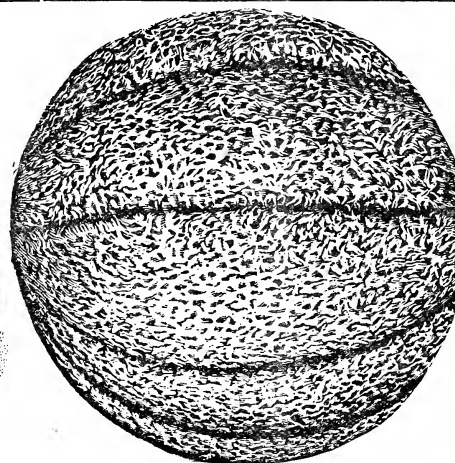

Surpasses all others in delicious flavor. Outside color creamy yellow or straw color. Flesh very solid, of rich salmon color. Should be thoroughly ripe to be of the best flavor. Grows from 18 to 24 in. long and is very prolific. When ripe its shape suggests an overgrown Banana, smells like one, with delicious fragrance. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.

MAULE'S HONEY

Most Exquisite Quality

Named "Honey" on account of its sweet and delicious flavor. Its exterior color is a peculiar shade of green, quite unlike any other muskmelon. The flesh is green, inclining to yellow. The spicy flavor is as distinct and characteristic as it is sweet and pleasing. The flesh is both deep and firm, the edible portion almost touching the rind, remarkably juicy and retains its color and quality quite to the outer shell. Melons of medium size, weighing 3 to 4 pounds on an average. It is distinctly and evenly ribbed and moderately netted. Globe shape and somewhat flattened at the stem and blossom end. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 30c.; stock limited.

New Winter PINEAPPLE

The only Melon that can be kept until Christmas.

The color of the flesh is a deep lemon yellow, and the outer skin is a dark green, marked with yellow. The quality is delicious, having a rich spicy flavor that is not possessed by any other fruit. They very rarely ripen on the vines, so the Melons must be picked off in the Fall and put in some cool place. Price, Pkt. 4c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 30c.

BANANA MELON

HAMMOND'S SLUG SHOT
Sure death to bugs on melons.
Price 15c. lb. postpaid.

THE BEST MUSK MELONS

New
Gold Coin

New Gold Coin

A Splendid Shipper

This new Melon is remarkably prolific; the fruit superbly netted, the flesh deep and solid, of a rich orange red color, ripening close to the rind and of the sweetest honey-like flavor, the most delicious of all melons. They are always of handsome form and attractive appearance, even in size, weighing from 2 to 3 pounds each. It is very early, ripening in a very short space of time, and notwithstanding its thin rind, it is a splendid shipper and one of the finest Melons for market purposes. Every Melon grower should give it a trial. Pkt. 5c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

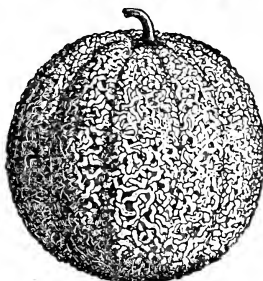

Rocky Ford

Unsurpassed in Luscious Flavor

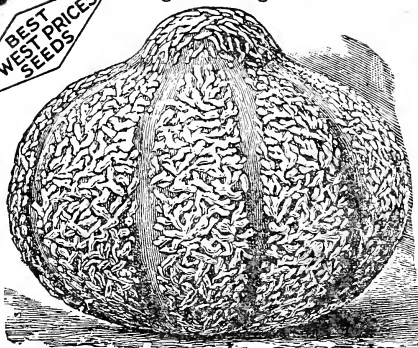

Always brings the highest price on the market. Most desirable size. Ideal for dessert. A healthy vigorous grower. Exceedingly prolific. This is an improved strain of Netted Gem, growing a little more oblong in shape. Originated at Rocky Ford. It is the most popular of all Melons for shipping in baskets. The fruit is oval and slightly ribbed, and densely covered with a fine netting. It has a thick flesh; very sweet; finely flavored. They will grow very uniform in shape and color. Very productive. Selected Stock Seed. Large pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 17c.; ½ lb. 28c.; lb. 50c.

HAMMOND'S SLUG SHOT

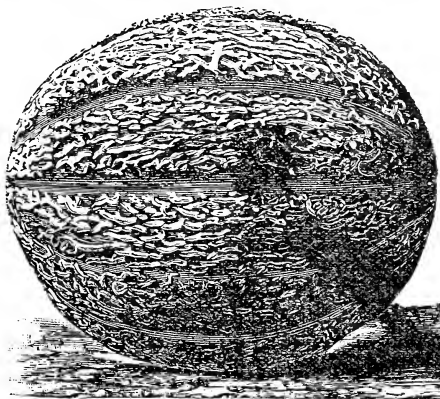

Sure to destroy Potato Bugs and those on Tomatoes and Egg Plants, Currant Worms, Cabbage Lice and Worms, Fleas, Beetles and Striped Bugs on Melons. 15c. lb. postpaid.

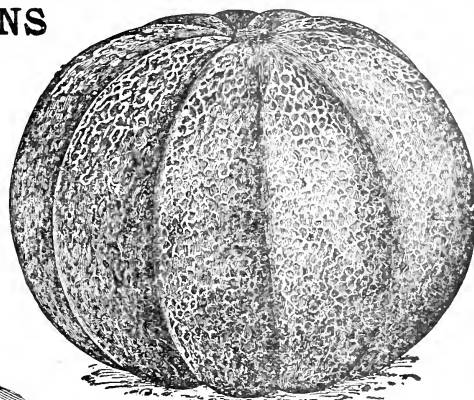

Sugar Nutmeg

True Jenny Lind

Rocky Ford

Henderson's New Bush

Henderson's New Bush

A Vineless Musk Melon

• The delicate green flesh is deep, of luscious sweetness, eatable almost to the rind and of light green color tinged with salmon as it approaches the centre. The fruit is of the "Jenny Lind" type but larger, growing about 5 inches in diameter, varying in shape from a trifle flattened at the ends to almost spherical. Deeply netted, with shallow ribs. Furthermore, in the quality of fruit this new melon is extra fine. Pkt. 8c.; 3 pkts. for 20c.

True Jenny Lind

This is the earliest of the green-fleshed sorts, and one of the sweetest. Size, small, from 3 to 5 inches in diameter. Our strain of seed is the best. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 55c.

Sugar Nutmeg

The best small Melon for baskets and table. The finest of all Nutmeg Melons. Fruit of medium size, slightly ribbed; globular. Skin dark green, becoming yellow when over ripe, and nearly covered with broad shallow netting. Always in good demand. Our stock is carefully selected. Price, pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 23c.; ½ lb. 40c.; lb. 70c.

TOBACCO DUST

One of the best remedies for green and black aphids, fleas, beetles, etc. Lb. 25c. postpaid.

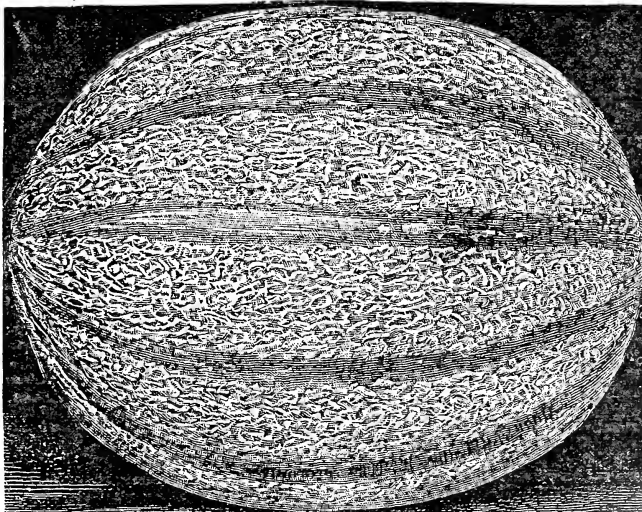

Northern Giant

The largest Melon ever grown. This variety is well named the "Giant" as it towers up above all others either in the field or market. Often weighs 30 pounds or more. Color of skin is a yellowish-green; the shape is nearly round, slightly flattened. The flesh is light salmon color, rich, melting and sugary. Quite thick meaty; ripens clear to the skin, has a small seed cavity. As an exhibition and large market variety it is grand; exceptionally desirable for family and market purposes. A fine shipper owing to the toughness of the rind. Price, pkt. 5c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

New Paul Rose

A Favorite Basket Melon

An excellent shipper; fine quality, fruit oval, about five inches in diameter; one of the very best sorts for the home garden. An exceptionally pure and fine stock grown on our own farms. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

Northern Giant

New Early Hackensack

One of the most popular; reliable and bountiful yielders; large, handsome, early. Flesh green, rich, sugary. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 35c.; lb. 60c.

Burrell's Gem

Combines the Flavor and Shipping Qualities of the Rocky Ford, but is Salmon Fleshed

An orange fleshed Rocky Ford, for a market where the orange fleshed Musk Melons are in demand; they bring much higher prices. It has a tough thin rind, well arched ribs; covered with a closely laced and interlaced gray netting. Shape quite elongated; flesh of a reddish orange, very thick, fine grained and spicy. The Melons average about 2½ lbs., with an average size of 6 inches long, 4½ inches thick, and will crate more evenly than any other Melon grown. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 17c.; ½ lb. 28c.; lb. 50c.

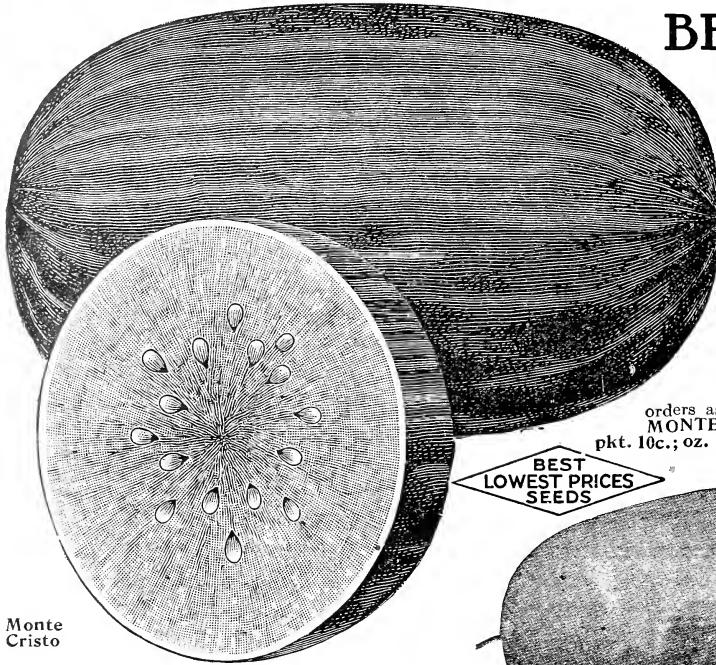

BEST WATER MELONS

Buckbee's Monte Cristo

The Sweetest Flavored Melon in the World. The largest early Watermelon to mature, ripening in the remarkably short period of 65 to 80 days, and weighing under ordinary cultivation, 60 pounds. The greatest yielder. The juiciest, crispest and most solid Melon ever produced, never having a hollow or pithy center when ripe. The easiest to sell on the market, for when once tried, people will have no other. Many of our customers have written us that they have cleared \$150 per acre by growing Monte Cristo Melons. Under average cultivation you can do as well or better. Will you not try this year? It is a grand, good shipper; has a firm, solid rind, not too thick, yet it will stand the most severe handling. The outside skin is of a rich, dark green color, shaded with faint stripes of a somewhat lighter color. Certainly the finest appearing Melon ever grown for market, shipping or table purposes. We already have large advance orders from customers who have planted Monte Cristo in past seasons, and we would advise

orders as early as possible. Send to us for choicest stock seed of MONTE CRISTO MELON. The price is within reach of all. Large pkt. 10c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 60c.; lb. \$1.00.

Monte
Cristo

Tom Watson

Best Quality, Fine Shape, Large Size,
Good Shipper

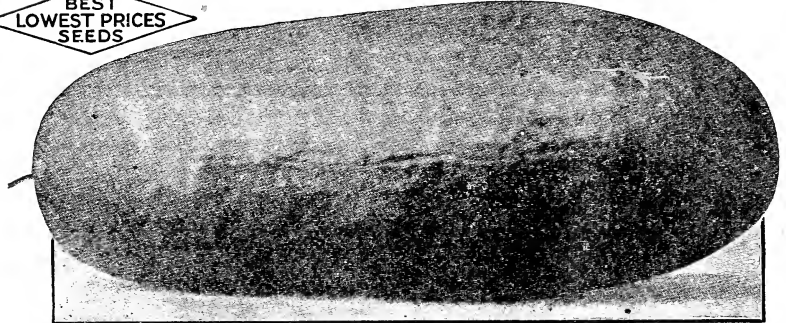

The "Tom Watson" is an extra long Melon of attractive appearance, uniform in shape and quality; the luscious crimson flesh is "as sweet as honey," melting and of superb flavor. The average Melon will weigh 35 to 40 lbs. and measure about 28 inches long and about 12 inches in diameter. The skin is dark green, with thick netting all over, quite distinct from other varieties. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 17c.; $\frac{1}{2}$ lb. 28c.; lb. 50c.; postpaid.

Improved Kolb's Gem

Fruit large size, round or slightly oval. Outer rind, or shell, exceedingly hard and firm, making it a good sort for shipping long distances. Flesh bright red, solid, sweet, tender and melting. Pkt. 2c.; oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 20c.; lb. 35c.

Maule's Wonderful Sugar

Excellent new variety of large size. Melons of 40 to 60 pounds being the average occurrence. Flesh red and deliciously sugary. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 34c.; lb. 50c.

Tom Watson Watermelon

Ice Cream (Peerless)

One of the best for nearby markets and home purposes. Skin light green mottled. Flesh red. Pkt. 3c.; oz. 5c.; 2 oz. 9c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

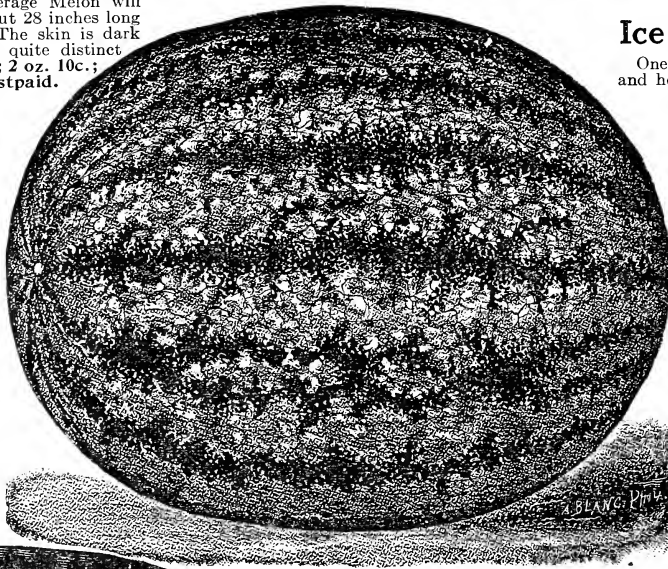

Hungarian Honey

The flesh is of an intensely red color, absolutely stringless, completely melting in the mouth, and of the same beautiful red color up to within one-fourth of an inch or less of the outer skin. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 20c.; $\frac{1}{2}$ lb. 35c.; lb. 60c.

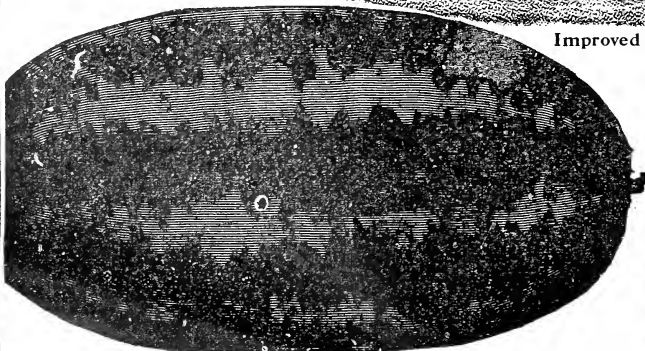

Georgia Rattlesnake

or Striped Gypsy

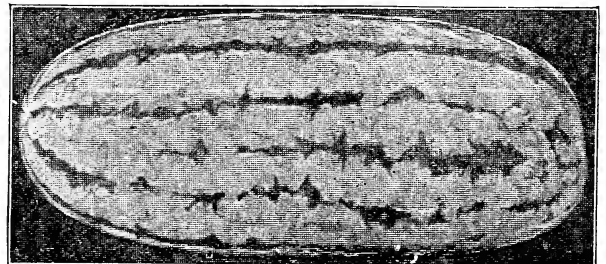

A very large melon of good shipping qualities. Shape oblong. Flesh bright red. Flavor sweet and first-class. Pkt. 3c.; oz. 5c.; 2 oz. 9c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

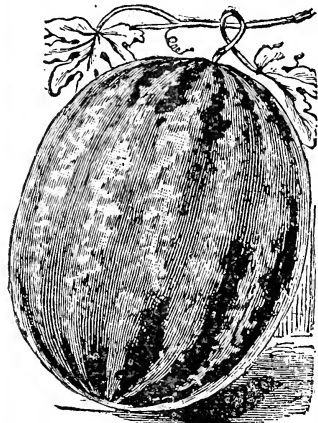

Improved Kolb's Gem

Maule's Wonderful Sugar

Georgia Rattlesnake, or Striped Gypsy

Cole's Early

Cole's Early

The Best Extra Early Melon. The finest Melon ever offered for the amateur and for the home market. Being somewhat brittle will not do for shipping purposes. Very early and will mature in every state. Very hardy, vigorous and a sure cropper. Flesh sweet and delicate in texture, of a deep red color. The rind is thin and the quality of the flesh is sustained clear to the rind. Large pkt. 3c.; oz. 5c.; 2 oz. 9c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

Iceberg A Fine Shipper

An improved form and resembles Kolb's Gem in shape, size and appearance, but is darker in color, both outside and inside. The outside is dark green, with lighter marking, but general effect is dark. The flesh is deep red and very sweet. The rind is comparatively thin, but remarkably tough and not disposed to crack; splendid shipper. Pkt. 3c.; oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 20c.; lb. 35c.

Jones' True Jumbo

One of the most productive. Color of skin solid green. Flesh very bright and red, almost to rind. Particularly sweet, juicy and melting. Grows to large size, frequently attaining the weight of 80 pounds. Large pkt. 3c.; oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 20c.; lb. 35c.

Improved Dixie

A large, oblong shaped Melon, color dark green striped. Fine shipper. Quality fine. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

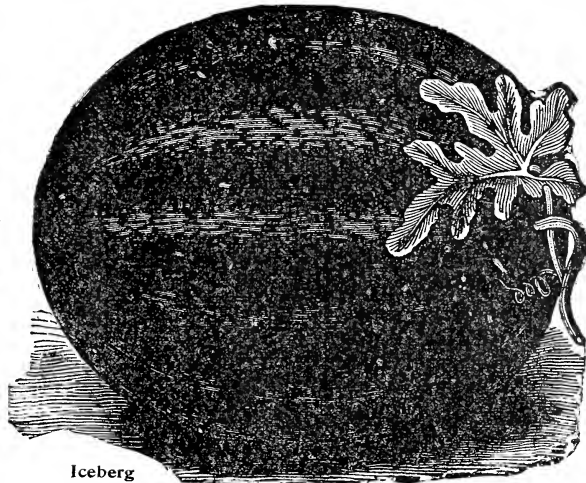

Apple Pie Melon

This is a novelty which will be appreciated especially during the seasons when apples are scarce or high in price. The vine and fruit are quite similar to a Water Melon and they are easily grown on any good soil. The flesh is white, solid throughout, and of excellent quality for making pies, sauce, preserves, etc., and it resembles apples in flavor. They keep nice and fresh all Winter. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 30c.; $\frac{1}{2}$ lb. 50c.; lb. 90c.; postpaid.

Citron Melons FOR PRESERVES

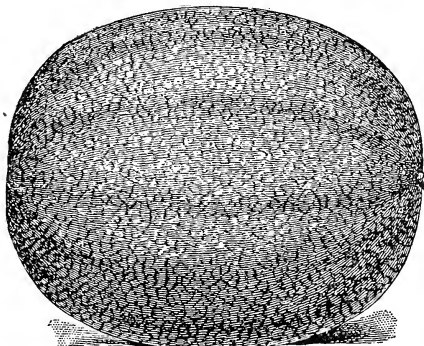

Red Seeded. Used exclusively for preserves. Slightly striped, round. Extremely productive, splendid flavor. Pkt. 3c.; oz. 5c.; 2 oz. 9c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 45c.;

Green Seeded. The best of the Citrons; makes beautiful preserves of unsurpassed flavor. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; lb. 60c.

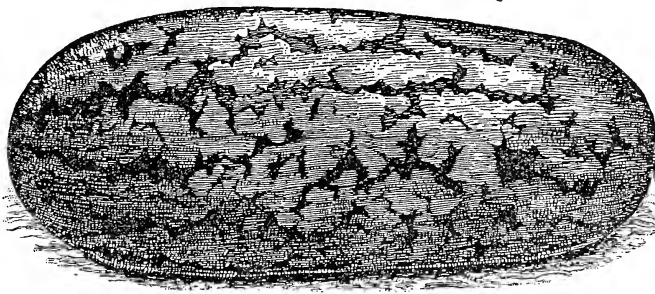

Iceberg

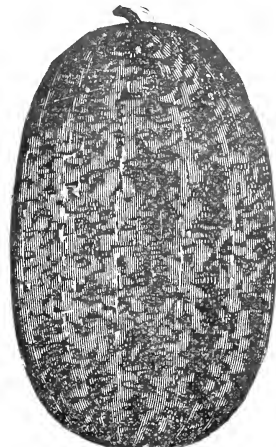

The Best Water Melons

Fordhook Early

Florida Favorite

Harris Early

Harris' Early

Sweetest, Largest and Best Shipping Early Melon. Form oval to oblong; beautifully striped with green and gray; bright red flesh, sweet, tender and delicious. Very productive. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 17c.; $\frac{1}{2}$ lb. 28c.; lb. 50c.

New Sweet Heart

Fruit large, oval, heavy, uniformly mottled, light and dark green; rind thin, but firm; flesh bright red, firm, solid, very sweet and tender. A good keeper. Pkt. 3c.; oz. 5c.; 2 oz. 9c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

Florida Favorite

Enormous size; the flesh is of a beautiful clear crimson, extending clear up to the rind, which is hard, thin and beautifully mottled. Pkt. 4c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 45c.

Fordhook Early

Nearly round variety of large size. Fine shipper. Rind thin and tough. Flesh red. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 45c.

The Mango Melon

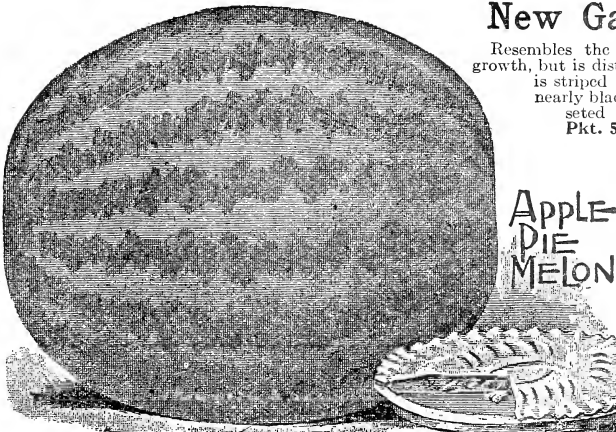

or Vegetable Peach

Fruit is about the size of an Orange, orange shaped, and a bright orange-yellow color, somewhat russeted. For sweet pickles, pies or preserving they are splendid. Pkt. 4c.; oz. 15c.

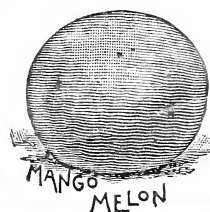

New Garden Lemon

Resembles the Vine Peach in manner of growth, but is distinct in that the unripe fruit is striped with very dark green spots, nearly black, and, when ripe, is not russeted like the Vegetable Peach. Pkt. 5c.; oz. 25c.

The Standard Red Onion. A Leading Variety North, South, East and West. Our stock is saved from carefully selected bulbs only. Color, rich, dark red. Early; a fine keeper, flavor mild and sweet. Large pkt. 4c.; oz. 8c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 23c.; $\frac{1}{2}$ lb. 45c.; lb. 80c.

EXTRA EARLY RED

Beautiful flat shaped variety of fine appearance. Very prolific. Pkt. 3c.; oz. 8c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 23c.; $\frac{1}{2}$ lb. 45c.; lb. 80c.

EXTRA EARLY PICKLING

Nothing Earlier in Onions, Splendid for Pickling. This distinct variety is the very earliest Onion in cultivation. Of a pure paper-white color, very mild and delicate in flavor, from 1 to $1\frac{1}{2}$ inches in diameter, and $\frac{3}{4}$ of an inch in thickness. Its extreme earliness makes it very valuable for early table use as well as bunch Onions for market. Pkt. 4c.; oz. 15c.; 2 oz. 28c.; $\frac{1}{4}$ lb. 50c.; $\frac{1}{2}$ lb. 90c.; lb. \$1.75.

Extra Early Pickling

NEW WHITE SILVERSKIN

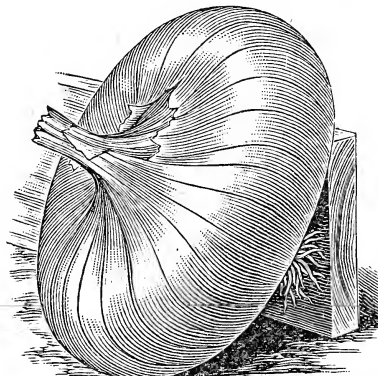

The Best White Onion. This is the standard white variety for general culture. The bulbs grow to good size, ripening early and quite evenly. It is a good keeper. The flesh is mild and sweet, the skin a silvery white. Large pkt. 4c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 65c.; lb. \$1.25.

Southport Golden Yellow Globe

Thin, pale yellow skin; flesh firm, white and mild. Good cropper in all localities. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 45c.; lb. 80c.

EXTRA EARLY NEW QUEEN

A silver skinned variety of quick growth and remarkable keeping qualities. If sown in early Spring it will produce Onions 1 to 2 inches in diameter early in Summer; particularly valuable for pickles. Pkt. 3c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 65c.; lb. \$1.25.

New White Silverskin

POWHATTAN

The Best Globe Danvers Ever Grown. Sure Cropper, Long Keeper, Unequalled Shipper. The most perfect type of the globe-shaped Onion ever offered. It ripens early, has a very small neck, the entire crop maturing at one time. It is an immense cropper, and will yield more marketable Onions to the acre than any other strain. Many of our customers have reported yields of 1,000 bushels per acre. Choicest Northern grown high-grade Pedigree stock seed, pkt. 5c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 45c.; $\frac{1}{2}$ lb. 85c.; lb. \$1.65.

ROUND OR YELLOW FLAT DANVERS

Ideal in every respect for market purposes. Skin is thin, of a rich straw color; flesh is pearly white, fine grained, firm, mild and of excellent quality. Ripens exceedingly early, keeps well. Pedigree stock seed, pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 22c.; $\frac{1}{2}$ lb. 40c.; lb. 70c.

SOUTHPORT RED GLOBE

Skin deep purplish red; flesh white and solid. Fine keeper and shipper. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 28c.; $\frac{1}{2}$ lb. 50c.; lb. 90c.

SOUTHPORT WHITE GLOBE

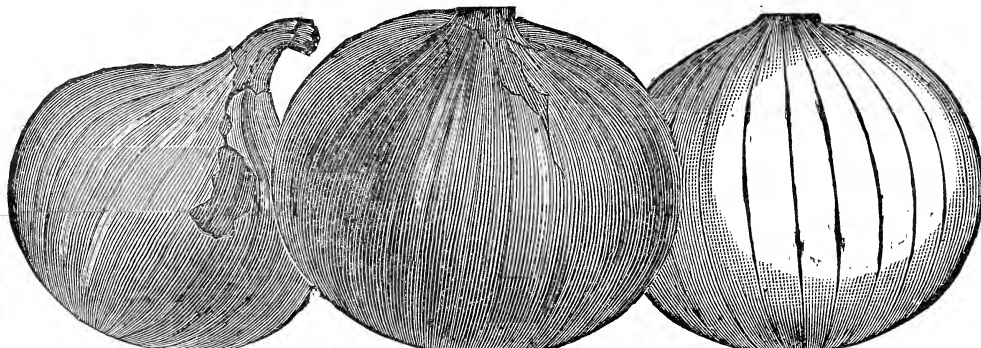

Of vigorous growth, producing large, white Onions of fine, mild quality. Excellent keeper. Pkt. 4c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 65c.; lb. \$1.25.

EARLY WHITE WELSH

For Green Onions. This kind does not form a bulb, but is one of the best kinds for "green Onions." The plants are perennials and can remain in the ground for years. Pkt. 4c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 45c.; $\frac{1}{2}$ lb. 80c.; lb. \$1.50.

Early White Welsh

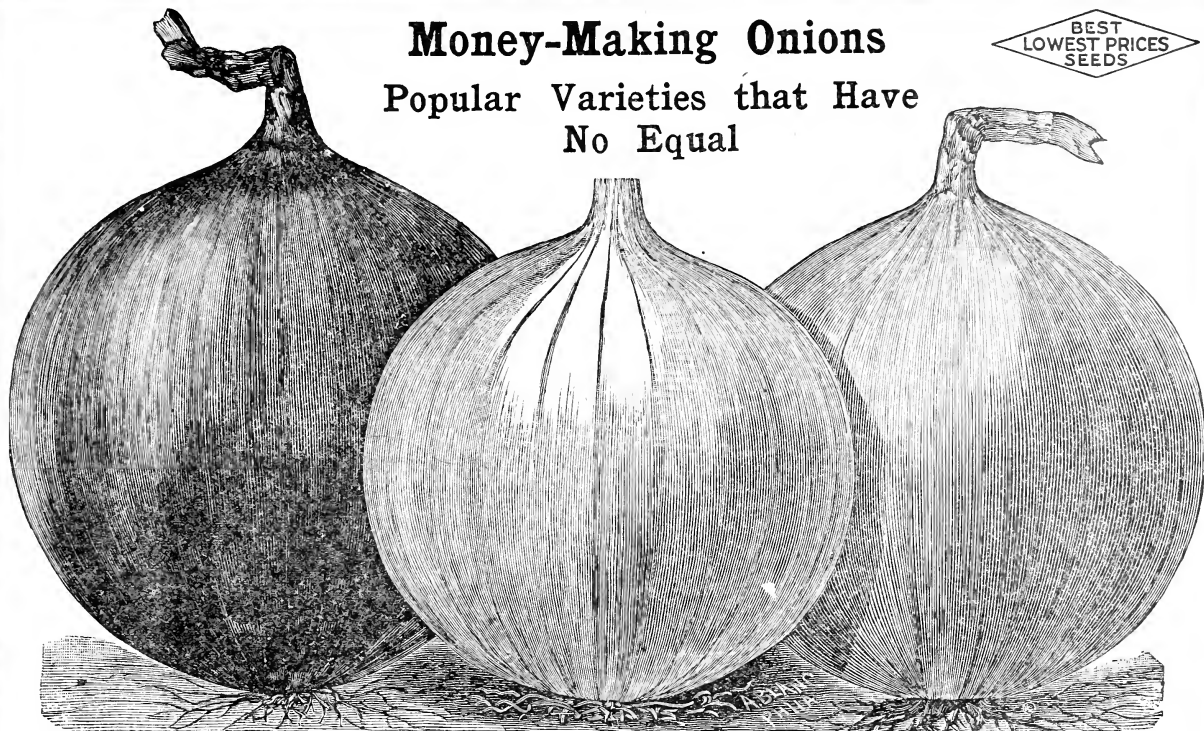

Southport Yellow Globe

Round, or Yellow Flat Danvers

Southport White Globe

Money-Making Onions

Popular Varieties that Have No Equal

Illinois Blood-Red Globe

Ideal White Globe

Illinois Golden Globe

Illinois Blood-Red Globe

The celebrated Blood-Red Globe Onion. One of the most profitable for the market and shipping trade. It is of large size and splendid appearance, and frequently yields from 600 to 800 bushels per acre under average cultivation. It is an Onion of unusual merit. Flesh is firm, finely grained, very rich, yet unusually mild for a red Onion, and is sure to please the most fastidious. The crop is ready to harvest in early Fall, and keeps well until the late spring months. Pkt. 4c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 45c.; $\frac{1}{2}$ lb. 80c.; lb. \$1.50.

Illinois Golden Globe

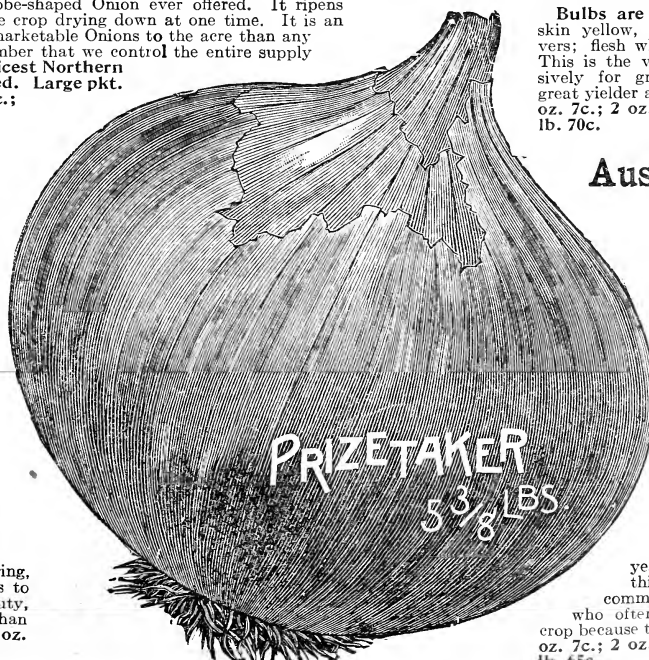

The most perfect type of the globe-shaped Onion ever offered. It ripens early, has a very small neck, the entire crop drying down at one time. It is an immense cropper, and will yield more marketable Onions to the acre than any strain we are acquainted with. Remember that we control the entire supply of this variety. Our own growth choicest Northern grown, high grade pedigree stock seed. Large pkt. 4c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 40c.; $\frac{1}{2}$ lb. 75c.; lb. \$1.40.

New Genuine Prizetaker

The King of All Yellow Onions

Sure Cropper, Big Yielder

The Prizetaker Onion has proved itself to be the greatest acquisition in years. It succeeds everywhere—East, West, North and South—and whether grown for home use or for marketing it gives universal satisfaction, yielding Onions often 14 inches around and at the rate of 1,200 to 1,500 bushels per acre. Its immense size will recommend it to all, particularly when it is known that its keeping qualities are unexcelled. The exterior color is pale yellow, and the interior clear, sparkling white. Easily grown, medium early in maturing, mild flavor. In market it never fails to attract attention on account of its beauty, and is sure to bring a far better price than any other Onion. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 30c.; $\frac{1}{2}$ lb. 50c.; lb. 95c.

Ideal White Globe

This is the handsomest of all Onions. It is of true globe form, pure white, hard, small necked, ripening regularly and evenly; a splendid keeper. The flesh is firm and fine grained, and mild to taste. Average yields of 500 to 700 bushels per acre are of frequent occurrence. No market gardener or onion grower can afford to plant inferior stock, with only cheapness of price to recommend it, when seed like ours is to be had so reasonable, the results of planting a few ounces often paying many times the first cost of the best seed. Pkt. 5c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 45c.; $\frac{1}{2}$ lb. 85c.; lb. \$1.00.

Selected Yellow Strasburg, or Dutch

Bulbs are quite flat and of good size, skin yellow, of darker color than the Danvers; flesh white, of mild flavor; keeps well. This is the variety that is used most extensively for growing yellow Onion Sets. A great yielder and a splendid keeper. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 22c.; $\frac{1}{2}$ lb. 40c.; lb. 70c.

Australian Brown

EXTRA EARLY
LONGEST KEEPER

Hardest of All. Sure Cropper. Abundantly Productive. Very Fine Quality. This remarkable Onion is of medium size, wonderfully hard and solid and most attractive for market, both in form and appearance. They are extremely early in ripening and make no stiff necks or scallions. It will keep in good condition longer than any other Onion known. The color of the skin is a clear amber-brown. These Onions have been known to keep nearly a whole year in good condition and on this and other accounts it will commend itself to Onion Set grower who often lose heavily in carrying their crop because the sets do not "keep." Pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 20c.; $\frac{1}{2}$ lb. 35c.; lb. 65c.

Mammoth Silver King

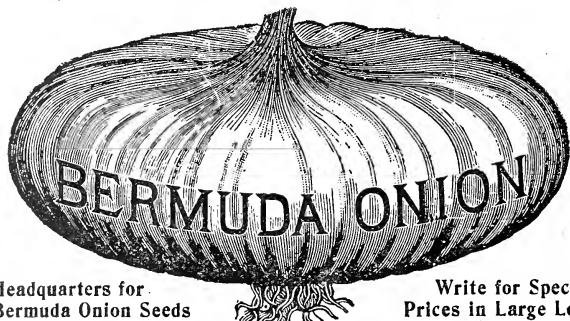

The King of White Onions

The largest white Onion—grows to a remarkable size. The bulbs are of attractive form, flattened, but thick through. The average diameter of the Onion is from five to seven and one-half inches, thus making the circumference from fifteen to twenty-two inches. Single bulbs often attain weights of from two and one-half to four pounds each. The skin is of a beautiful silvery white; the flesh is of a snowy white, and of a particularly mild and pleasant flavor. So sweet and tender is the flesh that it can be eaten like an apple. Matures early, and is of large size and perfect form. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 35c.; $\frac{1}{2}$ lb. 65c.; lb. \$1.25.

New Creole

Popular Southern Variety

Grown in preference to other varieties in the South. The Creole or Louisiana Onion shape is a medium flat globe of a dark straw color. The flesh is a beautiful white, of excellent flavor. Is in the market early, and the supply has never yet equaled the demand for this favorite vegetable. The best Onion for Southern markets. Pedigreed stock seed, pkt. 5c.; oz. 20c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 60c.

Headquarters for
Bermuda Onion Seeds

Write for Special
Prices in Large Lots

Genuine Teneriffe Grown

These Onions grow to an immense size and are of a beautiful form. The skin is very thin, flesh white, fine grained, of mild and pleasant flavor. It will grow an Onion from one to one and one-half pounds from seed; very early and profitable.

White Bermuda

These are the immense onions which are not only grown in Bermuda to a great extent, but they are also popular in all our Southern States along the Gulf Coast. They are excellent for slicing, being of a very mild and sweet flavor, and desirable for the home garden. Pkt. 5c.; oz. 15c.; 2 oz. 28c.; $\frac{1}{4}$ lb. 50c.

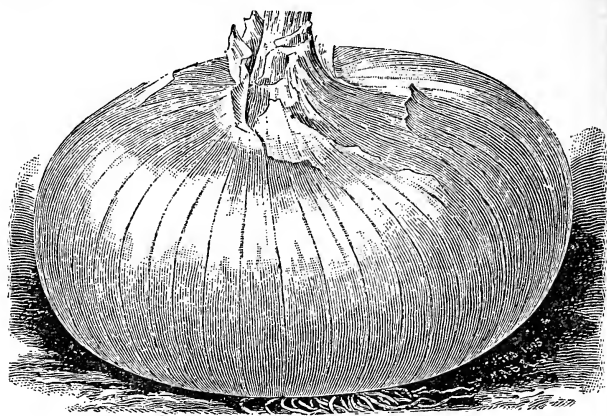

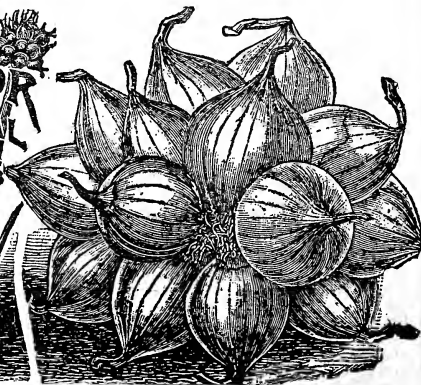

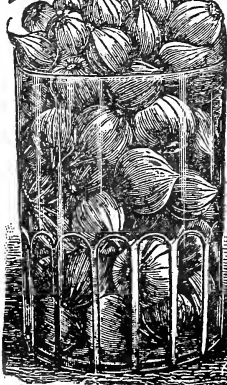

Red Bermuda

This is an early pale red onion, of the same general character as the White Bermuda, except in color. Grown extensively for shipping to Northern markets. Pkt. 5c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ lb. 45c.

New Crystal White Wax

This is the large white flat onion that has become so very popular in the last few years in parts of the South, especially in Texas. As a rule, there is not enough seed to go round. It is very early and of extremely mild and sweet flavor. Makes an excellent shipping onion, and does well both North and South. Pkt. 5c.; oz. 18c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 65c.

BOTTOM ONION SETS

Mammoth Silver King Onion

Northern Grown Onion Sets

Bottom Onion Sets are simply little wee Onions grown from the black seed planted late and thick. They are about as big as the end of your finger, and when set out in the spring they come quick and make nice green Onions for bunching, or if left will bottom down and make big Onions like the ones from seed only lots earlier. We can furnish them in red, yellow or white at the following low prices:

Choicest White Bottom. Postaid, pt. 12c.; qt. 20c.

Choicest Red Bottom. Postpaid, pt. 12c.; qt. 20c.

Choicest Yellow Bottom. Postpaid, pt. 12c.; qt. 20c.

Top or Button Sets. Summer variety of exceptional merit.

These are planted to produce both early green Onions and large eating Onions. This variety increases by producing sets at the top of the stalks and does not produce seed. By far the most superior variety. They are the best Onions to eat, will yield at least one third more and ripen much earlier than other Onions. It is the best keeper that we know of, having kept perfectly solid for over a year. We advise you to order early, as our stock is sure to be exhausted before the season is over. Give this variety a trial. Postpaid, pt. 22c.; qt. 40c.

Egyptian or Perennial Tree Sets. This variety never forms a large bulb. Immensely productive and perfectly hardy. Being Perennial, they will, if left in the ground, continue growing for an indefinite time, increasing both from the bottom and from sets produced from the top of the stalks. Especially adapted for producing green Onions for spring or fall use. Postpaid, pt. 15c.; qt. 25c.

YELLOW POTATO ONION SETS. Make large reddish-brown onions of mild flavor, excellent cooking qualities. Never makes seed, but divides up from the root; the smallest sets produce one to two large onions; medium-sized sets produce as many as twelve medium to small sets, the larger sets make as many as twenty small sets in a hill. This is the most popular onion among Southern growers for both home use and market. Postpaid, pt. 20c.; qt. 35c.

Shallots, or Yellow Multipliers. Often preferred on account of their earliness. Late in June they are fully ripe, and can be gathered. They are very productive, five to fifteen bulbs growing from one bulb set out. Pt. 20c.; qt. 35c.

Multiplier Onion Sets multiply by division of the parent bulb and are not grown from seed.

For Prices on Onion Sets in Bulk

See Red Price List

Okra, or Gumbo

Improved White Velvet
Standard sort. Popular everywhere. Pods are round and smooth, larger than those of any other sort, never prickly to the touch. Produced in great abundance. The seed pods are used while they are very small, tender and succulent, for soups and stews. Pkt. 2c.; oz. 5c.; ¼ lb. 12c.; ½ lb. 20c.; lb. 30c.

New Pineapple Pie Plant

Pie Plant or Rhubarb Seed

Rockford Market. Very productive. Fine large size and very early. Has a fine flavor similar to the Gooseberry. Without doubt the finest variety in existence. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

New Pineapple. Without doubt this is the earliest of all Pie Plant and a variety that can be used not only in the early Spring but Summer as well. The very best of the Giant Everbearing Varieties. Quality simply superb. Stalks of good size, soft and watery. Skin so thin and tender that it is not necessary to remove it before cooking. Flavor sprightly and refreshing and has the true Pineapple flavor. **Choicest Seed.** Large pkt. 10c.; oz. 15c.; 2 oz. 25c.; ¼ lb. 45c.; ½ lb. 80c.; lb. \$1.50.

Pie Plant Roots

A saving of from two to three years is made by planting the roots. We have well established roots of fine size and excellent quality.

NEW PINEAPPLE. Price by mail, postpaid, 25c. each; \$2.50 per doz. By Express or Freight, not prepaid, 20c. each; \$2.00 per doz.; \$15.00 per 100.

ROCKFORD MARKET. Price by mail, postpaid, 15c. each; \$1.50 per doz. By Express or Freight, not prepaid, 12c. each; \$1.15 per doz.; \$7.50 per 100.

Parsnips

While highly appreciated for the table the great value of the parsnip for stock feeding is but little known. The roots are very rich in saccharine food, adding to the richness of the milk when freshly dug and fed to cows.

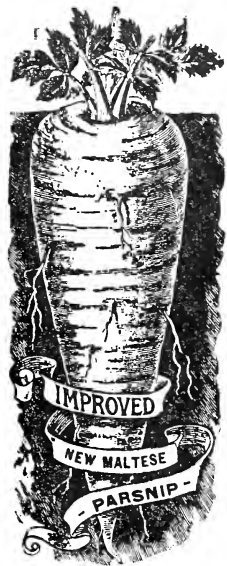

Hollow Crown or Long White

Roots comparatively short, ending somewhat abruptly with a small tap root; grows mostly below the surface; has a very smooth clean skin, easily distinguished by the leaves arising from a depression on top or crown of the root. Pkt. 3c.; oz. 5c.; 2 oz. 8c.; ¼ lb. 12c.; ½ lb. 22c.; lb. 40c.

New Maltese

An improved strain, which has given general satisfaction. The roots do not grow so long as those of the Hollow Crown, but are of greater diameter and more easily gathered. Of excellent quality. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 70c.

For the Children's Gardens. See
First Inside Cover and Page 1.

Early, Large and Most Prolific

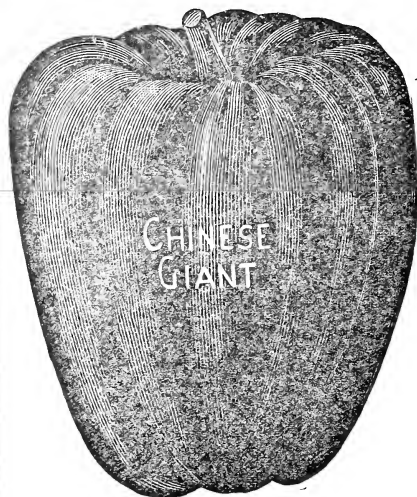

The Mammoth Virginia Peanut is the most profitable variety to grow, and is more desirable than the common spreading kind, because more easily cultivated; very erect stems and upright foliage; always yields fewer imperfect pods; the vines make valuable forage for stock. Plant in April and they will ripen before September, even as far North as Canada. Hundreds of our young friends have written us that they have had a wonderful crop the past season. Choice Seed, pkt. 5c.; ¼ lb. 10c.; ½ lb. 15c.; lb. 25c.; 5 lbs. \$1.00, postpaid.

New Dixie Giant Peanut

This is the JUMBO of the Peanut family and owing to the very large size and handsome appearance are very desirable in every market at fancy prices. The pods fill out well, forming few if any pops. Price, large pkt. 5c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 45c.

Spanish Peanut

The earliest variety grown, pods are small but remarkably solid and well filled with nuts of very fine quality. Pkt. 5c.; ¼ lb. 12c.; ½ lb. 20c.; lb. 35c.

The New Mango Pepper Chinese Giant

Double the size of Ruby King, this is the largest and finest mild Red Pepper. Its enormous size and magnificent appearance make it sell more readily. The plant is vigorous in growth, but of stocky habit, seldom more than two feet in height. They are well branched and thickly covered with enormous fruit. The Mammoth Peppers are of thick, blocky form and of most brilliant glossy scarlet; they grow 4 or 5 inches broad at the top and are about the same length. Large pkt. 5c.; oz. 20c.; 2 oz. 38c.; $\frac{1}{4}$ lb. 70c.

The Red Hot Pepper

Improved Long Red Cayenne

Indispensable variety; in use everywhere. Pods small, cone-shaped; scarlet-red when ripe. Strong and pungent. Large pkt. 3c.; oz. 12c.; 2 oz. 22c.; $\frac{1}{4}$ lb. 40c.

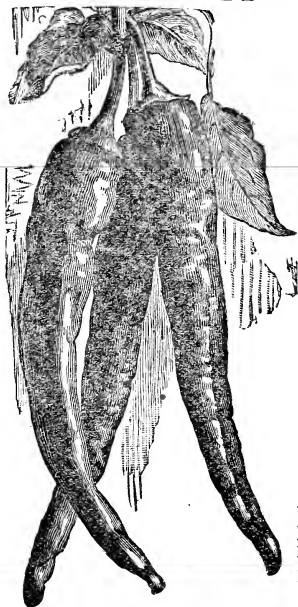

New Tomato Peppers

This unique Pepper is new, true and distinct and entirely novel. Plants grow only one foot high. Fruit the size and shape of a small Tomato which it closely resembles in all respects. We offer the two best varieties and distinct colors.

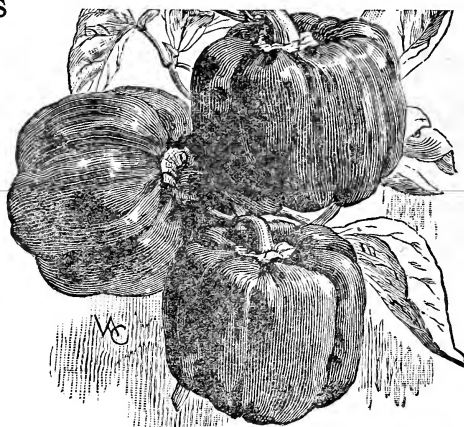

New Ruby Red. Pkt. 5c.
New Golden Yellow. Pkt. 5c.

The Best Peppers

The Red Hot Pepper

Pepper, Improved Sweet Mountain

Improved Sweet Mountain

Plants very vigorous and productive. Fruit large, round, very smooth and handsome, being, when green, of a bright, deep green color, entirely free from any purple tinge, and when mature of a rich red. Flesh very thick, sweet and mild flavored. Well suited to use for stuffed pickles or mangoes. Pkt. 4c.; oz. 15c.; 2 oz. 28c.; $\frac{1}{4}$ lb. 50c.

New Ruby King

Popular, large fruited variety of great merit. Flesh very thick, sweet and so mild that it is often eaten sliced as a salad. Pkt. 4c.; oz. 15c.; 2 oz. 28c.; $\frac{1}{4}$ lb. 50c.

Large Bell or Bull Nose

Of good size; very dark red color when ripe. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; $\frac{1}{4}$ lb. 40c.

Celestial

Beautiful ornamental variety. Fruits are small and very hot. Pkt. 4c.; oz. 15c.

Coral Gem Bouquet

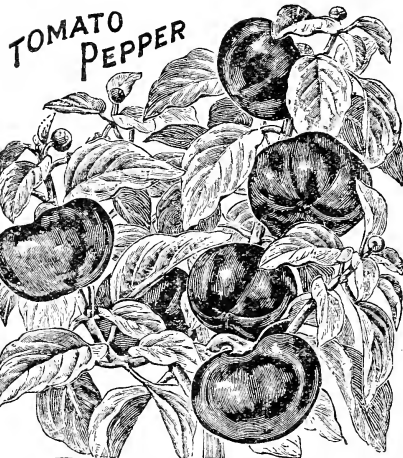

Plant tall, bearing a profusion of round, bright red fruit which is very pungent when ripe. The plant, when in fruit, is very ornamental. Pkt. 5c.; oz. 30c.

Golden Dawn, or Queen

Quite dwarf, but very prolific. Fruit medium size, of inverted bell shape, rich golden yellow color, very thick, sweet, mild-flavored flesh. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; $\frac{1}{4}$ lb. 40c.

Fine Mixed

Comprises all the well known and standard Peppers as well as most of the novelties and less common sorts. Pkt. 4c.; oz. 20c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 65c.

THE BEST PEAS

New Bountiful Pea The Earliest Pea in the World

Superior cropper. Unequaled shipper. Handsome appearance.

Where earliness, productiveness, large sized pods and sweetness of flavor are desired, this is the variety to grow. It may be truly called **Blooded Stock Of Them All**. Finest Early Pea, and stands at the head for the above fine qualities; in a favorable season ready for market in 40 days. The entire crop can be taken off in two pickings. Large pkt. 7c.; $\frac{1}{2}$ pt. 15c.; pt. 25c.; qt. 40c.

LITTLE
MARVEL

Little Marvel Pea A NEW, POPULAR FAVORITE OF STERLING MERIT

If you desire a fine early crop of the choicest quality of **Sugar Wrinkled Peas**, you will be delighted with Little Marvel. They are ready for the table fully as early as **American Wonder** or **Nott's Excelsior**, while the pods are larger and the vines produce a much heavier crop. Pkt. 7c.; $\frac{1}{2}$ pt. 15c.; pt. 25c.; qt. 40c.

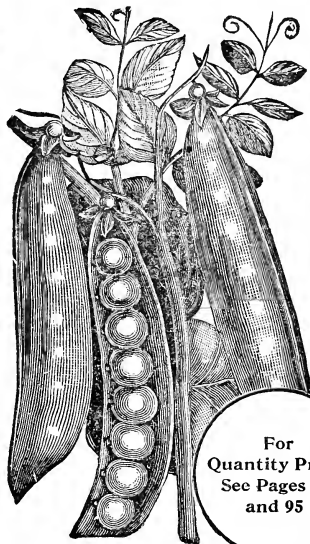

New Perpetual Everbearing Pea SEE FRONT COVER.

THE BEST PEAS

Great Northern First and Best

Earliest of All, or Alaska

EARLY MORN PEAS

The Earliest and Best Flavored Peas Ever Grown

There are few varieties of Seed that are better named than this Pea. Nothing more nearly expresses its one remarkable characteristic than its name. This wonderful variety will produce pods of the extraordinary length of 7 inches closely packed with large dark green Peas of finest flavor. Has always taken first prize wherever shown. Plant is of branching habit, growing about 6 feet high with dark green foliage. Very vigorous and of robust constitution, which enables it to withstand drought and mildew. Pods are produced in profusion mostly in pairs. Cannot be excelled as an exhibition sort on account of its striking and very attractive appearance, and will be in great demand where there is a call for a Pea of robust habit, fine quality and hardy constitution. Market Gardeners who have never tried this new Pea should give it a trial. There are thousands of our customers who will be delighted to show their friends such enormous pods of Peas—the largest and finest ever seen.

Postpaid, Pkt. 8c.; ½ pt. 15c.; pt. 22c.; qt. 40c.

Great Northern First and Best

By most careful comparison we are convinced that this is the earliest

and most even stock of White Extra Early Peas in existence, maturing so well together that a single picking will secure the entire crop. Vines vigorous and hardy, 2 to 2½ feet high, unbranched, bearing 3 to 7 straight pods, having 5 to 7 medium sized, smooth Peas of good quality. Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 35c.

McLean's Little Gem

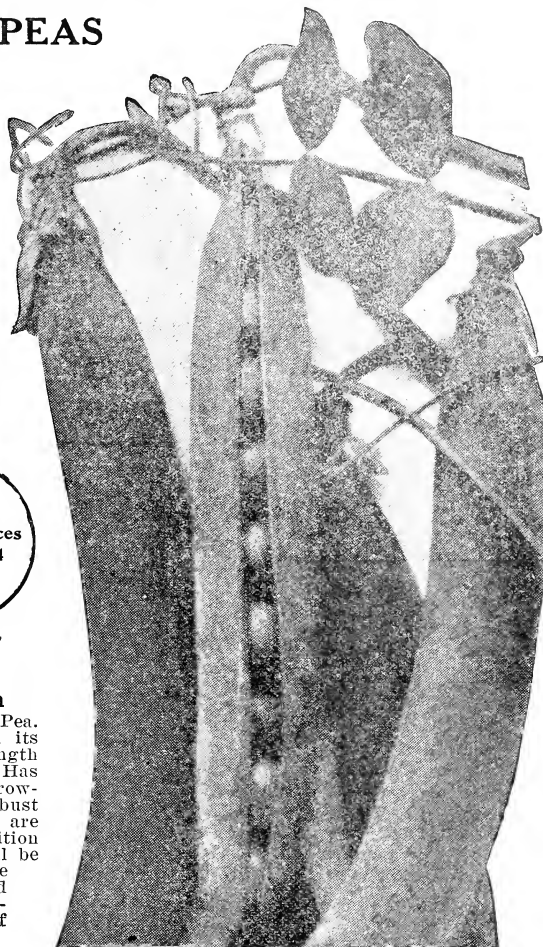

Best Dwarf Early Pea

Earliest wrinkled Pea in existence. A very luxuriant grower, that withstands dry spells better than almost any known sort. Vines attain a height of 17 inches and require no sticking. Wonderfully prolific; pods are from 2½ to 3 inches long and always well filled. Pkt. 7c.; ½ pt. 12c.; pt. 20c.; qt. 38c.

Earliest of All, or Alaska

By careful selection and growing we have developed a stock of this smooth, blue Pea which in evenness of growth of vine and early maturity of pods is unequalled by any other extra early Pea. Vines 2 to 2½ feet high, are unbranched, bearing 4 to 7 long pods, which are filled with medium sized, dark green Peas of excellent flavor. Has always maintained the highest reputation with gardeners for productiveness and fine quality, and it is the perfection in Peas, both for earliness and uniform habit in growth. One of its great features is that the crop is almost ready for the market at once, and the whole crop can be harvested in one or two pickings.

Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 30c.

Early Morn Peas

American Wonder

The Standard American Early Pea.

This is a grand, blue, dwarf wrinkled Pea. Extremely early; from 10 to 17 inches high; literally fills itself with large pods, which ripen very evenly in 45 to 50 days. This variety should be grown in every garden. Of dwarf habit, it requires no sticking, bears more than taller sorts. Pkt. 6c.; ½ pt. 12c.; pt. 22c.; qt. 40c.

Nott's New Excelsior

It combines to a wonderful degree the good qualities of American Wonder and Vines are larger and more vigorous than American Wonder; earlier and more prolific than Premium Gem. The Peas in sweetness and quality are unsurpassed; a most desirable sort for the market gardener and the best of all for the home garden. Pkt. 7c.; ½ pt. 12c.; pt. 22c.; qt. 40c.

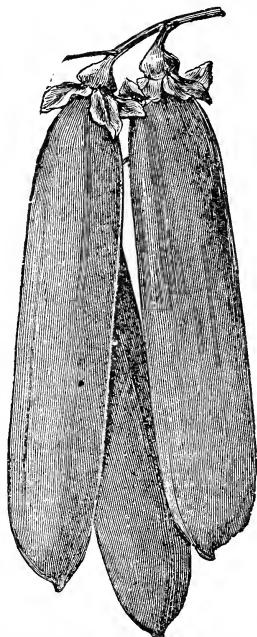

Extra Early Philadelphia

A very valuable and improved strain of the famous Philadelphia, Extra Early; ready for table use in 45 days; grows about two feet high. Pkt. 6c.; ½ pt. 10c.; pt. 16c.; qt. 30c.

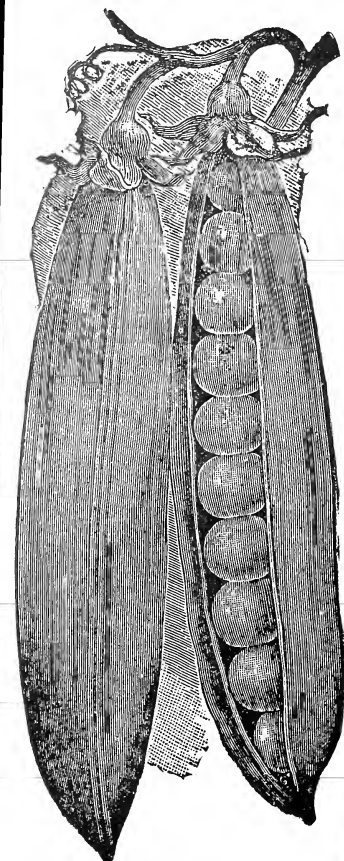

New Maud S

A new and immensely popular extra early variety, growing about thirty inches high; wonderfully productive, pods are of fine size and always well filled; noted for its uniformity of ripening, making it one of the most valuable Peas for market use. One of the very best for family purposes. Pkt. 6c.; ½ pt. 10c.; pt. 18c.; qt. 30c.

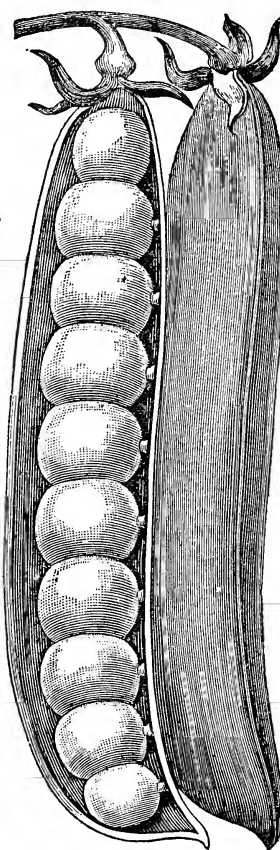

J. F. Heurteur, Box 183, Idlewood, N. J., writes: "I would like to let you know that all the Seeds I bought from you last year were perfectly satisfactory and better than I ever had from any other Seed House before."

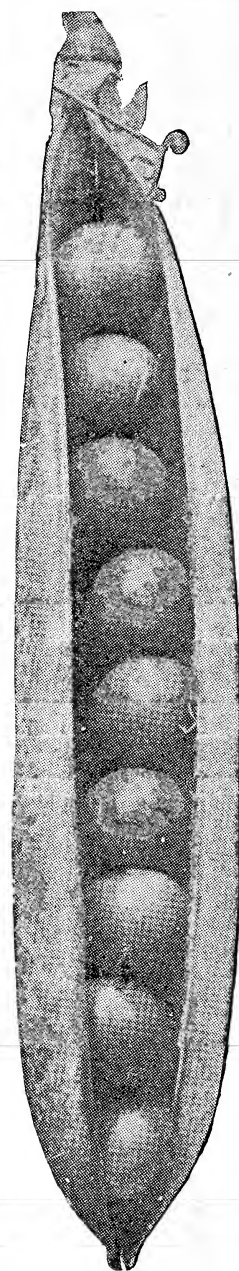

Nott's New Excelsior

New Early Prosperity, or Gradus

Grant's Favorite

THE BEST PEAS

New Early Prosperity, or Gradus

The New Extra Early Wrinkled Pea. The immense pods are as large as those of the Telephone, uniformly well shaped and handsome, and more attractive than those of the First Earlies. They ripen slowly and continue fit for use much longer than most varieties, making this by far the most desirable sort for the home garden. The Peas are very large, of splendid quality and beautiful color, which they retain after cooking. This variety is practically the same as what is being offered as "Prosperity." We have taken great pains to secure true stock and have it well grown, so we are sure that everyone who purchases our seed will be pleased with this variety. Pkt. 7c.; $\frac{1}{2}$ pt. 12c.; pt. 22c.; qt. 40c.

Improved Stratagem

The Best Pea for Main Crop. By constant effort we have succeeded in producing a stock of this, the best of its class, which always comes true, and we pronounce it the best of the large podded sorts. Pods of large size, always filled with large dark green Peas of finest quality. Pkt. 7c.; $\frac{1}{2}$ pt. 12c.; pt. 22c.; qt. 38c.

Grant's Favorite

Most Popular, Large Podded, Late Pea. This new variety is unquestionably the finest medium and late Pea ever offered, coming into use just after the early varieties are through bearing. This trait alone makes it an exceptionally valuable sort. The pods are always well filled with exceptionally sweet and highly flavored Peas. Pkt. 6c.; $\frac{1}{2}$ pt. 12c.; pt. 22c.; qt. 40c.

Improved Champion of England

Universally admitted to be one of the richest and best flavored Peas and very productive. Height 4 to 5 feet. We consider this variety equal in quality to any in cultivation. Pkt. 6c.; $\frac{1}{2}$ pt. 10c.; pt. 18c.; qt. 35c.

Luscious Melting Sugar

The Pea that Fairly Melts in Your Mouth. This variety is far superior to all others of the edible podded class of garden Peas, not only in size of pod, but also in delicious quality, in which the large, sweet, brittle and succulent pods have none of the tough inner lining found in so many of the ordinary varieties of garden Peas. Pkt. 7c.; $\frac{1}{2}$ pt. 12c.; pt. 22c.; qt. 40c.

Dwarf Telephone, or Daisy

This is a dwarf variety of stocky habit, bearing large, handsome pods like Telephone, but without long vines, and grows more dwarf than Stratagem; healthy, vigorous and very productive. In season, medium, from 5 to 7 days earlier than Stratagem. The pods frequently measure 5 inches in length, broad, rounded or curved at the end, remarkably well filled. Pkt. 7c.; $\frac{1}{2}$ pt. 12c.; pt. 20c.; qt. 38c.

Thomas Laxton

A comparatively new variety of large-podded Pea. The quality is delicious and cannot be surpassed; matures nearly as early as any of the extra early smooth Peas, and being a wrinkled sort is much sweeter. Postpaid, pkt. 7c.; $\frac{1}{2}$ pt. 12c.; pt. 22c.; qt. 40c.

Large White Marrowfat

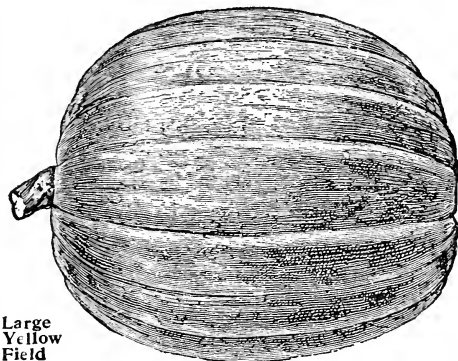

An excellent variety, growing about 48 in. high. Pods large; prolific; recommended as one of the best of Marrowfats. Nearly all prosperous and economical farmers prize this variety very highly for sowing with Oats for feeding to stock. It is excellent to fatten hogs and other stock when Peas commence to harden. Sow two bushels per acre with Oats. Pkt. 5c.; $\frac{1}{2}$ pt. 8c.; pt. 15c.; qt. 28c.

New Mammoth Podded Sugar Marrowfat

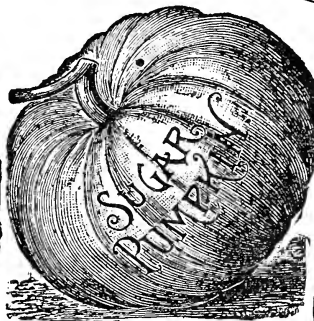

A Superior Variety for General or Late Crop. For delicious sugary flavor this wonderful Pea surpasses them all. Outyields any known sort. Pods 5 to 6 inches long completely filled with superlative quality Peas. Pkt. 6c.; $\frac{1}{2}$ pt. 10c.; pt. 18c.; qt. 35c.

Yellow
Field

True Sugar Pie

KING OF THE MAMMOTHS

Prize Winner Everywhere. Most Profitable Variety That Can Be Grown. Wonderfully grand and colossal variety. Think of it—a single Pumpkin weighing 469 pounds. It is one of the best pie and table varieties grown. A splendid keeper and exceptionally valuable for feeding purposes. Large pkt. 5c.; oz. 10c.; 2 oz. 18c.; $\frac{1}{4}$ lb. 30c.; $\frac{1}{2}$ lb. 55c.; lb. \$1.00.

SUGAR OR PIE

A small Pumpkin about 12 inches in diameter, round flattened, skin orange, flesh deep yellow, fine grained and very sweet. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 18c.; $\frac{1}{2}$ lb. 30c.; lb. 50c.

NEW JAPANESE PIE

The seeds are distinct in appearance, being curiously sculptured in the same manner as Japanese letters. It is a very productive variety, the Pumpkins ripen early, of medium size, good keepers and weigh 15 to 20 lbs. each. The flesh is a rich salmon, unusually fine grained and when cooked or stewed is almost as dry and mealy as a sweet potato. For making pies, custard, etc., they certainly have no equal. Large Pkt. 4c.; oz. 7c.; 2 oz. 12c.; $\frac{1}{4}$ lb. 20c.

BIG TOM OR YANKEE PIE

A splendid Pumpkin, medium size, of delightful quality to make excellent pies; such good old-fashioned Pumpkin pies as "mother used to make." Extremely early, remarkably prolific, yielding 6 to 12 Pumpkins to a vine; flesh very thick, fine grained, sweet, sugary. Oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 20c.; lb. 35c.

LARGE CHEESE

Popular for pies and table use; large, flat round; creamy yellow skin; thick orange flesh of fine quality Pkt. 3c.; oz. 5c.; 2 oz. 9c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 45c.

LARGE YELLOW FIELD

A productive, large, orange colored field Pumpkin, usually grown for stock feeding, but also fine for pies. Oz. 5c.; 2 oz. 8c.; $\frac{1}{4}$ lb. 12c.; $\frac{1}{2}$ lb. 20c.; lb. 35c.

Tennessee Sweet Potato

The Best Radishes

NEW ROSY GEM

One of the Handsomest Turnip Radishes
One of the handsomest Turnip Radishes, and will give entire satisfaction where extreme earliness is not the primary object. Roots slightly flattened on the under side; color very dark scarlet with a white tip; flesh white and of the best quality. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

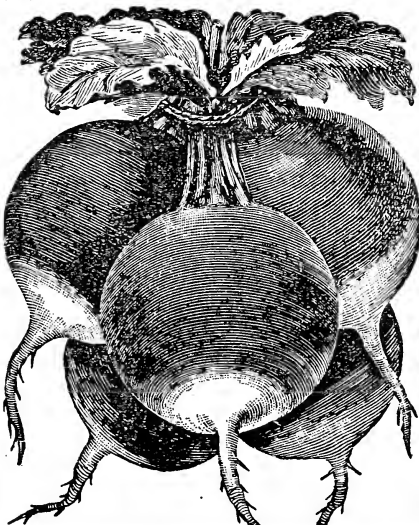

BUCKBEE'S ROCKFORD MARKET

The Best Long Early Radish

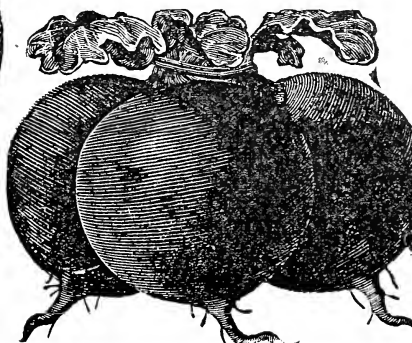

The extraordinary earliness is remarkable in view of the fact that it grows to such a fine size. The shape is regular, smooth and nearly conical, being intermediate between the half long and extra long sorts. Bright, handsome, scarlet, tipped at the end of the roots with white. Crisp, tender and juicy. Pkt. 5c.; oz. 10c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 25c.; $\frac{1}{2}$ lb. 40c.; lb. 75c.

EARLY ROUND DARK RED

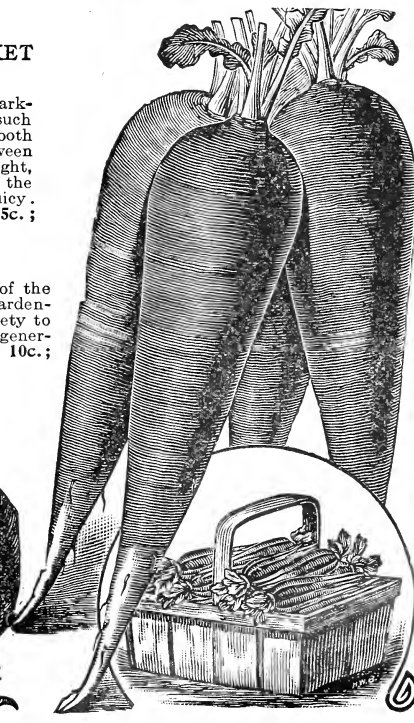

It makes very rapid growth, and is one of the sweetest and tenderest radishes. Market gardeners and private growers as well find this variety to give entire satisfaction in point of profit and general good qualities. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 40c.

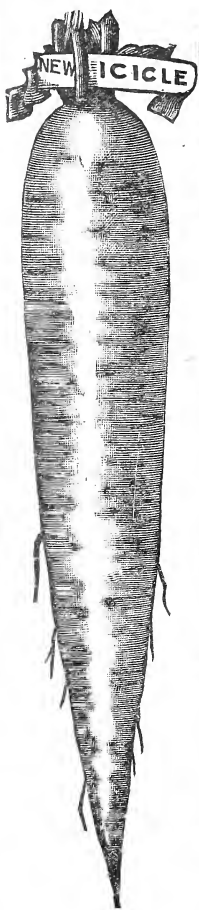

New Rosy Gem Radish

Early Round Dark Red Radish

Buckbee's Rockford Market Radish

flesh pure white. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

New Icicle. The finest long white Radish grown. Entirely distinct, long, slender, pure white. Very early; it is ready for use fully as early as the Long Scarlet. Large pkt. 4c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

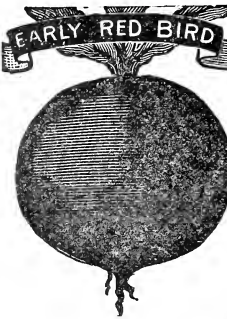

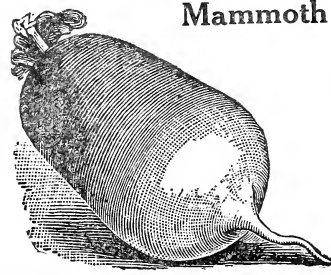

Chinese Rose. Roots cylindrical, or largest at the bottom, tapering abruptly to a small tap-root, skin smooth and of a bright rose color; flesh firm, crisp, tender and quite pungent. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

New White Lady Finger. Beautiful in shape and the skin and flesh are pure snow white. Long, crisp, brittle and of rapid growth. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Mammoth Celestial.

Most wonderful of all. Fine for use during the Fall and early Winter. Roots frequently grow 14 to 18 inches in length and 6 to 8 inches in diameter. Skin and flesh pure paper white; very tender, crisp, juicy, mild. Pkt. 5c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

Chinese Rose—Winter

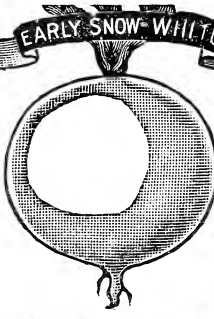

Early Red Bird. The earliest Red Radish. The quickest of all. Matures in 14 days. Quick growth is one of the main essentials for a crisp and tender Radish. The flesh is pure white, crisp and of very pleasant flavor; the skin is a most attractive bright scarlet. Large pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Early Snow White. The earliest White Radish. Without an equal. Matures in 14 days. Identical to Red Bird except in color, which is Snow White. Large pkt. 5c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

New Early Eclipse. The handsomest and best early Radish. Ready for the table 14 days after planting. Of ideal shape and size, color bright scarlet with white tip. Flesh clear white, very crisp, fine flavor. Large pkt. 5c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

Earliest White Turnip.

A favorite standard variety, of exceedingly quick growth; sweet, juicy and tender. Beautiful ivory white color; Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

French Breakfast

THE BEST RADISHES

1 Ounce for 100 Feet of Drill

Early Deep Scarlet, Olive Shaped. In the form of an olive, tapering in very slim tap root. Skin scarlet; neck small, flesh rose colored, tender and excellent. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Early White Olive Shaped. Different from the Scarlet Olive Shaped in color and a little longer. Clear white, crisp and mild flavored. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Improved Chartiers or Shepherd. Early, long red sort with white tip. Flesh white, sweet, crisp and firm. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

New Triumph. Matures in about 14 days. The roots are of globular form. The flesh is very crisp and solid and of mild, pleasing flavor. Its most attractive and distinctive feature, however, is the unique color of the skin. The ground color is beautiful ivory white, striped horizontally and splashed with bright scarlet. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Improved French Breakfast.

Medium sized, olive shaped, small top, of quick growth, very crisp and tender, of a beautiful scarlet color, except near the tip, which is pure white. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Earliest Scarlet Turnip. One of the earliest, finest, juiciest, tenderest, sweetest and best Radishes for early use grown. Rich red color; flesh white. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Mixtures

All the best sorts, shades and colors.

Earliest Radishes Mixed.

All the best early sorts in fine assortment, whites, reds, pinks, longs and shorts. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 18c.

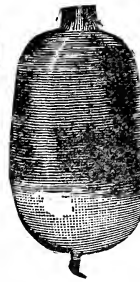

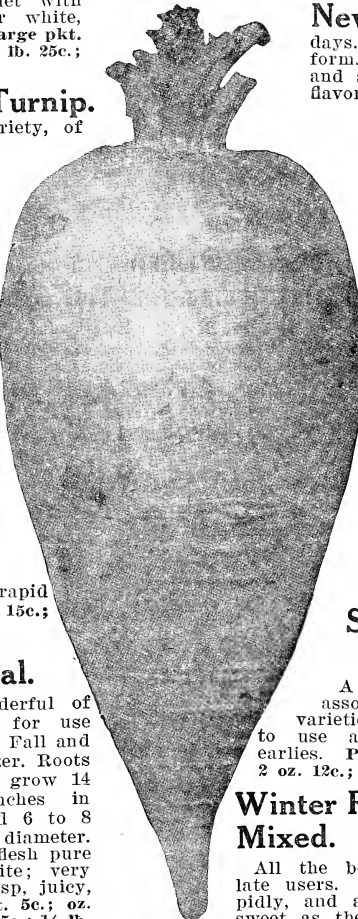

Summer Radishes Mixed.

A carefully mixed assortment of such varieties as will come to use after the extra earlies. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 18c.

Winter Radishes Mixed.

All the best varieties for late users. These grow rapidly, and are as crisp and sweet as the earliest Spring sorts. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 18c.

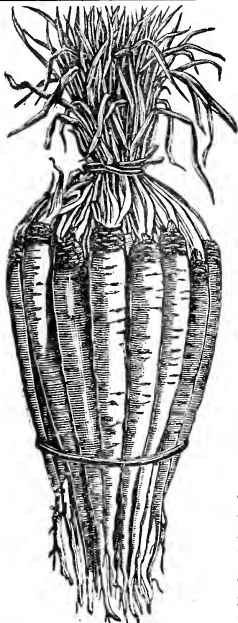

Mammoth Celestial

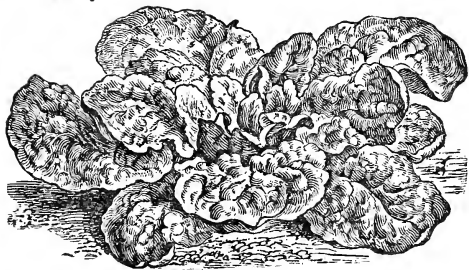

New Mammoth Salsify

Often Called
Vegetable Oyster

A truly American variety of the highest merit. Recently originated and offered by us and sprang into immediate popularity. The long, white tapering roots are of the most superior quality, exceeding by far any variety now on the market. Plant and care for it the same as Parsnips. Nothing difficult or mysterious about it. Do not leave the roots in the ground too late in the spring, as they sprout and soon deteriorate, but they may be left all winter without damage. Flavor strongly resembles that of the oyster after cooked. Our seed is limited this year and we advise early orders. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 35c.; ½ lb. 60c.; lb. \$1.00.

Salsify

Spinach—All Seasons

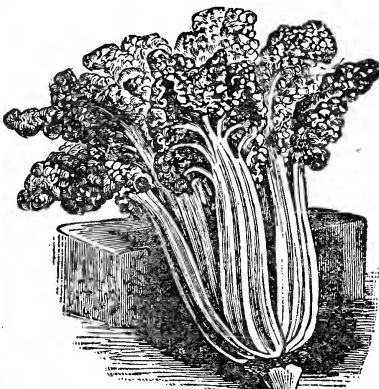

Spinach

1 ounce will plant 50 ft. rows; 4 to 5 pounds for an acre.

Improved Round Summer Broadleaf. This variety is generally preferred for early spring sowing, and is the most popular with our market gardeners. The leaves are large, thick, and fleshy; though not quite as hardy as the Prickly Winter, it stands the winter very well. Pkt. 2c.; oz. 4c.; 2 oz. 7c.; ¼ lb. 10c.; ½ lb. 18c.; lb. 30c.

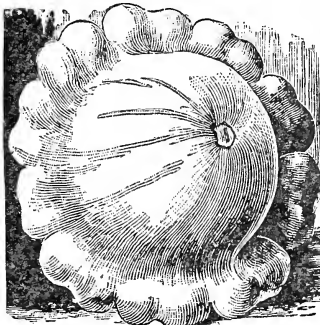

All Seasons. Matures very early and remains in condition to use long after most other sorts are gone. Pkt. 4c.; oz. 7c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Perpetual Spinach Beet A Delicious Summer Vegetable

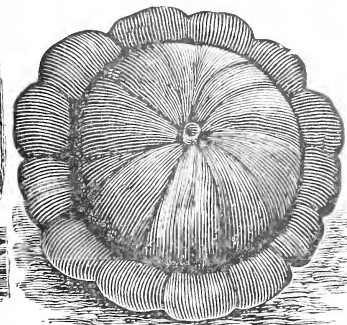

Perpetual Spinach Beet

This grand new and distinct variety is a great acquisition. The stalks are as thick and broad as rhubarb. The plants grow to a height of from 2 to 2½ feet, and the stalks are from 10 to 12 inches long below the leaf and 1½ inches broad and are delicious when cooked and should be served in the same manner as asparagus. Pkt. 5c.; oz. 12c.; 2 oz. 20c.; ¼ lb. 35c.; ½ lb. 60c.; lb. \$1.00, post-paid.

Mammoth White Bush

Golden Custard

THE BEST SQUASH

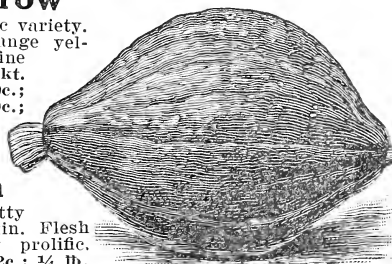

Two ounces for 50 hills. Bush varieties 5 to 6 lbs., and running varieties 3 to 4 lbs., in hills per acre.

New Golden Custard Bush

Standard Early Summer Variety. It is far superior to any Pumpkin for making pies, exceeds in size any of the other scalloped sorts, frequently being two feet in diameter. Matures extremely early; very flat and nicely scalloped; color, dark, rich, golden yellow; flesh pale yellow and finely flavored. Pkt. 4c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Boston Marrow

Very early and prolific variety. Outside color, dark orange yellow; flesh deep, fine grained and dry. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Boston Marrow

Mammoth White Bush

Often called "Patty Pan." Creamy white skin. Flesh of fine quality. Very prolific. Pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

New Giant Summer Crookneck

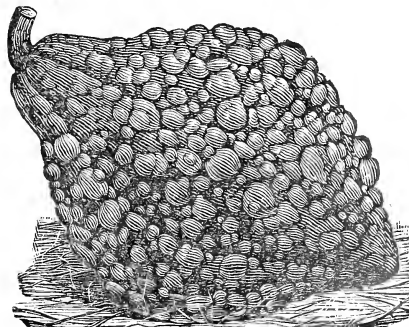

The Best Early Squash. A great favorite. Twice as large as ordinary Crookneck; is more warty and earlier. Of dwarf, bushy habit and extremely productive. Flesh creamy yellow, dry, of most agreeable flavor; one of the most esteemed of the early varieties. Our seed is saved from the finest specimens only. Large pkt. 3c.; oz. 7c.; 2 oz. 12c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

Great Northern Hubbard

The Best Late Squash for All Purposes. The Old Favorite. A superior selection of this famous variety, one of the best Winter Squashes; flesh bright orange yellow, fine grained, very dry, sweet and rich flavored; keeps throughout the winter; boils or bakes exceedingly dry and is as good baked as a Sweet Potato. Pkt. 4c.; oz. 8c.; 2 oz. 15c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c.

Perfect Gem

Wonderfully productive summer variety. Flesh fine grained and cooks dry and sweet; rich, delicious flavor. Pkt. 4c.; oz. 8c.; 2 oz. 14c.; ¼ lb. 25c.; ½ lb. 45c.; lb. 80c.

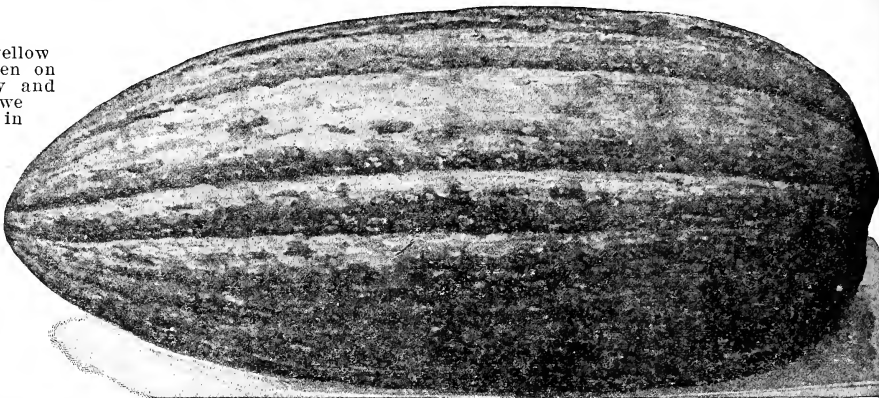

Great Northern Hubbard

Giant Summer Crookneck

Delicata Squash

This beautiful Squash is orange-yellow splashed and striped with dark green on the outside. The flesh is rich, dry and particularly fine. For private use we can recommend it as surpassing in richness of flavor any of the large, old-fashioned sorts. A desirable feature is its small size; not too large for an ordinary family; is wonderfully solid and heavy, the seed cavities being very small; it is also extremely early. (The earliest of any Vine Squash), maturing about the same time as the Summer Squashes, and for early use will doubtless supplant this class on account of its superior dryness and flavor, while its extreme solidity renders it fully as good a keeper as any of the Winter varieties. Pkt. 4c.; 2 oz. 8c.; 1 lb. 15c.; 2 lb. 25c.; 3 lb. 40c.; 4 lb. 70c.

Delicata Squash

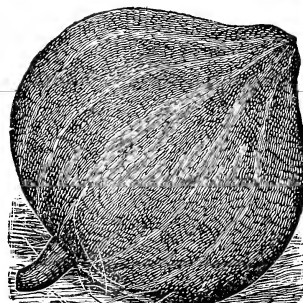

Mammoth Whale Squash

The Largest of All

We can fully claim to have the best strain of this variety in the market; certainly there is no better. Rather flat at both ends. Single specimens have grown to the enormous weight of 300 lbs. Outer color rich orange yellow; flesh is very thick and of yellow color; quality good, very nutritious, making it exceptionally valuable for all family and market purposes. Its size makes it profitable to grow for stock feeding also. Pkt. 5c.; 2 oz. 15c.; 1 lb. 25c.; 2 lb. 40c.; 3 lb. 75c.; 4 lb. \$1.25.

Faxon's New Brazilian

Its valuable points are earliness, long-keeping and high table qualities. Dry and rich, without regard to the size; something entirely different in this respect from any other Squash. We recommend it to all for general use in the home garden. Pkt. 4c.; 2 oz. 8c.; 1 lb. 15c.; 2 lb. 25c.; 3 lb. 40c.; 4 lb. 70c.

"THE JUMBO"
of the
Squash Family

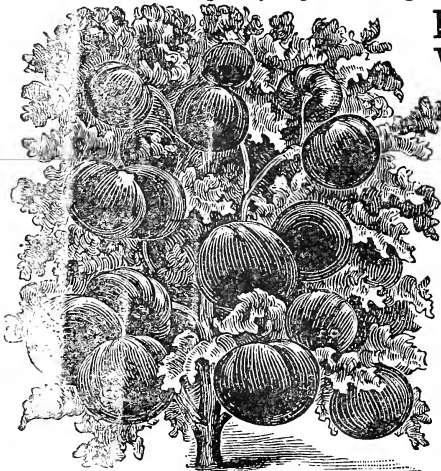

TWO NEW AND VERY POPULAR TOMATOES

New Tree, or Station

This Tomato owes its wide popularity to its stiff, vigorous, upright growth with fruit well above the soil, and to the earliness with which it reaches its maturity. In color the fruit is a purplish pink, and it is always round, smooth and symmetrical. Size medium. Table quality superior. A good shipper. Pkt. 10c.; 1/2 oz. 25c.; 1 oz. 40c.; 2 oz. 75c.; 1/4 lb. \$1.25.

Buckbee's New White Tomato SNOWBALL

A grand new variety of recent introduction which always gives the best of satisfaction. Color is pearly white, inside skin nearly the same shade. Flavor unexcelled, flesh firm and solid. Almost a continual bearer coming into fruit early and yielding an abundance of fine Tomatoes throughout the season. No better variety can be found for table, pickling or canning. Pkt. 5c.; 1/2 oz. 25c.; 1 oz. 40c.; 2 oz. 75c.; 1/4 lb. \$1.25.

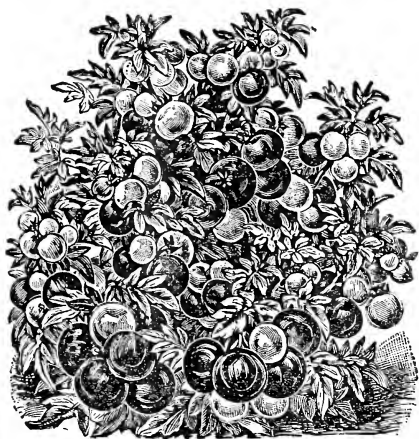

New Tree, or Station Tomato

Snowball

FOR TOMATO PLANTS

See page 39.

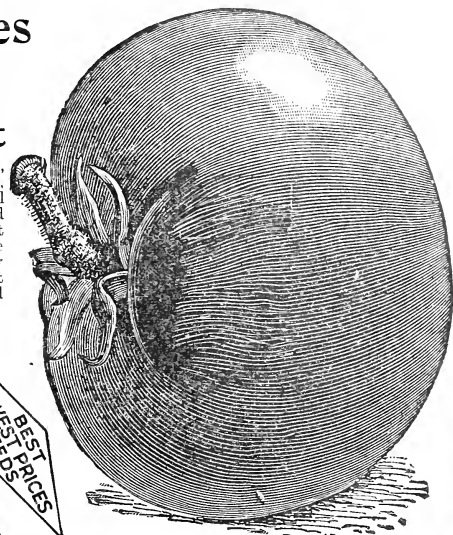

Childs' Resplendent Tomato

The Best Tomatoes

1 oz. for 1500 Plants
¼ lb. Seed for Acre

Childs' Resplendent

Fruit of all colors, green, white, lemon, pink, orange, yellow to deep ruby-red, borne on the same plant in wonderful abundance. Showy and attractive beyond description. Plant dwarf, stout, upright with novel foliage. Fruit large with more solid flesh and less seed cavity than any other. By all odds the richest, meatiest and finest flavored Tomato. Novel and distinct. 8c. per pkt.; 3 pkts. for 20c.

New Giant Everbearing Tomato

Ponderosa, or No. 400

Shape Perfect, Size Massive, Extra Prolific, Early and Late, Quality High

Monster Tomatoes, often weighing 2 to 3 pounds each; rich, bright crimson, solid meat, exceptionally free from seed; delicious flavor, raw or cooked; a single Tomato enough for a meal. Very desirable for family and market purposes. Pkt., 5c.; oz. 20c.; 2 oz. 38c.; ¼ lb. 70c.

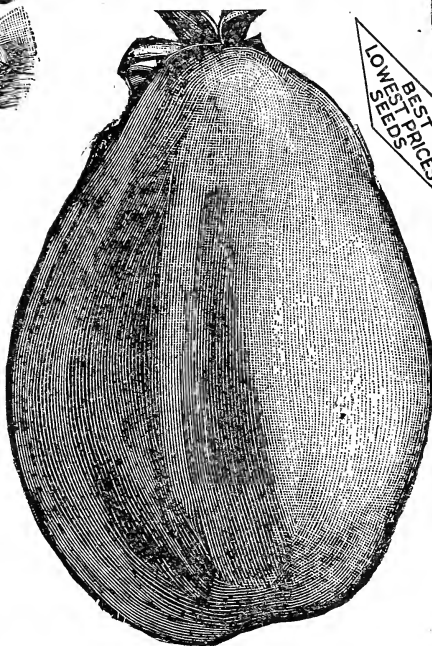

Buckbee's Beefsteak

Our Seed is Absolutely Genuine
Headquarters Grown;
Acknowledged the Best

MATURES EARLY, HARDY GROWER, A SPLendid SHIPPER, ENORMOUSLY PRODUCTIVE, HANDSOME COLOR, THE BEST KEEPER, LARGE SIZE, BEST OF ALL.

NOTHING in the way of a Tomato Creation has ever achieved, in so short a time, the tremendously excellent reputation that has come to Buckbee's Beefsteak. Growers from every section of the wide world have sent in unsolicited praise, and the tests to which they have subjected it leave no room for doubt that it has all the qualities required in a Tomato.

Vine medium size, leaved just enough to protect the fruit, which is produced in abundant clusters reasonably low down on the stems and ripening all together. Pkt., 10c.; ½ oz. 30c.; oz. 50c.; 2 oz. 95c.; ¼ lb. \$1.75.

New Giant Pear Tomato

New Giant Pear

Wonderfully Productive Mammoth Fruited Golden Yellow Tomato

The fruits are pear-shaped, very large, beautifully smooth, flesh solid, thick-meat, with very few seeds and like all yellow varieties, very sweet and mild in flavor. The plant is enormously productive, more than any other large fruited sort, stands up well even in the worst weather, producing fine fruit until late in Autumn when killed by frost. As a market Tomato it sells readily at fancy prices owing to the handsome shape and color. Be sure and give it a trial. Pkt. 10c., or 3 pkts. for 25c.

Early Acme

One of the earliest and handsomest varieties. Medium size; perfectly smooth and regular; very solid fruit, borne profusely. Dark red with purplish tint. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb. 40c.; ½ lb. 70c.; lb. \$1.30.

Favorite

A large, handsome, uniformly shaped Tomato; solid, smooth and bright scarlet; ripens evenly, having numerous clusters of three to seven large Tomatoes. Flesh very firm. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb. 40c.; ½ lb. 70c.; lb. \$1.30.

New Giant Everbearing

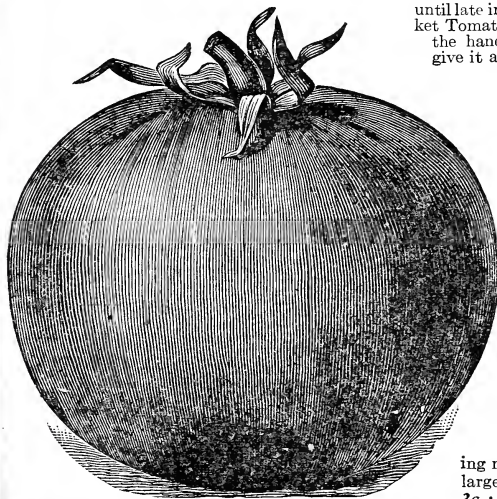

The fruits are truly gigantic in size, and are uniformly large throughout the season. The color is a rich purple-crimson and the depth of color is maintained throughout the entire fruit. The most profitable variety to grow. Always in fruit from early summer until killed by late frosts. Be sure to include this finest of all Tomatoes in your order. Pkt. 10c.; oz. 35c.; 2 oz. 60c.; ¼ lb. \$1.00; ½ lb. \$1.75; lb. \$3.00.

Beauty

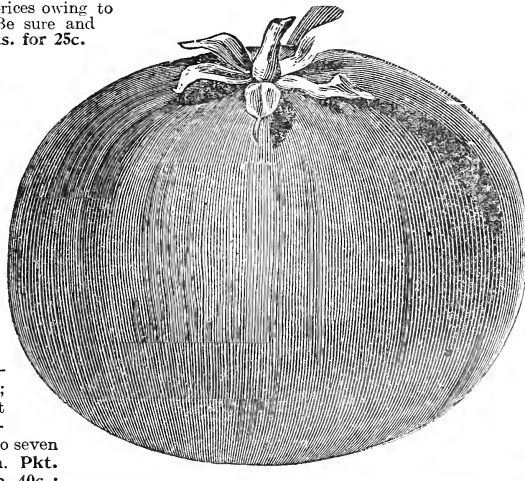

We have been perfecting this to a larger, smoother fruit than the original stock, and think we have made it the smoothest and best of the large purple sorts. Vines large, vigorous and heavy bearers; fruit large, uniform, very smooth; color purplish pink, flesh light pink, excellent flavor. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; ¼ lb. 40c.; ½ lb. 70c.; lb. \$1.30.

New Early June Pink

An extra early purple fruited Tomato similar to the popular Scarlet fruited Earliana in growth of vine, shape and size of fruit and time of maturing. This is of exceptional value to market gardeners who want an early, purple fruited Tomato, either for home market or to ship; also desirable for planting under glass. Pkt. 5c.; oz. 25c.; 2 oz. 48c.; ¼ lb. 90c.; ½ lb. \$1.50; lb. \$2.50.

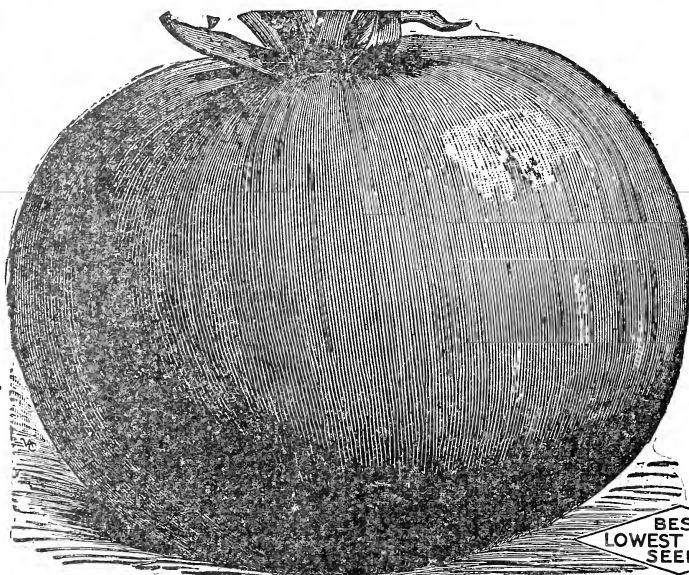

Buckbee's Beefsteak Tomato

New Early June Pink Tomato

THE BEST TOMATOES

New Dwarf Ponderosa

New Dwarf Ponderosa

A cross between Dwarf Champion and the Original Tall Ponderosa; fruits glossy purplish-red, slightly oblong in shape, very deep through, with solid meaty bright-red flesh, no core, scarcely any watery pulp and few seeds. Plants grow about 2 feet high, stocky and branching, bearing fruit in clusters from July until frost. Pkt. 8c.; 3 Pkts. for 20c.

New Earliana

An extremely smooth, bright red Tomato of good size and flavor. Is among the very first ready for the market, and not only remarkable for its earliness, but for its very large size, handsome shape and bright red color. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; $\frac{1}{4}$ lb. 40c.; $\frac{1}{2}$ lb. 70c.; lb. \$1.30.

Early Dwarf Champion

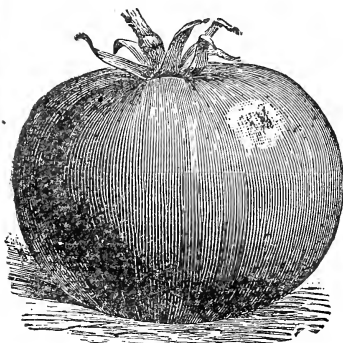

The dwarf habit and upright tree-like growth permit close planting. Hard to beat for home use. Color purplish-pink. Fruit smooth, symmetrical, solid and meaty. Pkt. 4c.; oz. 15c.; 2 oz. 28c.; $\frac{1}{4}$ lb. 50c.; $\frac{1}{2}$ lb. 80c.; lb. \$1.50.

The New Stone

The Tomato for a Main Crop. Choicest Seed. We call this the king of the Livingston kinds, which are the best type of large, smooth, solid, "meaty" Tomatoes. Color fine scarlet. Pkt. 3c.; oz. 12c.; 2 oz. 22c.; $\frac{1}{4}$ lb. 40c.; $\frac{1}{2}$ lb. 70c.; lb. \$1.30.

Mammoth Purple Ground Cherry

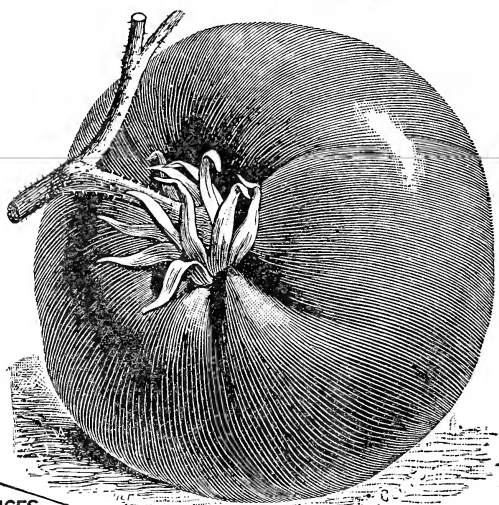

Enormous size fruit, $1\frac{1}{4}$ to $2\frac{1}{2}$ inches in diameter. The flesh is green while the color of the skin is green, changing to a purple. When made into preserves, has the appearance of green gages. Pkt. 5c.; oz. 40c.

New Earliana

Mammoth Purple Ground Cherry

Maule's Success

Maule's Success

Bright red color and smooth shape, ripens evenly to the stem without ridges or cracks, has great meatiness and few seeds, and firm flesh without being hard. Vines vigorous and compact, and always fruits in clusters at every second joint. It is unrivalled as a home tomato, unexcelled as a shipper and a most desirable canning variety. Pkt. 5c.; oz. 25c.; 2 oz. 40c.; $\frac{1}{4}$ lb. 75c.

Mansfield Tree, or Mammoth Prize

One of the largest Tomatoes grown; possesses every good quality. Specimens often weigh 3 pounds. Almost seedless. Vines often attain the height of 15 feet. Fruit very highly colored; smooth. One of the very best for table and market. Pkt. 5c.; oz. 35c.; 2 oz. 60c.; $\frac{1}{4}$ lb. \$1.10.

Burbank's New Grape Tomato

It somewhat resembles the Tomato, but its habits of growth are more like the Grape. Of a handsome red color, having the flavor of the Tomato. The fruit is excellent for preserving and using in various ways. Pkt. 6c.; 3 pkts. 15c.; $\frac{1}{2}$ oz. 35c.; oz. 60c.

New Pear

Used for preserves and to make "Tomato Figs." Our stock will always come true to name. Large pkt. 4c.; oz. 15c.

New Plum

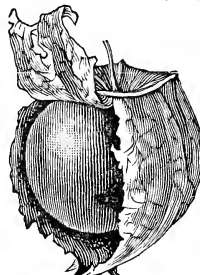

Fruit true plum shape. Clear, deep flesh and fine flavored. Much esteemed for preserves. Large pkt. 4c.; oz. 15c.

Finest Mixed Hybrids

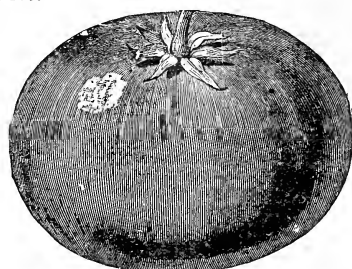

Comprising all the newest and best sorts as well as all the standard varieties; reds, yellows, whites, large and small, round and fancy fruited; all are included. Pkt. 4c.; oz. 20c.; 2 oz. 35c.; $\frac{1}{4}$ lb. 60c.

The Ground Cherry

Often called Husk or Strawberry Tomato. A Splendid Preserving Fruit. The fruit has a pleasant strawberry-like flavor, and is much relished raw, but generally used for preserves, for which it is excellent. The small yellow fruits are enclosed in a husk or covering, and when ripe are half an inch in diameter. They are easy to grow and do well on almost any dry soil. Plants of low spreading growth and immensely productive. Pkt. 3c. oz. 15c.

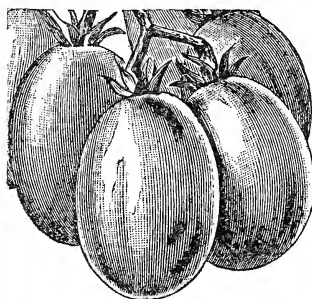

The Ground Cherry

New Stone

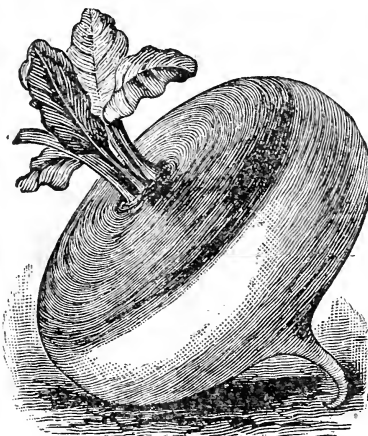

Golden Fig Tomato

The illustration shows its exact shape and habit of producing fruit in numerous clusters. It is wonderfully productive, yielding double that of other sorts. This variety makes pickles and preserves of the finest quality. It is pre-eminently the best of all the small yellow sorts for market. Pkt. 5c.; oz. 25c.

The Best Turnips

1 Ounce for 150 Feet of Drill; 1 to 2 Pounds in Drills Per Acre.

Red or Purple Top Strap Leaf

Red, or Purple Top Strap Leaf

There is probably a larger amount of seed of this variety sown annually than any other turnip. As a market variety, without doubt the peer of all. Has single tap root and a bright purple top. Matures 8 or 9 weeks from sowing. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Early Six Weeks, or Snowball

This excellent variety of Turnip is very tender and sweet; matures in six weeks. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Extra Early Scarlet Kashmir

It matures almost as quickly as an early Radish, of magnificent shape, handsome appearance and wonderful keeping qualities. Outside skin brilliant cardinal color, white, sweet, tender and crisp. Pkt. 5c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 30c.; ½ lb. 50c.; lb. 90c.

Extra Early Purple Top Milan

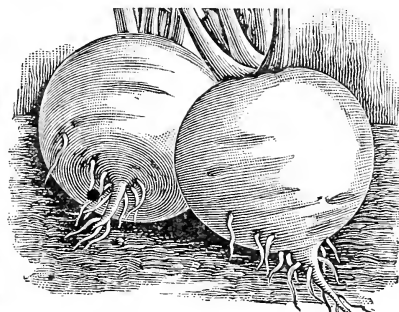

The tops of this variety grow very small and are distinctly strap-leaved, growing very erect and compact. The roots are small and flat Turnip-shaped; skin purple on top of the root, clear white below. Flesh white. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

New Golden Globe

Most delicious and sweetest of all yellow fleshed Turnips, very superior for all general purposes. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

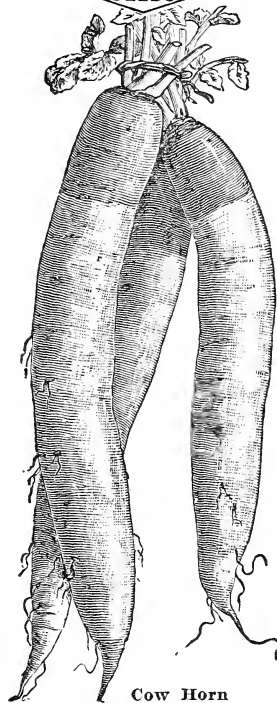

Early Ivory

Pure white. Flat, smooth, of medium size and very few leaves; a good Summer variety. Fine grained and tender. Pkt. 4c.; oz. 10c.; 2 oz. 18c.; ¼ lb. 30c.; ½ lb. 50c.; lb. 90c.

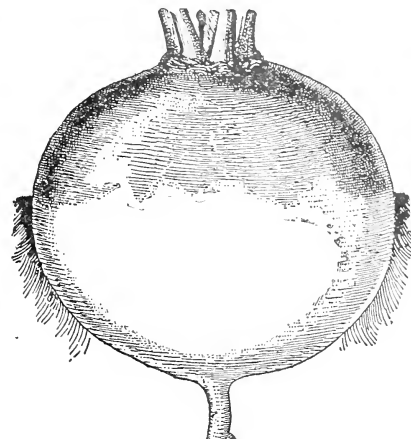

Early Six Weeks or Snowball

SEEDS

Cow Horn

New Purple Top White Globe

New Purple Top White Globe

A globular variety, very even in shape and of beautiful appearance. The flesh is white, of excellent quality and desirable for table or stock. The variety is a good keeper and fine market sort. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Improved Early White Flat Dutch

Excellent early garden variety and very much used. The roots are of medium size, very flat and the color white. Very early, sweet and tender. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

New White Egg

This is certainly one of the very choicest and finest varieties; comparatively new and producing beautiful egg-shaped roots with thin white skin. They are always firm, solid and of sweet flavor. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Cow Horn

Sometimes called Long White. It is pure white with a little shade of green on top. Well flavored and of rapid growth. Fine for Fall and early Winter use. Very valuable as a soil enricher; to improve worn out land. Pkt. 3c.; oz. 6c.; 2 oz. 10c. ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Southern Seven Top

Cultivated extensively in the South for the tops, which are used for greens. Hardy; keeps well. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Turnips, Mixed

Comprising a fine assortment of all the varieties quoted in this book as well as many others. Pkt. 5c.; oz. 6c.; 2 oz. 11c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 55c.

RUTA BAGAS---THE BEST STOCK FOOD

The Great Northern Imperial Hardy

This magnificent Ruta Baga is unquestionably the most profitable of all Swede Turnips, as well as the hardest, heaviest, best shaped and by far the most productive, yields 1,000 bushels per acre and over, under careful cultivation. Flesh is of a beautiful yellow color, always sweet, tender, juicy and nutritious. Pkt. 5c.; oz. 8c.; 2 oz. 12c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

New Monarch, or Elephant

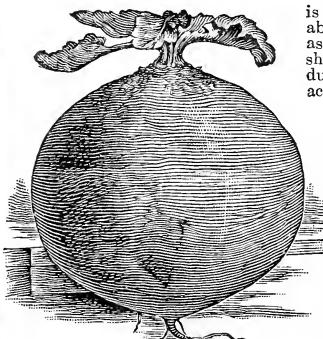

Produces large, oval-shaped roots, with small necks; relatively small tops. Skin dark purple above ground, yellow below. Flesh rich yellow, fine grained. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Mammoth White Russian---The Best in Cultivation

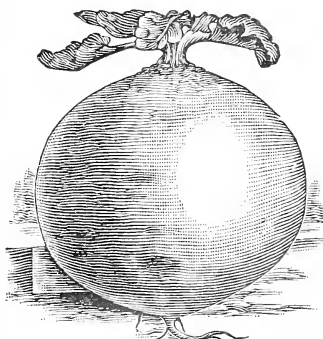

One of the grandest sorts. Grows very large with single tap root, small top, short neck. Strong constitution; certain cropper. Will stand hardest Winters. Produces a very heavy weight per acre. Keeps sound till late Spring. One of the best Ruta Bagas in cultivation. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Improved Purple Top Yellow

This magnificent Swede is the result of judicious selection; very hardy, productive and nutritious. A large, purple top, yellow variety. Shape slightly oblong. Produces heavy weight per acre. Sweet and good keeper. Pkt. 3c.; oz. 6c.; 2 oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Newest and Best Varieties TOBACCO SEED

Imported Sumatra.

General Grant Tobacco

Turkish

Cigar Varieties

Imported Sumatra—Makes high grade cigar wrapper and brings a high price. Pkt. 5c.; ½ oz. 35c.; oz. 60c.

Big Havana—An Americanized Havana used for cigar purposes, sometimes used as a manufacturing sort. Large, long leaf; very early making two crops a season in some sections. Pkt. 4c.; oz. 25c.

Brazilian—Makes excellent cigars and delightful aromatic pipe smoking Tobacco. Pkt. 4c.; ½ oz. 25c.; oz. 40c.

Connecticut Seed Leaf—Popular in the Middle and Northern states, largely grown for fillers; productive robust habit. Pkt. 3c.; oz. 20c.

Cuban Seed Leaf—Imported Stock, acclimated and makes a fine tobacco. Pkt. 4c.; ½ oz. 25c.; oz. 40c.

General Grant—One of the finest, earliest and most popular kinds for Cigars. Matures far north as Canada; leaves large. Pkt. 5c.; ½ oz. 20c.; oz. 35c.

Pennsylvania Seed Leaf—The best grown in the famous Lancaster County District. Pkt. 4c.; oz. 25c.

Persian Rose Muscatelle—Finer than Muscatelle, and can be relied upon to make the finest Cigar stock. Pkt. 4c.; ½ oz. 20c.; oz. 35c.

Zimmer's Spanish—Called by some Comstock Spanish. One of the finest Cigar Tobaccos producing leaves of silky texture; grading very high for wrappers and fillers. Pkt. 4c.; ½ oz. 20c.; oz. 35c.

Tree Seeds Fresh New Crop

Evergreen seeds should be sown very early in Spring, in a firm, sandy seed bed. Give the young seedling some shade the first summer. Deciduous tree seeds should be planted from April to the middle of May in drills about 2 feet apart and covered about half an inch in depth. It should also be remembered that while some kinds sprout at once, others require several weeks, and a few lie dormant a whole season.

The Best Herb Plants

Hardy and Everlasting

Holt's Mammoth Sage. Forms a dense mass a foot or more in height and 3 feet in diameter; light green leaves; produces spikes of light lilac-blue flowers in late summer and autumn. Leaves are 4 to 5 inches long; they are held well up from the soil, rich in flavor and of great substance. Perfectly hardy; produces no seeds. Each 10c.; 3 for 25c.; doz. 70c. postpaid.

Lavender. Old Fashioned Sweet. The leaves are sometimes used for seasoning, but the plant is chiefly grown for its fragrant flowers. Strong plants 10c. each; 3 for 25c.; 75c. per dozen, postpaid.

Peppermint. From the leaves of this plant is distilled the well known Peppermint of commerce. The green leaves and stems, when chewed, have the same effect as the essential oils and to most persons the flavor is very pleasant. Strong plants, 10c. each; 3 for 25c.; 75c. per doz postpaid.

Spearmint. The plant which produces the mint of the markets and largely used for culinary purposes. It is also used in concocting the refreshing Mint Julep so popular in some sections. Strong plants, 10c. each; 3 for 25c.; 75c. per dozen, postpaid.

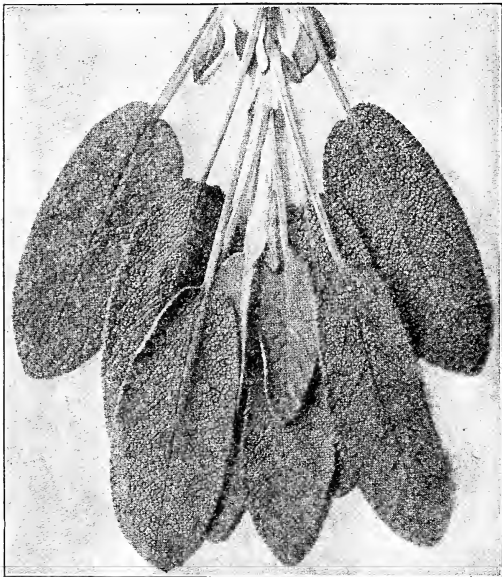

Tarragon, or Estragon. (The True Tarragon) Leaves and young shoots used as an ingredient for soups, salads, stews, pickles, etc. Use in fresh state, or cut in autumn and dried to be used as other herbs. Tarragon vinegar is esteemed as a fish sauce, made by placing leaves of plant in a tight vessel, pouring common vinegar upon them, and permitting it to remain several days. Strong plants, 15c. each; 3 for 40c.; \$1.25 per dozen, postpaid.

Chives. Also called Schnittlauch. Chives are perfectly hardy perennial plants of the Onion type. They are grown for their small leaves, which are produced very early in the Spring for giving a mild Onion flavor to various dishes. Selected clumps or plants, 20c. each; 3 for 50c.; \$1.50 per dozen, postpaid.

Success Beardless Barley

White Hulless Barley

Oderbrucker Barley

BARLEY—Success Beardless

Earliest Barley known. The straw is about the height of common Barley, but better and will stand up on any land. This is beardless and as easy to grow and handle as oats. It has hulls like the Manshury and is a heavy cropper, yielding from 50 to 75 bu. per acre, and the quality is excellent. Prices, postpaid, per lb. 25c.; 3 lbs. 60c.

BARLEY—White Hulless

Barley with a grain like Wheat. An excellent feeding sort, especially for hogs. Our seed is Montana grown, fine, bright, hullless and beardless. Weighs over 60 lbs. to the measured bushel. It grows very quickly on any kind of soil. It has been sown as late as the middle of June and made a good grain crop. Prices, postpaid, per lb. 25c.; 3 lbs. 60c.

BARLEY—Oderbrucker

or Wisconsin No. 55

A stiff-strawed, heavy yielding, six rowed, bearded variety. It is about the same as Manshury in time of maturity, manner of growth and general appearance, but has a plumper kernel and weighs more to the measured bushel. It has protein content of 15 per cent. or nearly double the amount found in many other varieties. This makes it a very valuable feeding Barley, which is an important consideration with the leading farmers and stockmen, who are now appreciating more and more the value of Barley as a food for all kinds of stock, horses as well as cattle. Prices, postpaid, per lb. 25c.; 3 lbs. 60c.

Great Northern Soja or Soy Bean

The Greatest Known Soil Enricher. This variety produces enormous crops as far north as Canada, and will ripen its seeds even in Massachusetts. It grows about 4 feet high and yields ten to twenty tons of green fodder per acre, or 20 to 40 bushels of Beans. It is a valuable leguminous plant for the farmer and dairyman for either green or cured fodder or grain. May be planted as soon as the soil is warm—a little later than Corn—in rows 30 inches apart, 6 to 8 seeds to the foot, requiring 3 pecks per acre. Price, Choicest Northern-grown Seed, postpaid, lb. 25c.; 3 lbs. 60c.

White Wonder Bean

THE MOST PRODUCTIVE AND HEAVIEST CROPPING
WHITE FIELD BEAN KNOWN AND THE
BEST BEAN FOR BAKING

Growing nearly two feet high, branching out in all directions, and bearing its pods so high that they seldom touch the ground, enabling it to stand a wet spell without any injury. All who have raised Beans know that when the pods lie in contact with the ground after ripening a very little rain will ruin the crop, turning the pods and Beans black. This is indeed a wonderful cropper, yielding from seventy-five to one hundred bushels per acre, careful cultivation, while hundreds of my customers report yields of from forty to sixty bushels per acre under average cultivation. Plant them two and one-half feet apart, eighteen inches in the row, two or three Beans in a hill. Price, postpaid, lb. 24c.; 3 lbs. 70c.

White Wonder Bean

Great Northern Seed Company, Rockford, Illinois

Buckwheat

New Iceland. The greatest of all Buckwheats. Bound to supercede all other varieties. Makes a strong, vigorous growth, with heavy straw, standing up well in bad weather, resists blight and drouth better than any other Buckwheat. The grain is a rich, dark brown in color, hullless, has a thin husk and all millers prefer it, there being less waste, and the flour is equal in quality to that from any other variety. The yield is enormous—away ahead of all other sorts and it is without doubt the best, most productive and most profitable variety in cultivation. Price, postpaid, lb. 25c.; 3 lbs. 70c.

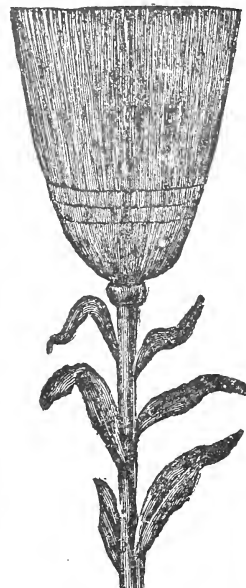

Giant Japanese. Heavy Yielding Variety of strong, branching growth, stands up well and produces from two to four times as much grain as any other variety under same conditions. Makes the finest flour and for bees has practically displaced other sorts where known. Our Japanese Buckwheat seed is grown from the largest Japanese type imported each year by us for stock seed, and is therefore immensely superior to seed usually offered. Price, postpaid, lb. 20c.; 3 lbs. 50c.

Improved Silver Hulled. A popular standard variety. Grain is of light gray color. Has thinner husks than the other sorts. Early and prolific. Choicest stock seed, postpaid, lb. 20c.; 3 lbs. 50c.

Broom Corn

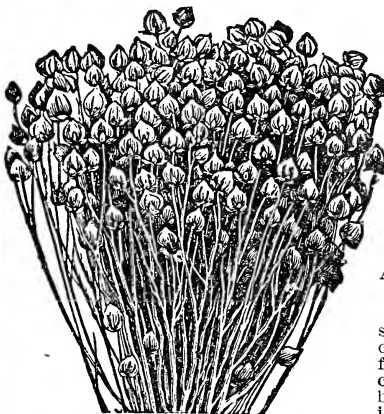

Improved Superior Evergreen. The best variety for general cultivation on account of color and quality of brush. Ripens early. Grows about 8 to 10 feet high. Brush good length, fine and straight. Postpaid, ½ lb. 15c.; lb. 25c.; 3 lbs. 65c.

California Golden. Carefully selected and improved so that the brush is straight and long. Of finest quality; light green color, turning to light yellow when allowed to get too ripe. Brush straight and long. Postpaid, ½ lb. 15c.; lb. 25c.; 3 lbs. 65c.

Flax

Russian Flax

Primost No. 25. In raising this crop, it will pay to go to some expense to procure pure Russian seed, which is a great improvement over the common American Flax. The seed is more than double the size, and contains much more oil. The fibre is of superior quality, and it is sure to command a higher price in the market. The seed we handle is carefully cleaned from fowl seeds. Postpaid, lb. 20c.; 3 lbs. 50c.

Northern Grown Cow Peas

THE GREAT SOIL IMPROVER

MAKES POOR LAND RICH; MAKES GOOD LAND MORE PRODUCTIVE

As A Grazing Crop it is especially valuable for producing milk, growing young stock (especially pigs) and fattening all kinds of animals and fowls

In the Cow Pea we have a fertilizer and a food at the same time and it can be grown successfully in all parts of the country where Dent Corn succeeds. The vines properly cured are a most valuable fodder for the cattle and sheep, being richer in protein and fat than the best clover hay. Cow Pea hay is an excellent substitute for wheat bran, is comparatively cheaper, and therefore, of special value to dairymen. The Cow Pea can be used to great advantage as a green manure crop at any time during the Summer and in almost every crop rotation—and there are few farms on which it cannot find a profitable place.

Michigan Wonder. Northern grown and acclimated, the best and most popular variety for all climates, particularly in the far South States. Price, postpaid, per lb. 25c.; 3 lbs. 70c.

Improved Whippoorwill. Choicest Northern-grown, well suited for any soil. Early and a wonderful feeder. Price, postpaid, per lb. 20c.; 3 lbs. 50c.

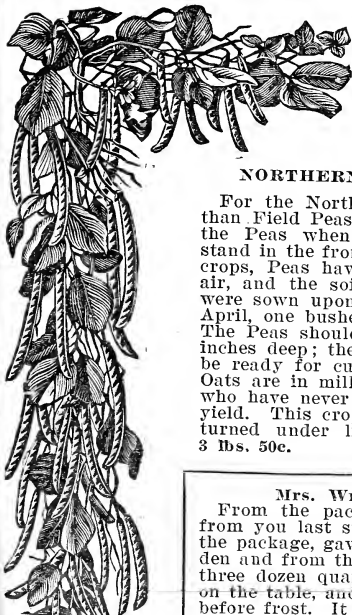

Canada Field Pea

NORTHERN PROLIFIC The Great 100-Fold Variety

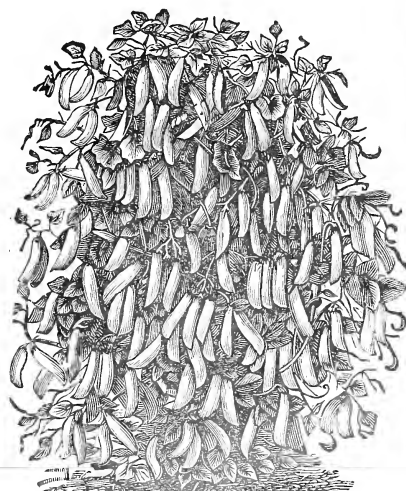

For the Northern States there is no crop of greater value than Field Peas. They are a profitable crop to grow, in that the Peas when threshed are always marketable, and they stand in the front rank as a fodder plant. Like all leguminous crops, Peas have the power of extracting nitrogen from the air, and the soil is richer in nitrogen than before the Peas were sown upon it. They should be sown in March or early April, one bushel of Peas and one bushel of Oats to the acre. The Peas should be sown first and plowed under about four inches deep; the Oats then sown and barrowed in. They will be ready for cutting about the latter end of June, when the Oats are in milk and the pods formed on the Peas. Farmers who have never sown this crop will be surprised at its large yield. This crop also makes an excellent soil improver when turned under like Cow Peas. Price, postpaid, 1 lb. 20c.; 3 lbs. 50c.

Mrs. Wm. H. Eddy, Brattleboro, Vt., writes:

From the packet of Earliest of All Tomato Seed received from you last spring, I started over 200 plants from one-half the package, gave away some plants, put 100 plants in my garden and from them I sold \$6.40 worth of ripe tomatoes, canned three dozen quarts. We also had tomatoes three times a day on the table, and picked four bushels of green ones for pickles before frost. It is certainly an excellent variety.

Northern Yellow Dent

Has Given Great Satisfaction to Every Grower for Many Years.

A magnificent variety of 90-day Corn. The result of many years' careful hybridization. It has given splendid results, particularly throughout the northern Corn belts, since its introduction. If you want a Corn that matures quickly, this is the Corn to buy. It is good to harvest early in the fall, to enable you to seed the ground with other grain.

It is the Best Yellow Variety for general requirements. By all odds the earliest, largest 90-day Yellow Dent Corn in existence. The type is very even, ears measuring ten to twelve inches in length, often weighing one and one-half pounds or more. Very uniform in size and shape, with sixteen to eighteen rows of deep, pure golden yellow kernels set on small-sized cob, which is well filled out over the tip and butt. The grains are of good size, long, flat and closely set together, deeply dented, and solidly fill the entire surface of the ear.

IT RIPENS IN NINETY DAYS

of average Corn weather. In its yield it will surpass all other yellow varieties—seventy pounds in the ear will make more than sixty pounds of shelled Corn. It is adapted to a wider range of soil and variety of climate than any yellow Corn ever offered. No yellow Corn outshells or outyields it. After the Corn is husked the stalks generally remain in fine growing condition and make an exceptionally valuable forage crop. Price, postpaid, lb. 25c.; 3 lbs. 60c.

Northern White Dent

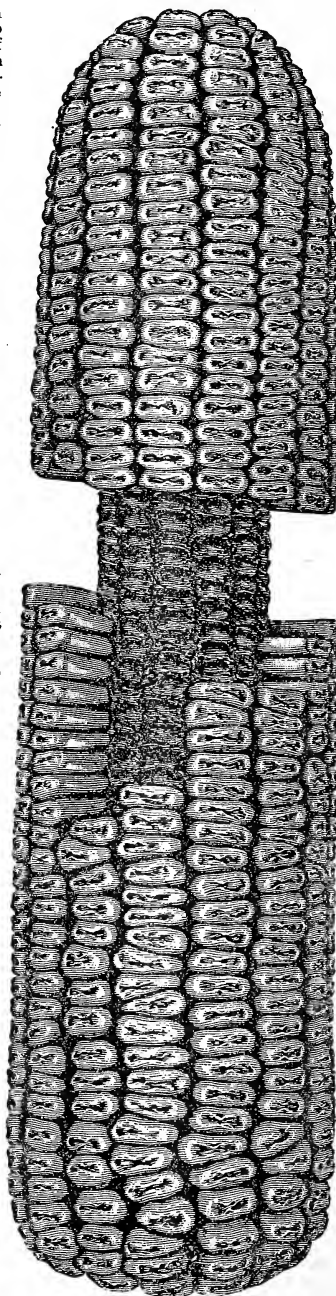

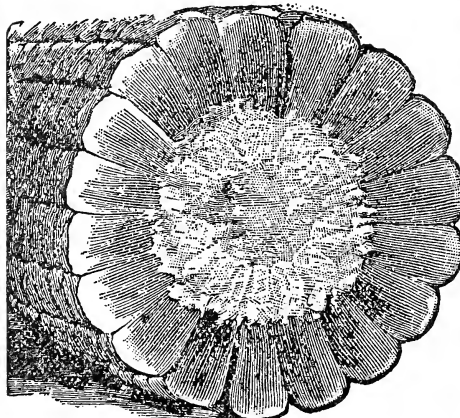

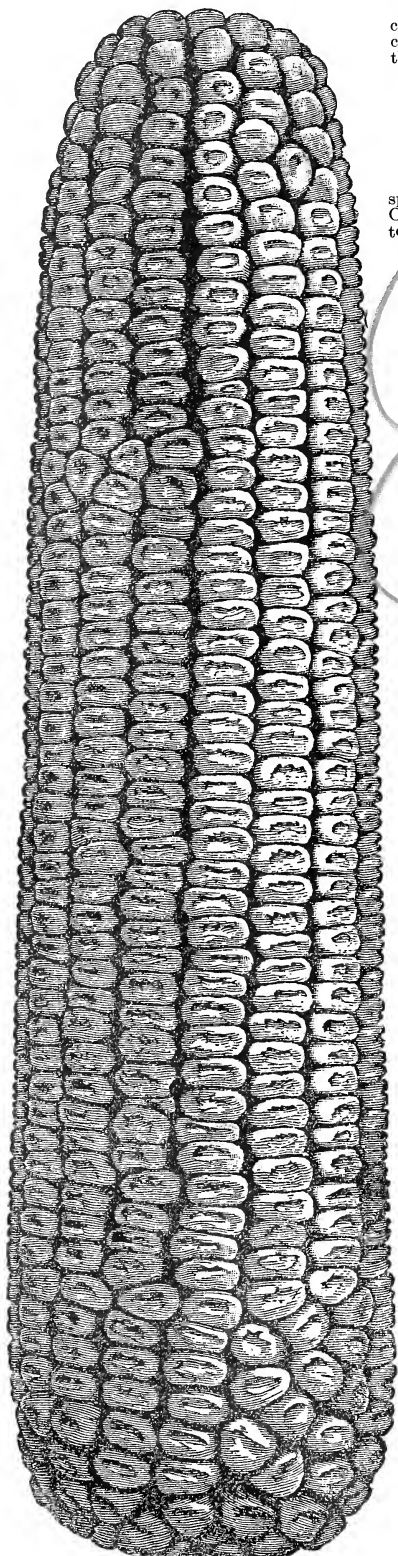

Similar to the above in everything but color, which is a beautiful white. Never fails to give a fine crop of large, uniform, well-shaped ears. The stalks generally bear two good size ears each, and frequently three are found. It yields splendid crops even on light soil. All ears are uniform and well filled out, and will easily make sixty pounds of shelled Corn to the bushel. Price, postpaid, lb. 25c.; 3 lbs. 60c.

Early Gold Mine

This magnificent variety was bred from special and improved stock of genuine Pride of the North. Will usually produce a crop in 90 days or less. It can safely be planted up to the middle of June and still be depended upon to ripen by the middle of September. It produces a magnificent yield, there generally being two good sized ears to the stalk, with immense long, oily kernels, closely set and the cob well filled to the end. The color is rich golden. Price, postpaid, lb. 25c.; 3 lbs. 60c.

New Early Klondike

The best Yellow Dent Corn for Northern latitudes. Magnificent variety of 90-day Corn. If you want a Corn that matures quickly, this is the Corn to buy. Will grow more bushels on poor land than any other early variety known. Ears are of excellent size; husks and shells easily. Price, postpaid, lb. 25c.; 3 lbs. 60c.

Minnesota King

A Famous Half-Dent, Eight
Rowed Corn

This was introduced a number of years ago and has steadily increased in favor since its introduction, and we consider it **one of the most valuable sorts ever grown for the Northern States.** While there are many varieties that in good years will yield as much as Minnesota King, there are very few, we think, that will, year in and year out, produce as heavy a crop as this sort. The ears are quite large, cobs small; kernels yellow, broad, long and set very closely on the cob. **Price, postpaid, lb. 25c.; 3 lbs. 60c.**

Reid's Yellow Dent

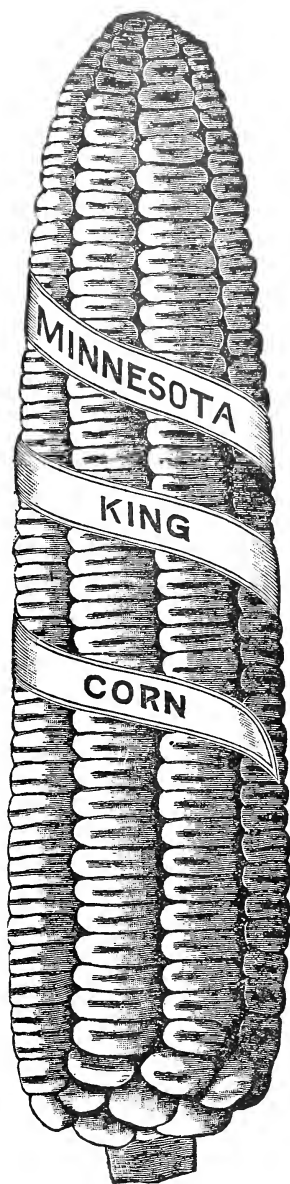

The standard Yellow Dent Corn for Northern, Central Illinois, Northern Iowa and like climates in Indiana and Ohio. Ears 9 to 10 inches long, very slowly tapering, about 7 inches around; 18 to 24 rows, with narrow space between; kernels light yellow. Our strain is slightly rough, tapering very slightly; cob medium. Matures under favorable conditions in 110 to 115 days. **Price, postpaid, lb. 25c.; 3 lbs. 60c.**

Improved Pride of the North

A wonderful improvement over the old reliable standby—Pride of the North. This splendid pedigreed variety is unquestionably one of the very best 90-day Field Corns for Northern latitudes. It will ripen in Northern localities hitherto able to grow only the Flint varieties. **Price, postpaid, lb. 25c.; 3 lbs. 60c.**

Thoroughbred Leaming

Deep golden color; striking uniformity. The ears range from 9 to 12 inches long. Kernels broad, thick, deep, rather rough, rounding wedge shaped. Red cob, medium in size with medium large shank. The stalks are from 9 to 12 feet high. Matures in about 115 days. **Price, postpaid, lb. 25c.; 3 lbs. 60c.**

New Early Bloody Butcher

A perfect Field Corn. New Early Bloody Butcher Corn has never been known to fail in making a good crop. Of most remarkable type and color, being very pure in growth and habit, yet of many beautiful colors, (red, amber, golden yellow and golden cast, also dark red, all on one cob,) making it the most beautiful Corn in the crib, on ear or in the bag shelled. This new Corn combines more solid merit than any Corn in cultivation—more fine and lasting points. Its great merit lies in the fact that it is a natural yielder. **Price, postpaid, lb. 25c.; 3 lbs. 60c.**

Iowa Silver Mine

Large, White, Strong Grower, Heavy Cropper. Popular on account of its enormous yield. There is one record where 215 bushels were grown on an acre. It is pure white, with deep grain; ear averages 10 to 12 inches in length, 16 to 20 rows, with small cob and filled out clear over the tip; maturing in 95 to 100 days. The stalk grows to a height of about 7 to 8 feet. It is well worthy of extensive growing. **Price, postpaid, lb. 25c.; 3 lbs. 60c.**

Improved Calico

A variegated variety improved and bred up to the highest standard of merit, maturing generally in 95 to 100 days. The ears are large, 8 to 12 inches long, 7 to 8 inches in circumference, well filled with very large, long and broad kernels variegated all colors, yellow, striped, red, white, etc. It is a wonderful yielder, 90 to 100 bushels per acre under average cultivation. Without question it has as many or more good points combined, than any other Dent Corn in cultivation. Expert corn growers everywhere pronounce it a perfect Field Corn for all sections—and one that can be depended upon to make a crop. If you have never grown our "Improved Calico" be sure and give it a trial. **Price, postpaid, lb. 25c.; 3 lbs. 60c.**

Red Cob Ensilage

Beyond doubt the best Fodder Corn, either to feed green right from the field, to put up for the silo, or to cure and stack away. It is a pure white Corn cropping as high as 45 tons of fodder per acre. Very sweet, tender and juicy, and furnishes more nourishment than any other variety; has short joints and therefore an abundance of leaves, and grows to a fair height; but not over large and coarse stalked as some varieties. **Price, postpaid, lb. 25c.; 3 lbs. 60c.**

NEW BRAZILIAN FLOUR CORN

Great Brazilian Flour Corn

One of the Greatest Novelties Ever Introduced.

Originated in Brazil, where it constitutes the principal food of the inhabitants. It is truly a marvelous plant. For years our seed was always exhausted before the season ended, so great was the demand. You are sure to like it. It grows 8 feet high, and from one kernel sends enough stools to produce 100 ears. Its strong points are:

Twenty-five barrels of flour can be grown from one acre, and this flour is as fine grade as is made from wheat, which is five times as much as wheat produces per acre.

The bread and biscuits baked therefrom are fully as palatable as from any flour known.

It yields at the rate of 100 bushels of green fodder per acre for cattle, of the most delicious, sweet, tender, juicy, nutritious food we have ever seen.

It makes flour in quality equal to wheat. Of course, it is not so white, but oh, what delicious cakes, rolls and biscuits!

Postpaid, $\frac{1}{2}$ lb. 15c.; 1b. 25c.; 3 lbs. 70c.

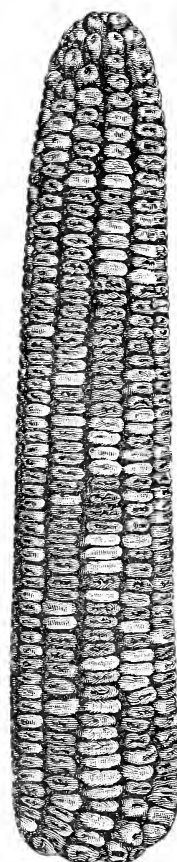

Improved Indian Squaw Corn

Holds more records for wonderful performances under difficult conditions than any Corn ever grown.

It is an extremely early variety, maturing in 85 days and is a more successful Corn for late planting than the Mexican June Corn, about which so much has been written in recent years. Not only will Improved Indian Squaw Corn ripen ahead of the Mexican June, but it will make a good crop under adverse conditions that will choke out the latter variety.

Perhaps the most wonderful quality of this Corn is its power to resist drouth. The most protracted dry weather hinders its growth not at all and still it will weather a wet season equally well. It can stand as much dry weather as Kaffir Corn. In appearance this Corn is one of our most handsome varieties. The kernels are of different colors, red, blue, yellow and white, giving the ears a curiously beautiful mottled appearance. The ears grow from eight to twelve inches in length and are of symmetrical form.

Postpaid, $\frac{1}{2}$ lb. 15c.; 1b. 25c.; 3 lbs. 70c.

NORTHERN GROWN FLINT CORN Extra Early Varieties

WHICH DO WELL EVEN IN EXTREME NORTH

BEST
LOWEST PRICES
SEEDS

Extra Early Improved Yellow Flint

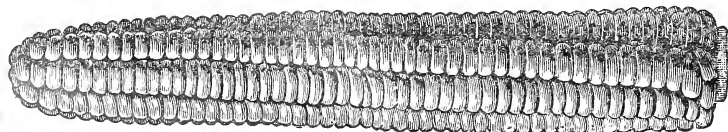

EXTRA EARLY IMPROVED YELLOW FLINT

Largest Ear, Best Yields

Ears ten to fifteen inches long, of rich, yellow color. Enormously productive, outyielding any Field Corn that we have ever grown in the far North. Matures exceedingly early from sixty to seventy days being a fair average. The kernels are large and the stalks are of good height. The ears average two to a stalk, growing well up so as to readily admit being cut by the harvester. The stalks grow very tall and leafy and make superior fodder. Will surely prove of the greatest value to the farmers of the far North, particularly the Dakotas, Northern Minnesota, Wisconsin, Michigan and the Canadian Provinces. Postpaid, $\frac{1}{2}$ lb. 15c.; 1b. 25c.; 3 lbs. 60c.

Longfellow Yellow Flint

An eight rowed sort, with ears 12 to 15 inches in length and about $1\frac{1}{2}$ inches in diameter. Small cob, large kernel and very broad. A most popular variety, well adapted to the Northern States, and largely grown. Price, postpaid, $\frac{1}{2}$ lb. 15c.; 1b. 25c.; 3 lbs. 60c.

EXTRA EARLY KING PHILIP

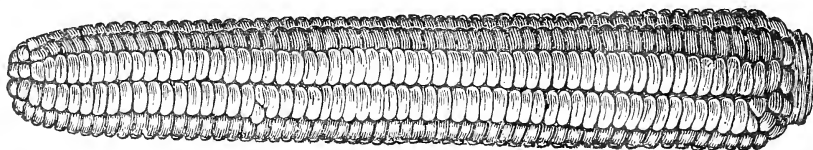

The Best Red Flint Corn

Earliest and best variety of red Flint Corn. Ripens within eighty days from time of planting. Ears large; good yielder. Choicest stock seed, postpaid, $\frac{1}{2}$ lb. 15c.; 1b. 25c.; 3 lbs. 60c.

TRIUMPH EARLY WHITE FLINT

An Early Maturing Variety

This is a well-established variety, with uniform characteristics, including early maturity and medium size, both of stalks and ears. Choicest stock seed, postpaid, $\frac{1}{2}$ lb. 15c.; 1b. 25c.; 3 lbs. 60c.

Triumph Early White Flint

Improved Yellow Yankee

Particularly adapted to the Northern Middle States. Earliest and best known yellow Flint variety. The ears are well filled to the tips with good, rich golden yellow kernels. The stalks grow 5 feet high and often produce 2 and 3 ears each. Will produce a good crop if planted as late as July.

Giant Highland Oats

A Marvel for Size, Weight
and Yield

The original stock of this grand variety was secured from the Highlands of Scotland, where yields of 140 to 160 bushels per acre are not uncommon.

It is a pedigree oat in every respect, pure white in color, large, thick and plump, with thin hull, strong grower and stands up well. Can be sown earliest or latest with best success. The seed we offer is strictly Northern Grown and fully acclimated and should be of great value to Oat-growers who are looking for a new stock of pure, healthy, well-bred pedigree Oats, grown under conditions which not only insure the highest development of the plant along productive lines, but the greatest power to resist disease. Stock limited. Price, postpaid, lb. 25c.; 3 lbs. 70c.

Swedish Select Oats

A pedigree variety introduced from Russia. Weighs from 35 to 45 pounds per measured bushel. The straw is coarse, noted for its stiffness and power to withstand lodging. The grains are pure white in color, large, thick and plump, making a very handsome appearance. The heads are large, upright and bushy, they are also nearly all meat the hull being exceedingly thin, making them especially valuable as a feeding Oat. Their great root development enables them to resist drought better than most other kinds. They are quite early and less liable to smut and rust than most any other sort. Price, postpaid, lb. 25c.; 3 lbs. 70c.

Black Tartarian Oats

Swedish Select

Tests made by many progressive farmers convince them that these Black Oats are more reliable croppers than white Oats. At all events, they will stand a lot of hardship and exposure, yet, still make a good crop. They are very early. The grain is short and plump, and of the best quality. Early Black Prolific Oats are rust proof. Many growers say they are practically drought proof. The straw is stiff, the heads are long, and the grain yield is heavy, running from 35 to 45 pounds per measured bushel. Prices, postpaid, ½ lb. 18c.; lb. 30c.; 3 lbs. 80c.

Golden Fleece Oats

The Best Yellow. This is a very fine Yellow Oat. It is a heavy cropper, handsome sample, grains yellow and plump, strong straw, stands up well. The blade is much larger than the ordinary Oat, attesting to its vigor and productive capacity; stools remarkably in strong land, seventeen shoots having been counted from one seed sown. Price, postpaid, lb. 20c.; 3 lbs. 50c.

New Appler Winter Turf Oats

This is undoubtedly one of the best all around Oats for planting in the Fall, as they afford a valuable pasture the greater part of Winter and early Spring, thus reducing the quantity of other necessary food. They may be harvested early enough in the Spring for other crops to follow. This variety spreads and stools out enormously especially when grazed, and if stock be taken off by March will yield a large crop of grain. This is a very popular Oat in the South, especially on the light sandy soils of the coast region. Price, postpaid, lb. 20c.; 3 lbs. 50c.

Texas Red Rust-Proof Winter Oats

A standard favorite not only in Texas, from which it derives its name, but all through the Southern States. The Texas grown Oat has a very heavy berry, nearly every one has a distinctive beard. Price, postpaid, lb. 20c.; 3 lbs. 50c.

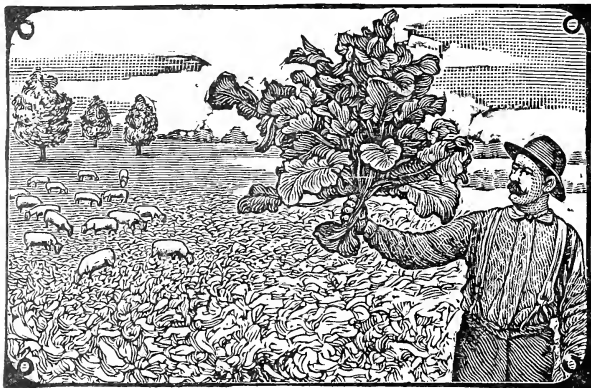

Giant Highland Oats

Tennessee or Virginia Grey Winter Oats

This splendid variety has proven immensely popular and satisfactory wherever it has been grown. When sown early and the roots thoroughly established in the soil, it is as hardy as Wheat, and will stand as much cold as that crop. Its stooing propensities are remarkable and on good soil yields from fifty to seventy bushels per acre. The grain is of a dark gray color with a distinct stripe and weighs heavier than the ordinary Oat. While it is better to sow this variety in August and September it is frequently seeded as late as the middle of November. Price, postpaid, lb. 20c.; 3 lbs. 50c.

BULBS
SEEDS

Victoria Rape

RAPE

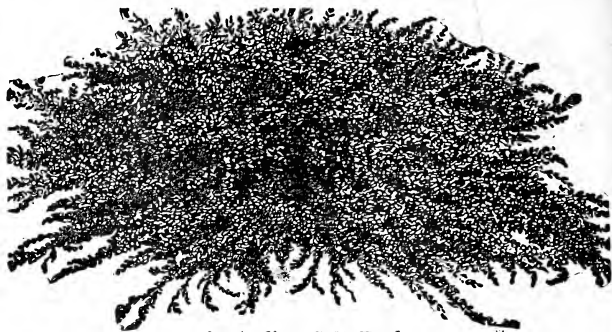

**The Best Fodder
for Sheep and Cattle**

Dwarf Victoria. Gives a luxuriant pasture and a tremendous yield. If sown in May, it grows rapidly and can be cut or pastured the latter part of July. If sown the first half of July it will come into fine play as a fodder in September, October and up to November. Dwarf Bonanza Rape is easily grown, perfectly hardy and possesses remarkable fattening qualities. Rape is especially adapted for a catch crop, succeeding when from any cause other crops have failed. Postpaid, lb. 30c.; 3 lbs. 80c.

Prices Enclosed with
This Catalog

Dwarf Essex Rape. This is the variety known and grown everywhere. Not quite so strong and vigorous a grower as our Dwarf Victoria, but never fails to give the best of satisfaction. Fine imported seed; price, postpaid, lb. 20c.; 3 lbs. 50c.

Australian Salt Bush

Australian Salt Bush

A Forage Plant for Alkali Soils and Regions Subject to Periodic Drouth. Grows freely in arid and alkali lands that will produce no other vegetation, yielding a marvelously liberal foliage which is eagerly eaten by all kinds of stock. It is of creeping habit. From 20 to 30 tons of green fodder have been harvested from one acre. It has further been proven that after three or four crops have been grown on alkali land the soil is then capable of producing any other vegetation. In many sections of the States this is in itself of priceless value. This plant has been very extensively tried where single plants grown on the poorest alkali ground have reached a diameter of 16 feet in one season. One pound of seed is sufficient for an acre. It grows readily from seed, and requires no cultivation. Price, postpaid, pkt. 5c.; oz. 15c.; ¼ lb. 35c.; lb. \$1.00.

GREAT NORTHERN SEEDS GROW.
Of easy culture and at prices within the reach of all. You should plant them.

Mammoth Spring Rye

A Most Profitable Crop

Quite different from Winter Rye; highly valued wherever known as a catch crop. It is not only more productive but the grain is of finer quality and it can be successfully grown in any latitude. The straw is of special value as it stands 6 or 8 feet high, being better than that of Winter Rye and producing nearly four times as much straw as Oats. Produces 30 to 40 bushels of grain to the acre. As it does not stool like Winter Rye, not less than two bushels to the acre should be sown. Prices, postpaid, lb. 20c.; 3 lbs. 50c.

Giant Winter Rye

A Big Money-Making Farm Crop

This crop is used for Fall and Spring pasturage, early green food, and for green manuring, as well as for grain. Very hardy and will grow on poorer land than other grain crops. It is a good Spring soiling crop and makes a good quality of hay if cut in bloom or before fully headed out. For a grain crop its straw makes the best of bedding for cattle and horses. Sow at the rate of 1½ bushels per acre. Prices, postpaid, lb. 20c.; 3 lbs. 50c.

Spring Spelts or Emmer

It Makes a Good Crop With Almost Any Condition of Soil and Climate

Outyields any other grain and makes better feed than Barley or Oats

It is neither wheat, rye nor barley, and yet it appears to be a combination of the three. It is more like wheat than any of the others mentioned. For fattening cattle, poultry, horses, sheep, pigs, etc., it is claimed to be ahead of other grains; in fact, all kinds of animals seem to thrive on it. Yields 80 to 100 bushels of richer food than corn, besides giving as much as 4 tons of good hay per acre. Excellent for pasture and can be fed in the green state. Will grow well and produces enormous crops on land where wheat will not grow. Those who have not grown Spelts should not let another season go by without giving it a place and an important place, too, on their farms. Sow 2 bushels per acre. Our own growth, choicest Northern grown pedigree stock seed, price, postpaid, pkt. 5c.; lb. 20c.; 3 lbs. 50c.

Winter Spelts or Emmer

Produces More Nutrient Than Any Other Crop

A new variety first introduced from France by the Department of Agriculture several years ago; and has been tested on many of the experimental farms with good results; yielding from 40 to 77 bushels per acre. As a feed crop it is equal to or superior to, the Spring or Summer Spelts. It does well on all kinds of soils and lands—bottom, second bottom, table and hill—with apparently no preference. It gives uniform good success everywhere, and changes no more than other crops. It produces more nutrient than any other crop—more than corn in the corn belt, and can be grown more cheaply. In a number of the Central, Southern and Eastern states, where Oats do not do so well as in the North; and where Winter Oats would not be hardy, there is a large demand for a Winter Cereal to be used as stock feed. It will ripen earlier than Oats, yield better, and furnish a considerable quantity of Fall and Winter pasturage when the ground is in condition for turning Stock into the field with safety. Winter Emmer will fill that demand exactly and satisfactorily. The preparation of the land, seeding and subsequent management of the Winter Emmer crop are practically the same as that required for Rye and Winter Wheat. Price, postpaid, pkt. 5c.; lb. 25c.; 3 lbs. 70c.

Speltz or Emmer

Rye

Giant Spurry

Giant Spurry

It flourishes on sandy worn soils where no other plant flourishes. It comes next to Clover as a fertilizer. It is of very rapid growth and is sown the latter part of March, April or May, at the rate of 10 lbs. per acre if wanted for hay. The seed is sown broadcast on well prepared soil and covered lightly by harrowing. It germinates quickly, and in from 6 to 8 weeks is ready to cut. It is usually cut for hay the first time, and pastured afterward for the rest of the Summer. If wanted as a fertilizer, 20 lbs. per acre are sown, and when from 15 to 20 inches high, plowed under. Two crops can be plowed under in one year on account of its quick growth. It is readily eaten by cows. Postpaid, oz. 10c.; ½ lb. 15c.; 1 lb. 25c.; 3 lbs. 65c.

Three Best Sugar Canes

Kenney's Improved Early

Amber Unequaled for Stock Feeding or Making Syrup. It can be profitably grown everywhere. It can be used as a pasture or a fodder plant. It is readily eaten by cattle and horses, by mules, sheep, swine and fowls, and in fact, by every animal you need fodder for. It is extremely profitable for this purpose, as the cane can be cut and partly cured, and in this way yields from 40 to 50 tons of magnificent fodder to the acre. It can be cut repeatedly, and springs up quickly again. For fodder, cut as soon as the blossom comes out of the head. Price, postpaid, 1 lb. 20c.; 3 lbs. 50c.

Honey Syrup Cane

As a syrup producer has no equal, being exceedingly juicy and sweet, making from 300 to 400 gallons of molasses per acre. Grows 10 to 12 feet high, is very prolific, sometimes producing five to seven stalks from one seed. It is also a splendid forage crop for green feeding, making excellent hay if sown in drills very thick, and may be planted at any time between April and August. Prices, postpaid, 1 lb. 25c.; 3 lbs. 70c.

Early Orange Cane

An exceedingly valuable variety. Early and frequently produces 240 gallons or over of beautifully colored and highly flavored syrup per acre. Price, postpaid, 1 lb. 25c.; 3 lbs. 60c.

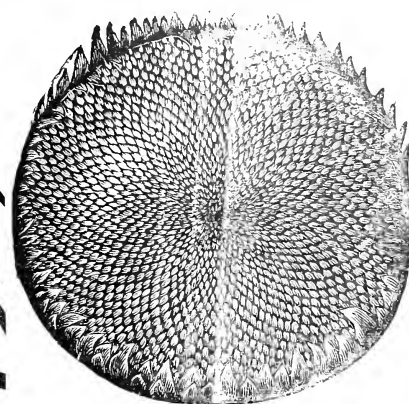

Sand Vetch

Sand, or Winter Vetch

Commonly known as *Vicia Villosa*. One of the Pea-vine class of plants, exceedingly nutritious, surpassing even the several varieties of Clover. It will do better than any other fodder crops on poor soil, while on good soil it makes a rank growth of four or five feet. It is a great favorite with cattle and can be fed with safety to any stock. Perfectly hardy all over the United States, and will remain green all Winter. It is one of the earliest of fodder crops for spring cutting—a full crop can be cut in season to plow and plant any other crop on the same land. Wherever Clover winter kills, plant it. In the South and dry West it will make a capital hay crop by Fall sowing it, for it will make its growth in the Fall and Spring months, before the dry weather sets in. Price, postpaid, 1 lb. 25c.; 3 lbs. 70c.

Early Amber Sugar Cane

Mammoth Russian Sunflower

Sunflower

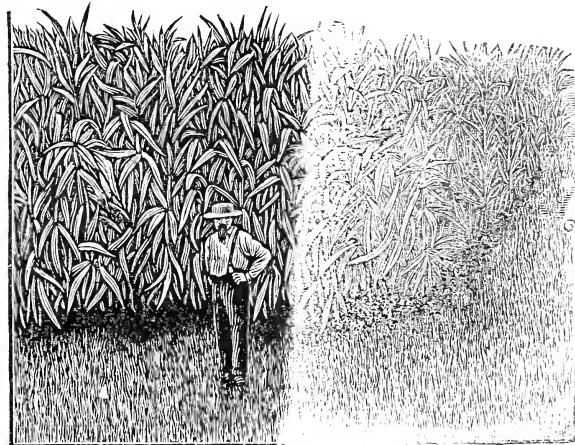

Mammoth Russian

The single heads measure 22 inches in diameter and contain a large quantity of seed, an excellent and cheap food for fowls. They fatten well on it and attain a bright, lustrous plumage, and strong, healthy condition. It can be raised cheaper than Corn. Plant 4 quarts of seed per acre. Price, postpaid, oz. 5c.; ½ lb. 15c.; 1 lb. 25c.; 3 lbs. 70c.

Teosinte

The New Fodder Plant. Rich, Luxuriant, Hardy. Here is a truly wonderful forage plant worthy of general cultivation. It comes to us from the rich, fertile plains of the Nile, where travelers tell us, the enormous yield of 300 tons of green fodder per acre is not uncommon. This is what it does in Egypt. What does it do in America? Almost equally as well. Give it a rich, warm, balmy soil, and it will yield from 100 to 150 tons of green fodder per acre. It is simply marvelous. Down in Georgia, Florida and North Carolina, its yield is all the way from 100 to 250 tons of green fodder per acre. It grows to a height of 18 feet in these states, while a single kernel will produce from 60 to 100 stalks of the most nourishing green fodder imaginable. Price, postpaid, oz. 15c.; ½ lb. 25c.; 1 lb. 35c.

SEEDS

GIANT BEGGAR WEED

A Forage Plant that Never Becomes a Pest. Great for Forage and as a Restorer of Land

It is more valuable for fertilizing than either Peas or Clover and equal to them for feeding. When once established it grows every year without further attention. It will not interfere with other crops, can be kept under by cultivation, can be eradicated in two years of successive pasturing. This is important, because some forage plants become pests when the land is needed for other crops. The plant is a strong feeder, with deep roots, like Alfalfa, bringing from the subsoil the dormant fertilizing elements, and will enrich the land by its decaying foliage without the expense of plowing it under.

Land planted with Beggar Weed has improved 300 per cent. in six years. Hogs, horses, cows and mules eat it greedily; can be pasture land in Summer and Fall. Can be sown in the Corn fields. Will thrive on much poorer land than most forage crops. Five pounds of seed for an acre. Drill or sow broadcast in the Spring, after frost. Postpaid, oz. 10c.; ½ lb. 35c.; lb. 60c.

WONDERFUL
Dry Land Forage Crops
See Inside Cover Page

LENTILS---Linsen

This is a comparatively unknown but really valuable addition to our food supplies. The seeds should be sown in spring in drills and no further attention is required until August or September, when the plants are ready to gather. The seeds keep best in the pods and should only be removed as occasion requires. They are cooked after the manner of beans; they also make excellent soup. Oz. 5c.; ¼ lb. 15c.; lb. 30c. Postpaid.

LUPINES

Succeeds well in the poorest soil and is exceedingly valuable for plowing under. It makes a good fodder in either the green state or as hay. The seeds are very fattening when used with hay. Sow in the early Spring at the rate of 60 to 90 lbs. per acre. Price, by mail, ¼ lb. 15c.; lb. 30c.; 3 lbs. 80c.

Branching Dhoura Corn

Yields from six to sixteen stalks from one seed. Being allied to Sugar Cane, cattle, horses and hogs will eat it ravenously. If cut down it starts again with renewed strength. It yielded at the first cutting at the rate of sixty-eight tons to the acre. Plant five pounds in rows per acre. Postpaid, ¼ lb. 15c.; lb. 25c.; 3 lbs. 70c.

NEW MARQUIS SPRING WHEAT

Extremely Early—Wonderful Yields

It was originated by Doctors Chas. and Wm. Saunders of the Central Experiment Station, Ottawa, Canada, by cross-breeding the Red Fife and the Hard Red Calcutta, a native of India, acclimated to this country. It is from one week to ten days earlier than Red Fife, and this fact alone should induce many of our customers to grow it this spring. In introducing "Marquis" Wheat we are offering our customers absolutely the earliest and hardest wheat grown. It grades No. 1 hard for milling purposes, and out-yields the Red Fife. In appearance "Marquis" Wheat is similar to Red Fife, but the heads, as a rule, are heavier and the stalk is shorter, making it less liable to lodge. The kernel is flinty, a little darker than the Red Fife and more plump than that variety. On account of the heavy demand we anticipate for this variety, customers are reminded that early buyers will be less liable to disappointment. Price, postpaid, lb. 25c.; 3 lbs. 60c.

Blue Stem Spring Wheat No. 169

A popular beardless variety. Is very hardy; vigorous growth; great stooing propensities, and for productiveness and good milling qualities it has few equals. Is not liable to blight or rust, the straw is large and stiff and if blown down by a hard storm will not break, but bend and regain its upright position after the sun shines. Yields heavily everywhere and under all conditions. The heads are very large and well filled, the kernel is hard and the plant stools freely, and under ordinary conditions will yield 40 to 50 bushels per acre. Price, postpaid, lb. 25c.; 3 lb. 60c.

Macaroni or Durum Spring Wheat

It is not only true that Macaroni Wheat can be grown in dry districts, but it must be grown there in order to produce the best quality of grain. Seeded April 26, it was ripe, cut, threshed and in the granary August 6. The shorter the period required for a Wheat to grow the more valuable it will be to a locality subject to summer droughts and hot winds. This Bearded Wheat gives the best results on new land. It does not shell or bleach and is also hail proof, owing to the tightness of the hull. The straw is very strong. Prices, postpaid, lb. 25c.; 3 lbs. 60c.

Red Wonder Winter Wheat

A most valuable bearded variety. It can be depended upon for an abundant yield even in unfavorable seasons. It grows a little above medium height; straw jointed and stocky. Price, postpaid, lb. 20c.; 3 lb. 50c.

Minnesota Reliable Winter Wheat

A very early variety, ripening before rust, blight or chinch bugs or other insect pests appear in the fields. It is a bearded variety; the kernels are red with a very thin husk, are hard and flinty and very rich in gluten. It is stiff strawed and will stand up in wind and rain which would lodge other varieties very badly. Price, postpaid, lb. 25c.; 3 lb. 60c.

New Red Wave Winter Wheat

It is a cross between Early Red Clawson and an unnamed cross breed from Russian parentage. It is a bald brown chaff, dark, medium long, large grain; strong, thick-walled, golden straw; medium tall and stocky; heads very long and broad, filled with medium long, large, hard, dark kernels, rich in gluten. Prices, postpaid, lb. 25c.; 3 lbs. 60c.

Marquis Spring Wheat

Alfalfa Clover

THE BEST CLOVER SEED

ALL NORTHERN GROWN, FANCY RECLEANED SEED.
WE OFFER ONE GRADE ONLY—THE BEST

Alfalfa

THE QUEEN OF ALL THE CLOVERS

There is no State in the Union where it Cannot be Successfully Grown

Alfalfa, Grimm or Everlasting. This is the Queen of all the Clovers, the hardest, the most lasting, most productive, having survived winters that killed out many fields of other varieties of Alfalfa. We offer a limited amount of the very finest grade Northern Grown. Price, postpaid, lb. 40c.; 3 lbs. \$1.15.

Dry Land Alfalfa Seed. The extension of Alfalfa growing into the regions of limited rainfall has created a demand for Alfalfa seed especially adapted to those conditions. Seed which has been produced from Alfalfa grown on dry land and without irrigation is of course much preferable for dry land culture to seed produced under irrigation or normal rainfall. It is not always possible to obtain seed grown under these conditions, but we have succeeded in purchasing a limited amount of fine seed which is offered only until our stock is exhausted. In case we do not have Dry Land Alfalfa when your order is received we suggest that you state on your order as to what variety we may substitute in its place to the value of the money you send us; or, in the absence of these instructions, we will promptly refund your money if we do not have what is wanted. We never substitute without the consent of the purchaser. Price, postpaid, lb. 32c.; 3 lbs. 90c.

Montana Alfalfa Seed. Montana is producing a very fine grade of Alfalfa. The seed is usually exceptionally large and of high germination. Our seed is obtained in those sections where plants have endured the extreme cold of winter and thrive at high altitudes. We have been able to secure only a limited quantity of exceedingly bright seed. Price, postpaid, lb. 32c.; 3 lbs. 90c.

Turkestan Alfalfa. Genuine. Endures extreme cold and drought; excellent crops have been raised on strongly alkaline soils. Strong, leafy, slender stems, making most nutritious hay. Price, postpaid, lb. 30c.; 3 lbs. 85c.

Alsike or Swedish Clover

This is one of the hardest varieties known. It is perennial and does not winter kill. It will do better on moist land than any other variety of Clover, and is suitable for either hay or pasture. When sown with other grasses, it forms a thick undergrowth and greatly increases the yield. It is frequently sown both with Medium Red Clover and with Timothy, and the quality of hay thus produced is excellent. It is finer and more leafy than Medium Red Clover. Price, postpaid, lb. 35c.; 3 lbs. \$1.00.

Medium Red or June Clover

This is the most important of all Clovers and the standard everywhere for hay and pasture. It is known as Common Red or June Clover in many sections. Our Northern-grown Clover Seed has become widely known for its purity, strong vitality, hardiness, vigorous and healthy growth and stooling qualities. Price, postpaid, lb. 32c.; 3 lbs. 90c.

Mammoth Red Clover

(Also called Sapling or Pea Vine Clover)

This is grown largely for pastures and to restore fertility to depleted soils. Sow 15 lbs. per acre. Price, postpaid, lb. 33c.; 3 lbs. 95c.

Crimson Clover

(Giant Incarnate)

This fine Clover is one of the most valuable Fall crops the farmer can put in, as it will make the earliest green feed of any of the Clovers. Sown at the rate of 15 to 20 lbs. per acre, any time from July to October. Price, postpaid, lb. 30c.; 3 lbs. 85c.

Bokhara, Sweet or Bee Clover

This Clover is especially adapted for bee pastures, and whoever keeps bees should not fail to try it. It grows on poor and sandy soil and also on land that is as solid as a rock. Sow 10 to 15 lbs. per acre. Price postpaid, lb. 32c.; 3 lbs. 90c.

Serradella Clover

The greatest honey producing plant in the world. For light, poor, or sandy soils Serradella is one of the best fodder plants. It is sown at the rate of 10 to 15 lbs. per acre, and can be sown either by itself, or in Winter Wheat or Rye in early Spring. Price, postpaid, lb. 25c.; 3 lbs. 70c.

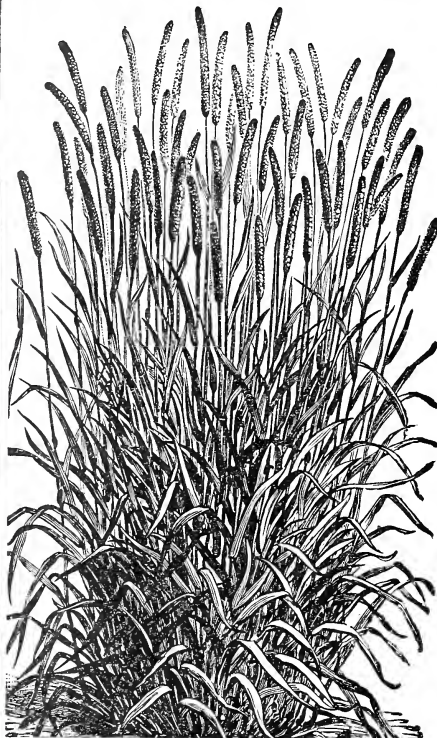

Sainfoin, or Esparsette Clover

An excellent perennial Fodder Plant, growing about 3 feet high. Adapted for light, chalky soils; does well in Southern and Western States. May be sown in drills or broadcast; desirable for feeding either green or dry. Sow 20 to 30 lbs. per acre. (20 lbs. per bu.) Postpaid, lb. 25c.; 3 lbs. 70c.

Timothy

Timothy

As a crop for hay, Timothy is probably unsurpassed by any other grass. It is greatly relished by all kinds of stock, especially horses. It yields more nutritive matter than any other grass or forage plant. It is well suited for a permanent pasture as it will hold its own for several years, before running out. Sow early in the spring or fall, at the rate of twelve pounds per acre, if alone, but less if mixed with other grasses. Price, postpaid, lb. 20c.; 3 lbs. 50c.

Bromus Inermis

Choice Montana Grown. This is the best grass that has yet been tried in this country. When properly sown, it catches well, giving a good sod the first year; in favorable seasons, a fair yield of hay may also be obtained. Up to the present the best results have been obtained by sowing plenty of seed on well prepared ground as early as possible in the spring. From 1½ to 2 bushels should be sown to the acre, depending somewhat upon the season and condition of soil. The forage, though coarse, is of excellent quality, and under ordinary circumstances a large amount of early spring and fall feed may be obtained, in addition to a good yield of hay. It does well sown with Clover or with Clover and Timothy. Use 20 pounds to the acre if alone, if with Alfalfa 15 pounds. It may be sown in the fall with Winter Wheat, or in the spring. Cut when first coming into bloom. Price, postpaid, lb. 27c.; 3 lbs. 75c.

Bromus Inermis

German or Golden Millet

One of the best varieties. Quick growing and will produce an immense amount of valuable fodder. It makes the best of hay. Sow ½ bu. per acre. Price, postpaid, lb. 20c.; 3 lbs. 50c.

Hungarian Millet

Valuable hay for stock raisers; yields a good supply. It should be cut when in bloom. Sow ½ bu. per acre. Postpaid, lb. 20c.; 3 lbs. 50c.

New Japanese Millet

Quick Growing, Drought Resisting Variety of Great Merit. Grows from 4 to 7 feet tall, but is not harsh and woody as other grasses are. This is one of the most profitable and valuable seed crops. We have grown this splendid Millet for years and have been so careful in the selection and improvement of our Stock Seed that our strain is acknowledged to be best in existence. Price, postpaid, lb. 20c.; 3 lbs. 50c.

Early Russian Millet

The best hog and stock Millet. It is about three weeks earlier than German or common Millet, thereby making a crop when the latter often fails on account of early frosts. Second: It grows extra fine stalks, wondrously prolific, has great stooling habits, is very leafy and bushy and full of rich, green blades. One kernel has been known to produce fifty fine, strong stalks, just the size that are eagerly eaten by cattle. Price, postpaid, lb. 20c.; 3 lbs. 50c.

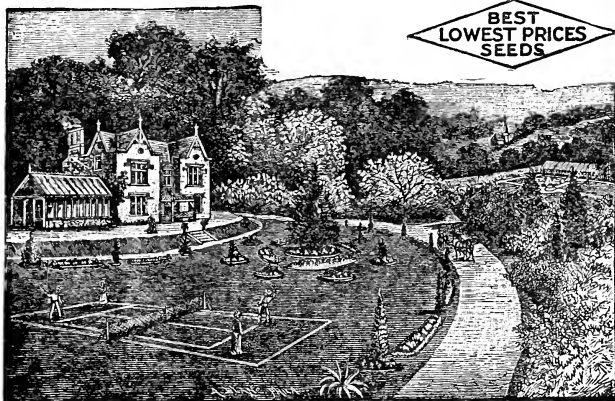

Pearl Millet

(Billion Dollar Grass.) Quick Growing and Heavy Cropping. This quick-growing forage plant has long been known under the name East India or "Cat-tail" Millet. Sown in drills four feet apart and cultivated like Corn the plants attain a height of 8 to 10 feet, with slender, long-bladed leaves. Price, postpaid, lb. 25c.; 3 lbs. 70c.

Columbia Lawn Grass Seed

LAWN GRASS SEED

COLUMBIA LAWN GRASS MIXTURE
Makes the Finest Lawns in the World

This mixture will insure a beautiful, compact, evergreen sod on any lawn where the essential requirements of grass culture have been complied with. Full provision is made for a successful growth, so that there shall be no break in the richness of the verdure from spring until autumn, and experience proves that our Columbia Lawn Grass Mixture is now perfect. Nothing better can be purchased on the American market, no matter what claims may be advanced by other Seedsmen. Price, postpaid, 1/2 lb. 15c.; 1 lb. 25c.; 3 lbs. for 70c. By express or freight, not prepaid, 5 lbs. 85c.; 15 lbs. \$2.40; 25 lbs. \$3.85; 50 lbs. \$7.60; 100 lbs. \$15.00.

Evergreen Mixture Lawn Grass. The Best Medium Priced Lawn Grass. On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty. It is a combination of fine, dwarf-growing, evergreen varieties, which in their wild or natural state are to be found growing in the woods or other sheltered or shaded spots. Price, postpaid, 1/2 lb. 15c.; 1 lb. 25c.; 3 lbs. 65c. By express or freight, not prepaid, 5 lbs. 75c.; 15 lbs. \$2.15; 25 lbs. \$3.40; 50 lbs. \$6.75; 100 lbs. \$13.45.

Kentucky Blue Grass, Extra Fancy. Our Rockford Strains are unsurpassed. Many prefer this to a mixture of grasses, and the fact cannot be denied that a lawn of Blue Grass only is magnificent; it takes longer, however, to get it established. Very desirable for wood lawns, pastures, and especially excellent for winter pastures because of its thick, heavy growth. Price, postpaid, 1 lb. 25c.; 3 lbs. 70c.

White Clover, Extra Fancy. Re-cleaned Seed, Very Fine. Especially suitable to plant for pasture or to sow in lawn in connection with the Blue Grass. It produces a delightful, smooth and attractive surface; also makes excellent forage for bees. This choice variety, price postpaid, per lb. 48c.; 3 lbs. \$1.35.

Red Top, Extra Fancy. All Solid Seed; Re-cleaned. Makes a good permanent grass and produces luxuriant growth on almost any soil. This is a great variety, and you should send your orders for it early, as it usually sells rapidly. Postpaid, 1 lb. 23c.; 3 lbs. 65c.

Evergreen Mixture, Lawn Grass

Pasture Mixture

Grass and Clover Seed Mixtures

FOR MEADOWS AND PERMANENT PASTURES

It is often difficult for our patrons to select proper Grasses and to mix the same thoroughly for their use; and it thus comes that we are annually requested by thousands of our friends to select and mix for them sorts adapted to their soil and climate. This from our large experience in the culture, nature and requirements of Grasses for pastures and meadows, we can often do more satisfactorily than they. When customers wish a luxuriant growth of either meadow or pasture, it will pay them every time to buy our Grass Mixtures. Our seeds are Northern-grown, and our farmer friends will be surprised to see the unusual vigor that this lends to them. Northern-grown seeds, whenever a strong growth is wanted for hay or pasture; usually return 50 per cent more crop than Eastern stock. Our Grass mixtures for pastures and meadows are composed of appropriate Grasses in such quantities as are required to produce an even, healthy, vigorous, strong growth on different soils.

MEADOW MIXTURE No. 1. For Rich, Dry Soils.

Tall Meadow Oat	Timothy	Kentucky Blue

THE BEST POTATOES Northern Grown

WE SHIP ALL ORDERS

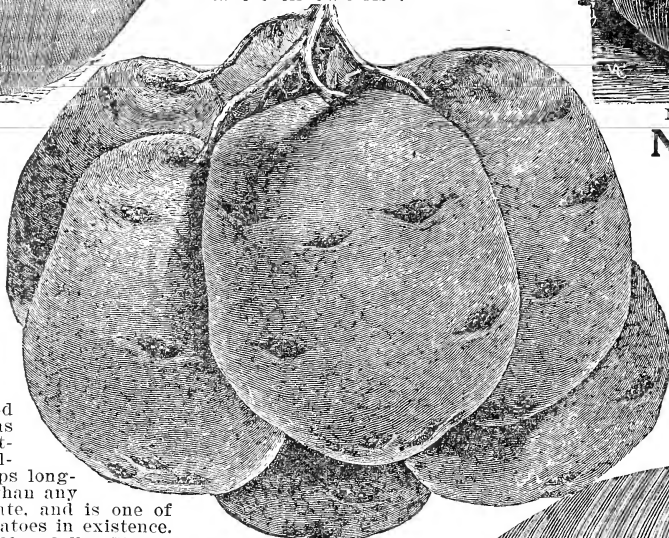

Just as soon as the weather, in our judgment, will permit. However, we cannot become responsible for changes in the weather by which the Potatoes might be damaged while enroute. Will ship at any date our customers may designate when requested to do so, regardless of weather, if customers wish to take their own risk.

Noroton Beauty

Noroton Beauty or Quick Lunch

The earliest Potato ever grown and fully as productive as any main crop or late sort. This combination of extreme earliness, productiveness, also good keeping qualities, has never before been attained. Its table quality is superb and keeps longer in good condition than any other sort, early or late, and is one of the best all-round Potatoes in existence. Price, postpaid, 1 lb. 30c.; 3 lbs. 70c.

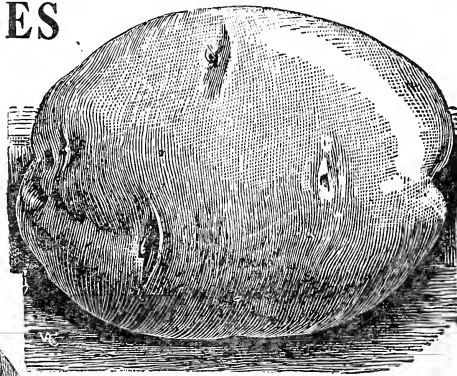

New Extra Early Rockford

New Extra Early Rockford

Earliest and Best. Makes an extremely quick growth and considering its Extra Earliness is a wonderful heavy yielder. Handsome, pinkish tinged skin and white flesh. Just the right shape; just the right size. In fact it is the ideal Potato. Prices, postpaid, 1 lb. 30c.; 3 lbs. 70c.

Improved Early Ohio

This is without doubt the most popular Early Potato in the country, and there is a greater demand for it than for any other Early. The Potatoes we offer are smooth and clean, earlier, more vigorous and productive than home grown seed. Pure, Choicest Pedigreed Stock Seed. Prices, postpaid, 1 lb. 25c.; 3 lbs. 60c.

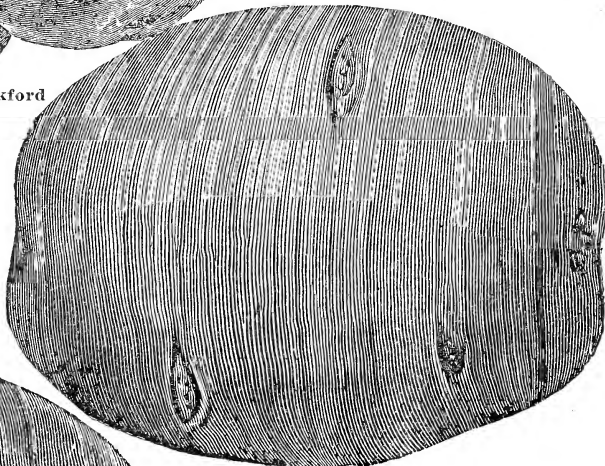

New Early Six Weeks

New Early Six Weeks

Well known favorite. Very early, good yielder. Forty-five days is three days longer than six weeks, which is the record our stock of Early Six Weeks holds on our Northern Seed Farms, and tested with other samples of Six Weeks Potatoes, proves more vigorous and productive. Choicest Pedigreed Stock Seed. Prices, postpaid, 1 lb. 25c.; 3 lbs. 60c.

For Potato Eyes

See Next Page, 53

Improved Early Ohio

Carmen Number Three

The best standard late. Enormous crop-per. Satisfactory shipper, splendid appearance. Meets all requirements all the time. One of the most popular of the Carmen group of Potatoes. Carmen Number Three grows to the largest size of any of the main crop sorts. Choicest Pedigreed Stock Seed. Prices, postpaid, 1 lb. 25c.; 3 lbs. 60c.

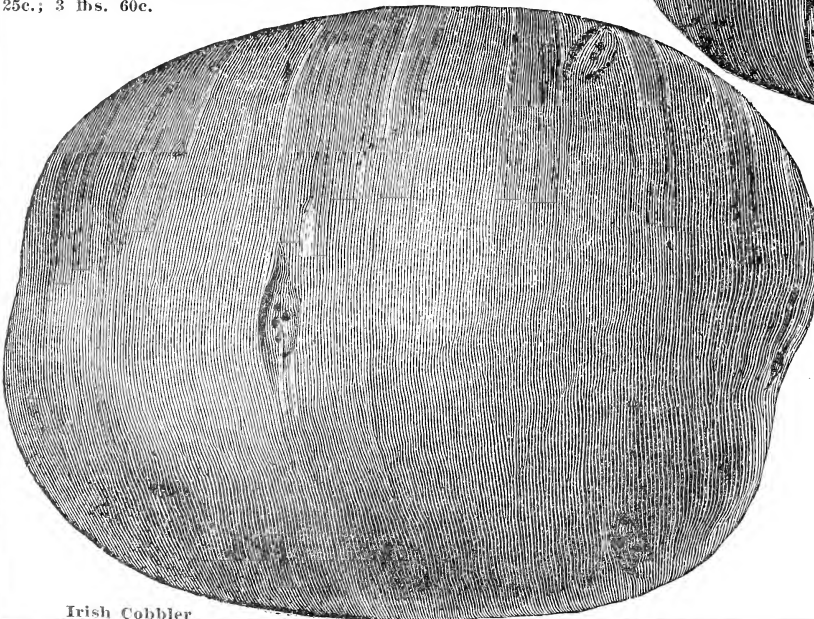

Irish Cobbler

A chunky, white-netted early Potato. Of splendid quality; flesh creamy white, splendid yielder and especially suited to dry climates. Choicest Pedigreed Stock Seed. Prices, postpaid, 1 lb. 25c.; 3 lbs. 60c.

Irish Cobbler

Early White Ohio

Early White Ohio Potato

An Ohio with a White Skin. It is a true Ohio of the best type in all except color, which instead of being pink, as in the parent, is a beautiful creamy white with pink eyes. Just imagine the smoothest, nicest Ohio you ever saw, but with the color of the old Peachblow, and you will have a good idea how it looks. In earliness there seems to be no difference between it and the Ohio, the White Ohio being a little bit the earliest if anything, but in yield it has a decided advantage. Prices, postpaid, 1 lb. 25c.; 3 lbs. 70c.

Bliss' Red Triumph

A Most Popular Variety.

There is good reason why the TRIUMPH should be popular. It is from seven to ten days earlier than the Ohio, and that oftentimes means a difference of many dollars in the crop. We believe that Potato growers will do well to plant liberally of them the coming Spring, as there is sure to be an almost unlimited demand for the seed from the Mississippi Valley, where thousands upon thousands of acres of Potatoes are grown each year for the early markets. The Potato is of good size, squared at ends. Skin is red, flesh is very white and firm. Our stock is genuine. Prices, postpaid, 1 lb. 25c.; 3 lbs. 60c.

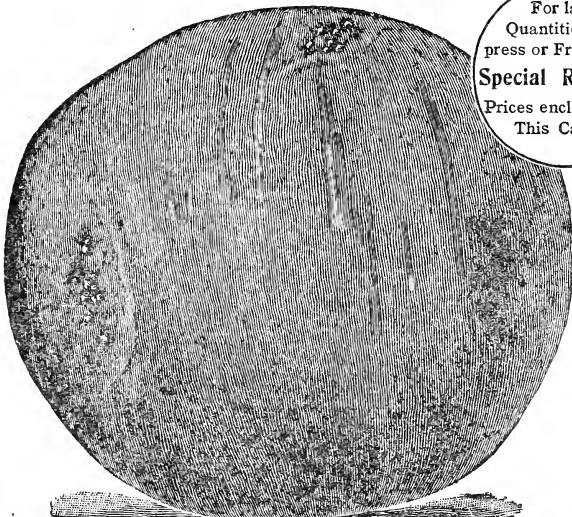

Hybridized Potato Seed

A SUPERB COLLECTION OF THE MOST VALUABLE VARIETIES—HEADQUARTERS SEED

Growing new and distinct Potatoes from the Seed-Ball-Seed is intensely interesting and fascinating. They will produce innumerable kinds, shapes, colors, sizes, forms and qualities. Some may be of immense value. This incomparable mixture contains choice selections from the U. S., Germany, Chili, Switzerland, South America, France, Africa, Mexico and Europe. New creations of merit bring rich returns and your fortune may be in one of these. Pkt. 8c.; 3 Pkts. 20c.

Bliss' Red Triumph

Pure Early Rose

Pure Early Rose

The good old favorite, which continues in great popularity. A prolific yielder, sure cropper, and popular market Potato. Every farmer and gardener knows the good Early Rose and nothing need be said in its favor. The strain we offer is the purest and best that can be put on the market. Choicest Pedigreed Stock Seed. Prices, postpaid, 1 lb. 25c.; 3 lbs. 60c.

Improved Burbank, Standard Late Variety

Which continues in good demand and is more largely used than any other. It is of good size, of fine form and an excellent yielder. The flesh is white, very mealy and of fine flavor and quality. The best Potato for baking. Prices, postpaid, 1 lb. 25c.; 3 lbs. 60c.

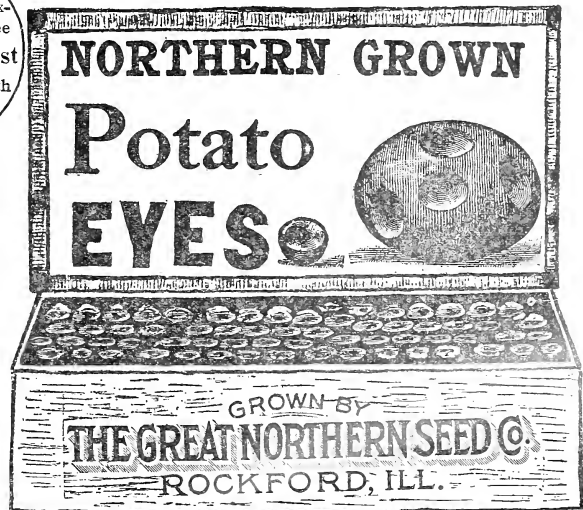

Potato Eyes Postpaid by Mail

There are many people living in cities or towns who have a small garden and would like to devote a portion of it to Potatoes, but who do not feel like paying the freight or express charges on a small quantity of whole Potatoes. By purchasing eyes this can be done at every slight expense. By careful selection we take the very best Potatoes, from which the eyes are cut. These are prepared in such a way that they will keep in good condition for a considerable length of time, and we warrant them to arrive in good condition for growing, no matter how far away. In this way our customers can have the pleasure of trying our new varieties at little cost. In sending the Eyes by mail there is nothing to pay for transportation, we pay all postage. All orders for the South can be sent at any time in the winter with safety. Orders for the North and West will be booked when received, and sent when Spring opens or planting time arrives.

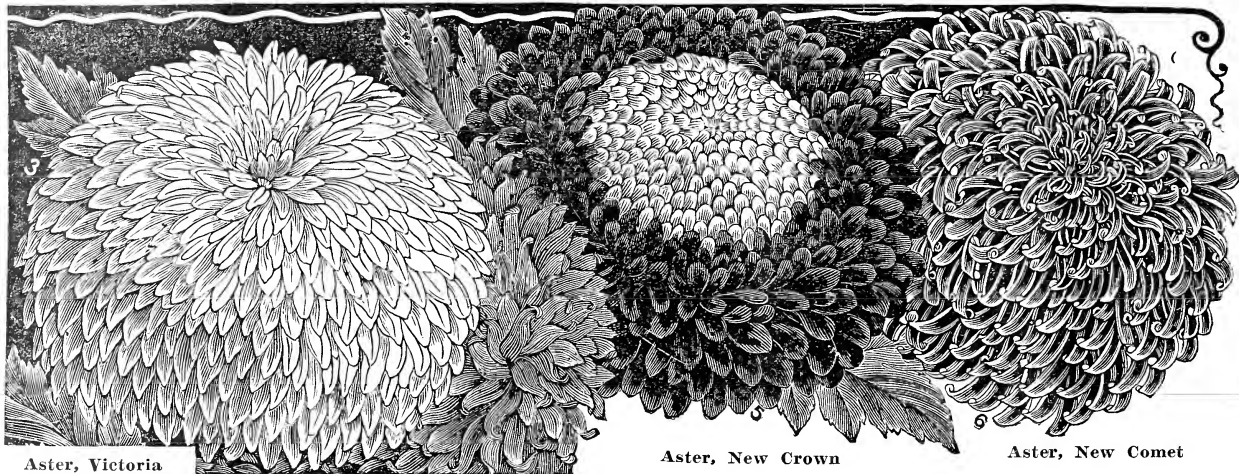

PRICE OF POTATO EYES, POSTPAID

Box of 100 Eyes, 65c.
Box of 200 Eyes, \$1.25.
Box of 500 Eyes, \$3.00.

No less than 100 Eyes of any variety will be put up.

THE BEST FLOWER SEEDS

Aster, Victoria

New Victoria Aster

Massive and showy. Individual flowers measure four inches and over across. We can supply the following colors:

Snow White. Large pkt. 4c.; $\frac{1}{8}$ oz. 35c.
Bright Pink. Large pkt. 4c.; $\frac{1}{8}$ oz. 35c.
Dark Crimson. Large pkt. 4c.; $\frac{1}{8}$ oz. 35c.
Blue Shades. Large pkt. 4c.; $\frac{1}{8}$ oz. 35c.
Victoria Mixed. Large pkt. 5c.; $\frac{1}{8}$ oz. 30c.

Crown Aster

A very showy variety, the large double flowers having the center pure white, surrounded with petals of distinct bright colors. The strain we offer is much improved, and we have no hesitancy in recommending it to our patrons as one of the most satisfactory varieties of Asters. Pkt. 5c.; $\frac{1}{8}$ oz. 40c.

Aster, New Crown

New Giant Comet Aster

The finest of all. The petals are finely curled and twisted, giving it a very fine appearance. Flowers of large size and borne in great profusion. The colors are:

Snow White. Large pkt. 5c.; $\frac{1}{8}$ oz. 25c.
Rose Color. Large pkt. 5c.; $\frac{1}{8}$ oz. 25c.
Blue Shades. Large pkt. 5c.; $\frac{1}{8}$ oz. 25c.
Clear Crimson. Large pkt. 5c.; $\frac{1}{8}$ oz. 25c.
New Giant Comet Mixed. Large pkt. 4c.; $\frac{1}{8}$ oz. 20c.

Aster, New Comet

Improved Giant Crego Pink Aster

A Magnificent Large Flowered Comet Type. Wonderfully Prolific and A Continuous Bloomer

The really distinctive feature of this Aster, which alone distinguishes it from other varieties, and gives it its right to a new name, is its color. It is a pure shell pink, so popular everywhere and always admired.

The plants are vigorous and productive of from ten to fifteen strong flower stems, frequently two feet or more in length. The flowers are large and fine as Chrysanthemums, seldom measuring less than four inches across, and full with the crowns well covered.

The petals are of medium width but very long, and curl across each other so fluffy as to enhance the beauty and attractiveness of the flower, and increase its value as a long keeping, good shipping variety. Without question this new variety surpasses in size and beauty any other Aster. Be sure and give it a trial; you will be pleased with it. Pkt. 8c.; $\frac{1}{8}$ oz. 30c.

Aster, Snowball

The finest pure white Aster grown. Pkt. 5c.; $\frac{1}{8}$ oz. 35c.

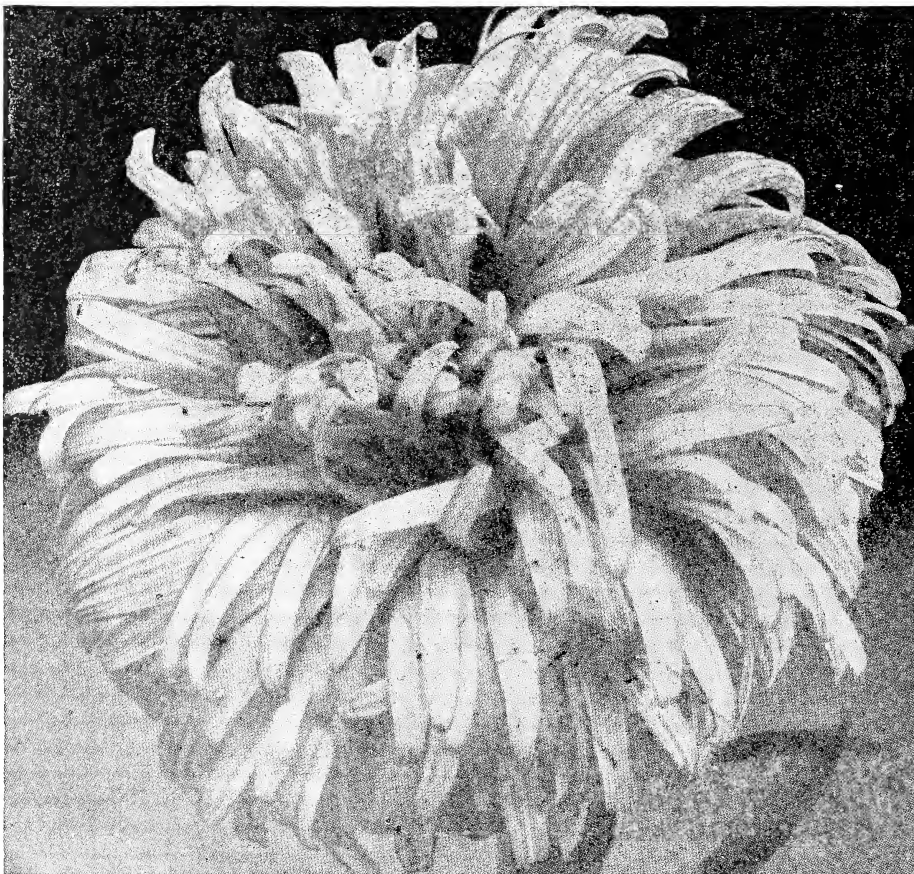

Aster, Fire King

The most brilliant scarlet Aster known. Pkt. 5c.; $\frac{1}{8}$ oz. 35c.

Extra Early Hohenzollern

Plants of medium size, extremely early and producing abundantly, blooms of the largest size, fully four inches in diameter. The petals are of open Comet type and unusually graceful in their seemingly careless arrangement. These Asters have the desirable combination of extreme earliness, large size and splendid cutting qualities. We offer the white, also the pink variety.

White—Pkt. 8c.; $\frac{1}{8}$ oz. 35c.
Pink—Pkt. 8c.; $\frac{1}{8}$ oz. 35c.

Aster Giant Crego

Queen of the Pacific Aster Mixture

New Aster

Queen of the Pacific Mixture
All the Newest and Best Colors
Possessing all the good qualities
of the older varieties of Asters, and
surpassing all in size, delicacy and
beauty of coloring, making it es-
pecially desirable for decorating
purposes. One of the chief charac-
teristics is the beautiful arrangement
of the petals, the outer gracefully
curling under, while center rows
coquettishly turn over in the oppo-
raised, fluffy center. Pkt. 6c.;
½ oz. 25c.

New Ray Aster

EARLIEST FLOWERING

The flowers are very large, often
five inches across, are produced on
long, thin, wiry stems, perfectly
double, with long needle or quill-
shaped petals, giving the blossoms a
very distinct appearance. Mixed,
Pkt. 6c.

Aster, New Harlequin

A very odd and attractive new var-
iety. Pure white, blue and red
petals on each blossom. Pkt. 4c.;
½ oz. 40c.

Paeony Flowered Perfection Aster

Aster, Queen of the Market

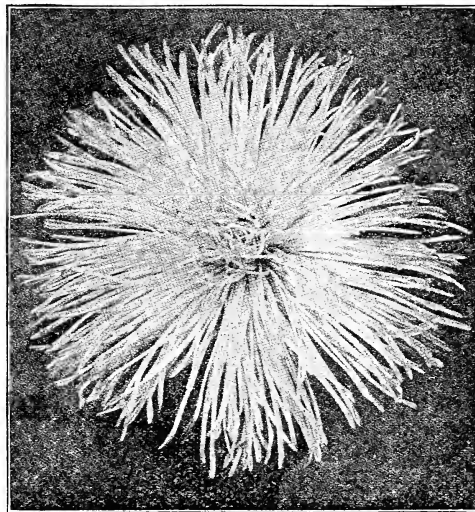

Its great merit is its
early-flowering charac-
ter, being in full
flower two weeks be-
fore most other As-
ters begin to bloom.
Colors range from
deep blue, white
pink to beautiful
rose. Finest mixed,
pkt. 4c.; ¼ oz. 18c.

Aster, Giant Quilled

Quilled shaped pet-
als. Pkt. 5c. ¼ oz.
25c.

Aster, New Yellow

The best yellow
Aster yet introduc-
ed. Pkt. 4c.; ½ oz.
40c.

Aster, New Ray

Perfection Aster

Large and beauti-
ful flowers with in-
curved petals. Col-
ors as follows:

Snow White. Pkt.
4c.; ½ oz. 25c.
Pink Ball. Pkt.
4c.; ½ oz. 25c.
Crimson Ball. Pkt.
4c.; ½ oz. 25c.
Blue Shades. Pkt.
4c.; ½ oz. 25c.
Perfection Mixed.
Pkt. 5c.; ½ oz. 20c.

Asters

Finest Mixed.
Choicest and most
varied strains of
Asters ever offered.
Pkt. 5c.; ½ oz. 30c.

Asters

Good Mixed. Many
bright colors from
standard varieties,
free bloomers and
strictly fresh, new
seed. Pkt. 3c.; ½
oz. 20c.

New Japanese or Tassel Aster

New Japanese or Tassel Aster

Entirely distinct and novel. Plants
of pyramidal growth, about eigh-
teen inches high, bearing on long
stems from forty to fifty flowers,
averaging five inches across, com-
posed of wavy and twisted needle-
shaped petals, making the flowers
free from the stiff and formal ap-
pearance usual to Asters. Color soft
flesh pink and rose, mixed. Pkt.
6c.; ½ oz. 50c.

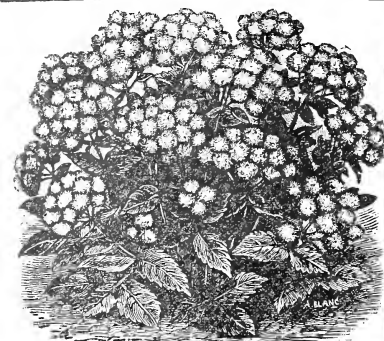

Semple's Branching Aster

Handsome double Chrysanthemum-
like flowers, many being over six
inches in diameter.

White. Large pkt. 4c.; ½ oz. 20c.
Pink. Large pkt. 4c.; ½ oz. 20c.
Purple. Large pkt. 4c.; ½ oz. 20c.
Lavender. Large pkt. 4c.; ½ oz. 20c.
Crimson. Large pkt. 4c.; ½ oz. 20c.
Semple's Mixed. Pkt. 5c.; ½ oz. 18c.

Semple's Branching Aster

Ageratum

Ageratum

Suitable for pot culture or bedding, bearing in profusion clusters of feathery flowers. This mixture of colors contains the beautiful amethyst blue. Pkt. 3c.

Acroclinium

A pretty annual "Everlasting" bearing lovely white or rosy pink flowers, which, when cut in the bud state, can be dried and used in winter bouquets. Pkt. 3c.

Amaranthus

Beautiful foliage plants, invaluable for massing where striking contrasts in color are desired. Choicest Mixed, Pkt. 3c.

Balsam

Giant Perfection. Double flowers often 2 inches across. The range of color includes white, rose, yellow, buff, pomegranate, red, scarlet, crimson, purple lilac and violet. Pkt. 5c.; ¼ oz. 25c.

Finest Mixed. Fine assortment, good colors, large double flowers. Pkt. 4c.

Balsam Apple

A beautiful rapid climbing plant with apple-shaped fruit, useful when preserved in alcohol as liniment. Pkt. 3c.

Columbine

(Aquilegia)

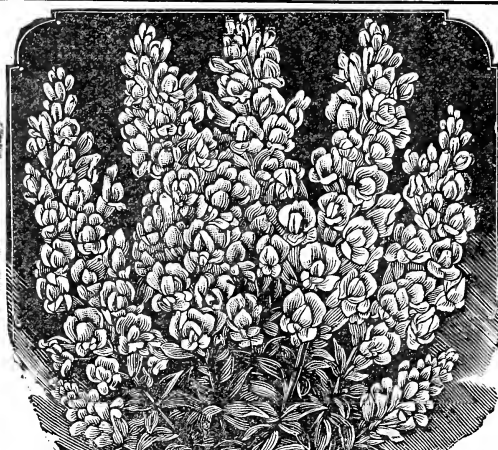

Beautiful grotesque and varied-colored flowers, blooming freely in the Spring; hardy perennials; all colors mixed. Pkt. 3c.

Balloon Vine

Graceful and rapid climber. Flowers white. Pkt. 3c.

Balsam, Giant Perfection

Snapdragon, Giant

Beans, Scarlet Runner

A Favorite Old-Fashioned Climber. Grows to a height of 10 to 12 feet, and is covered from July until heavy frosts with clusters of beautiful scarlet flowers. Pkt. 5c.

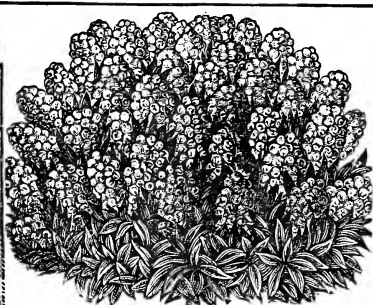

Anchusa, The Heavenly Blue Flower

Bachelor's Button

The national flower of Germany, where they call it the "Corn Flower," or "Kaiser Blumen," also known as "Blue Bottle," and "Ragged Sailor." Double Mixed. Pkt. 3c.

Bird of Paradise

This striking and attractive flower has lately become wonderfully popular. Blossoms are of a rich golden yellow, about 2½ inches in diameter, produced in large trusses, the most striking feature being the long, incurving stamens and pistils, of a beautiful bright crimson. Pkt. 5c.

Alyssum

Alyssum

Little Gem. Grows 6 inches high, commences to blossom early, producing immense heads, and when sown early in the open border soon forms a perfect mat of purest white. Pkt. 4c.

Sweet Alyssum. Pure white. Pkt. 3c.

Snapdragon

or Antirrhinum

Giant. Flowers double the size of older sorts, more closely set on the stems, and colors more clear and brilliant. All colors mixed. Pkt. 4c.

Tom Thumb. Finest mixed. Pkt. 3c.

Queen of the North. The finest and best. Pkt. 4c.

Heavenly Blue

(Anchusa)

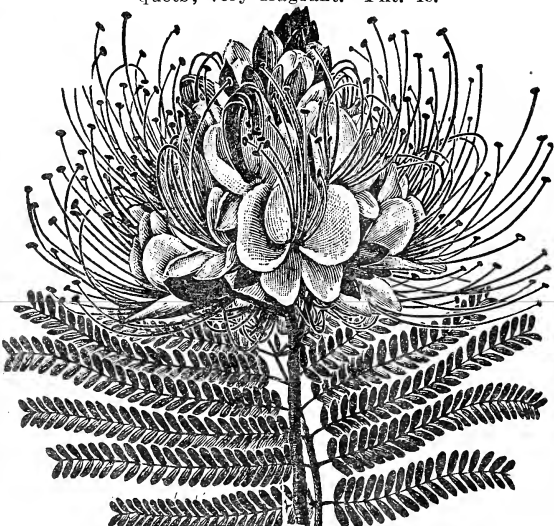

A hardy annual of more than ordinary beauty. It grows about 2 feet high, branching freely and bearing a profusion of the most lovely flowers similar in all respects to the Forget-me-not, though the blossoms are much larger and of finer color. It is always taken for a beautiful large flowering Forget-me-not. Pkt. 5c.; ½ oz. 15c.

Angel's Breath

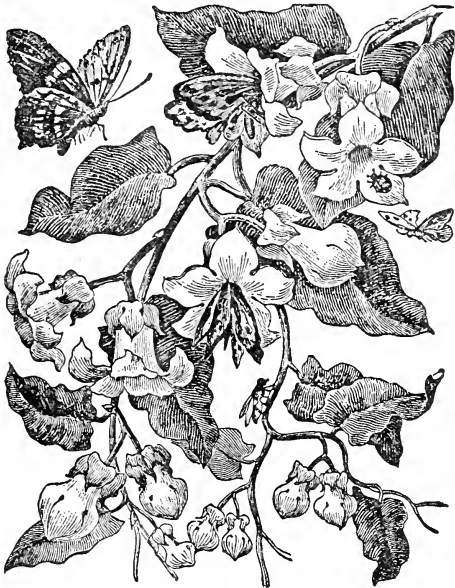

An annual that should be in every garden, for it thrives everywhere and furnishes the loveliest material for bouquets. It is extensively used for decorating, its mist-like sprays setting off a bouquet as dainty lace does a lady's dress. Hardy perennial. Pkt. 3c.

Ambrosia

Hardy annual. Blossoms are round and of greenish-yellow color. Fine for bouquets; very fragrant. Pkt. 4c.

Bird of Paradise

Butterfly Flower

Butterfly Flower

(Schizanthus)

They form compact plants, literally covered with beautiful, orchid-like flowers, all delicately fringed and curiously marked with crimson, lilac, purple and yellow blotches. Pretty for decorating bouquets or massed in a bed. Pkt. 4c.

Chrysanthemum

(FRENCH MARGUERITE)

All the sorts, such as are commonly grown out of doors. Pkt. 3c.

Canary Bird Flower

A highly ornamental creeper, with beautiful yellow fringed flowers. Pkt. 4c.

Calendula (Pot Marigold)

A profuse flowering hardy annual, very effective for beds or mixed borders. Pkt. 3c.

Calliopsis or Coreopsis

Showy and useful free-flowering plants. Finest Mixed. Pkt. 3c.

Carnation

Marguerite. This new class of fragrant Marguerite Carnations will bloom in about four months after sowing the seed. Flowers are of brilliant colors, ranging through many beautiful shades of reds, pinks, white, variegated, etc., exquisitely sweet and fully 80 per cent perfectly double. Our mixed seed will produce a large percentage of fine, double-flowered plants in the choicest assortment of colors. Choicest Mixed, Pkt. 5c.; ¼ oz. 35c.

Perennial. Fine Double Mixed Varieties. Large pkt. 8c.

Cleome or Spider Flower

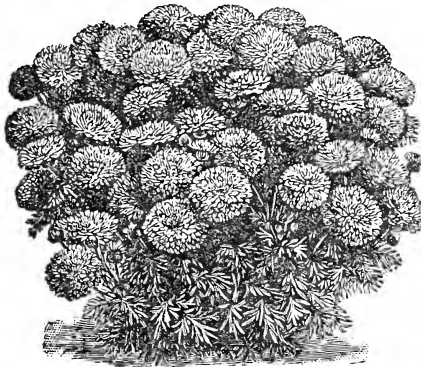

Cypress Vine, Mixed

Canna

Crozy's Hybrids. New dwarf growing. Pkt. 4c.

Marguerite Carnation

Baby Golden Glow

Baby Golden Glow

A beautiful and most effective annual, blooming from seed the first season, growing only two feet high, flowering early and so profusely that it eclipses all other garden annuals for a grand show of flowers. Single plants producing hundreds of the brightest yellow and white blossoms as double and perfect as roses. Pkt. 4c.

Centaurea Marguerite

Large, fragrant flowers; produced on long stiff stems, they are fine for cutting and decoration. Pkt. 4c.

Cobaea

Sometimes called "Look at Me." A hardy perennial vine that will bloom in June or July from seed sown in April and bears in profusion inverted pea-shaped flowers from 1½ to 2½ inches in diameter, ranging in color from a rosy violet to a reddish purple, with a broad-feathered white marking through the center, while the large buds and back of flower are pure white, appearing as if one plant bore many colored flowers. Pkt. 4c.

Canterbury Bells

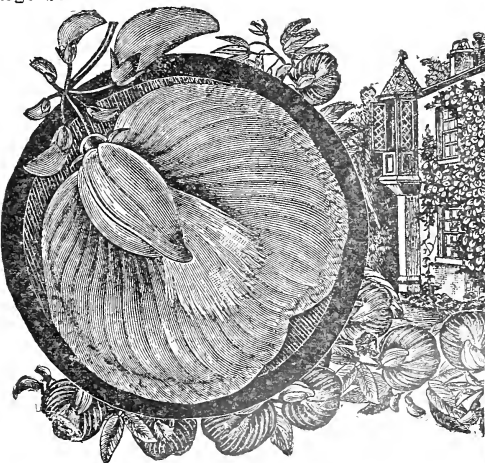

Beautiful, large, bell-shaped flowers, which makes a glorious display when planted in large beds. Pkt. 4c.

Cineraria

Beautiful free flowering plants, for house and window garden. Flowers large, rich colors completely covering the plant with a mass of bloom. Finest mixed. Pkt. 6c.

Centrosema

Centrosema, "Look at Me"

Large Flowering Candytuft

Candytuft

Large Flowering. Most desirable for cut-flower purposes, producing a very large, elongated head of quite large pure white florets. The immense broad heads frequently measure six inches in length; flowering profusely throughout the whole season; great favorite for beds, edging, pots and borders. Pkt. 5c.

Empress. Strong, free-growing, with candelabra-shaped branches, producing immense trusses of pure white flowers. Pkt. 4c. Mixed, Pkt. 3c.

Cobaea, Scandens

Beautiful climber, bell-shaped lilac-blue flowers. Pkt. 4c.

Cosmos—Giants of California

Cosmos

Giants of California. This strain is noted for beauty and the gigantic size of its flowers, which measure 4 to 5 inches across; the colors are very varied and beautiful. **Choicest Mixed**, pkt. 4c.; $\frac{1}{2}$ oz. 12c.

Early Dawn. A new strain, blooming early. White with a tinge of rose; 4 feet high. Pkt. 4c.

Datura

(Trumpet Flower)

Annual flowers of mammoth size and fine fragrance. Easily grown and very ornamental. Pkt. 3c.

Dianthus Pinks

Chinese Pinks. Few flowers can equal these in beauty and profusion of bloom. They comprise many distinct and most beautiful marked varieties of rich and varied colors. They bloom continually all summer. **Choicest Double Mixed**; pkt. 4c.

New Royal Pinks. The plants are of strong, quick growth, forming a neat compact bush 10 to 12 inches in height and bearing a profusion of brightly colored flowers from early in the summer until winter sets in, and are remarkable for the varied range of extremely bright colorings, coming chiefly in rich shades of red, carmine and deep rose. The plants are quite hardy in well-drained soil, and produce larger and finer flowers the second year than in the first summer from seed. **Best Mixed**, Pkt. 4c.; $\frac{1}{4}$ oz. 20c.

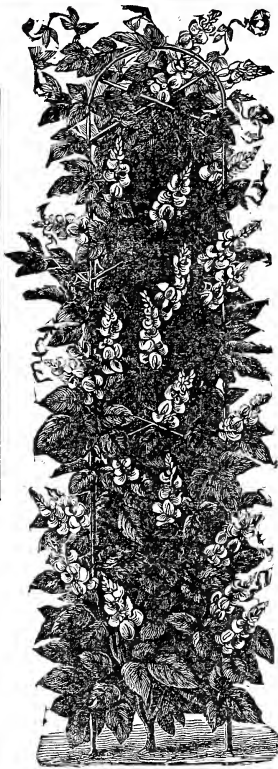

Daisy

(Bellis Perennis)

Giant Double. Greatly improved varieties of the popular "Double Daisies." Admirably adapted for edgings, borders and low beds, and also well suited for growing in pots. Daisies are easily grown from spring sown seed and come into flower in a very short time. The flowers are white, pink, red and variegated. A good proportion will come double from seed. **Finest mixed**, pkt. 4c.

New Royal Pinks

Dolichos

Dolichos

(Hyacinth Bean)

Splendid climber, with clustered spikes of purple and white flowers. Tender annual, 10 to 20 feet high. **Fine Mixed**, Pkt. 4c.; oz. 10c.

Giant Ghost Flower

Often Called Wedding Bells. It blooms either in the house or out of doors in the summer, and is one of the prettiest flowers imaginable. Its individual flowers are drooping bell-shaped, over a foot in length and 8 or 9 inches wide; beautiful creamy-white. **Large** Pkt. 5c.

Diamond Flower

(Ionopsisidium)

Plant 2 to 3 inches high, covered from October till Spring with innumerable blue and white flowers. Pkt. 4c.

Eschscholtzia

(California Poppy)

Foliage is fine and handsome, and flowers pretty and freely produced. Pkt. 3c.

Evening Primrose

(Oenothera)

Large, saucer-like flowers of pure white and soft yellow. Very fragrant. Pkt. 3c.

Everlasting Flowers

Easily grown. When dried are excellent for winter bouquets, as they never fade. **Choicest mixed**, pkt. 3c.

Ostrich Plume Cockscomb

Cockscomb

Ostrich Plume

A new Cockscomb which bears feathery plumes of bloom, more like ostrich feathers or Pampas grass than anything else. These magnificent plumes are one to two feet in length, and of all colors from sulphur yellow to deep rich crimson, rose, pink, scarlet, yellow, orange, etc. A plant in bloom is one of the very brightest and showiest of all garden annuals. **All Colors Mixed**, pkt. 4c.; $\frac{1}{4}$ oz. 10c.

Blue Marguerite or Daisy

A Beautiful Bedding Plant and an Excellent Indoor Bloomer. Flowers are a lovely sky-blue tint with yellow disc, easily grown from seed or cuttings; useful in producing flowers during winter months, and very pretty for summer decoration in the garden. Pkt. 4c.

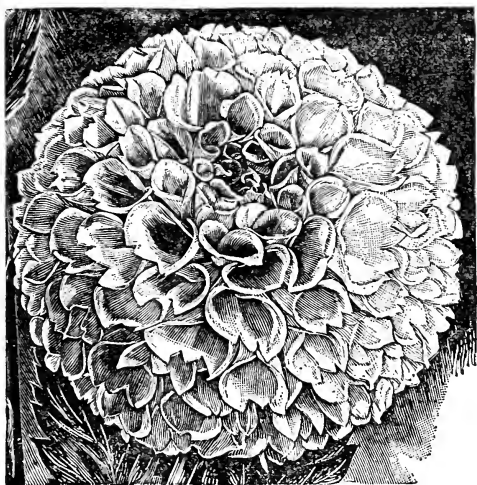

African Golden Daisy

(Dimorphotheca Aurantiaca)

Rare and extremely showy annual from South Africa, destined to become a great favorite on account of its very easy culture and its beautiful flowers. The plants, of neat branching habit, grow about 12 inches high, and flower in exceeding profusion. The single, daisy-like blossoms, $2\frac{1}{2}$ to 3 inches in diameter, are of a unique shade of glossy terra-cotta orange, which brilliant colorings is rendered the more conspicuous by the dark colored disc surrounded by a black zone. Pkt. 4c.

African Golden Daisy

Dahlias, Giants of California

Dahlias

Giants of California. The finest Dahlias can be grown from seed, and plants will bloom the first season. Seed sown in the house in March and April will produce flowering plants as soon as those grown from tubers, so that the purchase of bulbs is a needless expense. They are remarkably easy to germinate, and from a packet of seed no two plants will be alike in flower, and every color represented, from snow white to dark maroon, striped and flaked. Extra fine mixed, pkt. 6c.

Double Choice Mixed. Superb mixture of finest double varieties of fine size and colors. Pkt. 4c.

Godetia

(Northern Lights.) Hardy annual; flowers delicate but of brilliant colors. Large size blooms. Finest mixed, pkt. 3c.

Fox Glove

(Digitalis)

Perennial favorite; fine for backgrounds, etc. Light colored, shaded and spotted. Pkt. 3c.

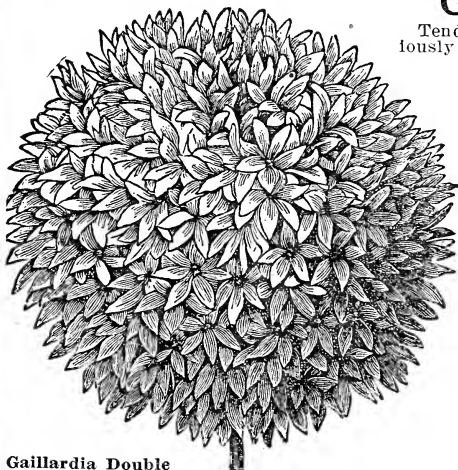

Chinese Strawberry

(Fragaria Indica)

Perennial herbaceous creeper; yellow blossoms and bright red fruit. Pkt. 3c.

Double Gaillardia

One of the most valuable annuals for cut flowers, producing very double flowers as round as a perfect ball, in varied colors, and are borne on long, slender stems; when cut will keep over a week. Fine mixed, pkt. 3c.

Gaillardia Double

Fuchsia

Double and Single Mixed. They will flower freely the first year in open ground and the plants can be taken into the house for the winter, where they will flower still more freely. Pkt. 8c.

Feverfew, Double

(Matricaria)

White Gem. A fine old-fashioned bedding plant; also suitable for pot culture. It grows about 18 inches high, with numerous branching flower stems, which are literally covered with very double, pure white flowers, an inch in diameter. The great profusion of fine flowers, with long, slender stems, makes it valuable to grow for cut flowers and is as desirable as a good Aster. Blooms until frost. Pkt. 4c.

Forget-me-not

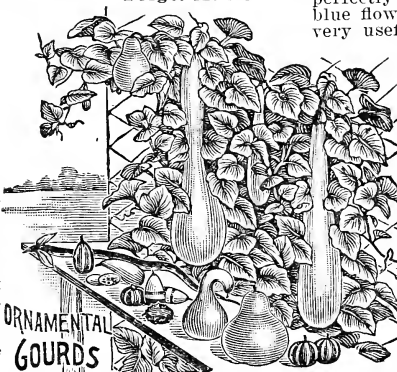

New Quick Blooming Sweet Scented. A robust growing, large flowering variety that may be sown at any time of the year and commences to flower in from 8 to 10 weeks' time, and when fully grown are perfectly covered with clusters of exquisite azure-blue flowers on long graceful stems, rendering them very useful for cutting. In the days of old, a German Knight lost his life in trying to secure for his lady love a tiny blue flower growing on the Banks of the Danube, crying as he fell into the river, "Vergiss mein nicht" (Forget-Me-Not); thus naming this beautiful flower and making of it an emblem of fidelity. Pkt. 6c.; or for Club order, 6 pkts. for 20c., postpaid.

Geranium

New Giant Flowered

A greatly improved strain of Geranium seed grown by a specialist for our trade. These favorite plants are easily raised from seed, which will frequently reward the cultivator with charming new varieties. Seed started early in the house bloom the first summer in the garden. Some seeds come up in a few days and others in many days, perhaps weeks.

If you have never grown Geraniums from Seed, Try it Once. Pkt. 7c.

Gourds

(Ornamental)

Tender, annual climbers, with curiously shaped fruit in various colors, many of which are peculiarly marked. Best Mixed, pkt. 4c.; oz. 8c.

Gomphrena

(Globe Amaranth)

A desirable everlasting, valued for its handsome globular heads. Pkt. 3c.

Gloxinia

(Hybrida)

Grand Mixed. This is a grand flower and a lovely pot plant, as easily grown and cared for as many of the commonest flowers. The handsome flowers embrace the richest and most beautiful colors, ranging from pure white to dark blood red. Large pkt. 6c.

Geranium,
New Giant
Flowered

Heliotrope—Mammoth

One of the most superb strains known among Heliotropes, bearing flowers of immense size and of richest beauty and fragrance. The colors range through all the shades of blue, from violet to indigo. A packet of this seed will furnish a bed of flowers for your garden or lawn which would cost several dollars were you to purchase the plants. Select mixed, pkt. 4c.; $\frac{1}{4}$ oz. 50c.

Humulus (Japanese Hop)

Japanicus. One of the Most Rapid Climbers Grown. Seed can be sown in the open ground in spring and it will attain enormous dimensions very quickly. The foliage is luxuriant and it is one of the best plants for covering verandas and trellises. Heat, drouth and insects do not trouble it. Pkt. 4c.

New Leopard-Leaved. Dark green leaves, blotched with gray. Pkt. 4c.

Hollyhocks

New Annual Everblooming. These glorious new hybrids may be grown from seeds and will flower the same year as quickly as any garden annual. Pkt. 7c.

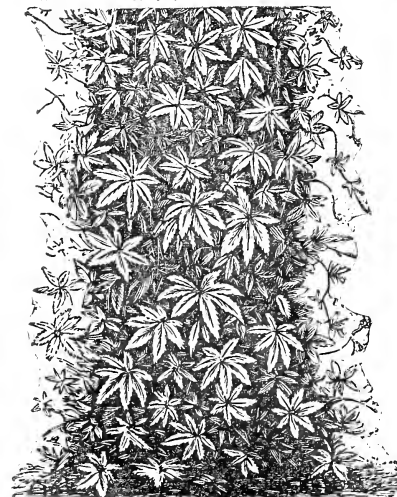

Prize Mixed. The perfect doubleness of this magnificent, large flower will please the most critical. If sown early in March or April the plants will bloom the first year. All colors mixed. Pkt. 6c.

Ice Plant

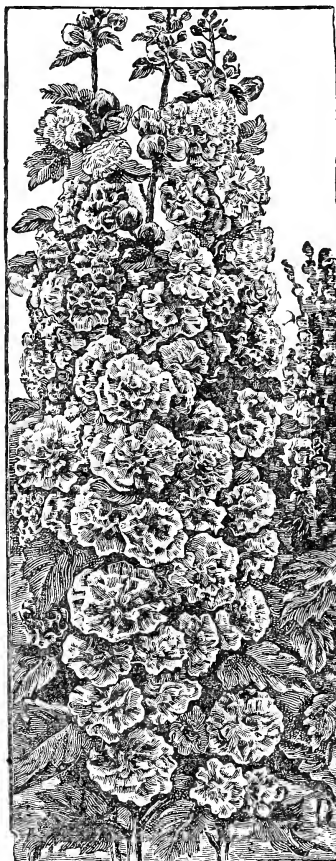

A pretty little trailer for baskets or massing; 6 inches high or less. Leaves covered with crystalline drops. Flowers white or pink. Valued for its remarkable foliage. Pkt. 3c.

Lavender

A well-known sweet scented, hardy perennial, bearing long spikes of blue flowers. Pkt. 3c.

Humulus (Japanese Hop)

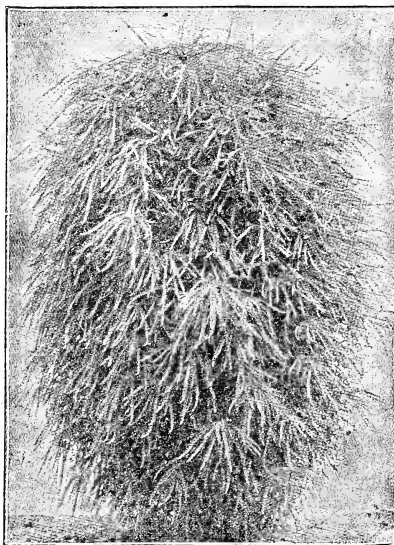

Everblooming Hollyhocks

Kochia

OR BURNING BUSH

This beautiful annual bush grows 2 to 2½ feet high and resembles a closely clipped ornamental evergreen. In early autumn the whole bush becomes red, whence the name of Mexican Fire Plant, Burning Bush, etc. It is also called Belvidere, Standing or Mock Cypress. Pkt. 4c.; $\frac{1}{4}$ oz. 10c.

Kochia, or "Burning Bush"

Everlasting Flower

Everlasting Flower

Helichrysum

Large, full double flowers, of various colors, from white and bright yellow to scarlet, shaded and tipped. Exceedingly handsome for bouquets for winter. Easy culture. Pkt. 4c.

Lantana, Hybrida

Popular, free-blooming and very rapid-growing plants with large flower heads of various colors, which are continually changing; emit a powerful aromatic perfume, plants are completely loaded with blossoms. Tender perennial. Pkt. 4c.

Kenilworth Ivy (Linaria)

Cymbalaria. A widely loved hardy perennial trailing plant, with small lavender and purple flowers. For baskets, vases and rockeries. Pkt. 4c.

Scarlet Flax (Linum)

One of the most effective and showy annual bedding plants, of long blooming period, having fine foliage and delicate stems. Flowers one inch across, borne in great profusion. Pkt. 5c.

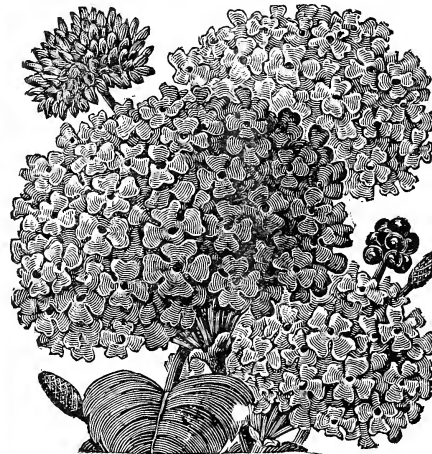

Lobelia

Annual plants of dwarf, compact growth, four to six inches in height, covered with numerous small, star-like flowers. Pretty, grown as an edging for flower-beds, hanging-baskets, vases and house plants in pots in winter. Pkt. 4c.

Larkspur

Well-known annuals of great beauty and noted for their richness of color.

Double Dwarf Rocket. Finest mixed. Pkt. 3c.

Lantana, Hybrida

Eldorado Marigold

Marigold

Eldorado. Large double flowers of all shades of yellow, deeply imbricated. Pkt. 4c

French Double Dwarf. Grows 10 to 12 inches high and produces double flowers of various shades and colors. Pkt. 3c.

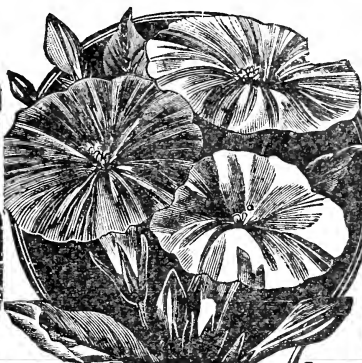

Legion of Honor. Medium size flowers; rich, golden yellow color. Very double and of fine shape. Pkt. 4c.

Evening Perfume Plant

Matthiola. An annual plant of the gilliflower group, very fragrant at night and after showers. No annual in cultivation equals this in delicate perfume of its flowers. The pink and lilac blossoms partly close during the day, but expand and impart their fragrance in the evening. Pkt. 4c.

Maurandia

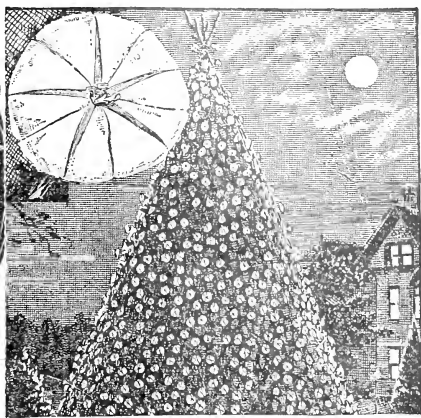

A tender, climbing perennial, suitable for hanging-baskets or for the greenhouse. It attains a length of five feet or more and is exceedingly beautiful. For outdoor culture treat as an annual. Finest mixed. Pkt. 3c.

Four O'Clock

Four O'Clock

Marvel of Peru. A well known and deservedly favorite flower. Produces large, convolvulus-like flowers; white, yellow, crimson, striped, etc. It is one of the most brilliant and showy plants that can be grown with little or no trouble. Finest mixed. Pkt. 4c.

Moonflower

Sensitive Plant

Mimosa. An interesting annual. Its leaves close and droop when touched. Hence its name. Pink flowers. Pkt. 3c.

Mignonette

(Reseda odorata)

New Giant Machel. Dwarf, vigorous, massive red flowers, deliciously scented. Pkt. 5c.

Everblooming Mixed. A carefully selected and very fine mixture, including all the best Mignonettes, both old and new. Pkt. 3c.; oz. 10c.

Moon Flower

Beautiful white flowers five or six inches in diameter. Rapid grower and always in bloom. Pkt. 6c.

Monkey Flower

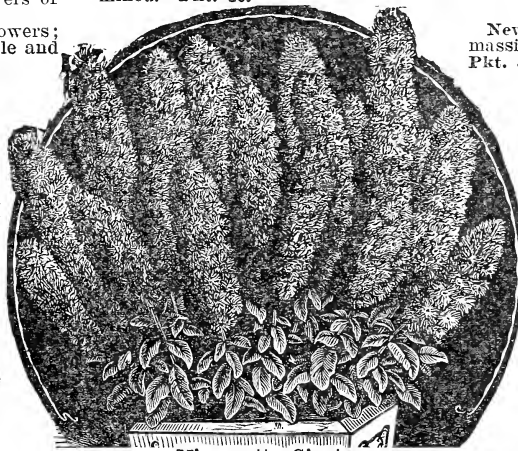

(Mimulus tigrinus)

Singular shaped and brilliant colored flowers, blotched and spotted in every conceivable manner. Mixed. Pkt. 3c.

Musk Plant

(Mimulus moschatus)

A well known and favorite plant both for outside borders and for pot culture. Cultivated on account of the musky odor. Pkt. 3c.

Mignonette Giant

Morning Glory

Imperial Japanese. Too well known to need extended description. Our seeds are saved from the finest specimens only. The largest flowering of all, 4 to 6 inches across. Colors, shading and markings are limitless. Pkt. 4c.

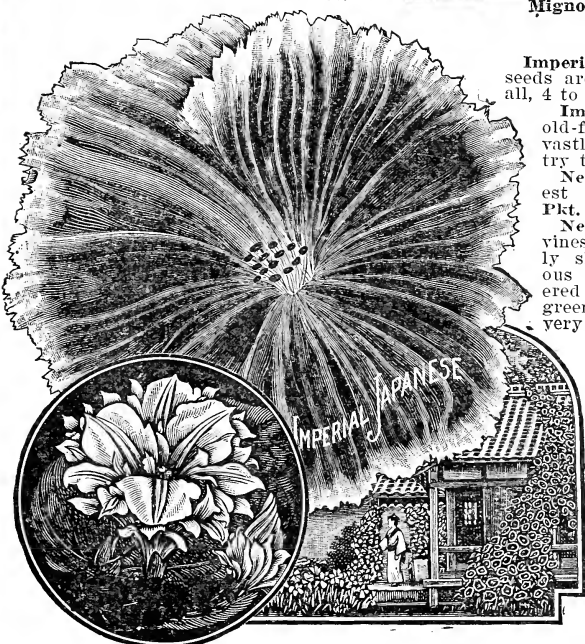

Improved Climbing. The old-fashioned variety only vastly improved. Be sure to try this one. Pkt. 4c.; oz. 9c.

New Double. Truly the finest Morning Glory grown. Pkt. 5c.

New Fuchsia-Flowered. The vines or shoots are gracefully slender, but very numerous and most densely covered with five-fingered deep green leaves. The vines grow very rapidly, quickly covering tall poles or trellis, with a dense screen of the peculiarly attractive foliage, and during the late summer and fall months bear small light rosy-pink flowers. The seed pods quickly form on the end of the long wiry stems and bear a striking resemblance (as is shown in illustration) to the flower buds produced by the Fuchsia. Pkt. 5c.

"Fuchsia-Flowered" Morning Glory

New Double

Nasturtiums, Giant Flowering

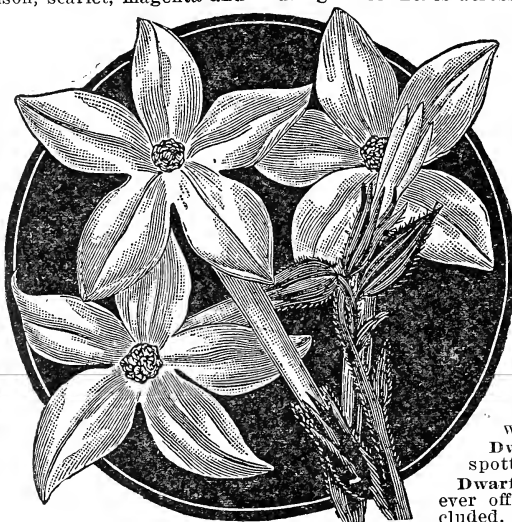

Famous Great Northern Nasturtiums

Giant Flowered Climbing

The color combinations in these flowers are simply superb, such as a wealth of rich maroon, crimson, scarlet, magenta and laret shades, marbled and mottled streaked spotted and splashed with white, cream, pink and rose. The flowers are much larger than those of the old-fashioned kind, and in nearly all of them the petals overlap each other so as to make perfect flowers. We call special attention to this mixture. In it will be found all the choicest colors of the tall Nasturtiums the rich, velvety Loob varieties, the Canary Bird Creeper, the new hybrids of Mad. Gunther and the new tall "Chameleon." These climbing Nasturtiums are admirably adapted for covering verandas, trellises and tree trunks, and by virtue of their long stems and the lasting quality of their flowers, are most useful and handsome cut flowers for bouquets, vases, buttonholes, etc. Price, large pkt. 5c.; oz. 12c.; 2 oz. 20c.; ¼ lb. 35c.

Giant Flowering Tom Thumb

These Grand Bedding Nasturtiums have flowers often measuring three inches across in a great variety of new and charming combinations of colors, while the brilliancy and velvety richness of the self-colored sorts have been greatly enhanced. For summer flower beds nothing can surpass them; the plants form perfect mounds about one foot high by one foot across. Seed sown in the open ground in the spring will produce plants that commence blooming during early summer and continue until frost. This mixture contains seed saved from the largest-flowering, most beautiful and varied collection ever sent out. Choicest Mixed. Pkt. 5c.; oz. 12c.; 2 oz. 20c.; ¼ lb. 35c.

Dwarf Aurora. Yellow, petals blotched, venied carmine. Pkt. 4c.; oz. 9c.

Dwarf Empress of India. Dark leaves, crimson flowers. Pkt. 4c.; oz. 10c.

Dwarf Lady Bird. Yellow, barred with ruby crimson. Pkt. 4c.; oz. 10c.

Dwarf Spotted King. Rich orange color, spotted with maroon. Pkt. 4c.; oz. 9c.

Dwarf Finest Mixed. Finest Dwarf Mixed ever offered. All colors and shadings are included. Pkt. 4c.; oz. 10c.; ¼ lb. 30c.

Dwarf Good Mixed. The same grade as is usually sold and very fine. Pkt. 3c.; oz. 6c.; ¼ lb. 20c.

Tall Extra Mixed. All the best climbing varieties are included in this mixture, bright colors and large flowers. Pkt. 3c.; oz. 6c.; ¼ lb. 20c.

Madam Gunter's Hybrids. Rapid climbing varieties. Flowers all colors of rich shades. Pkt. 4c.; oz. 9c.

Sweet Scented Tobacco Plant

Sweet Scented Tobacco Plant

A most showy and profuse-flowering garden annual, giving a continuous display of fragrant star-shaped white flowers; through summer and autumn; easily grown from seed, commencing to flower in a few weeks from sowing, thriving in a sunny position in any good garden soil. The plants, of branching, bushy habit, 2 to 3 feet high, carry the flowers in clusters. Pkt. 4c.

Nigella

Nigella (Love-in-a-Mist)

A popular old-fashioned flower; free flowering with finely-cut foliage surrounding the curious looking flowers and seed pods. Blooms early, plants are quite hardy and seed can be sown in the bed or border in the earliest Spring. Double flowers, blue, white and purple mixed. Pkt. 3c.; oz. 15c.

Nolana

Beautiful trailing plant, almost equal to Portulaca for growing in masses, and unsurpassed for baskets, pots, vases or rock work. Flower is similar in shape to the Morning Glory. Fine Mixed. Pkt. 3c.; ¼ oz. 10c.

Nolana

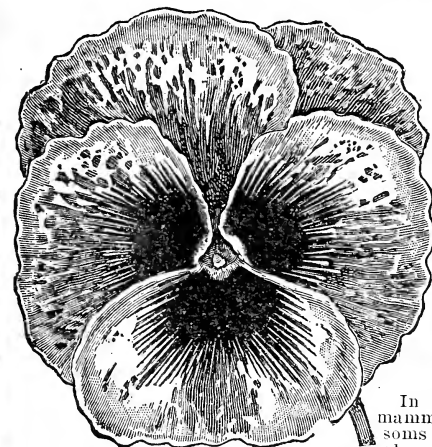

The Best Pansies

Giant Madame Perret Pansies

A superb new strain, large flowers and beautiful colors, blossoms ranging through all the shades of red, from a pink to a fine, deep purple, with an intermediate bright red, edged with white. The face of the flower in some cases is regular in color, while in others it is lined and striped. The extraordinary size of the flowers, which reach as much as 3 to 3½ inches in diameter, makes it a novelty of the first rank. Pkt. 7c.

Giant Fancy Pansy Mixture

In this magnificent mixture of mammoth-flowering pansies the blossoms are borne on long stems well above the foliage and are distinguished for their gorgeous and varied

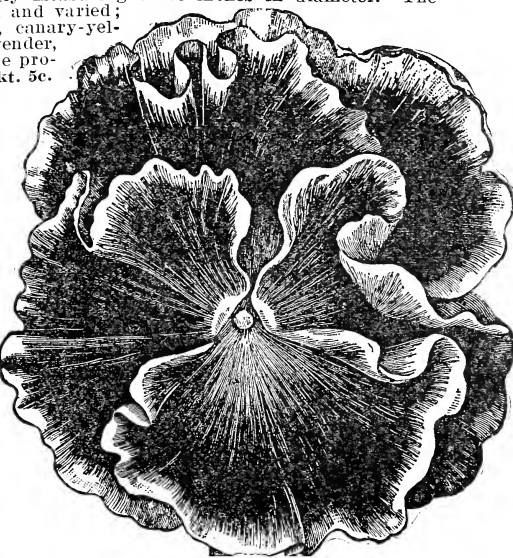

Giant Madam Perret Pansy

colorings and beautiful markings; of fine substance, velvety texture, perfect form, and giant size, frequently measuring three inches in diameter. The colorings are wonderfully rich and varied; every shade and tint of rose, canary-yellow, black, white, cream, lavender, garnet, sky-blue and orange are produced in endless variation. Pkt. 5c.

Giant Ruffled Pansies

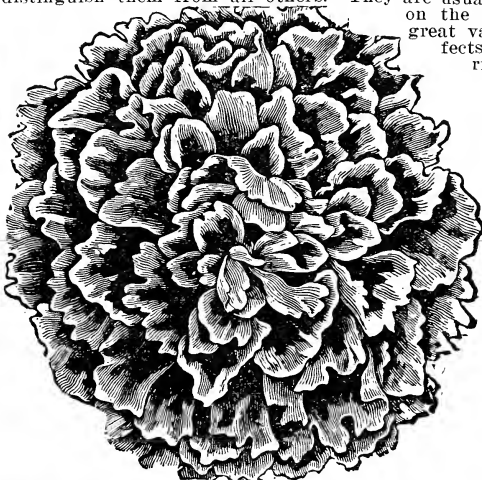

A remarkable strain of Giant Pansies, the flowers of which are so large and full that the broad petals seem to be "gathered" to the stem, causing them to be undulated and fluted from center to circumference, not unlike "frilled" velvet. The unusual substance of the flowers, aided by these corrugations, thus enables them to present bold, open and handsome faces, even during windy or dry Summer weather, when other pansy flowers flop or wilt. The flowers are extraordinarily large. Mixed Colors, Pkt. 6c.

Giant Ruffled Pansies

Beautiful PETUNIAS

Ruffled Giants. The flowers are of immense size, often measuring 5 to 6 inches across; the variety of colors, markings, veinings and blotching distinguish them from all others. They are usually ruffled and fringed on the edges, and present a great variety of beautiful effects, many colors being rich and glowing, while others are delicate. Pkt. 8c.

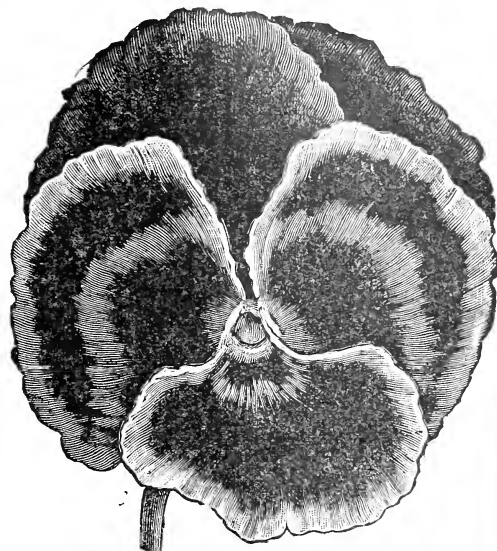

New Double Petunia

Hybrida. (Single finest mixture embraced.) A splendid in all colors. Pkt. 3c.

New Star. Flowers have distinct white, star-like stripes on rich, purplish ground. Pkt. 4c.

Single Snowball. Grows about 8 inches high, with pure white, satiny flowers. Pkt. 4c.

New Double Fordhook. (Fancy fringed.) The finest double. Will produce 30 to 40 per cent. double flowers. Pkt. 9c.

Pansy, Giant Fancy

PANSY PLANTS

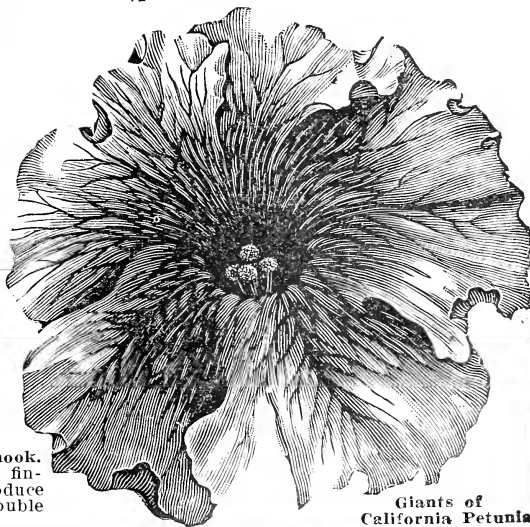

See Page 80

Giant Pansies

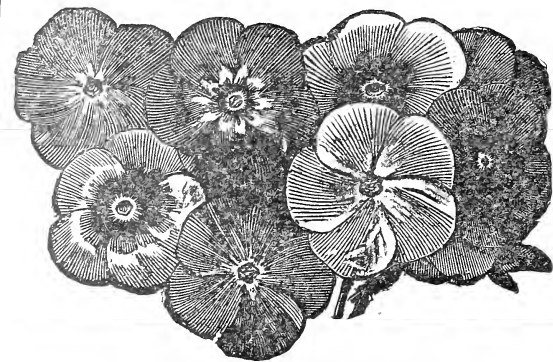

Black Prince. Rich, glossy black.
Deep Yellow or "Golden Queen."
Emperor William. Blue purple edge
Emperor Frederick. Velvety brown.
Lord Beaconsfield. Purple shaded.
Meteor. Bright canary yellow; spotted.
Prince Bismarck. Brown and gold.
Peacock. The lovely ultramarine blue.
Quadricolor. Marbled and spotted.
Rubra. Claret and scarlet shades.
Snow Queen. Spotless white.
Striped and Mottled. Very fine.
Victoria Red. Nearly blood-red color.
Any single pkt. 4c.; or 6 pkts. for 20c.; or one pkt. each of the above best of all named varieties (13 pkts. in all) for only 40c.

Sweet Scented. The perfume of the Violet. Nothing but the finest perfumed varieties included in this mixture. Pkt. 4c.

Good Mixed. Fine for bedding. All varieties and colors, many of which can not be obtained in any other way. Pkt. 3c.; ½ oz. 35c.

Giants of California Petunia

Phlox, Drummondii, Rockford Giant
Phlox, Drummondii

Rockford Giant. The colors range in every conceivable shade, producing flowers twice the size of common Phlox. Their long duration in bloom, combined with their almost unequalled richness of color, renders them invaluable. In finest mixture. Large pkt. 5c.

Good Mixed. Invaluable for bedding and for cut flowers; an excellent strain. Pkt. 3c.

New Yellow. A rich straw yellow of warm and glowing tones; flowers extra large and fine form. Pkt. 5c.

Starred and Fringed. Large flowers, with curiously pointed and toothed blossoms, of all shades and markings. Pkt. 4c.

New Double. A very desirable class. Flowers are double and semi-double, and much longer than those of the single Phlox. Especially valuable for cut flowers. All colors mixed. Pkt. 5c.

Phlox, Perennial or Hardy

The great, rich heads of flower masses are simply magnificent. The most admired sorts and the best bloomers. Mixed. Pkt. 6c.

Chinese Primrose

or PRIMULA SINENSIS

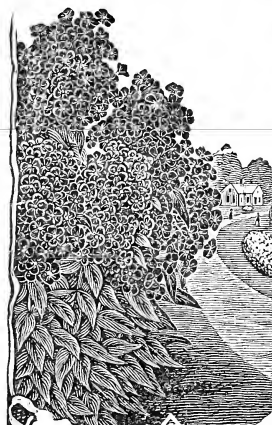

Our mixture includes not only all the choicest colors of the single flowering Primulas in all their dainty shades, but it comprises also seed saved from hybridized flowers and will produce a number of double flowers and the new blue Primula. Large Packet only 8c.

Portulaca (Moss Rose)

Large Flowered Mixed. All colors; many striped and variegated. Pkt. 3c.
Grandiflora. Double-flowering Portulaca. Colors of most brilliant shades, including white, yellow, salmon and carmine. Seed saved from perfect double flowers, resulting in gorgeous masses of color. Pkt. 4c.

Shirley Poppy

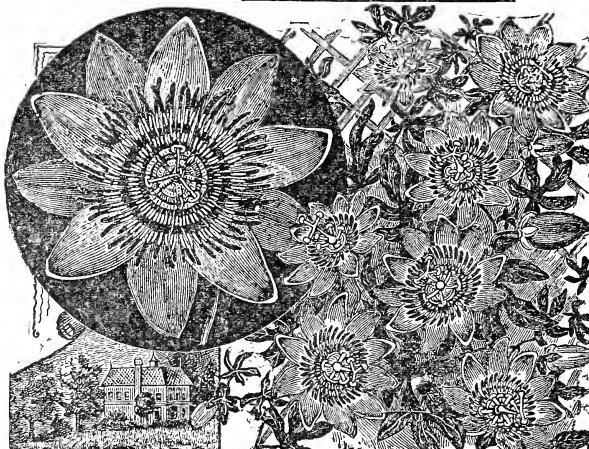

Phlox, Hardy

For Wonderful Himalaya
Berry see page 88

New Double Flowering Phlox

Passion Flower

Double Portulaca, or Moss Rose

Passion Flower

Everybody's Favorite—Delightfully Perfumed Trailer. This elegant vine is easily grown from seed. Very beautiful for windows and when planted out in summer makes a magnificent climber, growing rapidly, bearing singular beautiful blue and white flowers. Choicest mixed, pkt. 5c.

Poppies

Giant Double. This "Brilliant Mixture" of double annual Poppies has been made from exclusively improved giant double-flowering sorts, and none but the richest, most brilliant, as well as the daintiest and loveliest shades included. Pkt. 4c.; ½ oz. 15c.

The Shirley. A great advance in single-flowering annual Poppies. Flowers the first year from seed. The flowers are large, exceedingly graceful and elegant; the colors range from blush white, rose, delicate pink and carmine, through innumerable tints. Pkt. 4c.; ½ oz. 15c.

White Swan. A grand variety. The large, pure white flowers are perfectly round and double. Pkt. 4c.; oz. 20c.

Carnation Poppy. Double carnation-like flowers; large size and of the brightest colors. Pkt. 3c.; oz. 15c.

Iceland Poppy. A hardy, perennial, blooming the first season. The flowers resemble crushed satin, and are fragrant. They bloom freely. Pkt. 4c.

Pyrethrum

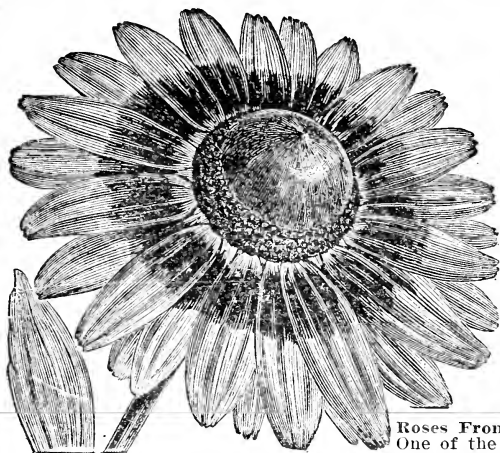

Roseum. (Insect Powder Plant.) A fine hardy plant, with large red daisy-like flowers. The Persian Insect Powder is made of the dried and powdered flowers. Pkt. 4c.

Chinese Primrose

Giant Double Poppies

Rudbeckia Speciosa Bicolor

Rudbeckia

Speciosa Bicolor. The flowers have a large, rounded purplish cone in the center, with narrow petals spreading in ray-like form around the base of the cone. These petals are a deep orange-yellow, heavily marked with brownish red on the inner portion. Pkt. 4c.

Smilax

A popular indoor climber. Leaves a deep, glossy green. Flowers white and fragrant. Soak the seed in water for a day, and keep the plant rather moist. Pkt. 4c.

Sunflower

Chrysanthemum Flowered. Fine, perfectly double golden flowers, resembling Japanese Chrysanthemums. Pkt. 4c.

Sweet Rocket

Hardy perennials, bearing purple or white flowers. Plants 2 or 3 feet high. Flowers fragrant. This is an old-fashioned favorite. Double fine mixed. Pkt. 3c.

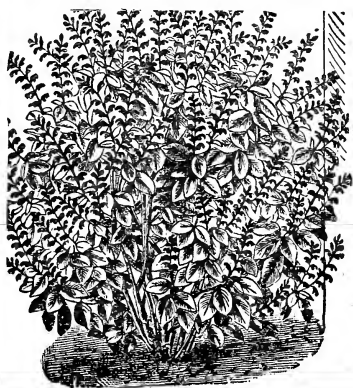

Sweet William

Free blooming, hardy perennial plants. Old-fashioned favorites. They produce masses of lovely, brilliant, sweet scented flowers one foot high. Pkt. 4c.

Salvia

(Scarlet Sage)

A famous and fashionable annual bedding plant. Blooms in profusion until frost. Succeeds everywhere, and is in universal favor. Pkt. 4c.

Salvia or Scarlet Sage

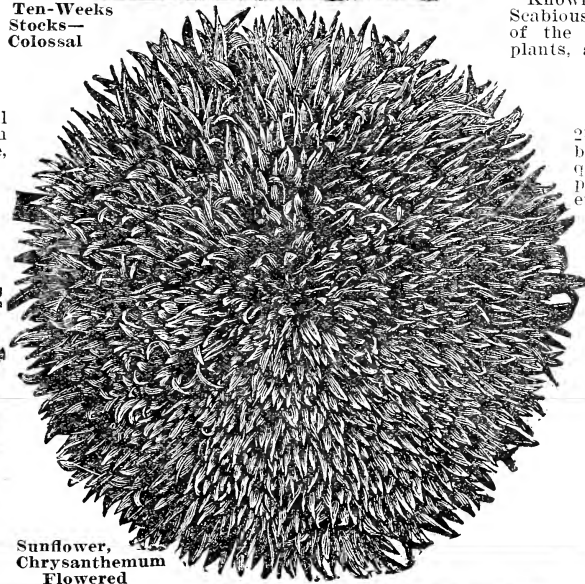

Fairy Rose

New Fairy Roses

Roses From Seed the First Year. One of the most unique and novel pot flowers grown. The only genuine dwarf variety, blooming in 4 or 5 months after sowing seed, giving about equal proportions of single, semi-double and double flowers, borne in clusters and containing all the tints and colors of cultivated Roses. Pkt. 3c.

Ten-Weeks
Stocks—
Colossal

Sunflower,
Chrysanthemum
Flowered

Giant Castor Oil Bean (*Ricinus*, *Zanzibariensis*)

Castor Oil Bean

(*Ricinus*)

Zanzibariensis. The handsomest strain of Castor Oil Bean. Leaf sometimes 2 feet across, with stem rising 10 to 14 feet. Pkt. 4c.

Mixed. All the best plain and fancy varieties. Pkt. 3c.

Ten Weeks Stocks

NEW COLOSSAL

Flowers Enormous Size and Very Double. It has every merit of a perfect flower, long spikes of closely-set flowers, each as double as a rose, waxy of texture, exceedingly sweet and varying in color from snow white to dark maroon brown, and through all intermediate shades of red, blue and yellow. Mixed, pkt. 4c.; ½ oz. 30c.

Scabiosa

Known as Morning Bride, Sweet Scabious, Pincushion Flower, etc. One of the most desirable of the border plants, and greatly improved. Pkt. 4c.

Salpiglossis

Painted Tongue. Flowers 2 to 2½ inches across, with odd and beautiful velvety markings. Exquisite veined and marbled. Red, pink, purple, blue, yellow, white, etc. Pkt. 3c.

Sweet William

Giant Flowered Sweet Peas

The Cream of the Named Varieties

America. Heavily striped with bright blood-red on silvery-white ground.
Blanche Ferry. Extra Early. Standard wide and erect. Bright rose-pink; wings creamy white, tinted with rose.

Dorothy Eckford. The Grandest Pure White yet Produced. The flowers are beautifully shell shaped, of extra large size.

Helen Pierce. Bright blue, mottled on pure white.

Hon. Mrs. E. Kenyon. A beautiful primrose color.

King Edward VII. "The Modern Firefly." The large flowers of open form are almost self-colored; standard is of a bright crimson-scarlet, wings of same shade of color.

Lady Grisel Hamilton. Standard light lavender with azure-blue wings; very light and dainty.

Lottie Eckford. Large silvery-white flowers, beautifully shaded and edged with soft lavender.

Miss Willmott. Richest orange pink, shaded with rose. Keel white.

Mrs. Dugdale. Both the large standard and wings are of a light carmine-rose with faint primrose markings.

Mrs. Walter Wright. The flowers are self-colored, of a pinkish-cream tint when first opening, changing to mauve and then to a reddish violet.

Navy Blue. The large flowers are of a deep, glowing, violet-purple, having the effect of a dark navy blue, although on close examination the standards show a faint tinge of a claret- or wine-red.

Othello. A deep maroon self-color; very large size; standard slightly hooded.

Prima Donna. A most beautiful bright shade of bluish-pink.

Price, any of Above Named Varieties, pkt. 4c.; oz. 12c.; 2 oz. 22c.; ¼ lb. 40c.

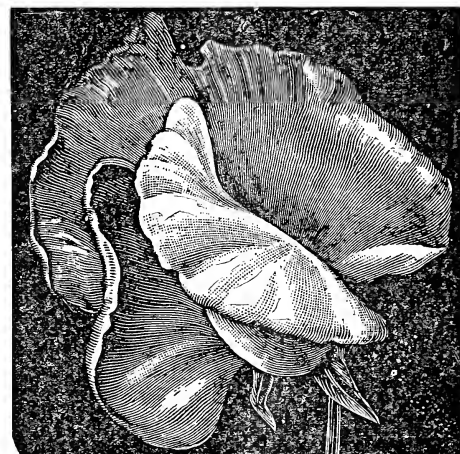

Your choice any 10 pkts. 35c. Or one pkt. each of the 14 sorts for 44c., postpaid.

New Spencer Hybrids or Giant Orchid Flowered Sweet Peas

A new and distinct type and form and the largest in size of all Sweet Peas, truly gigantic, measuring when full grown 1½ to 2 inches across the standard, which is large, round and waved or fluted; stand upright without flattening the folds. Wings are also beautifully frilled. Stems are extra long and stiff, uniformly three to four exquisite blossoms facing one way, which render them of exceptional value for cutting. There are four distinct ground colors, pink, orange, salmon and rose, but these are again divided into many beautiful tints, which blend harmoniously when gathered for bouquets. Grandest mixed, pkt. 5c.; oz. 15c.; 2 oz. 28c.; ¼ lb. 50c.

Dwarf "Cupid" Sweet Peas

This is a dwarf Sweet Pea, growing only five inches high, yet spreading out and forming a solid mat of foliage and flowers 1½ feet across. The blossoms are very sweet, of largest size and greatly abundant, with three flowers on each stem. Superb for bedding, massing and edging. Very desirable pot plants. Mixed, pkt. 4c.; oz. 8c.

Giant Orchid Flowered Sweet Peas

Everlasting or Perennial Sweet Peas

These Perennial Peas, while lacking fragrance, are very valuable from the fact that they are in full bloom early in the spring, before the others have begun to flower. They live year after year, bearing magnificent clusters of flowers. Perfectly hardy and grow eight to ten feet high. Pkt. 5c.

Everlasting

Giant Flowered Sweet Peas

Giant Flowered Mixed

A Very Choice Mixture of only large flowering types, containing a large proportion of light colors with just enough dark for a contrast. It is the result of hybridizing by a Sweet Pea expert and contains many of the trial ground novelties. Mixed, pkt. 5c.; oz. 12c.; ¼ lb. 40c.

Fine Mixed

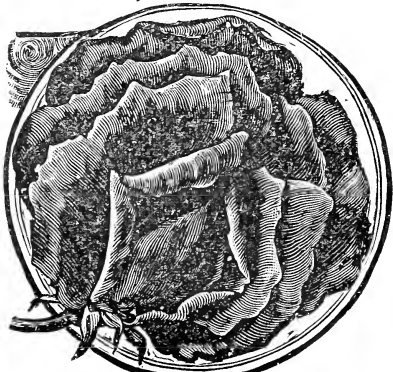

A beautiful assortment of the famous Eckfords and others of the latest and best. Pkt. 4c.; oz. 10c.; ¼ lb. 30c.

Good Mixed

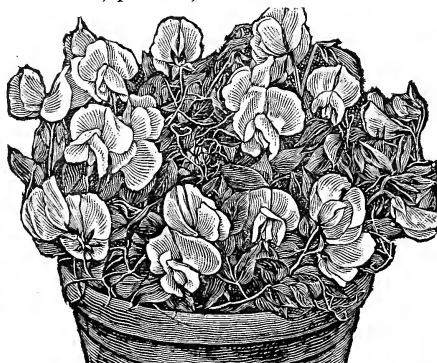

A splendid collection. Fine Colors. Pkt. 3c.; oz. 8c.; ¼ lb. 25c.

Double Mixed

The so-called Double Sweet Peas are not a double flower in the true sense. Instead of one standard they have two or three, giving a ruffled and fluted effect, very showy and beautiful. Unusually vigorous and produce a profusion of flowers, but all will not come double—from 25 to 50 per cent. Pkt. 5c.; oz. 10c.

Double Sweet Pea

New Cupid Sweet Peas

VERBENA

Giants of California

Most magnificent strain ever offered. Blossoms as large as a silver twenty-five cent piece. Single plants of this pretty annual creeper will carpet a space 3 to 4 feet in diameter with neat foliage and scores of fine flower umbels. For beds, borders and mounds, vases and window-boxes it is particularly fine, frequently used for undergrowth to tall plants like Lillies. Like the Aster, the Pansy and the Petunia, the Verbena is a favorite with everybody, and one of the most universally popular of all flowers both for the garden and for pot culture. For constant and profuse flowering, and for brilliance and beauty of colors, it has few equals. Start seed early under glass if possible, that good, strong plants may be had to transplant to the garden. They will commence blooming in June and continue until after severe frosts. And during this entire time nothing will attract more attention than the bed or clump of Verbenas. In August cuttings may be taken from the best ones and potted up for winter blooming. Although perennials they bloom profusely the first season from seed. Finest mixed, pkt. 6c.; $\frac{1}{4}$ oz. 45c.

Mammoth Verbenas

Verbenas will flower perfectly from seeds, started early in the house in boxes or pots; or you may plant the seeds directly in the garden beds, when warm weather arrives.

Mammoth Defiance. Bright, rich scarlet; small leaves. Pkt. 4c.

Mammoth Blue Varieties. Showy; fine for edgings. Pkt. 4c.

Mammoth Striped Varieties. Beautiful; a rich collection. Pkt. 4c.

Mammoth Pure White. Large trusses; white flowers. Pkt. 4c.

Mammoth Mixed. They bloom most profusely. Our mixture contains every desirable color and shade. Pkt. 4c.; $\frac{1}{4}$ oz. 35c.

Fine Mixed. A very satisfactory assortment; containing many fine colors and shades. Pkt. 3c.; $\frac{1}{4}$ oz. 15c.

Lemon Verbena. Delightfully sweet scented; easily grown from seed. Pkt. 5c.

Verbena Odorata

The blossoms, instead of being in clusters like other sorts, run up into spikes usually 3 or 4 inches long. Very sweet scented; flower is pure white; comes true from seed. Pkt. 4c.

Violet Viola

The Violet should not be wanting in any garden, on account of its fragrance and early bloom. Succeeds best in a shady, sheltered place. Finest Mixed, pkt. 4c.

Violet—Viola

Giants of California
Verbena

Weather Plant

Vinca

(Periwinkle)

Ornamental free-flowering; flowers the first season; glossy green foliage; handsome flowers. Finest Mixed Colors. Pkt. 4c.

Thunbergia

Black-eyed Susan. An ornamental climber. Excellent for vases, trellises, rustic work or greenhouse decoration. Flowers buff, orange, white, etc. Pkt. 3c.

Wall Flower

Single Parisian. This annual variety will flower throughout Summer and Fall, from seed sown the same Spring. Pkt. 4c

Double Mixed. Spikes of deliciously fragrant flowers, combining many shades and colors, chocolate and orange-purple predominating. Pkt. 5c.

Wondrous Weather Plant

This beautiful plant has created a great sensation. If leaves stand upward the sky will be cloudless. If they stand out straight, changeable weather is indicated. When leaves hang straight downward, water may be expected to fall in torrents. A local storm is indicated by curling together of the leaves. Bears clusters of bright yellow flowers,

followed by bunches of pods, which when dry, burst open, disclosing brilliant red seeds with black eyes, used for making beads and ornaments. Pkt. 5c.; oz. 12c.

Wild or Mixed Flower Garden

A mixture of many varieties of beautiful, easy-growing flowers, producing a constant and varied bloom the whole season, and is especially suited for those who wish only a few seeds each of the leading varieties, or a much more extensive collection than their means will permit. In no other manner can so many seeds be obtained for such a small cost. This mixture is especially prepared from Choice, Fresh Seeds; the colors and varieties being carefully proportioned and will be found superior to any mixture offered. They are very useful for sowing alongside the garden fence, and in untidy, bare spots of ground, and cannot fail to give satisfaction. Pkt. 4c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.

Zinnias

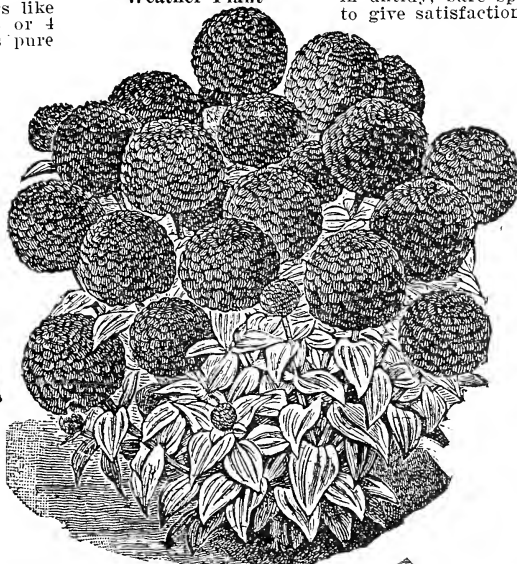

(Youth and Old Age)

New Mammoth Flowered. Mixed Colors. Saved only from select flowers, perfect in shape and color. The finest strain of Zinnias in cultivation. Every plant will produce immense double blossoms of various colors, from white to deep crimson, maroon, pink, yellow, orange, scarlet, violet, primrose, buff, striped, etc. Large Pkt. 5c.

Zebra. Large, perfectly double flowers, as evenly imbricated as a camellia. Flowers variously striped and mottled; presenting all colors and shades. Pkt. 4c.

Curled and Crested. Large, full flowers, the petals twisted, curled and crested; very fantastic and graceful. Colors, orange, purple, pink, deep rose. Two feet. Pkt. 4c.

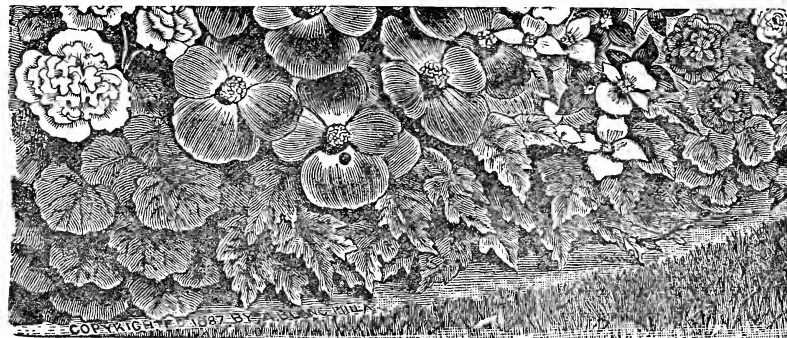

Double Lilliput. Compact bushes, bearing small, perfectly double, pom-pom-shaped flowers of the brightest colors, which cover the plant during the entire summer. Pkt. 3c.

Zinnia—New Mammoth Flowered

Tuberous Rooted Wistaria

Begonias, Tuberous Rooted, Double and Single

Best Summer Flowering Bulbs

Tuberous Rooted Wistaria

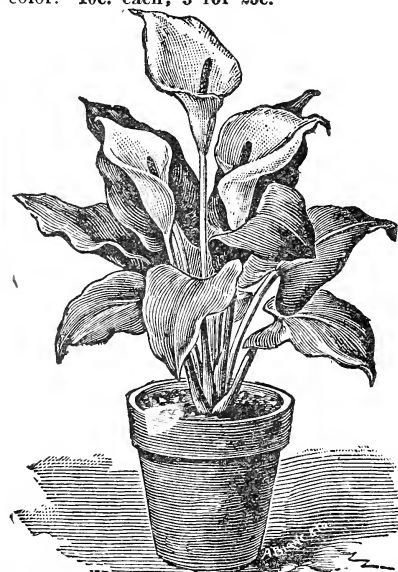

Also called *Apios Tuberosa*. This is a native plant, and is one of the grandest and most beautiful climbing vines in cultivation. It grows very quickly, and attains a great height, making, with its dense foliage and beautiful flowers, a most attractive screen. In vine and foliage it resembles the common Wistaria. It blooms most profusely, bearing lovely clusters of rich, deep-purple flowers, possessing a strong, delicious violet fragrance. Plant the bulbs near a trellis, fence, tree or wherever a rapid-growing climber is desired. The bulbs are perfectly hardy and need not be taken up over winter. A vine so sure to grow and give satisfaction should be in every garden. Price 10c. each; 3 for 25c.; 6 for 50c.; 13 for \$1.00.

New and Rare Callas

The collection of 5 Rare Callas for 50c. postpaid.

New Dwarf Calla, Little Gem

Among the most popular house plants in existence, grows only half as tall as the large kind, and has the reputation of bearing twice as many flowers. Will grow and bloom for years without once ceasing and the quality of the bloom which a good plant will produce is astonishing. Its numerous flowers are of good size and best quality. Snow white color. 10c. each; 3 for 25c.

The New Yellow Calla

Elephant's Ears

Elephant's Ears

(*Caladium*.)

This splendid foliage plant gives perfect satisfaction, and is worthy of general cultivation, filling a place which no other plant does, adding greatly to the lawn or garden by its immense tropical-like foliage. Plants attain a height of from 4 to 6 feet, the leaves being veined with different shades of green; when massed alone or with Cannas, they produce a striking and beautiful effect. They are of easy culture, and will grow in almost any garden soil but if especially large plants are wanted they should be planted in a well enriched soil and given water in abundance throughout the season.

PRICES, by Mail, Postpaid

First Size Bulbs—1½ to 2½ inches in diameter, each 10c.; 5 for 45c.

Second Size Bulbs—2½ to 3 inches in diameter, each 15c.; 5 for 65c.

Extra Large Mammoth Bulbs—4 inches in diameter and over, ea. 38c.; 5 for \$1.65.

By Express, not Prepaid

First Size Bulbs, 10 for 55c.; 100 for \$3.40.

Second Size Bulbs, 10 for 95c.; 100 for \$4.35.

Third Size Bulbs, 10 for \$1.50; 100 for \$9.75.

Extra Large Mammoth Bulbs, 10 for \$2.25; 25 for \$4.00.

The Spotted Calla

Deep green, spotted all over with pure white, grows and blooms freely either in the house or garden, flowers like the White Calla, pure white with black center. 8c. each; 3 for 20c.

White Calla (*Lily of the Nile*.) The White Calla is a well-known plant of easy culture, and in winter is one of the best window plants. 12c. each; 3 for 30c.

The Yellow Calla Flowers of a light color. Beautiful and desirable. Quite similar to the ordinary White Calla, except in color of flower, which is a light lemon yellow. A very pretty Calla. 15c. each; 3 for 40c.

The Wonderful Black Calla This wonderful variety resembles the White Calla in growth and foliage, the flowers rich, dark purple, and the spikes or spadix are coal black, very curious and remarkable. 15c. each; 3 for 40c.

Choice Tuberous Rooted Begonias

The tuberous rooted begonias are among the most famed and fashionable of flowers. Some of the newer types, especially the singles, have flowers three inches or even four inches across, of dazzling beauty. The bulbs will last for years, the flowers increasing in size with each succeeding season.

Single Tuberous - Rooted Begonias. White, Rose, Scarlet, Yellow, Orange. Separate colors. 7c. each; 6 for 25c.; 75c. per dozen, postpaid. Mixed. All colors. 5c. each; 45c. per dozen, postpaid.

Double Tuberous - Rooted Begonias. White, Rose, Scarlet, Yellow, Orange. Separate colors. 10c. each; 3 for 35c.; \$1.00 per doz., postpaid. Mixed. All colors. 9c. each; 90c. per doz., postpaid.

Wonderful Black Calla

Cinnamon Vine

Cinnamon Vine

Hardy climber with dark green foliage, and late in the season bearing a profusion of small white flowers of a delicious cinnamon fragrance. Perfectly hardy everywhere, the vines dying down to the ground each autumn, but growing very rapidly in early spring, soon covering any trellis or arbor. Where you wish to hide unsightly places we would suggest planting the Cinnamon Vine. A beautiful vine, exquisite perfume, strong tubers. Each 5c.; 6 for 25c.; 15 for 50c.; 35 for \$1.00, postpaid.

NEW GIANT FLOWERED Cannas

Gloxinias

One of the Most Beautiful Flowers that Blooms

The Gloxinia is a grand flower and makes a lovely pot plant as easily grown and cared for as many of the common flowers. Without seeing them no one can appreciate their unrivaled beauty; they are of large size, beautiful shape and profuse bloomers. They will bloom in six to eight weeks from time dry bulbs are planted. The flowers will last in water, when cut, over two weeks in perfect condition.

STRONG BULBS FOR IMMEDIATE GROWTH AND BLOOM

- Emperor Frederick.** Red; with a pure white border. 12c. each.
- Mont Blanc.** Pure white. 10c. each.
- Defiance.** Rich crimson scarlet. 12c. each.
- Emperor William.** Violet-blue, tinged and spotted. 10c. each.
- Mixed Colors, Fine Bulbs.** Each 9c.; 3 for 25c.; doz. 85c., postpaid.

Summer Hyacinth

Summer Hyacinth

It can be used with excellent effect in the center of a bed of scarlet Gladioli, as it comes into bloom about the same time. The flowers are bell-shaped and pendulous, pure white in color and somewhat fragrant. The plant is hardy and grows stronger each year. Very useful along walls, fences and in beds. Fine for cemetery. Each 6c.; 3 for 15c., postpaid.

Maderia Vine

Climbing Mignonette

A very handsome rapid growing vine, covering a large space in a short time. Fleshy heart shaped leaves of a light green, numerous racemes of feathery white flowers of delicious fragrance, making a delightful shade. A beautiful and popular vine. Protect with litter in this latitude. Price, roots, 5c. each; 50c. per doz., postpaid.

Moonflower

(Giant Flowered)

A vastly improved climbing variety, of rarest beauty and startling proportions. Its pure white, abundant blooms average six to eight inches across, and often surpass that magnitude. No new flowering plant in years has introduced such a noble display, combined with such a chaste refinement of beauty. Price 15c. each; \$1.50 per dozen, postpaid.

Oxalis

Summer Flowering

Highly valuable for hanging baskets, also borders of walks and flower beds. Blooms quickly. Showy in mass beds.

Mammoth Oxalis Bulbs at these low prices: Each 5c.; 3 for 10c.; 12 for 25c., postpaid.

Shakespeare. White, suffused with carmine rose.

Fairy Flower

Known as "Zephyranthes." They are among our beautiful bulbous plants; very effective for planting out in masses in Spring, flowering with great profusion during the Summer. Try a few of them this year and you will be pleased. Each 5c.; doz. 50c., postpaid.

Monstrous Tuberose

Tuberose

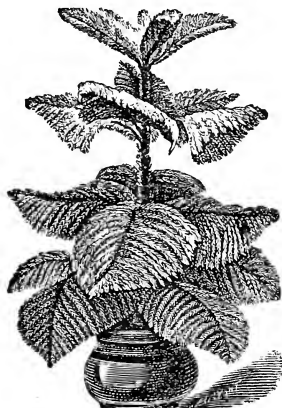

Monstrous Flowering. A most delightfully fragrant and beautiful summer-flowering bulb. Our select strain of bulbs has no equal and will produce the best and sweetest scented flowers ever seen. Bulbs of good size, each 5c.; per doz. 40c.; per 100, \$3.00, postpaid. Mammoth Bulbs 10c., 3 for 25c.; per doz. 75c., postpaid.

Shell Flower

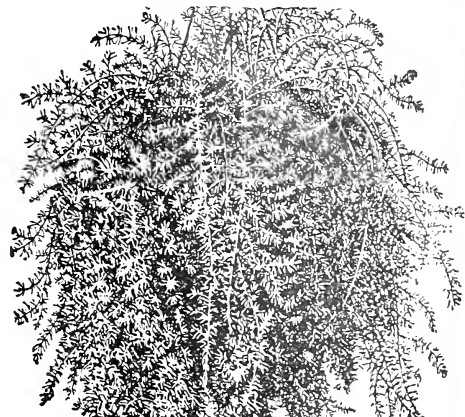

One of the most showy of all summer bulbs, and blooms from mid-summer until frost, growing two feet high, with large wide-open triangular blooms, four to six inches across. The colors and markings are very brilliant and peculiarly odd and attractive, and clumps of them in the border make a gorgeous effect. Each 5c.; doz. 50c., postpaid.

Asparagus Plumosus Nanus

Araucaria

Asparagus Sprengerii

Best House and Garden Plants

Asparagus Plumosus

THE BEAUTIFUL LACE FERN

The rare and delicate beauty of this plant can scarcely be shown by a picture or conveyed by a description. The bright green foliage of very delicate texture falls gracefully, giving it a style and air that cannot be surpassed. No more beautiful decorative plant has ever been produced. As a house plant it is deservedly popular, due to the fact that it will thrive under almost all conditions. Strong plants 10c. to 15c. each, postpaid. Larger plants 25c., 50c., 75c. to \$1.00 each, by Express, not prepaid.

Asparagus Sprengerii

The Charming Emerald Feather Fern

Grows free the whole year round, producing sprays 4 to 5 feet long of fresh, green feathery foliage. Valuable for cutting for fine cut flower work, more particularly in use with large Roses. Grown in suspended pots it makes a very pretty decorative house plant. Strong plants, 10c. to 15c. each, postpaid. Larger plants, 25c. to 50c. to \$1.00 each, by Express, not prepaid.

THE LOVELY

Araucaria Excelsa

Norfolk Island Pine, or Christmas Tree Palm

This is one of the handsomest and most beautiful of all the Decorative Evergreens for house culture. It has few equals, but is not often seen because rare and expensive, but we are now in position to offer it at reasonable prices, so that all who wish can have one of these beautiful trees in their home; it grows nicely in parlor or living room, requires very little care, not subject to insects, stands hard usage, is exceedingly beautiful and has a high-bred distinguished appearance, entirely different from anything else. Price, fine sturdy little trees, 12 inches high 2 to 3 tiers of branches, 99c. each, postpaid. Larger and heavier trees, by express, not prepaid, \$1.50, \$2.00 to \$3.00 each.

New King of Rex Begonia

The Rex Begonias

THE SET OF SIX NEW REX BEGONIAS FOR ONLY 75c., POSTPAID

King of Rex. A grand variety, leaves very large, soft rich velvety green splashed all over with silver markings, shaded and veined with rose and pink. Price 20c. each.

Bronze Beauty. One of the very choicest varieties, of a beautiful combination of velvety green and bronze. Price 15c. each.

Lord Palmerston. The leaves are extra large with a dark bronze center, silver band and irregular bronze border, blotched and speckled into the silver. The edge of the leaf is fluted and irregular. Under side a pea green with red veins. Price 15c. each.

Rubrum. Coloring of this variety is simply magnificent; center of leaf deep bronze with broad band of silvery rose, edge bronze, giving the whole leaf a purplish tint. Price 15c. each.

Perle de Paris. Gracefully formed solid silver leaves, slightly tinged bronze at the edge. Contrasts beautifully with the darker leaved varieties. Price 15c. each.

Speculata. A fine plant with leaves like a grape leaf. They are bright green in color with a background of chocolate. The veins are a light pea-green and the whole leaf spotted with silvery white. Price 15c. each.

Begonias

FINEST EVER-BLOOMING

THE SET OF SIX BEAUTIFUL FLOWERING BEGONIAS FOR ONLY 50 CENTS, POSTPAID

Watermelon Begonia

Robusta. The flowers are almost pure white a distinct pink stripe in the center of each, enlivened with golden anthers. Price 10c. each.

Rubra. One of the most beautiful and popular varieties; bright glossy leaves and lovely clusters of red flowers. Price 10c. ea.

Sandersonii. A beautiful variety; fine coral-red heart-shaped buds, grand for bedding out; constant bloomer. Price 10c. each.

Begonia Metallica

THE BEST CARNATIONS

Perpetual Blooming

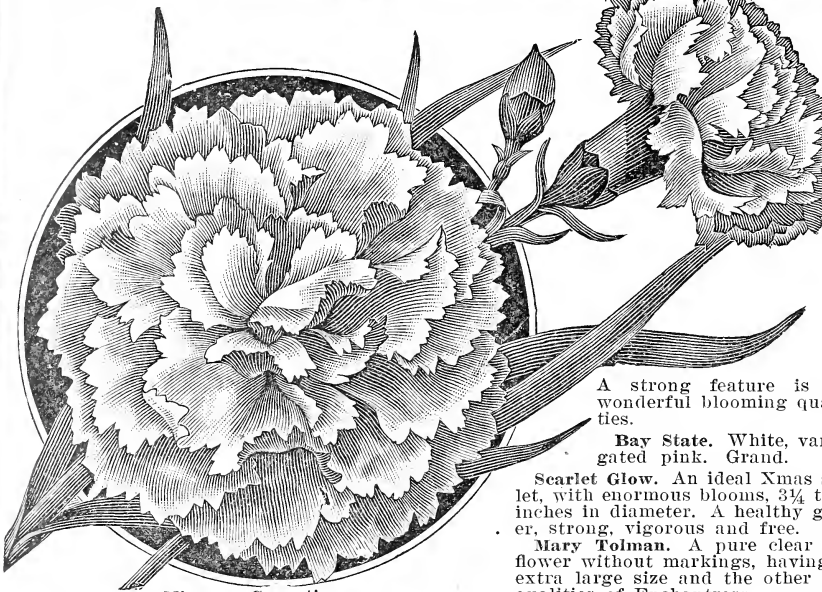

There is no end to the popularity and demand for these charming flowers. Their simplicity, beauty of form, vivid coloring and spicy scent attract where other and more elaborate varieties are unnoticed or rejected.

Seven best and most distinct sorts. Price each, 10c. Any three for 25c. of the set of 7 for 50c., postpaid.

Andrew Carnegie. A pure toned bright scarlet, Sport of Harlowarden. Strong grower. Early and free flowering.

Beacon. Blooms early and continues throughout the winter months. Size about 3 inches in diameter. Color, scarlet with a tint of orange. Long stiff stem.

Niagara. Color pure glistening white, size 3½ inches, perfect form, very fragrant.

Niagara Carnation

A strong feature is its wonderful blooming qualities.

Bay State. White, variegated pink. Grand.

Scarlet Glow. An ideal Xmas scarlet, with enormous blooms, 3¼ to 3½ inches in diameter. A healthy grower, strong, vigorous and free.

Mary Tolman. A pure clear pink flower without markings, having the extra large size and the other good qualities of Eucharist.

Buttercup. Pure golden yellow. The best.

Coleus

BRILLIANT AND SHOWY-LEAVED BEDDING PLANTS

The Collection of 8 New Coleus for only 50c., postpaid

Attraction. Green and red with golden yellow markings, an erect bushy grower. Price, 8c. each.

Hero Black Giant. Immense leaves, purple black. Price, 10c. each.

Hiawatha. Mottled bronze, yellow and green; lovely. Price, 8c. each.

Christmas Gem. Brilliant shades of red and golden yellow. Price, 10c. each.

Coleus, Butterfly

Croton

Rare Crotons

Nothing can excel the beauty and richness of colorings that is found in this class of plants. They are beautiful pot plants for the conservatory, making very handsome specimens for decorative and exhibition purposes, and are used extensively as bedding plants, for which purpose they are exceptionally well adapted. They should be planted in full sun in a position where they can be most liberally supplied with water, which develops the most wonderful coloring in the foliage. 20c. each; 3 for 50c., postpaid.

New Comet Plant

The Most Unique Flowering Plant of the Century

Fluffy, trailing, tail-like blossoms soft crimson scarlet. It is difficult to conceive anything more unique, more pleasing, or more satisfying than this new plant fresh from the Orient. It is easily grown, and there is nothing approaching it, with its soft, crimson scarlet, fluffy, tail-like blossoms, 20 to 30 inches long on specimen plants. Fine plants, 15c. each; 2 for 25c., postpaid.

Chinese Paper Plant

As a pot plant it is magnificent, with splendid, Camelia-like foliage deep shining green, plants commence to bloom in small pots and continue throughout the year. As the plant grows older it is literally covered with blossoms of a dazzling rosy crimson, with deep golden yellow antlers. Each 15c.; 2 for 25c., postpd.

Chinese Paper Plant

New Comet Plant

Savoit
Chrysanthemum

New Japanese "Fuzzy" Chrysanthemum Collection

Mammoth Size. Best Colors. The Set of Four Novelty Varieties. Postpaid, for only 30c.

The following include the very best varieties of this charming class; immense flowers, sometimes over 8 inches across and perfectly double. The term was applied to this type so as to call attention to the feathery growth covering the petals. We make prices as low as possible so that all may give them a liberal trial.

Beauty of Truro. A changeable, glistening, purplish bronze. Worth 20c.; Price 10c.

Leocadie Gentils. An extremely handsome yellow. Color is bright and pure, a grand variety. Worth 20c.; Price 10c.

Mrs. Higginbotham. A large, rich bright pink; extremely beautiful. Worth 20c.; Price 10c.

Savoit. One of the finest of all whites. Closely incurved; high built flower and very heavily plumed. Worth 25c.; Price 15c.

Giant Flowering Chrysanthemum Collection

The Set of Four Mammoth Flowering Varieties, Postpaid, for only 25c.

S. A. Nacuer Bey. Color yellow, intermingled with red and bronze petals. 15c. each.

Matchless. Very large, dark crimson, long strap petals. 10c. each.

Mrs. Wm. Duckham. Handsome, large yellow reflexed. 10c. each

Queen Alexandra Daisy

New Mazeppa Chrysanthemum

Mazeppa The Wonderful Everblooming Chrysanthemum

Without question the largest, handsomest, hardiest, most desirable variety ever grown. Flowers of immense size borne in profusion on long, strong stems almost continuously. Beautiful deep, rosy-pink flowers. Strong plants 20c. each; 3 for 50c., postpaid.

Northern Beauty Collection of Prize Winning Chrysanthemums

Any Two for 25c.; or the Entire Set of 6 Varieties, 68c., Postpaid

Beatrice May. An Australian variety of great beauty; a fine white of elegant form, incurving and reflexing; a beauty. Worth 20c.; Price 10c.

Golden King. A very large, bright, deep yellow incurved; fine finish and form. Worth 20c.; Price 15c.

L'Africaine. A large, bright crimson, reflexed, decidedly double. One of the very finest. Worth 20c.; Price 15c.

Mad. Emma Truelle. The great prize winner. Pure white, of the largest possible size. Worth 20c.; Price 15c.

Secretaire Borat. A grand variety producing a massive flower of deep violet rose shaded silver. Worth 20c.; Price 10c.

W. R. Brock. Deep pink, shading to lighter pink on outside. Under artificial light the color has a most brilliant effect. Worth 20c.; Price 10c.

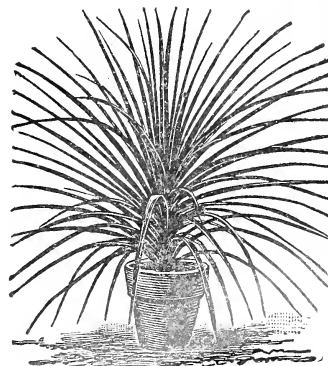

Dracena Indivisa

(The Charming Decorative Plant.)

A very beautiful house plant, also desirable for vase or garden, with slender, drooping leaves, often called "Fountain Plant." The leaves are of several shades of green, with delicate stripings of yellow and red, which become marked as the plant grows older. Price, postpaid, 10c. each; larger plants 25c.; extra large specimen plants, by Express, not prepaid, \$1.00 each.

Daisies

QUEEN ALEXANDRA. The new Mammoth White Paris Daisy. All know the old varieties of Paris Daisies, how beautiful and much sought after for decorations of all kinds. This new variety blooms constantly and will produce ten blooms to the old variety's one. Single, semi-double and often fully double blooms appear on the same plant. 10c. each; 3 for 25c., postpaid.

Dracena Indivisa

The Boston Fern

Japanese Fern Ball

New Crested Fern

Rare and Beautiful Ferns

Boston Fern

A most beautiful Fern for all purposes, thriving well under ordinary conditions.

Fine plants 10c. and 25c. each, postpaid. Larger plants 50c., 75c. to \$1.00 each, by Express, not prepaid.

New Sword Fern

(Scotti)

Of much dwarfer and bushier growth than the Boston Fern. The fronds droop gracefully and are not as long and coarse as the Boston. It is a rapid grower and one of the hardiest plants for the house.

Fine plants 15c. to 25c. each, postpaid. Larger plants 50c., 75c. to \$1.00 each, by Express, not prepaid.

New Piersonii

This is a fern of great value and beauty. The fronds grow broad and heavy, increasing in beauty as they develop. Very hardy, of easy culture. Young plants 15c. and 25c. each, postpaid. Larger plants 50c., 75c. and \$1.00 each by Express, not prepaid.

GRAND JAPANESE

Fern Balls

They Need No Earth, Dish or Pot

These pretty Japanese Fern Balls are made in Japan from a special variety of mountain fern roots and moss, and are so constructed as to send out beautiful emerald green fronds from every point until covered all over, as shown in the illustration, and are beyond question the most unique and beautiful of all decorative plants. Require no potting or soil. Each, 50c.; 12 for \$5.00. Larger size, 75c. each, 12 for \$7.50, postpaid.

The New Crested Fern

(Whitmanii)

We think this the most popular Fern. Rather dwarf in growth, but graceful, very compact, dense and feathery. Each frond or branch has a double row of perfect little fronds set at right angles to the mid-rib, and so thick they seem almost crowded. It is a healthy, vigorous grower, constantly unfolding fresh fronds of light green that contrast exquisitely with the deep green of the older fronds. It is somewhat like Barrowsii, but decidedly more fluffy, more delicate and beautiful. Fine young plants 15c., 25c. and 35c. each, postpaid. Larger plants 75c., \$1.00, \$1.50 to \$2.00, each, by Express, not prepaid.

New Baby Ostrich Plume Fern

(Amerpohlil)

Of all the ferns yet introduced with feathery fronds this is the most exquisite; dense delicate and lace-like. Strong grower, very easy to manage and is the best fern of its class. Fine stock 15c. and 25c. each, postpaid. Larger plants 50c., 75c. to \$1.00 each, by Express, not prepaid.

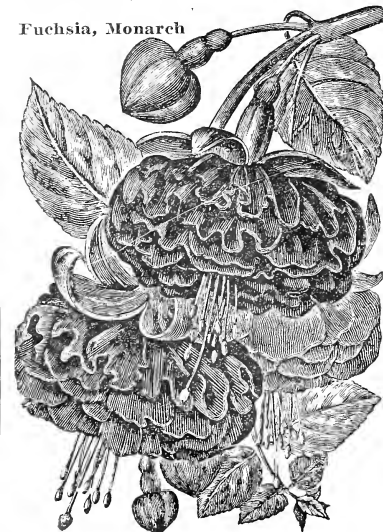

FUCHSIAS

FREE-BLOOMING, LARGE FLOWERING, EASILY GROWN

The Collection of 7 Fuchsias for Only 50c., Postpaid

Fuchsias are one of the most popular flowering plants for growing in pots during the winter, or in beds, boxes or vases in the garden during the summer. It shows its dainty beauty to best advantage as a pot plant. As such it blooms profusely and constantly. Our collection contains the choicest varieties and the extremely low prices at which we offer them enables everyone to have a fine collection at small cost.

Fuchsia, Monarch

Black Prince. Large expanded corolla of reddish color; habit of growth extra fine; an abundant bloomer. A very beautiful and much sought variety. 10c. each.

Dr. Topinard. This is a grand double white variety; very free in blooming. Extra fine, 15c. each.

Lustre. Tube and sepals pure white, vivid crimson corolla; free bloomer. 10c. each.

Madame Van der Strass. Large and double; pure white corolla; bright coral-red sepals. 10c. each.

Monstrosa. A new double variety; pure white corolla; bright scarlet sepals. 10c. each.

Monarch. A very pretty variety and one that is always in demand. Although not a new variety, yet it is one of the best. Sepals a rich crimson; corolla deep purple and very double; free flowering and easy to grow. 15c. each.

Trailing Queen. The habit of this variety is much different from the other varieties in that it trails instead of growing upright. Pretty flowers borne in clusters. 10c. each.

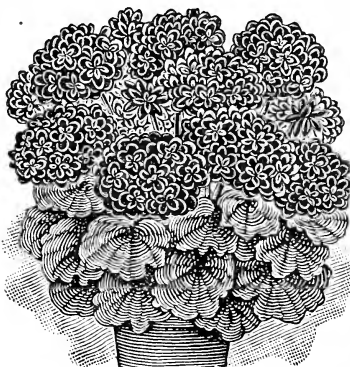

Pansy Geranium

Pansy Geranium

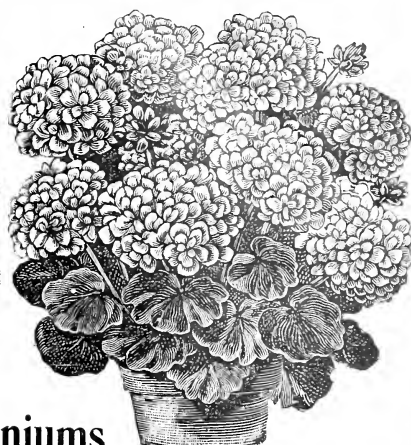

This beautiful Flower is of easiest growth, dwarf in habit, and literally covered with flowers all the time; and as it requires little or no attention, it is invaluable as a window plant. The coloring and marking of the flowers are most extraordinary, light pink, white, dark purple, black, etc., almost rivaling the pansy in uniqueness of flower. It is this combination of coloring which obtained for it the popular name of Pansy Geranium. Strong plants, 20c.

Strawberry Geranium

A LOVELY PLANT FOR
BASKETS AND VASES

One of the handsomest plants imaginable, a gem of many colors, exceedingly rare and beautiful. Leaves nearly round, and striped freely with silver bands—blooms white, of great beauty and borne in spikes nearly twelve inches high; of easiest growth. Adapted for hanging baskets, vases, etc. Will stand neglect and mistreatment and grow very rapidly either in sunny place or shade. 10c. each; 3 for 25c., postpaid.

Lady Washington Geranium, Ladas

Pelargoniums or Lady Washington Geraniums

Pelargoniums are well known as the most beautiful of the Geranium family, and are highly prized, especially for house culture and Winter bloom.

The Collection of 3 New Lady Washington Geraniums for Only 45c., postpaid.

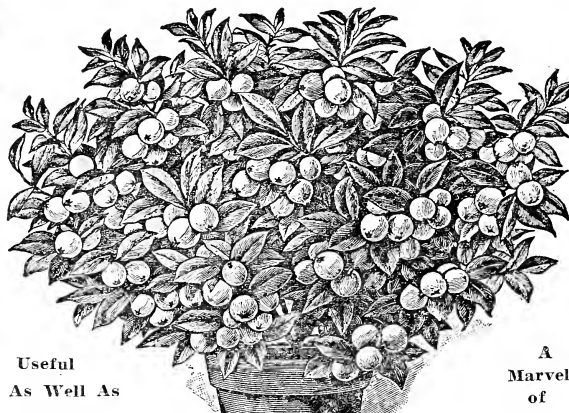

Amazement A grand flower with black maroon blotches bordered fiery red, the flower entirely edged with rose. 15c. each.

Lady Churchill White; delicately shaded blush, small carmine blotch on lower petals, upper feathered maroon and red. 20c. each.

Ladas Flower is a beautiful shade of pink, surrounded with a deep band of purest white, with large white throat. 20c. each.

English Ivy

Useful
As Well As
Ornamental

Strawberry Guava

English Ivy

This is the old hardy variety that clings to walls, trellises, etc. Also suitable for cultivation in the house. 10c. each; 3 for 25c.; postpaid.

Hibiscus

Peachblow. One of the finest free flowering plants for either pot culture or the open ground. Flowers very large, double and of a charming rich, clear pink, with deep crimson center. 15c. each; 2 for 25c.; postpaid.

Giant Heliotropes

Heliotropes are valued for their delicious fragrance, and much used for bedding and house culture; are easy to grow and bloom freely all summer and fall. We offer the following choice varieties.

The Collection of Six Heliotropes for Only 45c., Postpaid
Florence Nightingale. Splendid market kind; very healthy; flowers bright lavender, good truss. Each 10c.

Madame De Blonay. Fine, large strong foliage, very large trusses of pure white flowers with light center. Each 10c.

Mrs. David Wood. It is a very nice distinct Heliotrope, with large trusses of violet flowers with light center. Each 10c.

Prince Charmant. Handsome foliage, extremely free in bloom, color, lovely tint of bluish mauve. Each 15c.

Madame Bruant. Immense panicles of very large flowers, rich purple with large white eye. Each 10c.

Czarina. Rosy violet, almost red, with a distinct white center, producing immense heads of flowers. Each 10c.

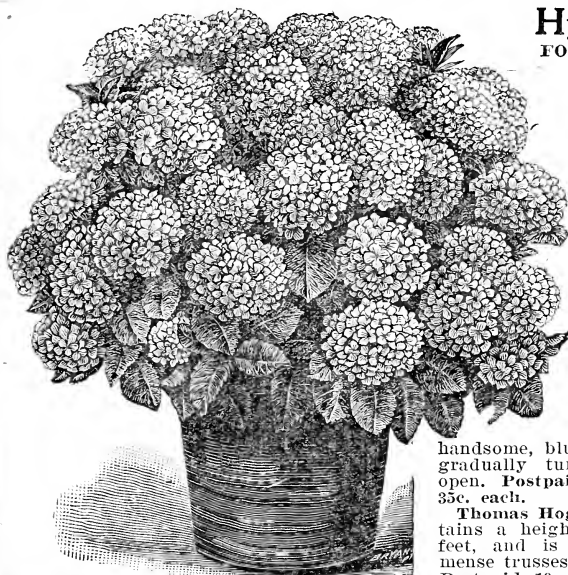

Strawberry Guava

A magnificent pot plant, blooms and fruits continuously. It has thick, shining evergreen, camelia-like foliage, and pure white flowers of an agreeable odor. The fruit is large, of beautiful claret color; the flavor is most delicious and aromatic, resembling that of the Strawberry. Used as a dessert fruit, also for preserving; makes jelly of delicious quality. Strong plants, 20c. each, postpaid.

A

Red Branched. The stems and branches are dark purplish red, which, with the green leaves, set off the clouds of rosy blossoms admirably. Postpaid, 15c. each; larger plants, 30c. each.

The Collection of Five Pot Hydrangeas Above, Postpaid, for Only 50c.

Hydrangeas Perfectly Hardy

Paniculata Grandiflora

The well known standard Hardy Hydrangea, completely covered with gigantic pyramidal trusses of bloom from 16 to 18 inches long, and as much in diameter; composed of hundreds of florets of a most dazzling white, changing to an exquisite pink, the whole producing a gorgeous effect. These blossoms remain from 6 to 8 weeks, without fading. Price, 10c. to 15c. each; by mail prepaid; larger size, by express, not prepaid, 25c. each; extra strong plants, 3 years old, 50c. each by express.

"Hills of Snow"

Nothing in the Hardy Shrub line approaches it in the freedom of bloom, duration of flower and value as a cut flower. Makes a plant much like the common Hydrangea, but blooms with purest snow-white flowers, and continues blooming. Strong plants, postpaid, each 15c.; 2 for 25c.; doz. \$1.35. By express, not prepaid, large plants, each 35c.; doz. \$3.50; or extra large plants, each 50c.; doz. \$5.00.

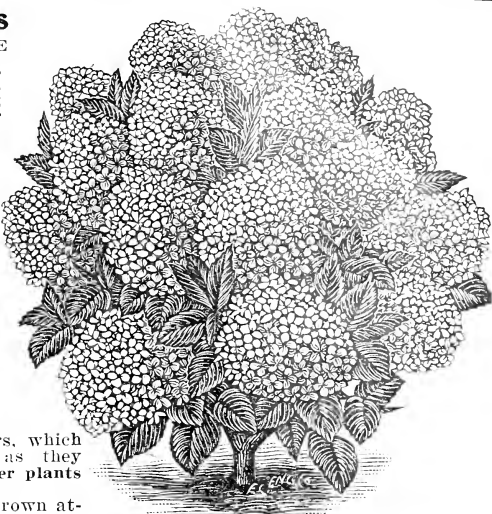

New Hardy Climbing Hydrangea From Japan

In this beautiful new climber we have a truly magnificent addition to the Vine family. It is perfectly hardy in cold climates. The foliage is a bright green and the flowers which grow in numerous umbels are of a creamy white and last a long time. It is a very rapid grower, and in a short time covers any object it is planted around with a dense mantle of greenery. It holds on to walls without any other support; and twines around any object it is intended to cover. Every lover of beautiful vines should give it a trial. Extra Strong grown Pot plants, sure to grow on without check when planted, 35c. each, postpaid.

Honeysuckle

Halleana. The best monthly Honeysuckle, with dark green foliage, which keeps fresh and green nearly all winter, and beautiful clusters of the sweetest scented flowers, that open a snowy white and turn a pale yellow. 15c. each; 2 for 25c., postpaid.

Golden Leaved. A most beautiful little house plant with golden yellow leaves, mottled and veined green. A strong grower with white blossoms. 15c. each; 2 for 25c., postpaid.

New Hardy Hydrangea, "Hills of Snow"

Honeysuckle, Halleana

Jasmine, Sweet Scented, Star

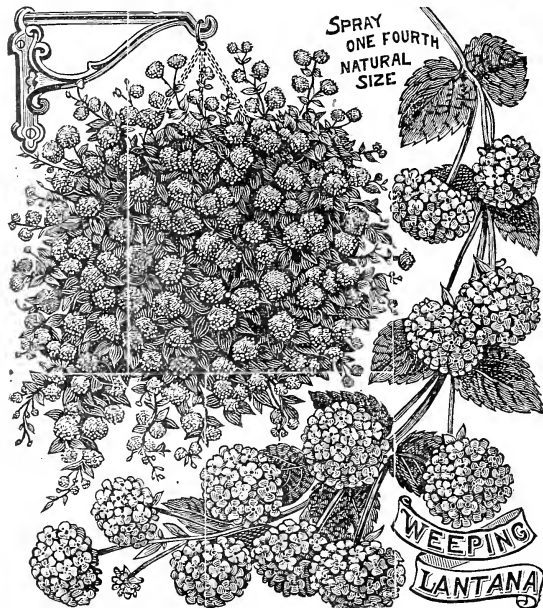

Jasmine

Sweet Scented Star. This is an old favorite and the most satisfactory for general culture of all the Jasmines. It flowers nearly the whole season and is especially valuable as a house plant in winter; flowers star-shaped, pure white and very fragrant. 10c. each, 3 for 25c., postpaid.

Weeping Lantana

(Mrs. McKinley)

A grand plant for baskets and vases. May be used to good advantage in connection with other plants, but is more effective when used alone where its bright colored bloom forms a perfect mound of flowers. A fine plant for winter flowering in pots or small hanging baskets. Flowers delicate rosy lilac, borne freely all over the plant from the base of each leaf stalk. Hundreds and thousands of them are in bloom all the time and literally cover the whole plant. 10c. each; 3 for 25c., postpaid.

Mrs. McKinley

New Climbing Lantana

dried. As a plant for the garden or for pots it is equally valuable. They flower profusely. Strong, healthy plants, only 10c. each; 3 for 25c., postpaid.

New Climbing Lantana

Evergreen and Everblooming

It is at all times graceful, pretty and evergreen. It has a great wealth of bloom, the large, daisy-like-colored clusters being lilac pink with a white center. It blooms profusely at all stages of growth and all the year round, and as its growth is easily controlled by pruning it can be made to fit any space where a large or small vine is desired. It is one of the most charming pot vines for windows we ever saw and is a splendid garden vine for Summer and never out of bloom. Fine Plants, 15c. each; 2 for 25c., postpaid.

New Climbing Lily-of-the-Valley

Always in Bloom

A beautiful new plant of climbing or trailing habit. It has beautiful heart-shaped leaves and branches freely, growing in most fine symmetrical form. It is in bloom all the time, the pendulous blossoms appearing at the axils of the leaves and are bell-shaped, pure white, and about the size, form and color of Lily-of-the-Valley. As a specimen pot or basket flower for the window it is a splendid acquisition. Grows very rapidly and makes a lovely plant in a short time. Fine Plants 15c. each; 2 for 25c., postpaid.

Manettia Vine

Manettia Bicolor

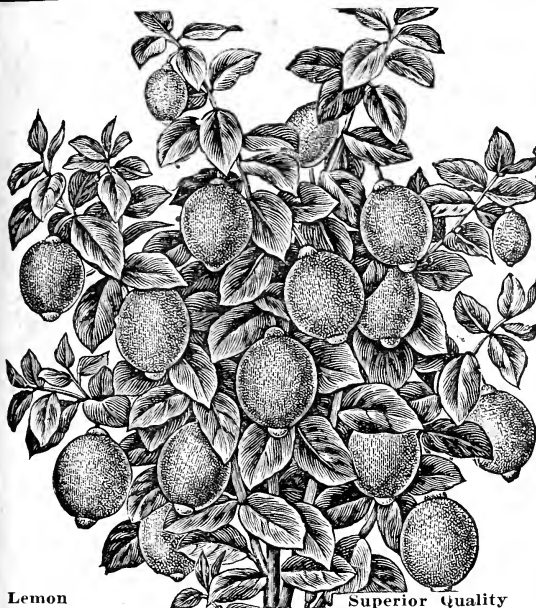

The Beautiful Climbing Plant This is the most beautiful and desirable of all vines, as it can be grown either in the house or garden equally as well. In the house it can be trained about a window, forming a wreath of the most brilliant bloom both summer and winter. The flowers are from an inch to an inch and a half in length, of a most intense scarlet, shading into flame, tipped with bright golden yellow, and are covered with a thick scarlet moss. Price, 10c. each; 3 for 25c., postpaid.

Lemon Verbena

A universal favorite and invaluable for the fragrant leaves. They will retain their fragrance for years when dried. As a plant for the garden or for pots it is equally valuable. They flower profusely. Strong, healthy plants, only 10c. each; 3 for 25c., postpaid.

Climbing Lily-of-the-Valley

Lemon

Superior Quality

American Wonder Lemon

LARGEST EDIBLE LEMON IN THE WORLD

A True Ever-Bearing Variety

The tree has fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. In addition to its fruit-bearing qualities it makes a very handsome plant for house culture. The dark green foliage is very large and handsome, and the pure waxy flowers with yellow stamens are nearly as fragrant as Orange blossoms, which they greatly resemble. The Lemons have a thin rind for such large fruit, and are full of rich, acid juice. The plants will produce their magnificent fruit under ordinary cultivation the second year, and will prove a source of genuine delight. Fine, thrifty plants, postpaid, 10c. to 15c. each. Splendid two-year-old plants, by express, 50c. Extra large plants, by express, \$1.00 to \$2.00.

Otaheite Orange

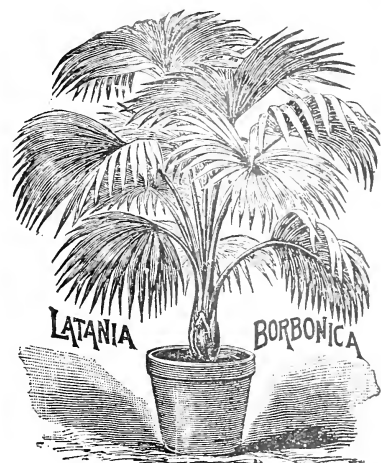

This beautiful Dwarf Orange Tree is one of our very prettiest house plants; thick glossy green leaves, deliciously sweet, pure white flowers; begins fruiting at once, and bears flowers and lovely golden yellow oranges all the year round; easily grown and requires very little care. We have grown a large stock of clean, healthy plants that will bloom and fruit at once. Fine plants, postpaid, 10c. to 15c. each; larger plants by express, 25c.

Otaheite Orange

Rubber Plant

Palm Chamerops Excelsa

Palms

Latania Borbonica The Fan Palm. This is one of the very best Palms for house culture, so hardy as to thrive in any ordinary living room, in spite of heat, cold, dust or drought. Has elegant fan-shaped leaves, rich dark green, beautiful fringed. Grows easily, needs no petting or coaxing. On account of its strong healthy habit this Palm is more popular than any other. It is magnificent in appearance and quite beautiful for baskets, jardiniere, etc. Fine young plants 20c. each, postpaid.

Kentia Balmoreana. Exceedingly popular parlor Palm. Decidedly rugged under all kinds of treatment. Fine young plants 20c. each, postpaid.

Phoenix Canariensis. Beautiful, strong Palm with glossy, dark green foliage. Fine young plants 20c. each, postpaid.

Kentia Fosteriana. Without exception the most hardy Palm of its class. Quite graceful and scarcely has an equal for table decorations. Fine young plants 20c. each, postpaid.

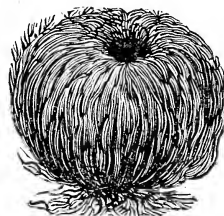

Seaforthia Elegans. A magnificent plant for jardiniere or center of tropical bed. Fine young plants 20c. each, postpaid.

Chamaerops Excelsa (Japanese Palm.) One of the hardiest of the Fan Palms. Foliage dark green; the segments of the fan-shaped leaves deeply cut, the edges covered with tooth-like spine. Grows from 15 to 20 feet high; very desirable for lawn decorations. Fine plants 20c. each, postpaid.

75c.

Resurrection Plant

be repeated many times, the plant curling tightly together when dry, expanding when soaked. 10c. each; 3 for 25c., postpaid.

Resurrection Plant

MOST UNIQUE NOVELTY

A Marvel of Plant Life

This peculiar plant is found among the pines and cedars of Palestine. It is a ball of tightly folded leaflets, dry and apparently dead. But a transformation takes place once it is dropped into a bowl of water, for in a short time there is a great, loose expanded rosette of fine fern-like leaves both odd and beautiful. This can be repeated many times, the plant curling tightly together when dry, expanding when soaked. 10c. each; 3 for 25c., postpaid.

Rubber Plant

Ficus Belgica

During the past few years there has sprung up an immense demand for rubber plants and they are highly valued everywhere for their tropical appearance. Leaves are very large, thick and leathery and of a beautiful shining green color. It endures the dry air of living rooms remarkably well. Everybody likes it.

Fine strong plants, 50c. and 75c. each, postpaid. Larger plants \$1.00 to \$2.00 each, by express at buyer's expense.

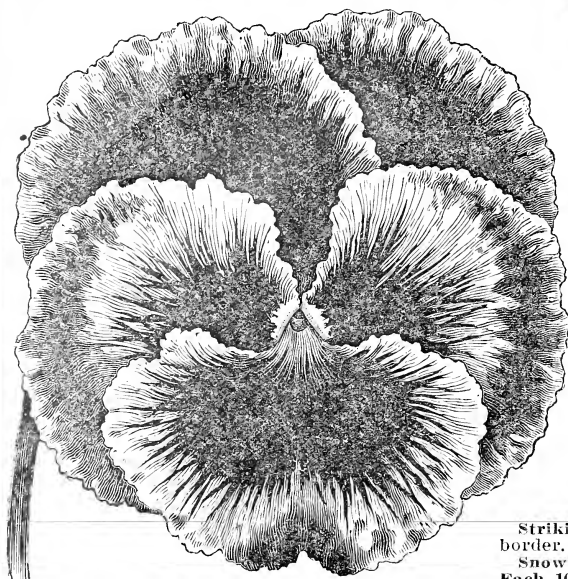

Umbrella Plant

As Decorative as a Palm

Hardy, useful and beautiful window plant for all seasons, always presenting a fresh, green attractive appearance. Invaluable as an aquatic plant. Throws up stems 2 to 3 feet high, surmounted by whorls of leaves. Price 10c. each, 3 for 25c., postpaid.

Umbrella Plant

Snow Storm. Pure White. Each 10c.

Double Petunia—Striking

New Blue Star Flower

A Wonderful Novelty—Blooms all the Time

This new double flowered plant is truly a wonderful novelty. It is useless to say how many large double blossoms a plant will show at one time, for no one would believe it. Actually a good sized plant is one solid bouquet of the most elegant blue blossoms we ever saw, as many as 300 showing at one time. As a pot plant for window culture it is one of the very finest things ever introduced and a perpetual bloomer, both summer and winter. As a bedding plant it is equally valuable, standing sun and drouth and showing a great profusion of blossoms all the time. Fine plants for blooming at once. 10c. each; 3 for 25c.; 12 for \$1.00, postpaid.

Swainsonias

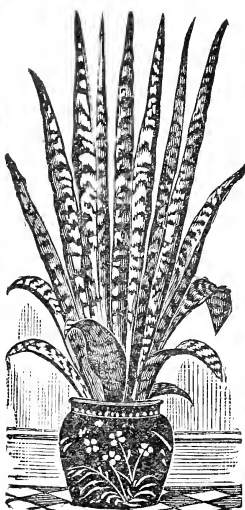

(Swan Flower)

Alba. This is a very beautiful plant and a real gem; both for flower bed and house culture; flowers are pure snowy white and borne in pretty sprays all over the plant; will thrive and bloom with the greatest profusion, summer and winter, in garden or house. Price 15c. each; 2 for 25c., postpd.

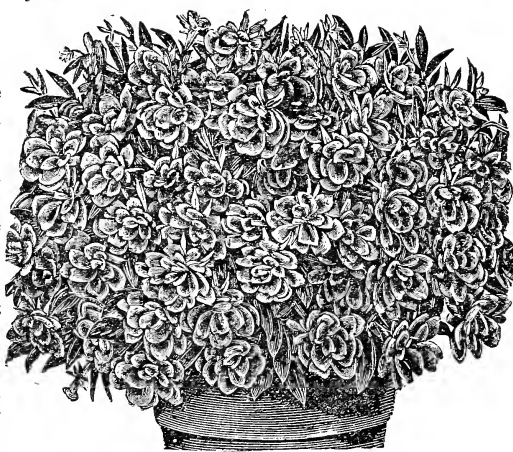

Rosea. Same as Alba except in color, which is bright, rich, rosy red. Very handsome. Price 15c. each; 2 for 25c., postpaid.

Sanseveria Zealanica

There is scarcely a decorative plant that is more striking in foliage and habit than this, and certainly none other stands as much downright neglect and hardship. Singularly beautiful as well as easily grown. The leaves are a dark green color with clouded bars of white. Fine plants, postpaid, 15c. each, 2 for 25c. Larger plants by Express, not prepaid. 50c. to \$1.00 each.

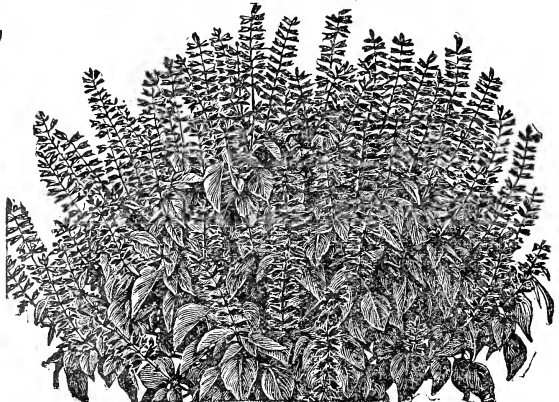

Sanseveria—Zealanica

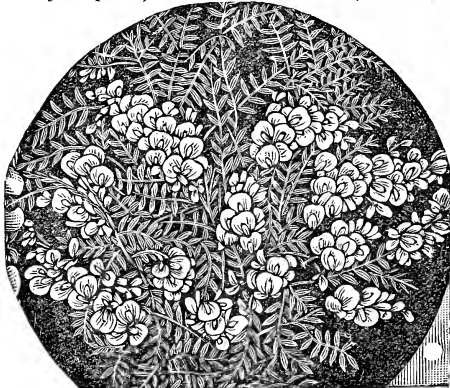

New Blue Star Flower

Royal Purple Plant

Surpasses the finest Coleus or Begonias in the exquisite coloring of the leaves, besides which the long racemes of lovely violet blossoms, with which the plant is covered in mid-winter, greatly enhance its value, beauty and usefulness. The undulation on the surface of the foliage is furnished with a bluish metallic hue, shading into light rose, with a light green margin. The flowers are violet blue. 15c. each, 2 for 25c.

New Salvia Zurich

Swainsonia—Swan Flower

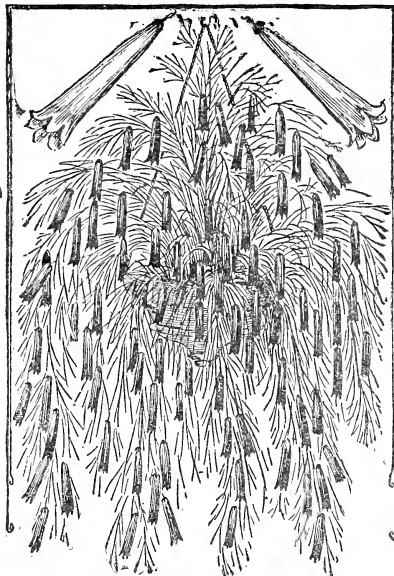

Wandering Jew (Tradescantia Multicolor.)

Fine variegated leaves, striped crimson, green and silver, with a beautiful silvery sheen on them. A very rapid grower and excellent for hanging baskets, vases, window boxes, etc. Price, 10c. each; \$1.00 per dozen, postpaid.

Scarlet Fountain Plant

A Charming Basket or Vase Plant

A novel and beautiful plant, suitable either for bedding or pot culture. Has long, wiry, leafless stems, drooping and bearing quantities of long, tubular blooms of the most vivid scarlet color. Blooms almost incessantly as a pot plant. The great drooping masses of bloom are like a fountain of coral, scarlet and green. Price, 15c. each, 2 for 25c.

Scarlet Fountain Plant

Double Hardy Russian Violets

Violets

VIOLETS, DOUBLE HARDY RUSSIAN.

Perfectly hardy; should be planted in open ground, needing no protection during Winter. The flowers are large, very double, deliciously fragrant, and of a deep shade of purple. Blooms in immense masses, the plants being almost covered with flowers for about four weeks. Fine plants. 15c. each; 2 for 25c., postpaid.

PRINCESS OF WALES. The largest and best of all single sorts. Delightful perfume. Color, a rich violet purple; a vigorous grower with healthy foliage and long, stiff stems. 10c. each; 3 for 25c., postpaid.

LADY CAMPBELL. Deep purple; fine, large double bloom. 10c. each; 3 for 25c., postpaid.

MARIE LOUISE. The favorite Winter-flowering variety; not hardy in the North; flowers double; rich purple; stems long; foliage rich, dark green. 10c. each; 3 for 25c., postpaid.

SWANLEY WHITE. Pure white; large; double; very fine. 10c. each; 3 for 25c., postpaid.

The Best Hardy Lilies

Auratum (The Golden-Banded Lily of Japan.) This is justly entitled to the name often given it—The Queen of Lilies. The immense blooms measuring nearly a foot in width when fully expanded—are produced in the greatest profusion and are deliciously fragrant. The large white petals are thickly spotted with chocolate-crimson, and have a bright golden-yellow band through the center of each. Mammoth Bulb. Each 20c.; doz. \$2.00, postpaid.

Speciosum Rubrum No words can overstate the brilliant beauty of these famous Japanese Lilies. The six broad white or pink petals are thickly dotted with rose or crimson spots. Mammoth Bulb. Each 20c.; doz. \$1.75, postpaid.

Speciosum Album Pure white flowers with a greenish band through the center of each petal. They are of great substance and very fragrant. One of the best for general culture. Mammoth Bulb. Each 20c.; doz. \$2.00, postpaid.

Double Tiger Lily (Tigrinum Flore Pleno.) This is a plant of stately habit, growing from 4 to 6 feet high, bearing an immense number of double bright orange red flowers, spotted with black. Blooms in August. Splendid Bulbs. Each 12c.; 3 for 30c.; doz. \$1.15, postpaid.

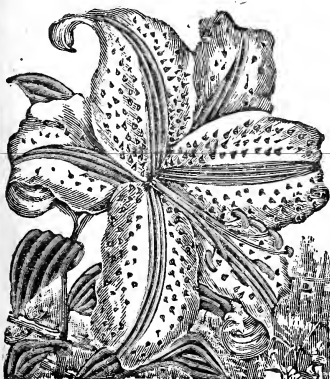

The Leopard Lily (Lilium Pardalinum.) An elegant and very beautiful Lily from California, rich scarlet and yellow flowers, spotted with purplish brown. This is a superb Lily and always gives satisfaction, does well everywhere, blooms finely in the house in pots, also entirely hardy in open ground. It is one of the Lilies you want. Splendid Bulbs. Each 12c.; 3 for 30c.; doz. \$1.15, postpaid.

Lily of the Valley No garden is complete without a bed of these Fragrant Flowers. The sweetest, the loveliest Spring blooming plant, producing delightfully fragrant blooms. Will thrive in any common soil and do well in shady places where many other plants fail. Large flowering roots, 4 for 15c; 12 for 35c; 100 for \$2.00, postpd.

Best Hardy Vines—Hardy Climbers

Trumpet Creeper

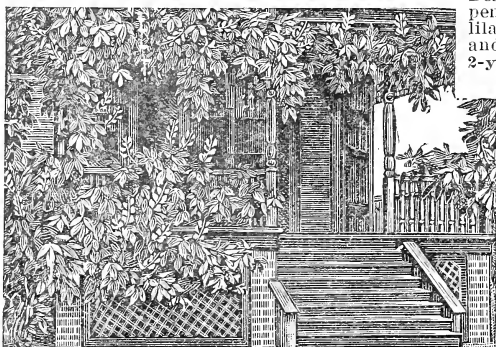

New Crimson Mountain Beauty Vine

This is a new climbing vine of striking and remarkable beauty, and though not quite hardy here, is especially recommended for the South and Pacific Coast, where it will give immense satisfaction. It is a strong, vigorous climber, suitable for covering walls, porches, verandas, fences, etc., has handsome foliage and is covered for months at a time with splendid clusters of bright crimson flowers, like flaming red wistarias. Those who have seen it in bloom in the South say it is the most magnificent flowering vine they ever saw, and in parts of Central America where it abounds, it is said to color the mountains with a blaze of glowing crimson. It is certainly unequaled in brilliant beauty among climbing vines, and we hope our friends will give it a liberal trial. As far north as New York it should be protected in winter. **Strong Plants, 15c each; 2 for 25c.; 5 for 50c., postpaid.**

Japanese Kudzu Vine

(*Pueraria Thunbergiana*, "Jack and the Bean-Stalk Vine.")

The most remarkable and rapid growing of all hardy vines, often making a growth of fifty to seventy-five feet in one season and flourish where nothing else will grow, and last for 25 years or more. In the north the plant dies to the ground in winter, coming up again from the roots in the spring. It has clusters of delightfully fragrant purple flowers in Summer and Autumn, with large beautiful deep green leaves affording a dense shade, making it invaluable for covering porches, arbors, fences, rockeries, dead or old trees, etc. **Price, Strong 1-year-old roots, 15c. each; 3 for 40c., or 12 for \$1.30, postpaid.**

Japanese Kudzu Vine

Ampelopsis Veitchii

Boston Ivy or Japanese Ivy

The finest climber for training over brick walls, as it clings firmly to the smoothest surface covering it smoothly and densely with fresh, green, heart-shaped leaves in Summer, which change in the fall to the right Autumn colors. It likes a rich soil. Quite hardy, but requires a slight protection in Winter in our climate. **Strong plants, each 15c.; 2 for 25c.; postpaid.**

Bitter Sweet

(*Celastrus Scandens*.)

A native vine with good foliage; yellow flowers in June, and bright, ornamental orange and scarlet berries throughout Fall and Winter. It is very hardy; grows in sunny or shaded places, and is not surpassed as a vine for covering trellis-work, trees, rocks or walls. **Each 15c.; 2 for 25c., postpaid. Larger Size 25c. ea.**

Matrimony Vine

A most vigorous hardy, climbing plant, with purple flowers, which are succeeded by beautiful scarlet berries nearly an inch long. **Each 25c., postpaid.**

Mountain Beauty Vine Chinese Wistaria

PERFECTLY HARDY;

STRIKINGLY BEAUTIFUL

One of the most elegant and rapid growing of all climbing plants; attains an immense size, growing at the rate of 15 to 20 feet in a single season. Bears an abundance of long, pendulous clusters of purple-lilac flowers in May and June and again in Autumn. **Large, 2-year-old plants, 35c. each.**

Trumpet Creeper

(*Bignonia*.)

These are familiar, strong-growing vines, with deep, rich green foliage and large trumpet-shaped flowers in early Summer. They are very desirable for covering Summer-houses, training over arbors, and to climb over trees, rocks and rustic bridges. *Bignonias* will grow in almost any soil and are hardy, except in the coldest climates. **Strong 3-year-old Plants, each 35c., postpaid.**

Matrimony Vine

Clematis

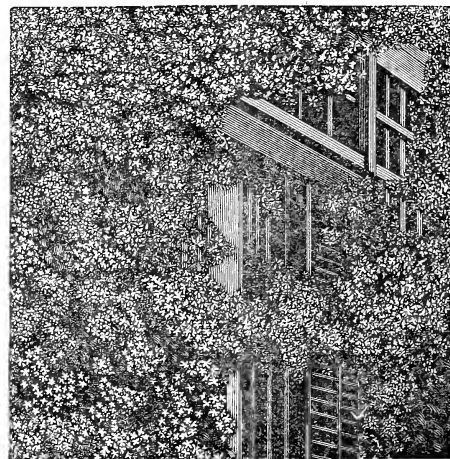

Paniculata (Sweet-scented Japan Clematis.) One of the finest hardy climbers. Of rapid growth, quickly covering trellises and arbors with handsome, clean, glossy green foliage. Flowers of medium size, pure white, borne in immense sheets; of a most delicious and penetrating fragrance. The flowers appear in late Summer at a time when few other vines are in bloom. **Strong, 2-year-old roots, 35c. each.**

Jackmani Flowers dark, rich, royal purple; very free bloomer; best known and most popular. **Strong, 2-year-old roots, 50c. each.**

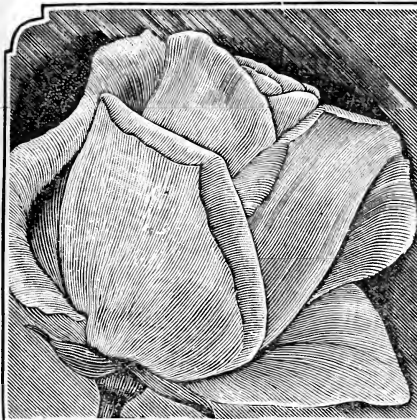

Henryii Best single-flowering white. Robust habit, fine bloomer; large, finely formed flowers; very hardy. **Strong, 3-year-old roots, 50c. each.**

New Red Clematis (Mad. Edouard Andre). Strong, vigorous grower, being a hybrid of the popular Jackmani. **Thousands of flowers produced on a single specimen plant; blooms of large size; color a most distinct, striking carmine red. Strong, 3-year-old roots, 50c.**

Standishae Most exquisite lavender-blue of large size, often measuring 6 inches across. **Thousands of flowers may be produced on a single plant. Strong, 3-year-old roots, 50c. each.**

Clematis Paniculata

Roger Lambelin. The finest Variegated and Striped double hardy Rose, very popular. 15c. each; 2 for 25c.

Baby Rambler Roses

Monthly Everblooming (But Not Hardy)

SPECIAL OFFER:—This type of Roses has created a furore among Rose planters in America and we offer the set of three Baby Rambler Roses for only 35c., postpaid.

Crimson Baby Rambler. The very best bedding Rose in existence. It originated in Orleans, France, from a cross of the Crimson Rambler and a Polyanthus variety, and it may be called a perpetual blooming dwarf Crimson Rambler. The bush is vigorous, absolutely hardy, about 27 inches in height, and on our place every plant is in bloom every day of the Summer and Fall. Sometimes as high as 120 flowers have been counted on a single panicle. 15c. each, 2 for 25c.

White Baby Rambler. (Catherine Zeimet.) The true Baby Rambler type, with pure white flowers. Deliciously fragrant and perfectly hardy. 15c. each, 2 for 25c.

Pink Baby Rambler. (Annie Mueller.) A counterpart of the Crimson Baby Rambler except that color is a bright, shining pink. A splendid color in combination with the above. 10c. each, 3 for 25c.

Large 2 yr. old Plants of the 3 New Baby Ramblers, 30c. each; or the set of 3 for only 75c.

Hardy Memorial Roses

Unexcelled for Cemetery Uses. Hardy as an Oak and Live Forever.

SPECIAL OFFER:—The set of 5 Hardy Memorial Roses, fine young plants, postpaid, only 45c.; or we will send 5 strong 2 yr. old plants, one each of the 5 varieties, for only \$1.25.

Hiawatha. Brilliant scarlet; bears large clusters of single flowers; bright and effective. One of the best. Each 15c., 2 for 25c., postpaid. Large 2 yr. old plants, each 35c.

Jersey Beauty. Elegant single flowers, 3 inch in diameter, pale yellow, very fragrant. Each 10c., 3 for 25c., postpaid. Large 2 yr. old plants, each 30c.

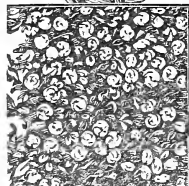

Lady Gay. Flowers in large lovely clusters are of a delicate cherry pink color. Each 10c., 3 for 25c., postpaid. Large 2 yr. old plants, each 25c.

Manda's Triumph. Flowers perfectly double, pure white, very fragrant. Each 10c., 3 for 25c., postpaid. Large 2 yr. old plants, each 35c.

Snow Wreath. Will grow in sun or shade, poor ground or rich. Makes a beautiful display of blossoms (often five or six inches around), pure satiny white with bright golden center. Each 15c., 2 for 25c., postpaid. Large 2 yr. old plants, ea. 30c.

New White Baby Rambler

Snow Wreath Memorial Rose

New Crimson Baby Rambler

Climbing Varieties of Hardy Roses

PROFUSE BLOOMERS—PERFECTLY HARDY

SPECIAL OFFER:—One plant each of the following ten varieties post-paid for only 80c.; or one large two year old plant each of the following ten varieties for only \$2.50.

Baltimore Belle. Flowers pale blush variegated carmine. Hardy everywhere. 10c. each; 3 for 25c.

Dorothy Perkins. (Pink Rambler.) Of great hardiness, vigor, beauty and freedom of bloom. Stands severest winters unprotected; blooms in clusters; fine shell pink in color. 10c. each; 3 for 25c.

Empress of China. (The Apple Blossom Rose.) Attaining a height of 15 to 25 feet in a single season. Color soft dark red, changing to lighter red or pink. 10c. each; 3 for 25c.

Improved Crimson Rambler. The finest and most famous climbing Rose in cultivation. It is perfectly hardy. The flowers are a rich, vivid crimson, borne in magnificent pyramidal clusters; a perfect bouquet. 10c. each; 3 for 25c.

Improved White Rambler. Flowers of the White Rambler have the charm of being sweetly scented. Color a pure white, without a blemish. 10c. each; 3 for 25c.

Improved Yellow Rambler. Quite hardy, but should have some winter protection. The beautiful clear yellow flowers are borne in immense trusses. Very fragrant. 10c. each; 3 for 25c.

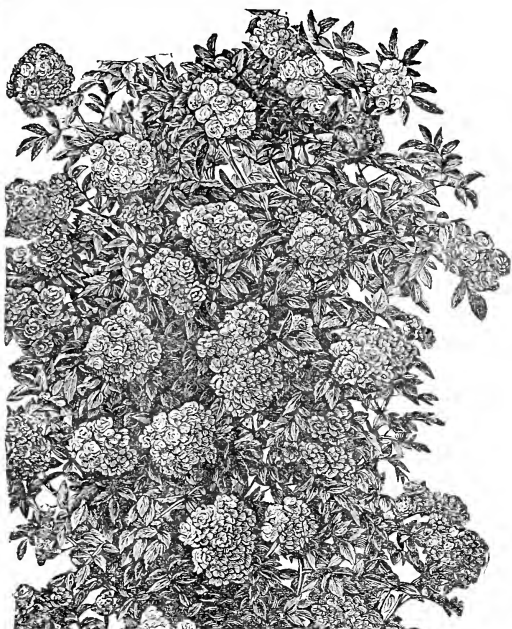

Mary Washington. Flowers large, pure white and very double. Its fragrance is tinged with that old-fashioned musky flavor. 10c. ea.; 3 for 25c.

Tausendschon or 1000 Beauties. The new Rambler Rose; it bears its flowers in immense clusters; in color a soft pink when first opening, changing to a carmine rose on the reverse when they fully expand. 10c. each; 3 for 25c.

Climbing Marie Guillot. Double pure white; slightly tinted Primrose at base of petals. Vigorous grower and continuous bloomer. 15c. each; 2 for 25c.

Marechal Neil. Grandest of all climbing, double, golden yellow Roses; often called "Shower of Gold." Flowers superb, of extra large size and deliciously fragrant. 15c. each; 2 for 25c.

Large 2 yr. old plants of the above 10 varieties, 30c. each.

Flower of Fairfield Rose

Flower of Fairfield

Hardy Everblooming Rambler

This new variety is a sport from the famous and beautiful Crimson Rambler, similar in color but more brilliant and more lasting. The new "Flower of Fairfield" is of vigorous growth, and when in bloom surpasses anything else by the wonderful display of its brilliant crimson clusters of blossoms. It starts blooming in the early Spring, and continues to flower till late in Autumn, thus it is rightly termed "Perpetual Blooming." Price 15c. each, 2 for 25c., postpaid. Large 2 yr. old, 35c. ea.

The Hardy Blue Rose

(Veilchenblau)

"The Sensation of the Century"

A new and extraordinary color long hoped for but hitherto regarded as among the unattainable. The flowers are produced in clusters, similar to Crimson Rambler, are semi-double in form and born profusely; the color is steel blue, very similar to that seen in the delicate, inimitable blue of *Clematis Jackmanii*. Strong, vigorous climber; perfectly hardy. Price 15c. each, 2 for 25c., postpaid. Large 2 yr. old, 35c. each.

Hardy Rugosa Roses

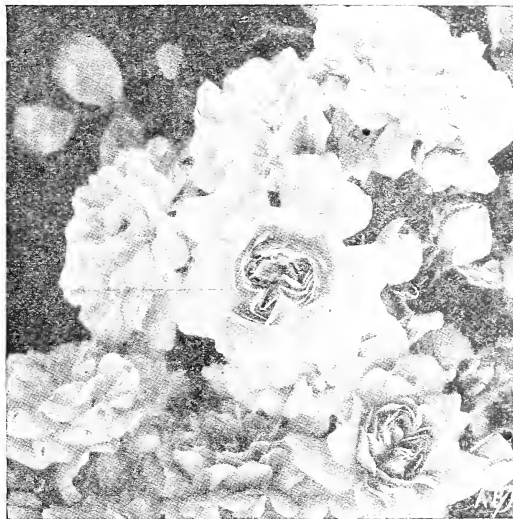

Sturdy bushes three to five feet in height, with handsome glossy green foliage and clusters of beautiful single flowers, which are exquisitely fragrant. They bloom all summer from June, and in the Autumn and Winter are very attractive, being covered with large, brilliant red seed pods. Healthy, vigorous grower; entirely free from insects; splendid as single specimens or as hedges.

Sir Thomas Lipton. Glossy crimson. Price, 15c. each, postpaid. Large 2 yr. old plants, each, 35c.; doz., \$3.50.

Agnes Emily Carman. Pure white. Price, 15c. each, postpaid. Large 2 yr. old plants, each, 35c.; doz., \$3.50.

Sir Thomas Lipton—Rugosa Rose

Veilchenblau or Blue Rose

True English Sweet Briar Rose

This is the **True Eglantine**, and highly valued for the delightful fragrance of its young foliage as well as flowers. It is entirely hardy, and when once planted will take care of itself. Make a fine hedge planted two feet apart, or is equally good for a group or single specimens. Flowers pink. Price, 15c. each. Large 2 yr. old plants, 35c. each, doz. \$3.50, postpaid.

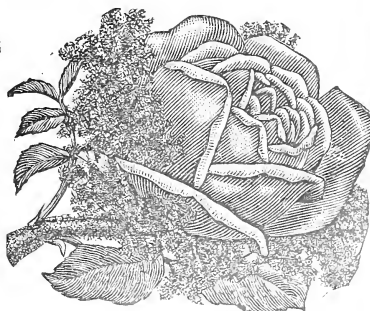

Perpetual Moss Roses

The Moss Rose is as hardy as any Hardy Rose can be, and an extra vigorous grower. They are much admired on account of their bright, healthy foliage and moss-like covering of the buds. While they bloom but once a year, their season is lengthy and the flowers are large, beautiful and plentiful. Fine Plants, postpaid, 15c. each; 3 for 40c. Large 2 year old Roses, 35c. ea.; 3 for \$1.

Blanche Moreau. Pure white, large, full and perfect form.

Henri Martin. Large, globular flowers, full and sweet; rich, glossy pink, tinged with crimson.

Luxemburg. Bright crimson; large and beautifully mossed.

Moss Rose, Henry Martin

Japanese Iris

Paeony

Paeonias

The "Pineys" that grew in Grandmother's garden, while still popular because of their early flowering, have been eclipsed by the wonderful sorts introduced in recent years, and we find that the following varieties are admirably suited for all purposes.

Venus. An elegant double-white of the purest color. Of immense size and queenly in its splendor. Select plants, price, postpaid, 25c. each.

Zada. A delicate soft pink of exquisite shade and great beauty. Select plants, price, postpaid, 25c. each.
Chieftain. The finest red variety—being a deep rich red of rare beauty. Select plants, price, postpaid, 25c. each.
SPECIAL OFFER:—The above set of Three Hardy Paeonias, postpaid by mail, 50c.

Japanese Iris

(Iris Kaempferi)

The most gorgeously colored plants in existence; beautiful. Our stock is especially fine—all imported direct from Japan. Price, choice mixed, all colors, each 20c.; doz. \$1.75, postpaid.

German Iris

Splendid for the flower bed; entirely hardy, blooms early in the Spring. Large crape-like flowers, sky-blue, yellow, orange and white in beautiful combination. Price, mixed colors, 10c. each; 75c. doz., postpaid.

Hardy Perennial Phlox Coquelicot

Hardy Phlox

Although there are quite a number of different varieties and colors, we have confined ourselves to six of the newest and rarest sorts, which are without doubt the choicest and most distinct assortment that has ever been offered. **Price of the Following Choicest Varieties, 15c. each; \$1.50 doz.**

Selma. Medium tall variety. Dark stemmed, light salmon color with violet eye.

Coquelicot. Beautiful orange red and scarlet variety with distinct violet eye.

Pantheon. The peerless pink. Extra large, flat flowers of salmon pink.

Chateaubriand. Pure white with crimson, carmine eye, shading to violet purple.

F. G. Von Lassburg. The purest white in cultivation. Inspector Pelker. Purplish mauve washed in white.

SPECIAL OFFER:—The above set of six Hardy Phlox, postpaid by mail, for only 60c.

HARDY ORNAMENTAL HEDGE PLANTS

Nothing adds so much to a Home as Beautiful Hedge Fences

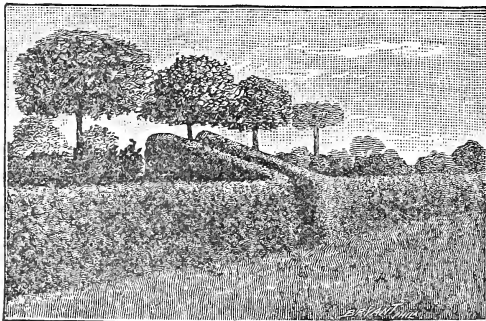

California Privet A quick growing shrub, yet easy to control by use of shears or knife, to any desired shape. Fine for hedges between city lots, on large rural lots, parks, cemeteries, in single clumps or with other shrubs; also as screens to outbuildings, fences, etc. Very hardy, easy to grow on all soils, even partial shade; almost evergreen, its rich, leathery-green foliage changing to purple in winter. Price, good strong plants, postpaid, each, 10c.; doz. \$1.00. Price by express at buyer's expense, select plants 15 to 18 in. high \$3.00 per 100, 18 to 24 in. high \$4.00 per 100.

Amoor River Privet (*Ligustrum Amurense*.) A remarkably vigorous grower, compact and regular in form, with glossy wax-like foliage; a beautiful shade of green. It is by many recognized as the "Ideal Hedge Plant." Price, good strong plants, postpaid, each, 15c.; doz. \$1.50. Prices by express at buyer's expense, select plants 15 to 18 in. high \$5.00 per 100, 18 to 24 in. high \$7.50 per 100.

Japanese Barberry (*Berberis Thunbergii*.) This is the most valuable for making a low dwarf hedge. It is of low, regular and compact growth and requires very little pruning. It has fine thorns and small round rich leaves that change color in the Autumn to a fiery crimson. The hedge is made still more beautiful by great numbers of pretty drooping yellow flowers which are followed by bright red berries. Strong plants, postpaid, each, 10c.; doz. \$1.00. Price by express at buyer's expense, select plants 12 to 15 in. high, \$1.25 per doz., \$6.00 per 100, 15 to 18 in. high, \$1.50 per doz., \$8.00 per 100.

Evergreen Seedlings

The Great Cemetery Plant

Bleeding Heart

Canterbury Bells

Gaillardia Grandiflora

The Best Perennial Plants

For Permanent Planting in Borders or Beds. They are Perfectly Hardy, and do not have to be taken up every fall, or replaced every Spring. Last for Years and are Especially Useful as Cut Flowers.

Hardy Garden Pinks

NOTE. At prices quoted we send by mail, postpaid.

The Great Cemetery Plant

One of the very best white-flowered plants for the border. The flowers are borne in the greatest profusion the entire summer on strong, erect stems, pure white in color. Each 10c.; dozen \$1.00.

Baby's Breath

(Gypsophila paniculata). A beautiful old fashioned plant possessing a grace not found in any other perennial. Beautiful pure white flowers. Each 10c.; doz. \$1.00.

Bleeding Heart

(Dicentra). An old fashioned favorite; its long and graceful heart-shaped pink flowers are always attractive. Each 15c.; doz. \$1.15.

Corn Flower Aster

(Stokesia). Handsome lavender-blue Cornflower-like blossoms, which measure from 4 to 6 inches across. Each 10c.; dozen \$1.00.

Shasta Daisy

Flowers range in shape from fully double to single; and in color from pure white to pale lemon yellow—some solid color, some prettily variegated with yellow discs. The plants are extremely productive of bloom, which continues throughout a long season. Each 10c.; dozen \$1.00.

Canterbury Bells

(Campanula Medium.) An old time favorite. Our stock has been grown from the very finest strains. Color of flowers blue, rose or white. Each 10c.; dozen \$1.00.

Coreopsis

(Lanceolata Grandiflora). One of the most popular hardy plants. The flowers are rich golden yellow and are invaluable for cutting; continues in bloom the entire summer and fall. Each 10c.; doz. \$1.

Hardy Garden Pinks

Old favorite bearing their sweet clove-scented flowers in the greatest profusion during the summer months. Each 10c.; doz. \$1.00.

Delphinium, or Larkspur

(Formosum.) They are about the only hardy blue flower of any note and have a long season of bloom. Each 10c.; dozen \$1.00.

Fox Glove (Digitalis.) Another good old fashioned but dignified and stately perennial. The strong flower stalks, often four to six feet high, always give an appearance of strength wherever planted. Each 10c.; dozen \$1.00.

Gaillardia Grandiflora

One of the showiest and most effective hardy plants, about two feet high, and continuous bloomers from June till cut down by the frost. The flowers are of gorgeous coloring; the center is of dark red-brown with petals marked with rings of brilliant crimson, orange and vermillion, and often a combination of all in one flower. Excellent for cutting. Each 10c.; dozen \$1.00.

Golden Glow

(Rudbeckia.) It is a question whether any other hardy perennial has ever met with greater popularity than this. It is a strong, robust grower, of five to six feet, and produces masses of double golden yellow cactus dahlia-like flowers from July to September. Each 10c.; dozen \$1.00.

Hollyhock

Few hardy plants combine as many good qualities as the Hollyhock. The flowers form perfect rosettes of the most lovely shades of color. It requires a rich, deep soil, well drained, and will repay in quantity and elegance of bloom any extra care. A slight protection during the Winter will be beneficial. 10c. each; \$1.00 dozen.

Sweet William

(Dianthus Barbatous.) Beautiful old-fashioned favorite border plant. The stock we offer has been grown from a select strain; various colors. Select plants, 10c. ea.; \$1. doz.

Red Hot Poker Plant

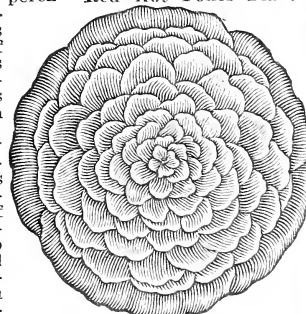

(Tritoma; Flame Flower, or Torch Lily.) Surpasses the finest Cannas for attractiveness and brilliancy; blooms incessantly from August until November. Plants show from 6 to 10 grand flower stalks all the time, each holding at a height of 3 feet a greater cluster of flame-colored flowers. 10c. each; \$1.00 dozen.

Perennial Poppy

Nothing can equal these Poppies during their period of flowering for a gorgeous display of a rich brilliant coloring, and the freedom with which they bloom render them conspicuous in any position. Select plants, 15c. each; \$1.20 doz.

New Giant Himalaya Berry

The Greatest Fruit Introduced into America for a Generation

It is entirely a new kind of Berry-fruit—just as different from anything you have ever seen or tasted as Raspberries. Blackberries or Strawberries are different from one another, and is therefore, in a distinct class by itself. A proper comparison cannot be made between Himalaya Berries and any other grown in this country, either in character, and hardness of plant, or in quality, and abundance of fruit. The berries are black, but are not blackberries. They are borne in enormous clusters, and ripen from time to time all summer, and on in the fall till frost comes. Each berry is an inch long, thick, meaty, melting, sweet, with almost no core, and unusually rich. They need very little sugar in cooking, and do not spoil for many days after they are ripe when left hanging on the vine. They will stand long-distance shipping and much handling without loss of fine flavor and appearance. The sprouts do not come up from the ground as blackberries do, but all start from one root. When a year old and afterward, the canes send out fruit laterals which get to be sixteen to forty feet long, and upon these are borne the enormous crops. The berries are clustered on the outside of the bush, not in among briars, where they would be hard to pick. Plants are as hardy as an oak. No temperature in North America will hurt them in the least, and hot, dry weather does little else than make them thrive. If the soil is kept moist, the hotter the sun shines the faster they grow. Price, Strong Plants, each 15c.; doz. \$1.00, postpaid.

Burbank's Phenominal Berry

Largest Berry Ever Known

"The greatest wonder of all." It tastes and looks like both the Raspberry and Blackberry. It is one of the most remarkable of all new fruits seen during this generation. A berry of sterling worth in every particular. It has a bright crimson Raspberry color, is as productive as could be desired, and the most delicious of all berries for canning and drying. The berries growing in clusters of 5 or 10 or more each, and the individual berries measure 3 inches around one way, by 4 inches the other way, and weigh one-quarter ounce each. The plants are very hardy, thrifty and easily grown. Half a dozen plants in the garden or back yard will furnish an abundant supply of choice berries throughout June and July. Price 15c. each, or \$1.00 per dozen, postpaid.

nish an abundant supply of choice berries throughout June and July. Price 15c. each, or \$1.00 per dozen, postpaid.

THIS COLLECTION CANNOT BE BROKEN

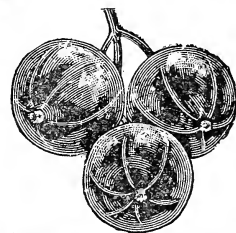

Strawberry—Great Northern

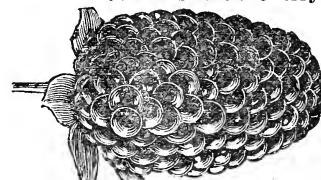

Black Raspberry—Cumberland

Red Raspberry—Columbian

Currants—New Cherry

Blackberry—Eldorado

Gooseberry—Industry

Blackberry, Eldorado

Blackberries

Eldorado. Fruit large and of exceptional quality and productiveness. Late. 10c each or 60c. doz., postpaid.

Erie. One of the largest; thrifty, hardy and productive. Fruit jet black. 10c. each or 75c. doz., postpaid.

Ward. The best fruit; is very large; jet black and of excellent quality. Plant productive and entirely free from rust. 10c. each or 60c. doz., postpaid.

Dewberry

New Lucretia. Sometimes called creeping blackberry. Very hardy. Ripens ahead of any of the blackberries. Fruit 1½ inches long; sweet and melting. 10c. each; 65c. doz., postpaid.

Strawberry Raspberry

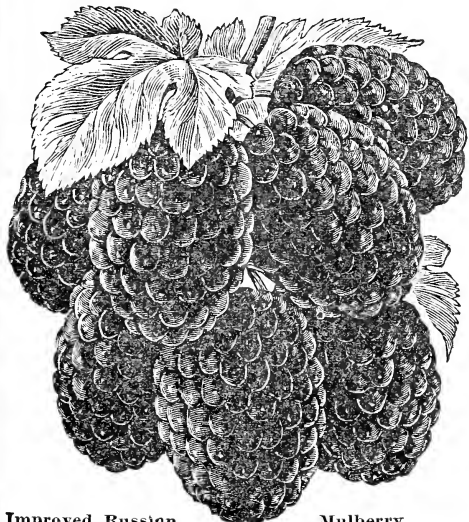

Tree Strawberry

A very beautiful fruit from Japan. Bush from 18 inches to 2 feet in height, entirely hardy. The berries are larger than the largest Strawberries, bright, shining scarlet. It makes delicious jelly, jam and tarts, having a delicious flavor entirely different from any other fruit. Price 15c. each; 2 for 25c.; or \$1.00 per dozen, postpaid.

Improved Russian Mulberry

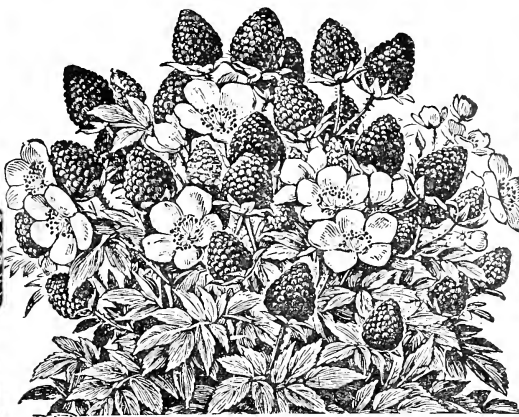

Fruit larger than Blackberries and of delicious flavor.

Fruit has a fine, aromatic flavor and sub-acid, sweet taste, and is used for dessert as we use Raspberries or Blackberries. A beautiful, quick growing tree for the lawn; fruit is valuable for table use. Price 10c. each, or 3 for 25c., postpaid.

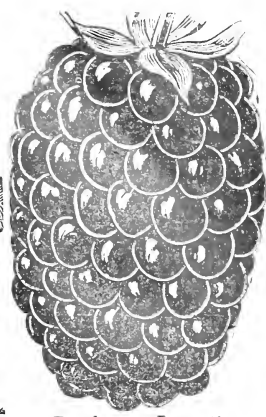

Improved Russian

Mulberry

Strawberry Raspberry

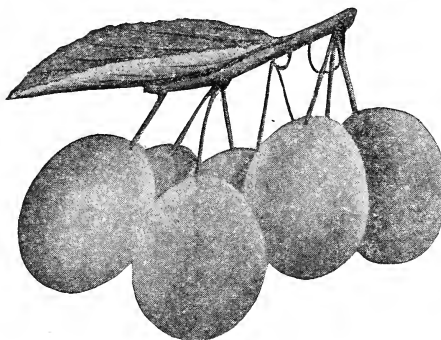

Dewberry, Lucretia

Compass Cherry

Absolutely Hardy Everywhere. Originator's description: "This Cherry was originated at Springfield, Minn. It is a cross between the Sand Cherry and the Miner Plum. Nearly an inch in diameter, a bright red, sweet and juicy and of very fine flavor. The original tree bore fruit the third year from the seed and has borne a full crop every year since. The tree is a regular and heavy bearer, and produces fruit the next year after setting out. For exposed situations and for the North and West it is the "Cherry." Requires no protection whatever and is in every particular as Hardy as an Oak. Mail size, postpaid, each 25c.; 6 for \$1.00.

Rocky Mountain Cherry

Compass Cherry

One of the greatest novelties in the fruit line ever introduced. It bears every year and is as prolific as a currant bush. The fruit is a rich red and changes to almost black when ripe, of good size, fine flavor and unsurpassed for preserves or eating from the hand; season of ripening being earlier than others are gone. In flavor, is akin to sweetest cherries. 15c. each, 3 for 35c., postpd.

Currants

Perfection. Color a beautiful bright red; a great bearer, with rich sub-acid flavor; plenty of pulp and few seeds. Best Currant lately introduced. 20c. ea., or \$1.50 doz., postpaid.

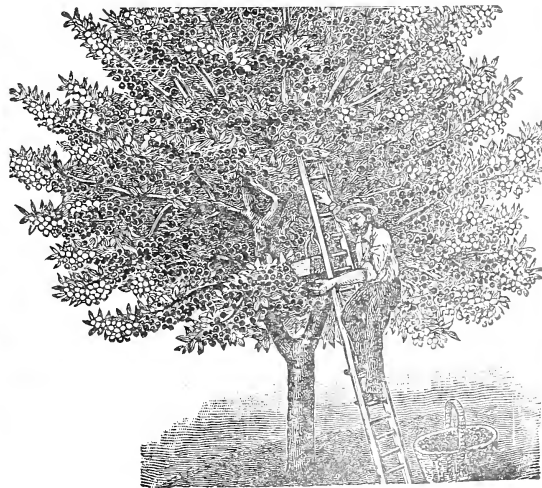

New Cherry. A prolific and profitable market currant, with large red berry; the handsomest of all currants. Very desirable for jelly-making purposes. 15c. each, or \$1.25 doz., postpaid.

White Grape. Bears large clusters of yellowish white currants. Excellent quality and prolific. 15c. each, or \$1.25 doz., postpaid.

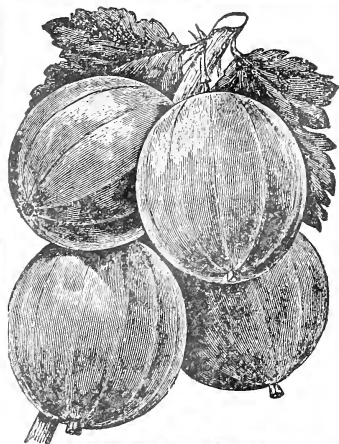

Black Champion. The leading tested black Currant. The berry and bunch are very large and of most excellent quality. 15c. each, or \$1.25 doz., postpaid.

Perfection Currant

Rocky Mountain Cherry

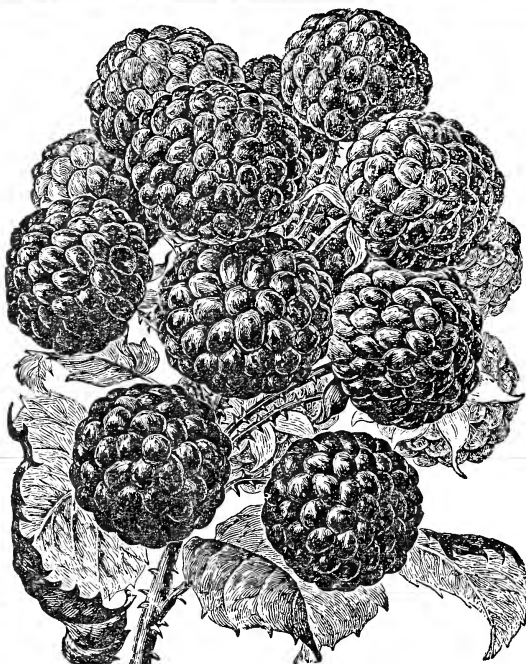

Downing Gooseberry

Gooseberries

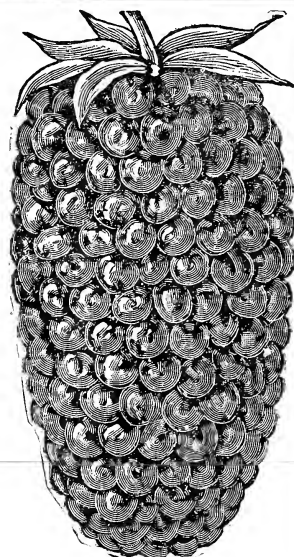

Downing. One of the best. Fruits large, pale green and of excellent quality. A reliable cropper and profitable market berry. Price 15c. each, or \$1.25 per doz., postpaid.

Industry. Large, dark red, fine flavor. Price 15c. each, or \$1.25 per doz., postpaid.

Red Jacket. Splendid sort. Sure cropper and immense yield. Color bright red. Price 20c. each, or \$1.50 per doz., postpaid.

St. Regis Everbearing Raspberry

New Logan Berry

New Logan Berry (Blackberry Raspberry)

The fruit is as large as the largest sized Blackberry, of the same form and shape, and the color, when fully ripe, is a dark bright red. It partakes of the flavors of both the Blackberry and Raspberry, having a very mild and pleasant flavor. It is excellent for the table and the seeds are very small and not abundant. The fruit is extremely firm and the vines are enormous bearers. The fruit ripens and is gone before Raspberries and Blackberries become plentiful. Always sells at highest prices. Vines are rust proof and without objectional thorns, and are never attacked by insects. Price 15c. each; 2 for 25c., or \$1.00 per doz., postpaid.

St. Regis Everbearing Raspberry

This New Berry Bears Fruit Perpetually for Four Months

This variety has been aptly termed, "the early 'till late variety" for it is the first Red Raspberry to give ripe fruit, while it continues to produce berries without intermission until late in October. Moreover, they are not only Raspberries, but Raspberries of the very highest grade—in size, in brilliant crimson color, in firmness, in flavor; rich, sugary. They are of exceedingly meaty, firm texture, and keep in a good condition longer, after being gathered, than any other Red Raspberry. As a shipper it is unexcelled. St. Regis is of pure American blood and of iron-clad hardihood; the canes enduring the severest cold uninjured and are wonderfully prolific. All things considered, this is one of the very greatest fruit novelties of our generation. Unlike other so-called Everbearing Raspberries, which fruit only in early summer, and a little in late fall when weather conditions are favorable, St. Regis is a perpetual bearer at all times and under all conditions. Fine, strong, selected plants, each 15c.; 2 for 25c.; or \$1.00 per dozen, postpaid.

RASPBERRIES

Best Varieties

Columbian. New, dark red color, rich flavor, very large size. An excellent shipper, and the best for canning and drying. Late. 10c. each; 75c. doz., postpaid.

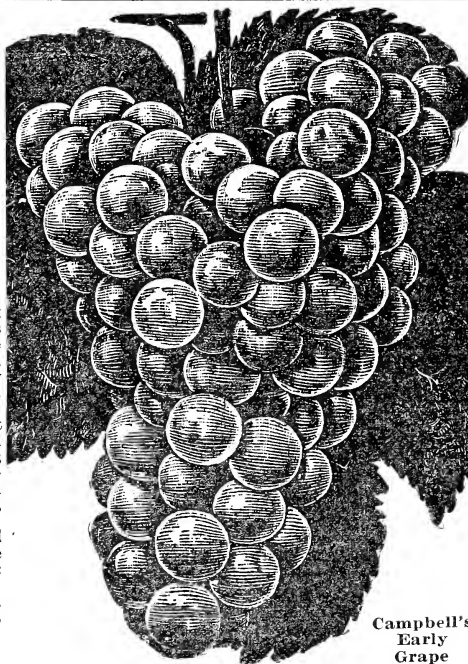

Cuthbert. The most extensively planted Red Raspberry. Fruit bright red, good and very large, bush very vigorous hardy and prolific. Medium to late. 10c. each; 50c. per doz., postpaid.

Cumberland. New. The largest Black Raspberry known, averaging $\frac{1}{2}$ inches in diameter. Good and firm as the Gregg, but the bush is harder. A strong, vigorous grower and wonderfully productive. Midseason. 10c. ea.; 70c. per doz., postpaid.

Golden Queen. Similar to the Cuthbert (of which it is a seedling), except in color, which is what its name implies; golden yellow. Very large, hardy, vigorous and productive. No garden should be without it. 10c. each; 75c. per doz., postpaid.

Haymaker. Purple cap of large size and superior firmness. Not excelled for home use, marketing or canning. 10c. each; 70c. per dozen, postpaid.

Miller. Bright red; large, rich flavor. Early to ripen, fine for market. 10c. each; 65c. per doz., postpaid.

Campbell's
Early
Grape

GRAPES

Choice Hardy Varieties

Campbell's Early. The berries are large, often an inch or more in diameter, glossy black with a purple bloom, sweet and juicy with few seeds. Price, strong plants, 20c. each, or \$1.75 doz., postpaid.

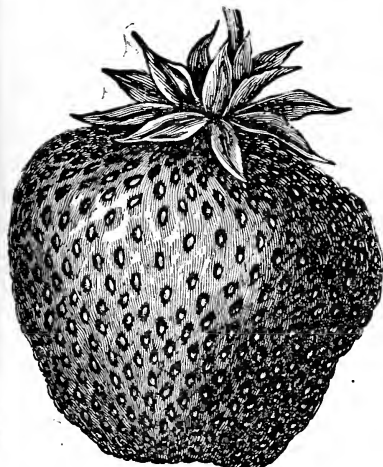

Moore's Early. The bunch is large, round and with a black-blue bloom. In quality surpassing the Concord. Price, strong plants, 15c. each; \$1.25 doz., postpaid.

Concord. The well-known standard black-blue variety. It succeeds wherever Grapes are grown. Price, strong plants, 15c. each, or \$1.25 doz., postpaid.

McPike. The perfection of grapes. Superior sort. Black. Price, strong plants, 20c. each, or \$1.75 doz., postpaid.

Niagara. The profitable standard white market grape. Price, strong plants, 15c. each, or \$1.25 doz., postpaid.

Worden. A large grape of the Concord type, but 5 to 10 days earlier. Price, strong plants, 15c. each, or \$1.25 doz., postpaid.

Great Northern

The Best Strawberry Plants

Our plants are all strong, vigorous stock, and cultivated entirely for the production of plants. Carefully graded, handled and packed and certain to give satisfaction.

Notice. All varieties marked (S) are Staminate, Perfect Flowering and Bi-Sexual Varieties.

All varieties marked (P) are Pistillate and destitute of Stamens.

Therefore, when planting varieties marked (P) it will be necessary to have every third row a Perfect Flowering or (S) variety to properly fertilize the bed. Much finer fruit will be obtained by so doing.

When We Ship Strawberry Plants.—March and April.

Standard Strawberries

Any of the following varieties postpaid by mail, 25c. a doz.; 75c. per 100. Not prepaid, 100, 55c.; 1000 \$2.90.

We Guarantee the safe arrival at destination of all Strawberry plants in good growing condition, and when so accepted by the purchaser, our responsibility ends.

Pan American Everbearing

Pan American Everbearing

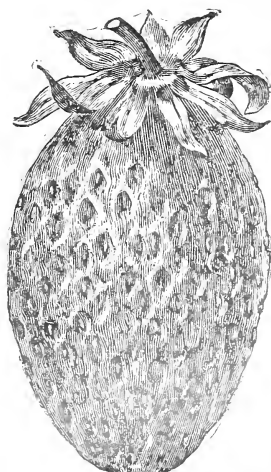

TRULY AN EVERBEARING VARIETY
Greatest Novelty Ever Introduced

This new Strawberry bears a full crop in the Spring and continues to bear berries all Summer and in the Fall up to the time of hard freezing. The greatest novelty in Strawberries ever introduced. Think of a variety that you can pick ripe berries from for three months, or until they are destroyed by the frost. The fruit is as large as Clyde or better, smooth and colors up evenly all over, no green tips. In quality and flavor it is fine. It fruits on new runners and old plants, a strong healthy grower and remarkable stouter. The ideal berry for the family garden. Postpaid by mail, doz. 75c.; 100, \$5.00; not prepaid, 100, \$4.00; 500, \$18.00; 1000, \$35.00.

New Shuckless Wonder

THE NEW SEEDLING STRAWBERRY
Don't Overlook This

A most valuable and distinct variety, unlike any other, producing a berry parting freely from the calyx; and a berry that contains no acid; a berry that has very few seeds; a berry that is mild and sweet. It ripens mid-season; plants short and stocky, very thrifty grower, foliage dark green, very prolific, berries bright red with a long shaped neck, which is the unfailing sign of sweetness, very firm, the firmest and best shipper known. Postpaid by mail, doz. 40c.; 100, \$1.65; not prepaid, 100, \$1.40; 500, \$6.50; 1000, \$12.

Imperial Chinese Sacred Lily

A POPULAR WINTER BLOOMING BULB
We Import these direct from China in Large Quantities

This Chinese Sacred Lily or Sacred Lily of Japan, which is the Chinese Emblem of Good Luck, is really a Narcissus of the Polyanthus type but unlike the varieties known of this group, the Chinese Sacred Lily produces very large bulbs, measuring from 10 to 15 inches in circumference, which throw up from 5 to 10 flower spikes, bearing clusters of large, perfect, waxy white blossoms with yellow center of a most delicious fragrance. They grow well in pots in a light and sandy soil, but the most successful way of cultivating is as the Chinese do—in water. It is a most easily grown bulb for house or window culture.

Price each, 15c.; 2 for 25c., by mail, postpaid.

Bermuda Easter Lilies

Our stock of this most popular flower is unsurpassed. Extra Selected Bulbs, 15c. each; 4 for 50c. Mammoth Bulbs, 23c. each; 5 for \$1.00.

Japanese Easter Lilies

Beautiful flower. True type. About two weeks later than the Bermuda. Fine Selected Bulbs, 13c. each; 2 for 25c.

Anemone

These beautiful hardy spring flowers are well worthy of a place in every garden, and are unsurpassed for their bright colors.

Single Mixed. Assorted. Double Mixed. Assorted. 3c. each; 17c. doz.; 94c. ed. 3c. each; 22c. doz.; per 100. \$1.44 per 100.

Calla Lily

White. Select Bulbs, 15c. each; 3 for 40c.

Chionodoxa

Glory of the Snow. 3c. each; 19c. doz.; \$1.08 per 100.

GREAT NORTHERN SEED COMPANY, ROCKFORD, ILL.

BEST QUALITY SEEDS LOW PRICES

Be Sure to Read these Few Words About Our RELIABLE NORTHERN GROWN SEEDS. It has oftentimes been said, that, "besides good seeds, good gardeners are necessary in producing a satisfactory crop." We all know how true this is. A great many contingencies may arise to prevent the best seeds from giving satisfaction; and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes, which are beyond human control. Therefore, we do not warrant in any way, express or implied, the contents, or the description, quality, productiveness, or any other matter of any seeds, bulbs, plants or other goods sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on the above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods.

INSTRUCTIONS FOR ORDERING

How to Send Money. By Registered Letter, Post Office Money Order, Bank Draft or Express Money Order. Two-Cent Stamps accepted for small amounts. (No Canadian or Foreign Stamps accepted.)

We prepay Shipping Charges on everything quoted in this book except on goods listed on our wholesale pages, and in cases where specially noted, sent by Express or Freight at purchaser's expense.

Write Your Name in Full. Postoffice, County and State clearly and distinctly; also your shipping point, if different from Postoffice, on every order.

Make Your Order Very Plain. The same as you would make out a bill. Orders mixed with questions and not properly made out are apt to be delayed.

Correspondence. Have endeavored to make everything as plain as possible in this Catalog, but in case further information is desired, make your wants known in as few words as possible, and on a sheet of paper separate from the order, giving your complete address and enclosing stamp for reply.

Order Early. As we are handling upwards of 5,000 orders each day during March and April, we would request that you send us your order in January or February whenever possible, as you will greatly help us by so doing. All orders are, as a rule, however shipped same day as received.

SPECIAL
1914

WHOLESALE PRICE LIST

To Large Planters
Terms: Net Cash

At prices quoted in this list, pages 94 and 95, purchaser must pay transportation charges. No charge for bags or boxes. If any items are wanted by mail, add additional for postage at the rate of 10 cents a pound and 15 cents per quart. THE NEW PARCEL POST LAW does not affect Seeds, Bulbs and Plants, so far as the rate of postage is concerned, but now allows 20 pounds in weight, instead of 4 pounds as before.

Most all Varieties of Seeds are Scarce This Year—Order Early. On a number of varieties such as Beans, Beets, Carrots, Peas, Turnips, Vine Seeds, Tomatoes, etc., we can accept orders only in connection with other seeds. It is our purpose to protect as usual, the thousands of customers who annually look to us for a general supply of seeds.

ENKHUIZEN'S GLORY (Danish Grown)

A Popular Second Early

The heads are very solid, with but few outer leaves; and of such compact growth as to permit quite close planting—thus increasing the yield of a given area. The heads are of medium size (weighing from six to eight pounds trimmed), tender and of fine flavor. They keep well when put away and consequently valuable also for sowing later in the season for early winter use. Plants set out in midsummer will produce fine heads before cold weather.

Pkt. 5c.; oz. 25c.; 2 oz. 40c.; ¼ lb. 75c.; ½ lb. \$1.40; lb. \$2.75.

NEW DRY-LAND FORAGE CROPS

**THE
WONDERFUL MILO MAIZE**
EXCELLENT FODDER PLANT FOR FEEDING

Two crops can be made in one year, and it is a sure crop, as it withstands dry weather. Grows four to six feet high. Is a splendid feed crop for all kinds of stock. Suckers out at once when cut and makes a fine second crop of heads and hay. Does not shatter in handling; can be cut with a binder and shocked like Wheat. Postpaid, ½ lb. 15c.; 1b. 25c.; 3 lbs. 55c.

FETERITA
EARLY AND IMMENSE YIELDER

This is a new grain of the Durra group introduced by the United States Department of Agriculture from British Egyptian Soudan. It produces a stalk of medium height and size, bearing ten to twelve leaves of medium size and a large head, well filled with pure white or bluish white seeds. The grain is larger than milo, is fully as soft and much whiter than Kaffir. Its feeding value is equal to either Kaffir or Milo. Feterita is an excellent drought resister. It stands erect, branches out from the root and matures 25 days earlier than Kaffir. Yields of from 50 to 80 bushels per acre were reported last season. Postpaid, ½ lb. 15c.; 1b. 25c.; 3 lbs. 70c.

EGYPTIAN WHEAT, OR SHALLU
A VALUABLE NEW GRAIN

Entirely different from wheat. Some people say it is the Egyptian Wheat or Corn mentioned in the Bible. It belongs to the Sorghum family and should be planted like cane or milo, either for hay or grain. The plant grows from 5 to 7 feet tall, and produces more and better fodder than cane. It will stand more wet or dry weather than maize or cane. Plant in drills 3 feet apart, using ten pounds of seed per acre, or broadcast, using from two to four bushels. Postpaid, ½ lb. 15c.; 1b. 25c.; 3 lbs. 65c.

EARLY KAFFIR CORN
THE GREAT DROUGHT RESISTER

Stems have a stalky tendency and produce numerous wide leaves. The stalks do not harden as do other fodder crops, but keep green, brittle and juicy. A most excellent fodder, either green or dry, being highly relished by all stock. Its wonderful qualities are uneffected, even as far north as Dakota. It is immensely productive and does well everywhere, yielding two crops of fodder each season. Choicest Northern-grown seed, post-paid, ½ lb. 12c.; 1b. 20c.; 3 lbs. 50c.

JERUSALEM CORN
A NEW FORAGE PLANT OF GREAT MERIT

Belongs to the non-saccharine Sorghums, and was brought a few years ago from the arid plains of Palestine. It is pronounced the best and surest grain crop for dry countries and seasons even better than Kaffir Corn or Milo Maize. It grows several smaller heads on side shoots, often as many as eight heads on a stalk. Very valuable for feeding stock and proves a gold mine for chicken feed. Plant five to 10 pounds per acre. Postpaid, ½ lb. 15c.; 1b. 25c.; 3 lbs. 60c.

New Dwarf Cecily Phlox

New Dwarf Cecily Phlox

This new dwarf large-flowering strain of the annual Phlox Drummondii is a most distinct and charming novelty. The plants are only six to eight inches in height when in full bloom. The broad rounded heads of flowers are of large size as well as the individual florets. The colors vary from light lilac through various shades of red and purple, while nearly all have a large distinct white eye in the center. Per Pkt. 10c.

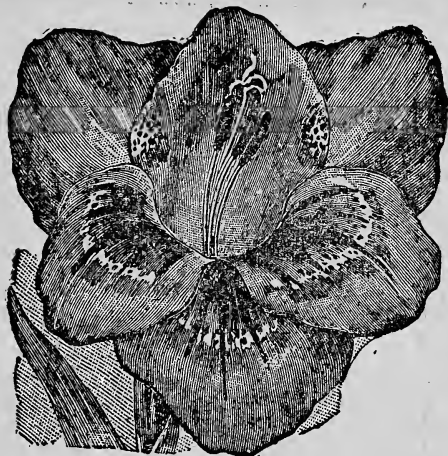

Ailsa Craig Onion

Ailsa Craig Onion

This mammoth onion is grown in England, where it originated, almost to the exclusion of all other sorts owing to its immense size, its handsome oval appearance, and its pungent but sweet and mild flavor. It is an excellent keeper for a large onion, a heavy yielder and grown for exhibition purposes perhaps more than any other variety. Its attractive pale straw color, its productivity and large size make it a most desirable sort either for market or the home garden. Pkt. 10c.; half ounce 25c.

GREAT NORTHERN SEED CO. (Growers of Reliable Seed) **Rockford, Ill.**

KINDLY MAIL THE ADDRESS PROMPTLY

SPECIAL OFFER

We would like the names of one or two seed planters in your neighborhood who usually send away for their Seeds, (not over two names wanted) to whom we can mail a copy of our handsome catalogue, and ask if you will help us in this effort; and as a slight appreciation of your assistance, we offer you a **FREE** packet of either the "New Dwarf Cecily Phlox" or the "Ailsa Craig Onion" (your own choice). The free packet chosen to be included in your first order received by us—and the return of this card properly made out with the names and full address.
